C O P Y

Fredericton, N.B.
August 26, 1933.

To Hon. T. G. Murphy, M.P.,
Superintendent General of Indian Affairs,
O t t a w a.

I have been informed that
Mrs. Regina McElligott is an applicant for the posi-
tion of teacher of the Indian School at North Devon.

I have known Mrs. McElligott
for several years. I have known of her great success
as a teacher in the Public Schools of New Brunswick
and it is with pleasure I recommend her for the above
named position.

I believe Mrs. McElligott to be
competent, conscientious painstaking, a woman, who, if
successful in securing this position, would fill it
very satisfactorily.

Department of Indian Schools,
O T T A W A.

Dear Sirs:

I have received a notice that I will not be continued as teacher in the Devon Indian School after the close of the present term.

I have been over twenty (20) years in the service. Will you kindly let me know what arrangement there is for pension under such circumstances.

I trust that this will be provided for as it will be urgently needed.

Yours very truly,

Mary T. Hughes

Dear Sirs.

Last year I recommended for the position of Indian teacher for the Devon Reservation, Miss Constance Murphy of my parish. As Miss Hughes was retaining the school for another year the appointment was not made. As spiritual needs of the Indians and therefore of their education, I consider my recommendation the highest you can receive. As a young and modern teacher of high grade is requested I wish to state that Miss Murphy fulfills all of these. I refer you to my letter of last year. I trust the Department will have the courtesy of considering the influence of the parish priest as well as his rights in making the appointment.

Respectfully Yours,

Madam:

With reference to your letter of the 18th ultimo, I beg to say that there is no superannuation provided for teachers of Indian day schools.

The only provision we can make, under the requirements of the Auditor General, is two months' retiring gratuity. A cheque for \$150 is therefore being issued and sent to you.

Dear Sir,

In reply to your letter informing me that an appointment has been made to the Indian School on the reservation under my spiritual direction I wish to state that the absurdity of the appointment has made a profound impression upon all (with the exception of the few interested) who have heard of it. The lady appointed attended Normal School thirty eight years ago and has not taught in New Brunswick or I believe elsewhere for upwards of twenty five years. She is recommended by Mr. Dawson, says by the Chief Superintendent of Education for N.B., a man who no doubt went to school at the same time as she, but who can know very little of her qualifications as a teacher according to modern systems. Miss Hughes was dismissed on account of age and only date in modern methods, although she has been in active service for very many years. Your correspondence of last year informs me that a young and up-to-date teacher of 1st Superior Grade must be engaged. All of these principles which Mr. Ryan and the priests in charge of the

Dear Sirs:

Yours of the 6th ultimo, duly received. I thank you for the cheque for \$150. as a token of gratitude.

As to your statement that there is no pension for teachers of Indian Day schools, I am not only surprised, but very much distressed by the announcement.

I have given the best part of my life and energy to the teaching of Indian children, and I firmly assert that my school has always been equal to the best, and second to none of the Indian schools in the province, during my 23 years in your service, and I was still willing to continue in your service.

I not only acted in the capacity of teacher, but have been as well, a missionary to the Indian children, teaching them

their prayers, catechism, Bible History, as well as preparing them to make their "First Holy Communion." In fact my whole life for the past 23 years had been devoted entirely to the Indian children, not only in school, but also my evenings and Saturdays were given to their interest.

Now, that I have been thrown out of my work in times of great depression, I am placed in a very grave position, since I feel it would be practically impossible for me to obtain another position.

Therefore I think that you should feel it your duty to grant me a suitable yearly allowance of at least \$600. for my support.

Yours very truly
Mary T. Hughes.

TEACHER - MRS. REGINA McELLIGOTT.

Mrs. McElligott has just taken charge of this school. She replaced Miss Hughes, being appointed to the said school by the Ind. Dept. I, as the Inspector of Ind. Schools for N.B., had no say in this appointment whatever. I desired a 1st class teacher and have tried in the good interest of this school for years to get such a teacher but failed. I had no other aim in view than that which I hold for every Ind. School in N.B., namely, the advancement of our Indians.

Not - Hughes

I found the pupils did not forget much of last year's work. They are bright, and with a good teacher should do well. About all grades were at review work.

In all truthfulness, I never saw or experienced such disorder in a school. I could not carry on the examination without calling the school to order on three or four occasions. I finally had to stop, and explained to the whole school that unless better order was maintained the school might as well be closed. The teacher claimed that they were much better now than when she opened school, some 4 weeks ago. Then I spoke strongly to the pupils, explaining that never in all the years that I had visited this school did I ever see anything disorderly, and was at a loss to know why such conduct was shown. All pupils were freely talking, no class would stand in line. One little boy hit another and tumbled him to the floor. Such a schoolroom! Considering all this, where, in the past, I ever found the best of order, my heart was broken. I can do nothing under such conditions, nor can the school advance until order is maintained, and a proper teacher installed.

--PAGE TWO--

I found the pupils, as a whole, very untidy compared with the past record of this school.

Mrs. McElligott informed me that she sent for the required material and when it arrived all will begin to knit and sew. The next four or five months will better explain just what progress will be made in this branch of our important work by our new teacher.

Had the choice of a teacher been left to me, as has been done in the past, I can assure the Dept. I could never have considered for one moment this appointment. Time will tell who is right or wrong. I have had vast experience for nearly 20 years in dealing with teachers and can say that I never allowed any favour nor condition to swerve me from the path of justice in giving to our Indians of N.B. the best. I have not a teacher outside of Mrs. McElligott but well knows if their school work is not well done they must be prepared to take another school, and it is only in this light that one can expect a teacher to advance her pupils, but when a teacher holds her position through "politics", quite independent to the Inspector of Schools, little progress can be expected. There I am speaking of our Indians Schools. They are so different in all respects of government to our white schools. Our white schools are carefully watched over by the ratepayers, trustees - who are near the school and constantly in touch with all working conditions of their school and teacher - competent persons to judge, and all this has a deep bearing on the teacher. It is not thus, however, in our Ind. Schools. Unless, therefore, there exists a medium between the Ind. Dept. and the Ind. School, competent in every respect to bridge over this gap, it is most evident our Indian Schools must retrograde, and in less than five years Indian Education in N.B. would only be in name.

I am most sorry, not for myself but for this school, that the Indian Dept. for some reason of its own has appointed the said teacher to St. Mary's Indian School.

Dear Sirs:

As I have received no reply to my letter of Aug. 15th, concerning the request which I made to you, of granting me a yearly allowance of at least \$600. for my support, in recognition of my twenty-three years good and faithful work in your service, therefore I feel the urgent necessity of repeating my request.

If I had spent those years of service in the Public Schools of the province, I would now, like other teachers of New Brunswick, be eligible for a pension, and so would have a means of livelihood, in these times of such great depression. But this is now lost to me.

As I have already asserted to you, my school was equal to the best and

second to none of the Indian Schools of New Brunswick, and moreover, it always compared favorably with the Public Schools of the province, which was the assertion made by visitors at my school.

I also wish to remind you that I was not only teacher and missionary to the Indian children, but also a Domestic Science teacher—doing equally as much work in that capacity, as the teachers who received an extra remuneration for their work. I also did to a certain extent, the work of a nurse—looking after the milk, Cod Liver Oil, the cleaning of their teeth and Toothbrushes, seeing that their faces, hands and nails were clean, as also that their hair was combed and clean.

Now that you have deprived me of my means of livelihood in times of such great depression, I trust, therefore, that you will take into consideration my petition, and will remedy the great wrong done me, and grant me the request which I earnestly implore.

My dear Colleague:

OK
With reference to the communication which you received from Miss Mary T. Hughes, North Devon, N. B., requesting that she be granted a yearly pension for her lengthy services as teacher in an Indian day school, I would say that no provision is made for superannuation or pension to teachers of Indian day schools. They do not contribute to the superannuation fund. These employees are not considered permanent civil servants and therefore do not come under the Superannuation Act.

*85?

In the case of teachers like Miss Hughes, who have taught many years in Indian schools, it is a matter of regret that a pension cannot be allowed. All that could be done in her case was the granting of two months' retiring gratuity, which was paid.

JUN 19 1912
Agreement made in duplicate the " day of
May A.D. 1912.

Between His Majesty King George the Fifth, represented by the Superintendent General of Indian Affairs of Canada (hereinafter called the Superintendent General);

And Judson Barker of the city of Fredericton in the province of New Brunswick

of (hereinafter called the Contractor).

The Contractor for himself, his heirs, executors, administrators and assigns, agrees to do in the most workmanlike manner all works and provide all the materials of the best kind shown in the drawings and described in the specifications marked "A" and "B" respectively and signed by the Contractor, and to complete, furnish and hand over to the Superintendent General or to some person by him appointed for that purpose, the **frame school-house to be erected on the St. Mary's Indian Reserve near Fredericton, N.B.**

and all other work and labour incidental to and necessary for the entire completion thereof, whether specified or shown in the drawings or specifications or not, by the ~~first~~ day of ~~September~~ A.D. 1912.

AND in consideration of the above agreement on the part of the Contractor, the Superintendent General hereby agrees to pay the said Contractor the sum of **three thousand, two hundred and eighty-seven** dollars, provided always that the Superintendent General may at any time during the progress or after the completion or alleged completion of the work, appoint an Architect, Engineer or other officer, in which case the certificate of such Architect, Engineer or other officer, that the work is duly completed and of the amount, if any due, to the Contractor, after making such allowances for penalties and for defective or incomplete work, or for extras and deviations as the Architect, Engineer or other officer shall think fair, shall be a condition precedent to any claim by the Contractor under this contract.

AND the Contractor for himself, his executors, administrators and assigns, further covenants and agrees:—

1. That the wages to be paid in the execution of this contract shall be those generally accepted as current in each trade for competent workmen in the district where the work is carried on. If this condition is violated, the Superintendent General may cancel the contract and refuse to accept any work done thereunder.

2. That if the Contractor fails at any time to pay any account for any goods or materials supplied, or money advanced by anyone to the said Contractor for the purposes of this agreement, or to pay the account of any sub-contractor for any work or materials done or supplied for the said works to be constructed under this agreement, and such

account is in either of such cases one month overdue, the Superintendent General may notify the Contractor to pay such account, and if a week elapse and the same be not paid in full, the Superintendent General may pay such account and may charge the same to the Contractor, and the Contractor covenants with the Superintendent General to repay at once any and every sum so paid.

3. That if the Contractor fails at any time in paying salaries or wages of any person employed by him upon or in respect of the said work, or any of them, and any part of such salary is one month in arrear, or if there be due to any such person one month's wages or salary, the Superintendent General may notify the Contractor to pay such salary or wages, and if two days elapse and the same be not paid in full up to date of payment, or to such other date as may be in accordance with the terms of employment of such person, then the Superintendent General may pay to such person his salary or wages from any date to any date and to any amount which may be payable, and may charge the same to the Contractor, and the Contractor covenants with the Superintendent General to repay at once any and every sum so paid.

4. That pursuant to the Statute in that behalf, this Agreement is made subject to the express condition that no member of the House of Commons of Canada shall be admitted to any share or part of this Agreement or any benefit to arise therefrom.

5. That the Contractor shall not assign, transfer or set over this contract or any interest therein to any person or persons whomsoever, without the consent, in writing, of the Superintendent General of Indian Affairs first had and obtained.

IN WITNESS WHEREOF the said Superintendent General of Indian Affairs, acting as aforesaid, and the said **Judson Barker** have hereunto set their hands and seals the day and year first above mentioned.

Sir.

I beg to acknowledge the receipt of your letter of 22nd inst. asking me to forward plans and specifications of the St. Marys School Building and I am sending same by this afternoon's mail.

You state that it is the desire of the department to make certain changes in the school plan.

If the changes contemplated are in line with the ideas conveyed in my letter of 29th ult. to the department I beg to inform you that since writing that letter I have been told that the Board of Health of the City of Fredericton will not allow any private sewers to empty into the river, and that in consequence my suggestion of a sewer in place of septic tank will not be feasible.

Trusting however that the work of the school will go on in good time I remain

I have to acknowledge the receipt of your letter of the 18th instant asking for certain information in regard to the specifications of the school building for the St. Mary's Reserve.

In reply I beg to say that the number of lavatories (2) and their location are shown on the basement plan and the location of the soil pipe is also shown on the plan and dealt with in the specifications, as well as the venting of the basement traps. With regard to your fourth inquiry arrangements could be made to have the vent from the closet bowls connected with the heated flue, if thought desirable.

I have to inform you that the Department is changing the plans for this school and is asking for the recall of those at present out. When new plans are prepared you will have an opportunity to see them as they will be ~~given~~ again placed on view in Fredericton.

Mr. Pedley,-

Mr. Chene called this afternoon and I took up with him the question of the new plans for the St. Mary's Reserve ^{School}. It will be necessary to make new drawings, but not new specifications. This will take some little time.. Mr. Chene suggests that while we follow the architectural design of the ^{Oromocto} ~~old~~ building we should make it at least three feet longer and have an entrance direct from the class-room to the basement, which is not provided in the Oromocto school plan. This is necessary on account of the lavatories being in the basement. There are also some minor changes which will effect improvements and at the same time reduce the cost. If you approve Mr. Chene will take up this work at his earliest convenience. With the exception of the lavatories and the septic tank this building should not cost over \$200.00 more than the one previously prepared for St. Mary's.

Rev. Sir,

The Department is at the present time preparing plans for the proposed new school-house on the St. Mary's Reserve. In order that proper plans and specifications for the installation of the sewerage system may be made I have to ask you to let the Department have a sketch showing the size and dimensions of the lot, the exact location of the school-house and the direction in which it will face and the distance and direction of the cess pool from the school building and also give the Department some idea as to the contour of the lot. Kindly make this drawing to a scale. In the interview had with you while at Ottawa some months ago you gave information as to the soil, which is quicksand.

When in Ottawa if you will remember, I stated that I had no trouble with my own private cesspool - and gave as reason that we dug down to quicksands which, as I understand such things, does away with the necessity of cleaning out cesspool, as the shifting sands carry off all deposits.

We dug to a depth of 9 or 10 feet, left an open bottom, and built a wall 10 ft diameter - around, sealing the top with 4 inch plank - I have not touched it in many years -

The Dept. will understand. I am merely offering this suggestion of running a sewer pipe from the school house to the River, as from conversation with the gentleman mentioned, a man of large experience in Building - and whose views coincide with my own - I feel it would be in the interests of the Dept. to make the change -

Sir,

I beg to acknowledge receipt of plans and specifications for the new school house on the St. Mary's Reserve, and am very much pleased with same.

In accordance with the wish of the Dept. I am trying to interest some contractors in the building of school house and this A. M. had a long talk with a gentleman who may send in a tender for its construction.

I notice that the plans call for construction of a septic tank in connection with the water closets, and I am of the opinion that if the plans were changed so as to call for a sewer to open a empty into the River, in place of septic tank it would be better than the latter, and there would be no danger of any offensive smell floating about the Reserve.

In my mind too, it may not be any more costly, in fact ~~costly~~ - In addition, it would materially benefit the Reserve in general as it would carry off all the water that might lodge on Reserve in the spring time.

Dear Sir :-

In reply to your letter No. 118345/5 of May 25th. instant

I am very glad to know that the contract for the school building on the St Mary's Indian Reserve has been awarded to me at my tender of \$3287.00 and I am prepared to carry out the work according to the plans and specifications submitted to me . I wish , however , to ask that the time for the completion of this building be extended from the first of September till the middle of October . This will be necessary in order to be able to do the work in a satisfactory manner and to allow to masons , carpenters and painters the time they will need . We live in a small city where it is not possible to get a large number of competent men as it is in a larger city and such an extension of time will be a great convenience to me and I am sure will result in more satisfactory work.

When I hear from you granting the permission for such an extension of time I will forward you at once the agreements duly signed as per your instructions.

Sincerely yours ,

Dear Mr. Pedley:-

Mr. Clarence Brown of Gibson, for whose appointment as inspector on the new school house at the St. Mary's Indian Reserve I asked, showed me a letter this morning which he had received from the Secretary of the Department offering him \$50.00 to inspect this work upon the understanding that he should be required to visit the job only occasionally and to make weekly reports upon the progress of the work.

My understanding was that an inspector was to be appointed to inspect this work in the same way as inspectors who had been appointed by the Public Works and other Departments of the Government, to watch the work constantly and at a ^{daily} weekly wage and I recommended Mr. Brown with this expectation.

I think if the work is to be properly inspected it requires a competent man to be on the job constantly not only for the protection of the Department but in fairness to the contractor, and I would advise that Mr. Brown be given a regular appointment as inspector with instructions to watch the progress of the work from the beginning to the end in the usual way. Mr. Brown is a practical carpenter who depends ^{on} for his living ^{on} a daily

Mr. Pedley, -

On July 3rd the Department wrote Clarence W. Brown of Gibson, N.B., appointing him inspector of the new school building to be erected on the St. Mary's Indian Reserve near Fredericton and offering him the sum of \$50.00 for this work. A letter has come to hand from Mr. O. S. Crocket, M.P., in which he states that his understanding was that an inspector was to be appointed to inspect this work in the same way as inspectors who had been appointed by the Public Works and other Departments of the Government, to watch the work constantly at a daily wage and that he recommended Mr. Brown with this expectation. The Schools Branch has no knowledge of this understanding, if any, and the sum of \$50.00 was arrived at by computing at 1 1/2% on the cost of the building. It is not the practice of the Department on these small works to have an inspector constantly on the job, as, by so doing, the cost of inspection would be altogether out of proportion to the value of the work.

It is usual to allow \$5.00 a day ^{for occasional visits} with actual expenses

penses, but it is understood that Mr. Brown lives very close to the reserve and each visit would not necessarily, therefore, take up a whole day. For this reason a lump sum was offered. I think in this instance the total sum for the inspection might be increased to \$75.00, which would be a fair amount for the services.

Sir, -

Referring to official letter of the 16th instant in connection with the appointment of an inspector for the school building at St. Marys I beg to say that this Department does not appoint permanent inspectors on small jobs such as this building. The usual rate allowed professional men for inspection is $1\frac{1}{2}$ per cent of the cost. This was the basis upon which the offer to Mr. Brown was computed. It is considered that one visit a week, or at most two, would be quite sufficient, if the inspection is thorough. Under the circumstances, however, the Department is prepared to increase the grant previously offered by \$25.00 and give Mr. Brown \$75.00 for his services. Trusting that this will be satisfactory to Mr. Brown, ~~I am,~~

I beg leave to call the attention of the department to the fact that there is no provision in the contract for draining the cellar of the St Marys Indian School house. The ground is very wet, when sinking the posts for the James Paul house on the same lot this spring we found the water within 18" of the top of the ground.

The contractor for building the School has to keep pumping the water out of the cellar while they are building the wall at the present time. The cellar is three feet depth below the ground, and the water within 18" of the top of the ground leaves the bottom of the cellar about 18 inches below the water in the ground in the spring of the year, and it is the opinion of Engineer Mr. McMullen, Mr. Barker the contractor and it is my opinion that without a good system of draining the cellar will leak. Would the department kindly advise us at once what they think about it.

The cellar wall is built to the top of the ground and Mr. Barker wants to back fill.

as there is no superintendent looking after the building I as your agent here have taken the liberty to call your attention to the above facts.

I have to acknowledge receipt of your letter of the 19th, with reference to the drainage of the St. Mary's School, and in reply, I beg to say that while this foundation if properly constructed is supposed to be water-proof, the Department considers that under the circumstances drainage is advisable. I have to ask you to be good enough to consult with the contractor and the Inspector, Mr. Love, and report stating definitely the amount of drainage to be done, with depth, etc., and submit at the same time an offer ^{add price} from the contractor to do the work. In reply to your letter of August 23rd 1912
No 118, 745-5a

I have consulted with the contractor Mr. Barker and the inspector Mr. Love about the draining of the St. Marys School and we recommend the following system of drainage.

There is an old drain that comes from the land on upper side of the road and it runs through the cellar about ten inches above the floor. We did not know about this drain until the cellar was dug. The first item in the estimate provides for this drain we want to connect with that drain and run 116 feet to a gulch that runs across the School lot at the very lower or the River end next to the River. The second item provides for draining the cellar the pipe to run 130 feet to the same gulch. The depths of the drain would be about four feet for a distance of about one hundred feet the other thirty feet would not average more than two feet.

We recommend the double drain because we think in the Spring when the water is high the drain that runs under the floor would be likely to be full. If we would tap it to connect the cellar drain it might tend to fill the cellar. If we put a trap in the large drain and it was running full of water the trap could not open to let the

I would respectfully call your attention to the unsanitary conditions of the open drain crossing the property. A good deal of waste is turned into this ditch some of it coming from the adjoining property. A 2 x 2 box culvert, well covered with earth would, I think, remedy these conditions or if it were preferred the drain could be diverted with a good fall along the north west side of the property to the river.

No. 118345/5

I beg to say Mr. McMillen and I talked about drain when he was surveying the School lot and he said he would report about it when he sent his survey to the Department. This open drain is just as reported by Mr. McMillen I agree with him about the box culvert covered with earth. If there was a stone culvert built down this open drain with stone side walls and no bottom, planked on top with 3 in Hemlock plank covered with earth the water would soak through the stone walls and drain the land on both sides. We are running our drain from the School House cellar to this open drain if there was a culvert running down this drain our drain pipes from the cellar would enter it and everything would be clean and dry.

I asked Mr. Barker the contractor for the School House for an estimate of the probable cost of a stone drain 2x2 feet inside, walls to be one foot thick and 2 ft high without any bottom and a 3 in Hemlock covering, all to be covered with earth the drain would be about 250 feet long. He says he could build a drain like this for about \$290.00. Or he would build one of Hemlock plank 3 in thick without any bottom for about \$225.00. Mr. Clarence Brown offers to put in a stone sewer for about \$275.00.

Memorandum for Mr. Benson:

With reference to Mr. Agent Smith's letter hereunder of the 2nd instant, I beg to state that a culvert planked with hemlock and then covered with earth would have a life of about twelve years. That is to say the ~~casing~~ would have to be renewed in about twelve years or less. I think a tile drain would be very much more durable and considerably less expensive. I think the agent might be asked his view in this matter and as to whether a tile drain consisting of two nine inch pipes laid side by side or one fifteen inch pipe would not answer the purpose and what would be the price of the work in either the case of the two nine inch pipes or the one fifteen inch pipe; I think in either case the cost should ^{be about} ~~minimum~~ \$200.00 and would have the advantage of being of a permanent nature.

Sir, -

I have to acknowledge the receipt of your letter of the 2nd instant in reference to the unsanitary condition of the open drain crossing the St. Mary's School property.

In reply I beg to say that the Department considers that a tile drain would be much better and less expensive than the style of drain you suggest, as a culvert earth planked with hemlock and then covered with ^{earth} would not be nearly so durable. The Department would like you to state whether you consider a tile drain consisting of two nine inch pipes laid side by side or one fifteen inch pipe would not answer the purpose and what would be the price of the work in either case. The Chief Surveyor of the Department thinks that a pipe drain of either dimensions could be laid down for about \$200.00. The Department would like to know whether it would be possible to have this work done for this amount this fall.

Sir,-

The contract for the erection of a new school building on the St. Mary's Reserve called for completion on the fifteenth day of October. No written reports have been made by the Inspector as to the progress of the work since the foundations were laid and I have to ask you to be good enough to at once visit the reserve and ascertain the ^{cause of} delay in the completion of the work, at the same time advising the Department when final completion may be expected. You will kindly draw the inspector's attention to the fact that he is called upon to make weekly reports as to the progress, which he has not done.

Sir, -

In reply to your letter of December 12th 1912
No 118345/5

I visited the St Marys Reserve this morning and was in the new Indian School house. The contractor Mr Judson Barker says the very wet summer we have had is the cause of the delay in work on the School house. He says he will be ready to hand over the building to the Department in ten days from to day. The inspector Mr Love is sick in bed to day. I will have ask him to report as soon as he is able.

Would the Department kindly advise me about the desks for the new School. And when to take charge of the new School house. And what to do with the old School building.

Sir,-

I have to acknowledge the receipt of your letter of the 15th instant reporting upon the progress of the work on the St. Mary's School building.

In reply I beg to say that this is noted that the contractor says that the building will be finished in ten days from the date of your letter. When finished to the satisfaction of the inspector and yourself the keys should be handed over to you. The Department would like to have you visit the school again at the time of completion and satisfy yourself that the work has been properly done according to the plans and specifications.

In regard to the seats the Department wishes to know the condition of those at present in the old building and whether they will do or whether it will be necessary to provide new furniture. If so you should state definitely the number of seats needed and any other articles of furniture necessary. Instructions will then be given you. Should it be necessary to install new desks and should there be any delay the old desks could be used temporarily. The Department would like to see the new building read for occupation when school opens on the 3rd of January, next.

With regard to the old building the Department would

I went over to the new Indian School on the St Marys Reserve, the school is just about finished, the contractor, the Inspector and myself will meet at the School to inspect it on Saturday the 28th day December and if every thing is satisfactory the Keys will be handed over to me on that day. Regarding the seats, it is the opinion of the Teacher and myself the seats will do for the present. I will ask the Department to have them varnished during the Summer holiday. There is no other articles of furniture needed. Will the Department kindly advise me about the moving of the seats. The new building will be ready for occupation on the third of January.† I am very thankful to the Department for placing the old School house at my disposal, as we have no place to hold meetings of any kind except in the School house. With the permission of the Department I will keep it for a Council room, and ask to have board shutters placed on the six windows to prevent the glass from being broken. I will send you an estimate of the probable cost. The old School does not detract from the appearance of the Reserve. Wishing each member of the Department a very happy Christmas.

According to instructions received in your letter of December 21st No 118345/5. I have taken over the new School on the St Marys Reserve, it was not finished on Saturday the 28th and I did not take it over till Saturday the 4th of January, when Mr Judson Barker removed the seats from the old School house and fasten them in place in the new building. Monday being a Catholic Holy day the School was opened on Tuesday the 7th January. There was 24 children present at the opening 14 Girls and 10 Boys, there is 24 children on Role at the present time. The Teacher is very much pleased with the new School, and it adds very much to the appearance of the Reserve. The new School Building is a very pleasant and comfortable building, and I believe it has been built according to Plans and specifications, excepting the black-board which has been delayed by the Railway, it was shipped 3 weeks ago. The Contractor has supplied a temporary one until the permanent one arrives, which will be put in place at once.

Ottawa, September 20, 1932.

Sir:

I have your letter of the 15th instant, and, in reply, have to inform you that you may arrange for the supplying of milk for each of the four Indian day schools in your Agency as follows:

Grossecte	-	6	Qts.	per	school	day,
St. Marys	-	8	"	"	"	"
Kingsclear	-	6	"	"	"	"
Woodstock	-	8	"	"	"	"

This milk may be supplied from the period beginning November 1st, next, until April 1st, following.

The cost of the milk delivered should be, if possible, eight cents per quart, and must not exceed ten cents per quart.

The teacher should keep an accurate account of the quantity of milk supplied each day. This list should be handed to you at the end of each month, and you should prepare a voucher, in triplicate, for the amount due and forward same to the Department, with the list attached showing the quantity of milk delivered at each school. A separate account should be forwarded covering the cost of the milk supplied each school.

The teacher should see that the milk is received in clean containers and that it is kept in a sanitary condition, also that the full quantity received is used by the pupils each day, without waste.

Dear Sir:-

oh
On May 4th you submitted an account of \$24.60 in favour of W. Sentner, 176 Queen St., Fredericton, for repair work on furnace and toilets at St. Mary's Indian school. You also submitted at the same time an account of \$3.06 in favour of James R. Monteith, North Devon, for supplies to St. Mary's Indian Day School. On May 23rd, cheque No. 2994 for \$27.66, the total amount of these two accounts, was sent to W. Sentner. Kindly secure from him a refund of \$3.06 which you should forward to the Department under cover of a letter.

Your prompt attention to this matter will be appreciated.

Yours faithfully,

N.C. Allen

Sir,-

I beg to inform the Department, I have not received authority to clean the Indian School's in my Agency, except the Kingsclear School. Usually the Rev. Father Ryan recommends this work be done, and the Department authorize's me to get the work done. The roof of the St. Marys Indian School is leaking. I would recommend this roof be repaired, the cost will be small.

I would also recommend the walls and wood-work of the Woodstock, Oromocto, and St. Marys Indian Schools be washed and the floors oiled, the desks be washed and if necessary, varnished. There would also be a very small amount of repairs, which can be done at a very small cost.

Sir:

I have your letter of the 27th ultimo, with reference to the cleaning of the walls and woodwork, the oiling of the floors, etc., at the St. Mary's, Woodstock and Oromocto Indian Day Schools and regarding the repairing of the roof of the St. Mary's School.

In reply I have to say that you may arrange to have the floors at each of these schools thoroughly scrubbed and the woodwork washed. We will have no funds to oil the floors or to varnish desks. You may have the roof of the St. Mary's School repaired. It is noted that the cost of having this done is small. Any minor repairs required at the other schools can also be carried out. You should see that all this work is completed before the schools re-open.

Please forward accounts, in triplicate, properly certified, covering the expenditure incurred at each of the schools, separately.

Sir, -

I beg to inform the Department, the furnace in the St. Marys Indian Day School, is in bad condition. The fire pot is cracked in several places, the air ~~pot~~ at the top of the inside is burned out, and the grates are also gone. I had a plumber look this furnace over, and I also examined it. The pipes are of galvanized iron and are in good condition, but I cannot see how it is possible to repair the furnace.

A new wood furnace would cost approximately one hundred and twenty dollars. I would recommend a wood furnace if the Department decide to purchase one.

Also the vent pipes attached to the two toilets in the cellar are rusted and leaking. The total cost to repair these would be five dollars. I would recommend this expenditure.

Your obedient servant.

Sir:

I have your letter of the 5th instant, reporting on the condition of the furnace at present in use at the St. Mary's Indian Day School and recommending, as it is beyond repair, that a new wood burning furnace be installed, at a cost of approximately \$120.

In reply I have to say that the Department will approve of you arranging for the purchase and installation of a wood furnace, of the type and capacity considered necessary for the heating of the building. The purchase should be made from a firm on the approved list. It is noted that the pipes, which are of galvanized iron, are in good condition and can be utilized in connection with the new furnace. You may arrange, also, to have the necessary repairs made to the vent pipes attached to the two toilets in the basement, at a cost of approximately \$5.00.

I enclose encumbrance certificate, authorizing the expenditure required in the purchase and installation of the furnace. It is considered that this should include sufficient funds to repair the toilets. After the work has been completed, please forward an account, in triplicate, properly certified, covering the expenditure incurred for the purchase of the furnace and its installation and also for the repairs to the toilets. You should state on each copy of your vouchers that the expenditure was incurred under authority of E. R. No. 850.

I beg to inform the Department, the new furnace has been installed in the St. Marys Indian School, and I am very pleased with it, and I am sure it will be very satisfactory. On recommendation of Mr. R. B. Hanson. M. P. I bought this furnace from Mr. Walter Sentner, who did the work of placing it, and also repaired the toilets.

There is some Coke left in the bin's at this school, which will be of no use. Mr. Sentner has offered five dollars for what is there. I would recommend this offer be accepted, as the bins will have to be taken down, to make room for the wood.

Sir:-

I beg to inform the Department that the spring on the door of the St. Marys Indian School is broken. This is an automatic spring. When the door is opened, it closes automatically, and as the door is on the north side of the school, it is necessary to have a spring, as a strong wind might break the door. The cost of repairing the spring will be Four Dollars and Fifty Cents. I would recommend this repair at once.

E X T R A C T from Inspector Ryan's Report on
his visit to the ST. MARY'S INDIAN DAY SCHOOL on
June 5th, 1934.

Original on File 56-4-6.

The interior of the school should be well cleaned
out.

Schoolhouse is in fair condition, requiring some
repairs and, as I said above, the interior should
be well washed out, the floor oiled.

The fence should be repaired a little.

Sir,-

In his report regarding his visit to the St. Mary's Indian Day School on the 5th instant, Inspector Ryan writes, as follows:-

"The interior of the school should be well cleaned.

"Schoolhouse is in fair condition, requiring some repairs and, as I said above, the interior should be well washed out, the floor oiled.

"The fence should be repaired a little."

You should arrange for the above work, provided the cost is not excessive.

Dear Sirs: -

I have very much pleasure in stating that the milk we are receiving at our school, and which has been supplied by Mrs. F.L. Armstrong since last November, has been of the very highest quality, rich and nourishing; and has been very satisfactory in every respect; and if I may make the suggestion, I would strongly recommend that Mrs Armstrong be allowed to continue to supply the milk next season.

Yours Sincerely,

Sir:-

I beg to enclose bills from J. R. Montieth for soap supplied the St. Marys Indian School. There is a charge of \$.35 for Dustbane. There is a lot of mud around this school in the spring and fall, and the children carry it into the school on their feet. This makes a great deal of dust when the Janitor sweeps, and Dustbane stops all this.

I hope the Department approves of my action in getting this.

Sir:

I have your letter of the 15th instant, requesting authority to incur an expenditure of \$4.50 in the purchase of 80' of rope for two swings at the St. Mary's Indian Day School.

In reply I have to say that, provided you are of opinion that there would be no danger of accident to the pupils in using the swings, the Department would approve of your supplying the quantity of rope required. It is noted that this will be the only cost involved in installing the swings.

Please forward an account, in triplicate, covering the cost of the rope, which you should attach to a proper voucher form, certify in the usual manner and forward for payment.

It is noted that, in the Fall, the rope will be removed from the swings and stored in the school, and will be available for further use.

Sir:-

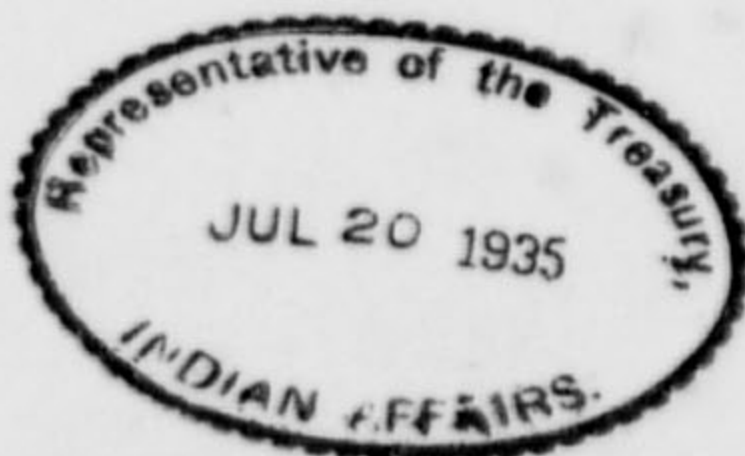

I beg to enclose bills from Lloyd Hill. This man hauled two loads of dirt from the Jones House on the New Reserve. The Indian who lived in this house moved down river, and left the place in a filthy condition. Mr. Hill also hauled four cords of wood from the Chief's home on the New Reserve to the Indian School on the St. Marys Reserve. This was some of the wood cut last winter, and paid for by the Department. Some of the Indians were stealing it, and I had it piled in the school cellar.

I hope the Department approves of my action, as it was necessary. I would recommend that the bill be paid.

Mr. R. Lee McCutcheon,
Department of Indian Affairs,
Fredericton, N.B.

Dear Sir:

At your request I inspected the Closet Tanks in the "Devon Indian Day School" and found that both of these tanks were giving trouble. We repaired one, so that it should give satisfaction, but, the other one we find is gone beyond repair, several parts being broken.

I would recommend a new Closet Tank to take the place of this obsolete one. This tank installed would cost Fifteen (\$15.00) Dollars.

Trusting this information will be satisfactory.

Yours very truly,

Dear Sir:

Referring to our invoice for \$5.40, for school
at Oromoct reserve, \$3.60 of this has been paid, leaving a
balance of \$1.80.

On July 23, 1935, 1 M shingles, \$3.60, were
delivered on order of Mr. Griffiths, the former agent, and
we sent in invoices to him covering this. The next day,
however, he ordered another $\frac{1}{2}$ M shingles, amounting to \$1.80,
and asked us to make out a new set of invoices covering both
charges. Evidently he forwarded the first set of invoices
instead of destroying them, and also forwarded the invoices
covering both charges. On August 31, we received a check
for \$3.60, invoice for July 23.

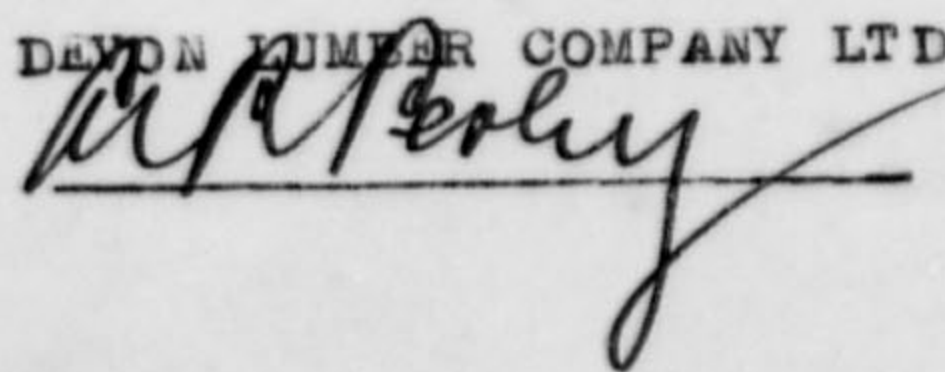

We enclose invoices covering the following:-

March 11, 1935 - Lbr, etc., for old well, Devon reserve- \$1.02
Dec. 26-29-31, 1934 - lbr. etc., for Michael Paul workshop
-\$17.90

We might say we previously sent in invoices
covering all these charges, to Mr. Griffiths, but have never
had returns for them. We would appreciate it very much if
you can get these straightened out with the Department.

Dear Sir:

Enclosed herewith please find a letter from
the Devon Lumber Co.

I might say all these accounts were handed to
me the first of the month by Mr. Griffiths and of course I had no
way of knowing whether they had been paid or not.

The account for \$18.92 which the Company refers
to in their letter I have vouchered for No. 95. 31056-4

The amount of \$3.60 for shingles for Oromocto
School has been paid, but there is a balance due this Company of
\$2.79 from 1933, ^{for Devon School.} plus \$1.80 for shingles purchased by Mr. Griffiths
July 23 and 24th, 1935 for the Oromocto Indian School.

This will leave a balance due the Devon
Lumber Co. of \$ 4.59, this amount I have vouchered for,

Dear Sir:

I beg to acknowledge receipt of your letter of the 13th instant, submitting voucher for \$4.59 in favour of the Devon Lumber Company.

With reference to the account of \$2.79, I beg to say that this was paid by cheque No. 17418 for \$2.85 (\$2.79 plus 6¢ tax). This cheque was issued and sent to the Company on October 4, 1933. The former Indian Agent, Mr. B. J. Griffiths, was so informed in official letter dated April 28, 1934.

I have been unable to find that the amount of \$1.80 has been previously paid, and this item is being passed for payment.

Dear Sir:

Reverend Father Ryan, Inspector of Indian Schools for New Brunswick, in a report on his recent inspection of the St. Mary's Indian Day School, recommends that the interior of the classroom be cleaned, that the woodwork be washed, the floors thoroughly scrubbed and, when dry, given a coat of hot oil. He states, also, that the vestibule of the school requires repairs, as the pillars are out of place, and that the fence requires some attention, as well as the school grounds.

I would request that you arrange to have this work carried out during the present summer holidays, keeping costs as low as possible. Please forward itemized accounts, in triplicate, properly certified, covering the expenditure incurred.

Dear Sir:

I beg to acknowledge the Department letter of July 3, File No. 56--4--5, regarding repairs to the St. Marys' Indian Day School recommended by Rev. Father Ryan.

Referring to that portion of the letter regarding the vestibule of the school and the pillars being out of place, there is very little that can be done with this save taking it completely down and putting in a new foundation. The pillars are slightly out of position due to the frost. I will have it repaired at a reasonable cost, but to do a permanent job it would necessitate an expenditure of over \$100 which I certainly do not feel is necessary.

W/pms
I would recommend, however, that the interior of the school, that is walls, woodwork and ceilings, be painted. I am enclosing an estimate of the cost of this work for your approval.

MEMORANDUM:

The Honourable the Superintendent General.

I am in receipt of your memorandum of the 11th instant, with reference to Mrs. McElligott, teacher of the St. Mary's Indian Day School, North Devon, N. B.

It is noted you have been informed that she is doing good work, but the reports received by the Department are quite different and, therefore, I feel it advisable to give you full information regarding Mrs. McElligott's services at the school mentioned.

Miss Mary T. Hughes was, for several years, in charge of the St. Mary's Indian Day School but, owing to unsatisfactory services, the Department found it necessary to dismiss her at the end of June, 1934. When it was suggested that Mrs. McElligott might be engaged, the Department communicated with the Inspector of Indian Schools for New Brunswick, Rev. F. C. Ryan, and he replied as follows in a letter dated May 3rd, 1934:-

"Mrs. McElligott is only a second class teacher. Again, she graduated in 1895 or 1896; some thirty-eight years ago, and, in this respect, would be little or no improvement on Miss Hughes. She must be now nearly sixty. Her age is against her. Our idea is to place a good first class teacher, one with five or six years' experience. We want some life infused into this school. This is the very reason why we feel Miss Hughes is no longer required."

Later, the Department was directed to appoint Mrs. McElligott and she began duties on September 1st, 1934.

For your information, I enclose copy of letter received from Rev. W. M. Donahoe, also copy of Inspector Ryan's report regarding his visit to the school on September 24th, 1934, and a copy of his report in connection with his inspection of the school on September 24th, 1935.

Reverend Father Ryan has been Inspector of Indian Schools in New Brunswick for many years and, as a result of his efforts, the work done in our schools in that province has shown considerable progress. After carefully considering Father Ryan's two reports, copies of which are attached, the Department believes it would be in the best interests of this school to dispense with Mrs. McElligott's services at the end of the present academic year, viz., June 30th, next, and engage a younger qualified teacher, who can be secured for the same salary as is being paid Mrs. McElligott.

MEMORANDUM:

Dr. McGill.

Regarding the representations made to the Minister on behalf of Mrs. R. McElligott, teacher of the St. Mary's Indian Day School at North Devon, York Co., N.B., I attach hereto copy of a memorandum to the Honourable the Superintendent General dated December 18th, last, which sets forth the facts regarding Mrs. McElligott's teaching services.

Rev. Father Ryan, Inspector of Schools for New Brunswick, in a report on his inspection of this school on the 15th instant, states as follows regarding Mrs. McElligott's teaching services:

"I am far from being satisfied with this school. The Indian Department should understand as well as I, that a teacher who gives her age to me as fifty-five years is too old to bring about that required success that the teachers of today's training may better give. It is not fair to the Indians to load a case of charity on them at such a terrible price of sacrifice. I have suggested in the past that this school be supplied with a First Class Superior teacher, younger in years, with the latest training. Some pupils did fair work. I found about all bright and most anxious to study, showing if they had a competent teacher what might be expected."

Father Ryan has nominated the teachers for the schools in New Brunswick during the past number of years and is anxious that all teachers engaged in the Province have First Class Certificates.

Father Ryan recommends the appointment of Miss Ruth E. Murphy, Sunny Corner, N.B. Miss Murphy is twenty-one years of age, and possesses a First and Superior Class License from the provincial normal school.

Dear Sir:

I beg to acknowledge Department letter November 23 File Number 56--4--5 with enclosure of Chief Fred Paul regarding signs on highway near the St. Mary's Indian day school.

I have taken this matter up with the town officials of Devon, the school teacher, and we are of the one opinion, that they are not necessary.

However, I would suggest that we allow the matter to stand for the present and in the spring I will take it up with the highway Department of the Provincial Government, which I am sure if they think it necessary will erect these signs without cost to the Department.

EXTRACT FROM REPORT OF REV. F. C. RYAN,
INSPECTOR OF INDIAN SCHOOLS FOR NEW BRUNSWICK,
ON HIS INSPECTION OF THE ST. MARY'S INDIAN DAY
SCHOOL ON JUNE 7th, 1937.

- Original on No. 56-4-6 -

As for the exterior, the two columns at the entrance of school, together with the foundation on which they stand, must be repaired at once. The frost has damaged the said foundation. I would say \$25.00 would repair same, or less.

The grounds are in good, or fair condition.

This school has running water, closets in basement, and most up-to-date when built.

Some repairs and cleaning are required about the basement, etc.

Dear Sir:

Through your instructions I the writer have gone to Devon, N. B., and inspected the roof on the Indian School House. I find that it is badly in need of a new roof, and would recommend using an extra heavy patent shingle 240 lbs. to the square with galvanize iron on the edge.

This roof can be installed, all labor and material being supplied and job finished complete in a good workmanship manner for the sum of two hundred and eleven dollars \$211.00.

Dear Sir:-

Report

The woodwork and walls in the interior of the
St. Mary's Indian Day School are badly in need of
painting. The walls are grimy and no matter how
much scrubbing and cleaning is done to the woodwork,
we just simply cannot make it look clean. I can
have this done for the sum of \$55., including paint-
ing and labour.

I would strongly recommend, that during the
holidays, this work be undertaken.

Dear Sir:-

The board fence dividing the play grounds of the St. Mary's Indian Day School and the Old Reserve, has fallen down in several places. The fence is 80 ft. long and 7 ft. high and must be replaced.

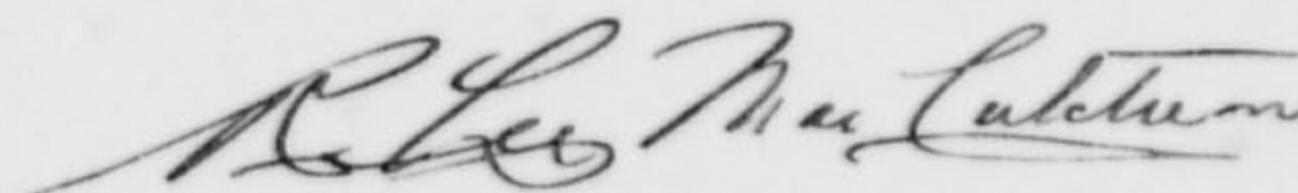

OK

I borrowed a trailer and brought enough lumber from the Oromocto Reserve (lumber from the demolished Koonan Camps buildings) to replace this fence. It will cost approximately \$25. for labour and paint to complete the job.

I presume it is quite in order for me to purchase nails, paint, etc., and requisition for the amount of money to pay for the labour as per the Department letter of May 13, File No. 55-56. Appropriation authority, labour etc.

x

St Mary's Reserve, Devon.

The school closing of the Indian school in this reserve consisted of a programme of twenty-one numbers. After the singing of "O Canada", Christmas carols, hymns and other songs were given. The blackboard drawings and other decorations were very attractive. I addressed the pupils and parents and presented prizes to Gabriel Dedham with a perfect record in attendance and academic subjects, grade eight. I trust that it will be possible to assist this boy in entering the Fredericton High School next year. Other winners were Joseph Paul with a perfect attendance, Grade 5; Joyce Sappier, Grade 4 with perfect attendance and high standing; Grade 3 Lena Meuse and grade 2 Roger Paul and Grade 1 Howard Paul.

A Christmas tree was^a much enjoyed feature of the closing. Each pupil receiving candy and fruit from Santa Claus.

With reference to your letter of the 11th instant I will advise you as soon as possible regarding the name and address of the painter who is to be engaged to do the painting at the St. Mary's Indian day school.

If the material costs over \$50.00 you should let me have full details regarding what is required as purchase will have to be made through our Purchasing Branch. Present regulations do not permit our forwarding an advance to cover the cost of both labour and material. As soon as I hear from you I will be in a position to decide how much money should be forwarded to you for labour.

Memorandum:

DEPUTY MINISTER

Re: St. Mary's Indian Day School,
New Brunswick West Indian Agency,
Electoral District of York-Sunbury.

In connection with my memorandum of July 22 regarding the painting of the exterior of the above school I am informed by the Indian Agent that the local authorities have recommended that Harry Irvine, Devon, N. B., be engaged.

I am, therefore, advising the Agent to have the painting started on the 7th of August.

Dear Sir:

With reference to requisition of the 10th instant you may expend an amount not exceeding \$8.00 in connection with a Christmas treat for the children attending the St. Mary's day school. This is the same amount as was allowed last year.

I may say that this is the last year the Department intends to make a grant for this purpose. Later in the year a letter will be directed to you making suggestions as to the manner in which it is considered that funds can be raised for the purpose.

Yours truly,

AGENT'S REPORT ON NEW BRUNSWICK, SOUTHWESTERN FOR MARCH.
X X X

The Indian schools at Woodstock and Devon were painted and a new roof put on each. The amount of \$1,346.63 was expended for labour in the construction of three new houses, two single and one double in the Woodstock reserve. The greater amount going to the Indians who supplied all the labour with the exception of the mason work and the salary of the foreman. Materials supplied to the amount of \$1,437.31. The amount of \$229.50 was paid for Indian labour in the construction of a drainage system in the Woodstock school.

The Secretary,

Ottawa, Canada.

Dear Sir,-

I have your letter of June 20,
File No. 56-4-6 regarding recommendation
of Inspector Ryan re-cleaning of the St.
Mary's Indian Day School.

Mr. Phelan, Chief of the Train-
ing Division will recall that on his visit
to me, I pointed out the need of having
the interior of this school painted but
as funds were limited, the exterior was
painted and the inside just cleaned.

*Hrs
OK*

If it is at all possible, the
interior should not only be washed, but
painted; however, under the existing cir-
cumstances, this may not be possible. To
have the interior thoroughly cleaned, it
will cost in the vicinity of 25 dollars.
I will employ Indians to do the work.

Reference your last paragraph,
regarding the Domestic Science Department
of this school. I have definitely inform-
ed the teacher, that the Department expects
her to look after this part of the work
better during the coming year.

Dear Sir:-

OK

Since making a fire in the furnace in the St. Mary's Indian Day School, I find that the clean-out pan in the chimney has completely rotted away, and must be replaced with a new one. A joint or two of the old air pipe must be replaced as well with a new tee and cap. I have ordered Mr. Sterling, Fredericton plumber to do this work immediately as in the present condition, the furnace smokes and may cause fire. Materials and labour will cost between 5 and 6 dollars.

Mr. L.R. MacGutcheon,

Dear Sir;

In regard to our telephone conversation re pasteurized milk for Indian Day School, St. Mary's Reserve, Devon, N.B., will say that there has never been any question of pasteurizing milk for this School. For one reason there is no Law in New Brunswick to compel anyone to sell pastuerized milk and another is that up to the present year there hasn't been a pastuerizing plant here in Devon. O

As a fully qualified graduate nurse, I realize more than most people the danger of contaminated milk, and for this reason condemned the cans in use and wished bottles substituted. The can was rusty and could not be properly sterilized.

We have a herd of pure-bred jerseys, which was started when our first child arrived, so that we could have the best quality milk available for our children(4) ^{now}. It is this same high quality that we have supplied to the Indian School. This same quality milk in Ontario, when sold under the Jersey Trade Mark brings a higher price than any grade of pastuerized milk, and would be called Certified Milk. It also has a much higher food value than pastuerized milk.

Hoping that this is a satisfactory reason and explanation why the milk is not pastuerized, I remain,

Very truly yours,

One of the most common sights in the dairy world today is the presence of a few Jersey cows in many herds of other breeds to bring up the average quality of the herd, and on the shoulders of these quality builders rests the reputation of the whole herd.

FOOD VALUE OF MILK

Food values are measured in terms of calories and in comparing milk this term is used.

Percent of Fat in Milk	Calories in Fat in 1 Qt. Milk	Calories in Solids Not Fat	Total Calories
3.0	329.1	371.0	700.1
3.5	383.9	383.0	776.9

5.5	602.3	415.2	1018.5
6.0	657.2	420.6	1077.8

our average test
From this table it will be seen that Jersey milk testing 5.5% contains 241.6 more calories than 3.5% milk or 23.7% more food value. That is what sells Jersey milk today.

Dear Dr. MacMillan:

The Indian Affairs Branch has been supplying milk to children in the Indian Day School, St. Mary's Reserve, Devon, N.B.

It recently received a request from the Indian Agent for milk bottles and, on investigation, found that a dairy had been supplying unpasteurized milk in cans. The name of the dairy is "Hayes Devon Jerseys".

In a letter to the Indian Agent, Mrs. Hayes stated: "there has never been any question of pasteurizing milk for this School. For one reason there is no Law in New Brunswick to compel anyone to sell pasteurized milk and another is that up to the present year there hasn't been a pasteurizing plant here in Devon". She states of her product: "It is this same high quality that we have supplied to the Indian School. This same quality milk in Ontario, when sold under the Jersey Trade Mark brings a higher price than any grade of pasteurized milk, and would be called Certified Milk. It also has a much higher food value than pasteurized milk".

If all the claims made by this good lady for her good product have no more basis in fact than this last statement, I believe this Branch would be justified in demanding pasteurized milk.

I would be glad to hear your views on the subject, and also to know what the general practice is in that locality.

Best personal regards.

Dear Sir:-

I have your letter of the 6 instant, File No. 56-4-5 in which you state that it is difficult to understand why I should want to purchase milk bottles for use in the St. Mary's School.

As I understand it, the Department has always supplied cans for this milk and Mrs. Hayes, who supplies the milk, informed me that the can had become rusty and could not be properly sterilized, and felt that it was only right that I should supply her with one dozen milk bottles. Personally, I felt that this was rather a strange request, as in no other place is this done.

With reference to the last paragraph regarding pasturized milk. I am enclosing a letter from Mrs. Hayes which is self-explanatory. I would appreciate hearing from you regarding this matter in the near future.

Your correspondent is partly correct in stat-

There are two dairies in the area which can

On the recommendation of the Acting Superintendent of Medical Services this Branch supplies milk for the pupils of the above-mentioned school which is situated across the river from the city of Fredericton, New Brunswick.

The milk has been purchased from Mrs. L.F. Hayes, North Devon, but we have recently ascertained that it is not pasteurized. The Acting Superintendent of Medical Services considers that pasteurized milk should be supplied and we are informed by the Chief Medical Officer of the Department of Health for the Province of New Brunswick that there are two dairies near the St. Mary's School which can supply pasteurized milk; namely, the Thistle Dairy, North Devon, New Brunswick, operated by John Watt, and General Dairies, Fredericton, New Brunswick.

I should appreciate it if you would advise me which of these firms should be given the business.

Dear Sir:

I desire to refer to your letter of November 18 and previous correspondence with reference to supplying milk to the St. Mary's Indian Day School.

As intimated in my previous communications the Department is of the opinion that pasteurized milk only should be supplied. You may, therefore, purchase for use at the St. Mary's School for the months of January, February and March, 1941, the same monthly quantity of milk as was purchased in previous years. Pasteurized milk only should be obtained and this can be bought from General Dairies Limited, Fredericton, N.B.

MEMORANDUM

Jan. 13, 1941

THE DEPUTY MINISTER

St. Mary's Indian Day School, N.B.
re- Milk Supply.
I.A. file 56-4-5.

Further to Acting Director MacInnes' memorandum of Dec. 6, 1940, and mine of Jan. 4th,-

In view of the opinion expressed by the Acting Superintendent of Medical Services that pasteurized milk should be supplied the above school, approval was given in my memorandum of Jan. 4th for the purchase of further milk supplies from General Dairies Limited, Fredericton.

In a letter received this morning, however, in connection with this milk supply, it is represented that the milk supplied this school by Leo. F. Hayes of Devon is of the very best quality, although not pasteurized; it is stated that very little milk sold in that section of the County is pasteurized; further, that it is felt that if the milk could be continued with Mr. Hayes there would be no risk involved.

You might ask the Director of Indian Affairs to furnish a further memorandum in the matter.

Memorandum:

The Deputy Minister.

Re: Milk Supply, St. Mary's Indian Day School.

P. E. M.

This Branch is quite prepared to accept the statement which Mr. Leo. F. Hayes, Devon, has already made to the Department that his milk is of the best quality.

That fact, however, would not prevent it from being the medium which would convey tuberculosis, undulant fever, typhoid fever, diphtheria, scarlet fever, or any other pathogenic bacteria which might either be in the milk itself, or carried by persons handling the milk.

It is considered that the only safe treatment for milk is to pasteurize it, which means raising the temperature of the milk to 146° F. and keeping it at that temperature for thirty minutes. It has been found that this procedure will kill all pathogenic bacteria ordinarily found in milk.

It is true that the province of New Brunswick does not enforce compulsory pasteurization, but the Department of the Federal Government responsible for the health of its Indian wards should set a lead in this matter and insist upon pasteurized milk wherever it is available.

The following letter, which the Acting Superintendent of Medical Services received from the Chief Medical Officer for the Province of New Brunswick, supports this view:

"Re milk supplied to the Indian Day School, St. Mary's Reserve, Devon, N.B. You may count on the full support of this Department in requiring pasteurized milk in the above school.

"Your correspondent is partly correct in stating we do not necessarily require that pasteurized milk be used in this district, but you as the purchaser, have every right to make this demand, and we would appreciate it if you did so.

"There are two dairies in the area which can furnish pasteurized milk, namely, the Thistle Dairy, North Devon, N.B., operated by John Watt and General Dairies, Fredericton, N.B."

I recommend that we continue to insist on pasteurized milk.

If Mr. Hayes wishes to be in a position to get this business, he can easily arrange to have his milk pasteurized.

St. Mary's Indian Day School.

Dear Sir:-

The porch of this school is in need of repairs as the frost during the winter lifted the foundations of the posts and carried them sideways as well as upwards.

In doing this the roof was started from the main building (school) and the sides pulled apart.

In order to make the proper repairs, the porch will have to be jacked up and a new foundation built for the posts. It would not be wise to repair this porch on the same foundation, for if done this way, it would have to be done yearly.

A hole should be dug in the ground and a cement foundation in one large piece at the bottom, and tapering towards the top which would serve as the bottom step of the porch, would be the proper and permanent way to make these repairs.

Mr. Tom Nash, a half-breed who lives on the St. Mary's Reserve said he could make the required repairs for about \$20.00; that would include the material required as well as the work.

Mr. Nash has followed this line of work for a number of years and has the name of being a good workman by the people of Devon.

I would request that authority be given to have this porch repaired by Mr. Nash at a cost not exceeding \$20.00

Dear Sir:-

With further reference to our conversations regarding a bill for water rates for the St. Mary's Indian Day School and Reserves, I will have to inform you that I am still looking for an account.

I spoke to your Town Treasurer on different occasions and when the bill was not presented, I thought you might be able to look after this matter, however, it appears that you have had no better success than I *had*.

Would you please make another effort to have these bills made up and forwarded. It is the Department's wish that all bills for the year be presented by the end of March, as that is the end of the Fiscal year, and if there is any money left over from the years accounts, it is handed back to the treasurer. In this way old bills have to be paid from the next years appropriation.

I have been Indian Agent since the first of October, 1941 and have not received a bill from the Devon Water Department since that time.

Yours truly,

The Secretary,

The Secretary,

Dear Sir:-

During the night of October 31st some damage was done to the St. Mary's Indian Day School, also the swings on the school grounds.

This Halloween prank, as it may have been intended for, was committed after midnight as the Devon Policeman, Leo Hayes was asked to keep watch on the school property when patrolling in that area and he assured me that at midnight everything was quiet and nothing touched, but he noticed several Indians, young men, hanging around the junction of the Devon Road and the one leading to the New Reserve. He was busy for some time arresting a drunk and when he returned the Indians had gone but he felt sure they were the ones that damaged the school property.

I made enquiries around the Old Reserve and was told by Tom Nash that Mark Brooks was one of a party that had knocked down a piece of his garden fence and he came nearly getting hold of Brooks but when he started to follow the mob, they put the rocks to him, as he expressed it, and he had to return to shelter.

Miss Sharkey, a woman who lives adjacent to the school property on the south side of the road says she heard the swings at the school fall, so she got up and looked out of her bedroom window and saw a number of boys running towards the river on the Old Reserve. (She did not know if they were Indians or not.)

I felt sure the Indians were guilty of this crime, so on Monday, I went to Isaac Paul, the Assistant Chief, who is Acting Chief, and told him what had happened and said I knew some of the boys and asked him to talk to them when they returned from work that night.

I told him I had hired Tom Nash to fix the property again and if the boys who were all or nearly all, working, would pay for these repairs, I would treat the matter as a Halloween prank and let it drop, otherwise I would hand it over the R. C. M. P.

Mr. Paul was unwilling at first and said it was not the Indians, then said if it was, it would not cost them much and he would talk to them and get a settlement.

During the early evening, I went to the reserve but was told by Mr. Paul that the boys or young men of the reserve were not guilty and would not pay for the damages.

I turned the matter over to the R. C. M. P.
but they could not seem to get any information which
would be of value in finding the guilty party or
parties.

The damage done was as follows:

1. Tore steps away from side door.
2. Tore down one of the posts holding up Porch.
3. Tore down swings which were put up at the expense
of the Department.
4. Broke two panes of glass in cellar windows.

This matter was reported to me on the 4th inst. by The Indian Agent, E.J. Whalen. The Agent, Mr. Whalen carried out an investigation before handing the matter over to us. His investigation consisted mostly of telling the persons mentioned in this report, that if they all got together and paid the amount of the damage, no action would be taken. When it appeared this would have no effect he handed the matter over to us. It would appear that that this space of time gave the Indians concerned ample time to discuss the matter and plan their denial. Apart from that it has been my experience that it is practically impossible to induce one Indian to inform on another. This investigation will be continued and every effort made to get something definite that would assist us in bringing the case to a successful conclusion.

1. On this date a complaint was received from Edward J. WHALEN, Indian Agent, to the effect that the steps on the school-house, on St. Mary's Indian Reserve, in Devon, N.B. were damaged during the night of October 31st., and November 1st., (Hallowe'en night). The extent of the damage was to the amount of \$5.00.

2. On instructions from the N.C.C. I/C Fredericton Detachment and accompanied by Sgt. Trann, a patrol was made to Devon, N.B. where the Devon Town Marshall, Leo HAYES was interviewed. From him was learned that between 12 p.m. and 1 a.m. on Saturday night several Indian boys were around town and on Bridge Street. In this crowd were Mark BROOKS, Teddy BROOKS, Charles PAUL, Harold SAPPNER and William BROOKS. Mr HAYES did not see the boys around the school.

3. Tom HASH, who lives near the school was interviewed. He stated that after mid-night of Saturday he heard some one in his yard. On going out he saw several boys in the yard. He gave chase and he recognized Mark BROOKS and Charles PAUL. At this time the two boys mentioned ran through an alley towards Bridge Street.

4. Teddy BROOKS, who lives right by the school was interviewed and questioned at length. He admitted being with the boys during the early part of the evening and claimed that he went to the New Reserve with William BROOKS at about mid-night, after that he came right home and went to bed. He denied any knowledge of who damaged the school-house steps.

5. William BROOKS was interviewed and his story did not differ from that of Teddy BROOKS.

6. Mark BROOKS, Charles PAUL and Harold SAPPNER were all interviewed and questioned at length. They all admitted of being around town during the period until about 1 p.m. of November 1st., but they denied being at Tom HASH'S place and of having anything to do with the school. From questioning the boys it is quite obvious that they had discussed the matter. Their stories are all the same and it would appear that they are going to stick to it.

5-11-42

7. Information was received that Peter BROOKS, who has a shack near the school was around his shack during the night in question and that he may be able to supply some information. On being interviewed he said that he went to his place during the night, but saw no one around. He said that he saw the boys in question in Fredericton during the night. He would not say that he saw the boys on the old reserve. It was learned from Tom Hash that Peter told him he saw the boys near Tom's place, but Peter BROOKS denied this.

1. Further to report submitted on the above on the 3-11-42 nothing has been learned in this connection. Steve NASH who lives on the Old Reserve and who is reliable was interviewed and nothing could be gained from him.

2. The above damage was done on the night of October 31st., 1942 and enquiries were made by the Indian Agent, E.J. Whalen immediately. Not being able to get any information he asked this Detachment to investigate. During the investigation Mark BROCKS, Teddy BROCKS, Charles PAUL, Harold SAPP-IER and William BROCKS were suspected and all were interviewed, but with negative results. All of the men mentioned were in and around the old Reserve during the night but no one was found who saw them near the school house. The main suspects are Mark BROCKS, Charles PAUL and Harold SAPP-IER. From interviews and after being questioned they all denied being near the school or having any knowledge of who did the damage.

3. It is evident that between the time the damage was done and the time the investigation was carried on, the men in question had time to agree on definite story about their whereabouts and they all stick to it. From experience it has been found that one Indian will not inform on an other. There does not appear to be any way of getting any information on this case, and the fact that the suspected parties have decided to stick to one story I would request that this case be closed as Further Investigation Unwarranted.

The interior of the St. Mary's
Day School should be cleaned and painted.
If only cleaned, the walls have a dirty
appearance which has a detrimental effect
on the light in the room, especially on
dark days.

The cost for cleaning and paint-
ing the interior would be about \$50.00
and I would ask for authority to have this
done before the school reopens in September.

EX'D.

I wish to refer to your letter of July 26, ^A regarding the painting of the Woodstock Indian School.

I found it impossible to get anyone to paint this school, although I had one painter who promised to do it and then disappointed me.

At last, Tom Nash, the man who painted the St. Marys school, agreed to go to Woodstock with me and to give the walls and ceiling one coat of paint. This he did with the help of a man, Ed Gallagher, for five hours..

The interior of this school should have another coat and the entry and surbase should be painted as well. We have nearly enough paint to do this and Mr. Nash would go up again if authorized to do so.

The labour and material for painting the Woodstock and St. Marys schools were kept pretty well within the amount allowed although the Woodstock school received less labour and material than that of St. Marys.

This firm has a school account, milk for month of March, amounting to \$16.56 but the bills submitted were incorrect and had to be returned.

I went to the office but the girl was away and none of the other help seemed to know anything about it. It may be a few days before I receive the corrected bill and as it was so late in the month I did not wish to hold up this account.

A voucher covering the milk account will be forwarded in a few days.

Re: Saint Mary's School.

A board fence which is about 6 feet high and built across the back of the school yard is in need of repair. Part of it blew down during the spring, and although I tried to have it fixed up temporarily, I could not locate any dry lumber for the purpose. I considered it would only be wasting money to use green lumber, as it would twist and check when exposed to the sun.

At the present time, a number of mills are sawing lumber in this vicinity. The lumber required could be purchased and dried in a short time, for this work.

In order to do a good job, posts will have to be reset, and a quantity (about 200 running feet) of 2 by 4 will be required to repair the fence, also a quantity of nails and spikes. To do a finished job, the fence should be painted.

The total cost including labour will be in the vicinity of \$75.00.

Could authority be granted to do this work during the summer holidays?

Re: Saint Mary's School.

There is no flagstaff at Saint Mary's Indian School. The teacher, Mrs. McElligott, told me a pole had been obtained previous to my appointment as Indian Agent, but before being erected, it disappeared. The teacher would like to have a flagstaff as she has a flag.

I could not get an exact estimate on this work, but Tom Nash, a half-breed living on the Indian Reserve, says he thinks he can get a pole, peel, paint, and erect it for about \$35.00. He does not say he can do it for this amount however.

May I have authority to get a pole and have the same erected?

With reference to your letter of the 16th instant, you may arrange for a flag pole for the St. Mary's School. The cost mentioned in your letter seems high and it would be appreciated if you could have a flag pole erected for a smaller amount.

Memorandum:DEPARTMENTAL PURCHASING AGENT.

I attach account amounting to \$77.45 covering the cost of materials purchased for repairing the basement of the St. Mary's Indian Day School in order to provide a room for domestic science.

It was decided to employ Sisters at this school from January 1, 1945, and the Agent has strongly recommended a change in the building in order to provide a domestic science room. Labour is scarce in this section of New Brunswick, but workmen were available early in January and local purchase of the materials was authorized in order not to delay the improvements.

It would be appreciated if you would issue purchase order so that the account may be paid. The coding is as follows: - 283-76-10-691.

Memorandum:

DEPARTMENTAL PURCHASING AGENT.

I attach account amounting to \$77.45 covering the cost of materials purchased for repairing the basement of the St. Mary's Indian Day School in order to provide a room for domestic science.

It was decided to employ Sisters at this school from January 1, 1945, and the Agent has strongly recommended a change in the building in order to provide a domestic science room. Labour is scarce in this section of New Brunswick, but workmen were available early in January and local purchase of the materials was authorized in order not to delay the improvements.

It would be appreciated if you would issue purchase order so that the account may be paid. The coding is as follows: - 283-76-10-691.

#5 56-4-5
Saint Mary's Indian Day School,
Devon, N. B.
Feb. 24th., 1945.

Dear Mr Phalen:-

As you know we are now well established in our school, to which has been added the Domestic Science room, and already we feel we that we have accomplished much. It is now painted and in order, and the work of the pupils is very satisfactory to date.

If you could only visit it, we are sure you would agree with us in our reporting that being a basement room, the lighting is not sufficient, so knowing from the past your understanding and kindly sympathy, I feel no hesitation in approaching you with a request to have the building wired and suitable lighting installed.

I spoke to Mr Whalen about it, and though he realizes it is necessary, as he was criticized for putting the lights in the Woodstock school does not wish to make any move in the matter, until he receives word to do so.

He has already exceeded his quota, due to high price of labor at the present time, and much was needed to put the department into proper condition. We did our best to keep expenses down, by doing the painting and practically all of the cleaning ourselves.

Word has just come that our requisitions will be arriving soon- another cause for rejoicing.

I almost forgot another fact, Our sewing machine is not, and cannot be put into working order, and we really need one badly. At present, I have been able to borrow one for a few weeks, but of course I am anxious to have one for ourselves. For awhile, when we were painting etc. we thought we might even fix the machine, but it was impossible. Even the experienced machinist we had look at it could do nothing, so that is our second request, a sewing machine. The loom, we hope, soon to be ready also.

We may surprise you too, by telling you that we are building up a nice little Library for the school, through the generosity of friends.

Perhaps sometime, when peace is again restored we may have the pleasure of welcoming you to our little school.

With thanks for all past favors, and anticipating a favorable reply.

I am,

yours most sincerely

Sister Marietta

Dear Sister Marietta:

I have your letter of the 24th ultimo and am pleased to know that matters are proceeding satisfactorily at the St. Mary's Indian Day School.

It has not been our general practice to install electricity in Indian day schools. However, I will discuss your request with the Acting Director, and if it is felt advisable to make any change from our previous policy you will be advised.

I look forward to having the pleasure of visiting your school at some time in the future.

Yours sincerely,

Philip Phelan,

Mr. E. J. Whalen,
Indian Agent.

Dear Mr. Whalen,

Do you think that it would be possible to procure new desks and seats (single ones) for the school?

The present double ones are most inconvenient, as many of them are too small for the pupils. If only we could get single ones of various heights, that is, small, medium, and large, it would certainly be a great advantage, and also a benefit to the health of the children.

I know you and also all the members of the Department are always most solicitous for the advantage of the children and for the betterment of the school, as this, I feel will prove to be.

Trusting that you may feel disposed to petition the Department for this requisition.

I am,
Yours most sincerely,
Sister Jean Marie.

Enclosed you will find a letter which I received from
Sister Jean Marie, Teacher at the Saint Mary's Indian School.

The desks referred to by the Sister are old double ones
and much too small for the larger pupils, who have to bend
over and consequently crowd their lungs.

I am submitting this letter for your comments and will
not forward a requisition for new seats until instructed to
as I know much has been spent on this school during the past
year.

I have your letter of the 30th
ultimo, with reference to supplying new desks at
the St. Mary's Indian Day School.

I am not in a position to state
definitely at the present time if our funds will
permit our supplying these desks, but, in any case,
you might let me know the number of small, medium
and large size desks that would be needed. In
the event of our deciding to purchase them, they
will be delivered to the school before it re-
opens on September 1.

Mr. Edward J. Whalen, Indian Agent,
Fredericton, N.B.

I enclose, for your information, a letter which has just been received from Sister Marietta, of the St. Mary's Day School.

It has not been our practice to approve the installation of electricity at Indian day schools. However, if the room is in the condition mentioned by the Sister, it is possible that an exception should be made in this case. Please let me know what it would cost to install electric lighting in the basement room.

PM
I have marked a paragraph on the second page of this letter. If the articles mentioned were essential - and I presume they were - there is no reason why application should not have been made to this office for permission to purchase them. It is not necessary for the Superior of the Order to supply equipment for an Indian day school.

When replying to this letter, I would like your comments about the Sister's request for a new heater. Her information regarding this matter will be found at the top of the second page of the letter.

You should advise Sister Marietta that her letter has been received and has been referred to you for a report. When you reply you should return the letter.

I think this could be done at comparatively low cost, as the N. B. Power Co. is located directly opposite the school.

The heating of the Domestic Science room is problem number 11. When the furnace room was converted into a class room, it was necessary, in order to stand erect, to remove many of the hot air pipes, and this in turn reduced the heating of the room to a very great extent. Our only means of heating this room now is a very small stove, and in winter this is not at all sufficient.

I wonder, Mr. Hoey if you remember the type of heater that was sent to the Domestic Science room at Tobique a few years ago, and if it is possible procure another similar for Saint Mary's. I am sure Mr. MacPhail, The Indian Agent of Tobique Reserve would be glad to give you any information you might require re. type and size of this heater. When it was installed our heating difficulties were over. We also found it to be a great fuel saving. Now that Army Camps are closing it should be an easy matter to obtain an item of this kind.

When we came to this school last January we found it very poorly supplied with books and other teaching essentials. We were obliged to requisition books and supplies for immediate use in order to make a beginning.

Now at the end of six months we have a better knowledge of the whole situation, and we find we still need books and materials if we are to get our classes off to a good start in Sept. The pupils are very bright, and are applying themselves to their studies, and located as they are so near our great Educational centers it would be too bad to keep them back.

X The Reverend Superior of our convent here has been most generous and has done everything in her power to help equip the school, and stimulate the interest of the pupils. She has purchased for our use, an organ, sewing machine, and a set of tables and chairs for the Domestic Science room.

On Easter Monday we held a sale work, a great deal of which was done by the children. The proceeds have been used to improve the class room. We purchased covering for the floor, and paid to have it laid. We also paid two men for two days labor in and around the building. Not knowing the conditions at the beginning you would hardly realize the extensive repairs that were necessary.

Sister Electa was in the city for the closing exercises of U. N. B. and while here she visited our school, and was very much pleased. Her interest in the welfare of the Indians is just as keen today as when she labored among them.

Recently we have had many visiting officials from the schools in the city and elsewhere, and all have expressed great surprise at the high standards of this school.

Trusting in the near future you may have occasion to visit the reservations of New Brunswick, and that we may be favored with a visit.

Thanking you for many favors in the past and hoping to hear from you at your convenience.

Mr. R. A. Hoey,
Supt. of Welfare and Training,
Ottawa.

Dear Mr. Hoey:-

For the past six months I have been teaching the Indians at Saint Mary's School, Devon. My duties here are along the same lines as at Tobique, handicrafts, and general instruction in all forms of Home-making.

When our Indian Agent took us to visit the school for the first time and when he pointed out to me a corner of a much dilapidated furnace room as my future class room, I must say, I viewed the whole situation with utter discouragement.

However, thanks to the assistance given by the Dept. and the extreme generosity of our Community, much has been done since that day in early January to make the little school a bright and cheery place to work in, and it is only under such conditions that we may hope to bring out the best that is in the pupils.

I may say that much the same problems are apparent here as in other Indian Schools. Our greatest difficulty right now is the lack of any lighting system whatever. I feel it is unnecessary for me to go into detail about the necessity of lights in a basement classroom which is two thirds underground.

And it is in this room that Grade 1 and 11 work for four or five hours every day. And here also the other Grades are at different periods, taught, weaving, sewing, knitting and other fine arts. It is hardly fair to the pupils to be obliged to work under such difficulties, and terrific eye-strain will in a very short time be the dire result.

The light in the class room upstairs too, is not adequate for dark days in early winter, even now on rainy days, and this spring, by far the greater number of days have been dull and rainy, consequently the pupils are working under a strain almost constantly. I am sure such conditions existing in a class room where about forty children spend the school year would be totally condemned by any medical authority.

Now from an educational view-point. We have at our disposal a very fine moving picture machine, and it is possible to procure at all times an excellent line of both educational and entertainment films free of charge. I have found motion pictures a great advantage in the class room. They seem to wean the children from the habit of frequenting theatres, where very often, the type of picture shown has a demoralizing effect on the young and impressionable mind. I know, Mr Hoey, that this consideration alone will induce you to have lights installed in St. Mary's this summer.

Your letter of June 20, 1945 also one you received from Sister Marietta, has been received and contents noted.

With reference to the installation of electricity for the St. Mary's Indian Day School, I did not apply for this as you had already told me it was not the practice of Branch to approve same. However I have asked for a tender on this work and will submit one as soon as it is received.

With reference to the paragraph which you marked, regarding the materials supplied by the Reverend Superior, I felt quite sure the Branch would not consider an organ necessary. At any rate I was not asked for one and it was not until Sister Marietta asked me to have it moved over to the school that I knew one was purchased.

The table and chairs also were purchased and delivered before I even knew they were being considered. A carpenter had made a long table and two benches which were used until the small tables and chairs were purchased and I thought this arrangement was satisfactory, and serving the purpose although the small tables and chairs are much handier as the Sister can get around through her class easier.

The machine was needed of course but, no new ones were available and I thought as so much had been spent on repairs and equipment of the Domestic Science Branch this year we would wait until next year to requisition for it.

With reference to the heating, Sister Marietta is a bit wrong in saying that the removal of a few of the heater pipes lessened the heat of the basement as it really helped it although not enough to make the room comfortable on cold winter days. The basement was never heated sufficient for a class room as it was never meant to be for that purpose when the heating system was installed.

With reference to your letter of June 20,,1945 in which you ask what it would cost to install electric lights in the basement room of the Saint Mary's Indian Bay School, I wish to state that if the whole of the rooms were not wired the Sister would be unable to show pictures or have evening classes as I believe she is planning on having with the older girls during the coming year. At any rate the educational films which are being used in the different schools could be borrowed for use in the Indian school and Sister Marietta has a moving picture camera at her command and could use these pictures to good advantage.

I have a tender from Gerald LaPlante, a man who lives very near the school and he said he could wire the building any time I gave him the instructions to. He is a good man I am told and is at the present time wiring a new addition to the C.P.R. station..Fredericton, N.B.

*OK
Have
written*
You will notice that his tender is \$68.00 for the wiring less the lamps. As this was without a plug outlet to the school room I called him and asked what the extra would be and he said \$3.00. Thus satisfactory wiring less the lamps would be \$71.00. I asked Staples, Electricians, what they would charge for wiring the school as required and they said in the vicinity of \$100.00 therefore I did not get a tender from them.

I will await your further instructions.

The porch of the Saint Mary's Indian Day School started to spread and on making examination in the spring and again when school stopped in June, I figured these repairs could be put off for another year, however, VJ Day celebration has spread this section of the porch and it will be necessary to make the required repairs before winter and in fact, before school starts, if possible.

I would estimate the cost would be in the vicinity of \$60.00 but until such time as the floor is taken up and the steps removed, it will be impossible to know how much new material will be required. May I have authority to have this work done at once?

Costs will be kept to a minimum.

Fredericton, N. B.
September 12, 1945.

Indian Affairs Branch, Dep't. of Mines and Resources, Ottawa.

On May 26, 1945, I forwarded a requisition for new Desks to be used in the Saint Mary's Indian Day School, I also, requisitioned for a Teachers Desk and Chair.

I have received a purchase order dated July 12, 1945, which shows that the School Desks were ordered from Saint Vincents de Paul Penitentiary, to be delivered by September 1, if possible. To date these Desks have not been received.

*Review

The Teachers Desk and Chair has apparently been missed, as no word has been received regarding it and the Teacher, Sister Jean Marie, is still using a common chair and a flat top table.

I would again strongly recommend that a Teachers Chair and Desk be supplied for this School at an early date.

I have your letter of the 12th instant, with reference to the desks for the St. Mary's Indian Day School. I telephoned the Inspector of Penitentiaries on Friday last and he stated that some, if not all, of the desks would be shipped immediately.

I regret that we overlooked placing an order for the teacher's desk and chair, but I am placing this today and hope delivery will be made soon.

Re: Voucher 224, Account for Wiring
Saint Mary's Indian Reserve.

Mr. Gerald LaPlante, North Devon, N. B., has completed the wiring of the Saint Mary's Indian Day School according to his tender submitted July 14, 1945.

There is a city By Law (city of Fredericton) which states that Mr. H. C. Moore, city electrician, must inspect the wiring of any building and he is to be reimbursed by the contractor or person who does the work.

I took Mr. Moore to this School after the work had been done and he said everything was in order. He did say, however, that the main School Room should have at least four lights and better still six, rather than two as Mr. LaPlante's tender called for. Mr. LaPlante, however, has carried out his work according to his tender and placed one plug outlet in the School Room and costs \$3.00 extra as stated in my letter of July 17, 1945.

I have your letter of the 18th instant with reference to the wiring of St. Mary's Indian Day School.

I understand from your letter that Mr. Moore, city electrician for Fredericton has approved the work that has been done. I presume that his mention of six lights instead of two is only a suggestion and that he does not mean that we must install the extra four lights. If my understanding is correct, no further action need be taken at the present time.

The porch of the Saint Mary's Indian Day School started to spread and on making examination in the spring and again when school stopped in June, I figured these repairs could be put off for another year, however, V.J. Day celebration has spread this section of the porch and it will be necessary to make the required repairs before winter and in fact, before school starts, if possible.

I would estimate the cost would be in the vicinity of \$60.00 but until such time as the floor is taken up and the steps removed, it will be impossible to know how much new material will be required. May I have authority to have this work done at once.

Costs will be kept to a minimum.

Dear Sir,

Re: Purchase Order 4328
40 Single Chair-Desks

Referring to the above order, it is regretted that there have been unexpected delays in completing this initial order for your requirements. However, by letter of October 22nd, 1945 from the warden, I am now informed that production has been well started and the contract will be completed by the end of December, 1945. I inquired of the Warden regarding part delivery before that, but his reply explains that the manufacture of these desks is a production-line job and the manufacture of each component part proceeds in turn to the final assembly.

It is pointed out by the Penitentiary Chief Trade Instructor that it was necessary to manufacture and design gauges, jigs and fixtures within the Penitentiary and after the men engaged in the manufacturing operations have become more acquainted with their task faster progress can be expected.

I am sending a copy of this letter to the Purchasing Agent of your Department as well for his information and trust that the delay in delivery has not upset your plans to a major extent.

This shipment was delivered to the Transportation Company in good condition and signed for by them. If you give the Transportation Company a clean receipt for damaged goods, you do so at your own risk. We are not responsible for loss or damage while goods are in transit. For your own protection damaged shipments should be refused, or a full description of damage made by Transportation Agent on the paid expense bill. If this is insisted upon, full damages can then be collected, as Transportation Companies will always pay a proper claim.

Ck.No. 74193, November 21, 1945 - \$15.60
Canadian Cottons Limited, Marysville, N.B.

I transfer for necessary attention
a letter hereunder from Canadian Cottons Limited in
which they ask for a balance of their account of \$1.65.

This Branch made payment on voucher
No. 297 which was rendered at \$15.60. You will note
that Indian Agent Mr. Whalen apparently reduced the
Company's invoice by \$1.65. This is shown on both the
original and duplicate invoice but there is nothing on
either to show why the deduction was made.

Re Voucher No 297 - Canadian Cottons Ltd., Marysville.

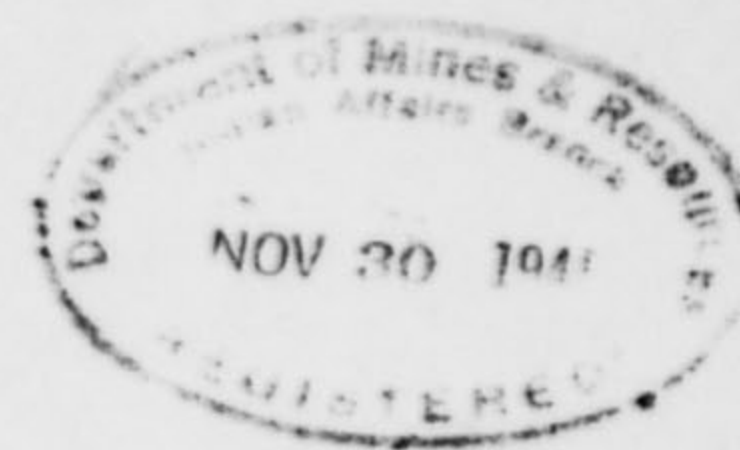

The above numbered voucher in favor of Canadian Cottons Ltd. amounted to \$15.60 while their bill was \$17.25. The difference of \$1.65 was to be paid in cash but through an oversight the envelope containing the money remained in the office until today. (See receipt attached).

I was informed from the office of this firm that they had written to the Indian Affairs Branch regarding the \$1.65, as they thought a mistake was made in the amount of the cheque.

It is regretted the oversight caused extra work for all parties concerned.

Re: Voucher No. 297 dated October 31st/45

This voucher was issued in favour of Canadian Cottons Ltd. and the account attached to it requested payment of the amount of \$17.25. You deducted an amount of \$1.65 and issued the voucher for \$15.60. This amount was paid to the Canadian Cotton Ltd., Marysville, N.B. by cheque No. 74193 on November 21st. The firm has now written us requesting payment of the additional amount of \$1.65. Please let me know why you evidently considered this amount should not be paid.

Ottawa, April 12, 1946.

Dear Mr. Brisebois:

Some months ago we placed an order for school desks with the Superintendent of Penitentiaries. They have been considerably delayed in making these desks, but I understand they are now nearly finished. Would it be possible for you to visit St. Vincent de Paul Penitentiaries during the next week and inspect these desks which, it is hoped, will be shipped before the end of this month. Following your visit, I would like a report from you.

Yours sincerely,

April 18, 1946.

The Indian Affairs Branch, Dept., of Mines and Resources, Ottawa, Ont.

I have your letter of the 12th instant dealing with the desks which have been ordered by the Branch from the St. Vincent de Paul Penitentiary and in this connection to advise that I have visited St. Vincent in the course of this week and inspected the desks as requested.

These desks were all finished with the exception of a few who had to received their final coat of paint. The desks are are of very sturdy construction and very well finished. There is no doubt that they will be satisfactory.

They will be shipped to Indian Agent Whalen on Monday next, April 22nd.

Attention: Mr. Philip PHELAN

Dear Sir:- Re: Your File 56-4-5
Re: Purchase Order No. 4328
40 Single Chair Desks

Replying to your letter of March 20, 1946, and subsequent arrangements by telephone, the Warden of St. Vincent de Paul Penitentiary has reported that Agent Brisebois inspected the above desks on April 15, and expressed his satisfaction with the job. Undoubtedly he has reported to you in this respect. It was pointed out to him by the penitentiary officials that in view of this being an initial order, they would be glad to receive suggestions as to improvement after the desks have been in use for some time in order that these could be incorporated in later orders.

The delay in completing this first order is a source of regret both to the penitentiary and to this office, but you will doubtless appreciate that difficulties would be encountered which would not be present when dealing with future orders. Therefore, I bespeak your cooperation in the allotment of future orders for this article. Preferably, plans should be made well in advance in the event that materials are still in short supply due to the steel situation in the United States.

I wish to thank you for the opportunity and cooperation displayed by your office in enabling the penitentiary to develop this new article of manufacture for the Government Service.

Yours very truly,

G.L. SAUVANT, Inspector
Acting Superintendent.

FILE Q-7-22

Fredericton, N. B.
May 3, 1946.

Indian Affairs Branch, Dep't. of Mines and Resources, Ottawa.

I have for acknowledgement your letter of April 23/46, asking for a requisition for coal or wood required at the Day Schools in my Agency for the coming school year.

I am forwarding this requisition as requested, but Sister Marietta, who teaches grades one and two in the basement of the St. Mary's Indian School and also has Domestic Science classes there, is very anxious to have nearly all the basement for that work and has asked if fuel oil could not be used in the school rather than wood, as the wood used in the furnace has been stored in the basement in past years and this with the furnace takes up over half of the space.

The cost of the oil burner installed in the furnace according to quotations from the Irving Oil Company is \$375.00. This includes a 200 gallon tank and complete installing. The oil costs 11¢ a gallon.

The basement at the present time has a number of hot and cold pipes running through it and if the school room is to be enlarged with satisfactory results, these pipes would have to be removed. This could be done by changing over to a pipeless furnace.

May I hear from you regarding this change.

Edward J. Whalen,
Indian Agent.

Mr. Edward J. Whalen. Indian Agent,
Fredericton, New Brunswick.

I have your letter of the 3rd instant, with reference to installing an oil burner in the furnace at the St. Mary's Indian Day School. Please let me have more definite information regarding the type, size and, if possible, the catalogue number of the burner on which you have received a quotation from the Irving Oil Company.

Instead of using oil, would you favour using coal? It might be possible to change the grates in the present furnace and coal would take up less space than wood. I would like to hear further from you before making a definite decision.

Philip Phelan,
Chief, Training Division.

I have your letter of May 10, regarding the heating system in the St. Mary's Indian Day School.

With reference to the burner referred to, it is an Irving 3T model, sufficient for 3200 ft. of hot water **or** 4500' of hot air.

You suggest using coal, rather than wood in our present furnace, this would save some space, but not enough for the room required.

The Sister is very much opposed to burning coal and said she would rather have wood and the present set up, unless the change could be made, which would leave nearly all of the cement for classroom work.

Mr. Frank Flannagan, a plumber and tinsmith, of this town has quoted a price of \$150.00 for a pipeless furnace installed in this school.

Mr. Edward J. Whalen, Indian Agent,
Fredericton, New Brunswick.

I desire to refer to your letters of May 3 and May 21. We have given your recommendation considerable thought and we understand that the installation you now propose would cost approximately \$525.00. This seems a large amount of money for the St. Mary's School.

If the present furnace is in good shape, it is a comparatively easy matter to convert it into a pipeless furnace. This would not involve much expenditure.

We are sympathetic towards the plan of the Sister, but, as stated above, it is felt that the expenditure suggested is too high.

August 3, 1946.

Indian Affairs Branch, Dep't. of Mines and Resources, Ottawa,

I wish to refer to your letter of June 3, regarding the converting of the furnace at the St. Mary's Indian School into a pipeless furnace.

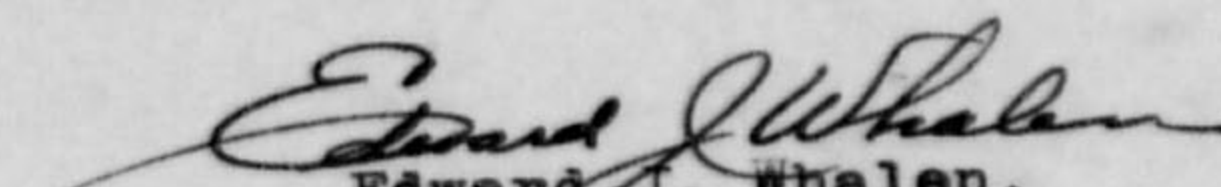

Mr. Frank Flannagan, who is an expert in that line of work, promised to check the furnace and tell me if this could be done.

It was not until yesterday, however, that he did this, and informed me the furnace could be converted into a pipeless furnace at a cost of approximately \$50.00. If this work is done, and the pipes removed in the basement, Sister Marietta wishes to have a Domestic Science room, which is also used for the grade 1, enlarged. In fact, her ambition is to build another room in the basement for grade 1 and have the present room used entirely for Domestic Science work,

It would cost approximately \$300.00 for the labour and materials to complete the room.

Sister Marietta informed me that she would rather have the room complete and burn wood for the coming winter in the furnace, than to have the oil burner installed and not have the additional room, but if finances were available, she thought it much better to install the oil burner as well. As the wood would have to be left out of doors and only two or three days supply put in at a time.

If this work is to be done, it should be commenced at once.

Edward J. Whalen,
Indian Agent.

With reference to your letter of the 3rd instant, the Department approves an expenditure of \$50.00 for converting the furnace at the St. Mary's Indian Day School.

You may also arrange for completing the room in the basement. If necessary, an expenditure of \$300.00 for material and labour is approved, but this amount appears high.

Attention: Mr. Philip PHELAN

Dear Sir:-

Re: Your File 56-4-5
Re: Single Chair Desks

Further to your purchase orders Nos. 4328 and 12098 for the above product, may I ask if you propose placing any further orders with this Branch for chair desks for the school season. As mentioned to you previously, the materials from which these desks are manufactured are in extremely short supply and deliveries which might in normal cases be made within two or three weeks would now take as many months.

I shall be glad to hear from you on this point as it is desired to give you the best possible delivery.

Yours very truly,

Acting Superintendent.

Dear Sir:-

I have your letter of the 10th instant with reference to placing further orders for school desks.

I regret that it is not possible at the present time to give you any estimate of our future requirements of school desks.

Owing to increased attendance, we have had several requests in the past few months for extra desks and one of these orders was placed with you on June 28th. Only eleven desks were ordered at that time but in a letter dated the 11th instant, we are advised that they have not yet reached the School.

Yours truly,

Philip Phelan,
Chief, Training Division.

Attention: Mr. Philip PHELAN

Dear Sir:- Re: Your File 56-4-5
(W.T. 1)
Re: Manufacture of School
Desks - St. Vincent de Paul
Penitentiary

Replying to your letter of
September 13, 1946, the Warden of St. Vincent
de Paul Penitentiary has reported that he
expects the 11 desks ordered on Contract
#12098 will be delivered in approximately two
weeks. The delay was occasioned by non-
delivery of angle iron needed for manufacture.

In the matter of desk orders, I
wish to draw to your attention our letter of
April 30, 1946, in which your cooperation was
solicited in anticipating future orders. The
present policy of the Government will not
allow this Branch to proceed to manufacture in
advance a line of articles unless the receiving
department has given some assurance that the
article will be taken after completion. If
this Branch had had this assurance, we could
have proceeded to purchase materials last
April and had the desks ready for delivery when
required at the beginning of the school year.

Yours very truly,

G. L. Sauvant

Fredericton, N. B.
December 11, 1946.

Indian Affairs Branch, Dep't. of Mines and Resources, Ottawa.

May we have authority to supply milk to the children of the different Indian schools in my Agency, during the winter months, as in past years?

The following amounts of milk will be necessary:

St. Mary's School8qts.
Kingsclear School.....2qts.
Oromocto, School.....6qts.
Woodstock School.....8qts.

The Teachers thought milk was to be supplied to the children beginning with the month of December, and started getting same, without authority, therefore, it will be necessary to have the authority start from December 1.

Re: Voucher No. 55

Frost has caused considerable trouble to the water pipes in the basement of the St. Mary's Indian School. To overcome this, the door of the Domestic Science room has to be left open.

Sister Marietta dispenses medicine and has Domestic Science material in this room, consequently, it was necessary to place locks on the cupboards to protect the medicines and goods.

The new furniture has added much to the appearance of the room and will without doubt, contribute towards better posture on the part of the pupils. The additions to the library are greatly appreciated also. I would suggest new hyloplate blackboard (green) for the side wall as the present board is not good, and is too far from the floor. Would also suggest a school radio to take advantage of Maritime School Broadcasts.

Would also suggest a school radio to take advantage of Maritime School Broadcasts."

In addition to this the Sisters have asked for the following: A piano for the advantage of the school and particularly the children taking musical examinations. They would also like to have 12 new desks, similar to the ones supplied last year, as their are that many extra children to start in the year 1947-48. Also a second teachers desk, as Sister Marietta has the children of the smaller grades in the basement. They are also anxious to have a drinking fountain and lastly, to have an oil burner placed in the furnace for another year.

required. Please let me know the width and length
required.

At the present time we are not prepared to
supply a radio to any Indian school. This also
applies to the request for a piano.

You might let me know the cost of a drinking
fountain.

We are prepared to supply either the twelve
new desks or the oil burner. Which do you consider
is the more necessary.

Re: Vouchers # 36 and 37.

The March accounts in favour of the Thistle Dairy, for milk supplied to Indians of the St. Mary's Reserve, and the St. Mary's Indian School, were placed on file, and put away without vouchers being made. This error was not discovered by the Stenographer until she received the April accounts.

Sir.

In submitting my School Reports for this year, I beg to inform you, that it has been decided to me, providing that my views meet with your approval. That if one or two of the R.B. School Inspectors, whose duties take them once or twice a year on a tour of inspection of schools, in the locality where our Indian Schools are stationed, were employed at a small remuneration to visit ^{and} examine the ^{and} cause of instructions, discipline methods, or teaching in our schools. I would be then fully reported to Department Money well spent. My reasons for this is that Indian Children must have an education between the age of 5 and usually about twelve years. Consequently for these reasons. And the results to be obtained especially to the pupils. And also the teachers by a visit or so from an experienced Inspector in educational affairs. Generally, that will be an incentive to good work as awarded.

Dept. of Indian Affairs,

Memorandum:-

Mr. Agent Farrell, writing under date of the 3rd inst., suggests the advisability of securing the services of one or two of the Public School Inspectors of New Brunswick to visit, examine and report upon the course of instruction, discipline and methods employed by the teachers in our Indian schools in that Province.

In this connection I beg to say that as far back as the year 1890 communication was opened up through the Secretary of State with the local Governments of the older provinces with a view to utilizing the services of the Public School Inspectors to make such ~~visits~~ inspections as those suggested by Mr. Agent Farrell. All the local Governments with the exception of New Brunswick fell in with this proposition and we are now receiving semi-annual reports from these inspectors and paying for such visits.

The attention of the Lieutenant Governor of New Brunswick was from time to time called to the omission of the Public School Inspectors of that Province to make the reports called for by this Department, but, up to 1891, we had not succeeded in obtaining any reports and after that date the matter was dropped.

In view of the failure on the part of the Provincial Government of New Brunswick to take any notice of the request made by this Department to secure the services of its inspectors, I do not know whether you would feel inclined to re-open negotiations to this end.

The outlay attendant upon the services rendered by the Public School Inspectors comes to about \$1000.00 a year and little, if any, good is derived from the inspectors' visits. However, it may be considered that this money is

well

well spent in the public interest, as it indicates the desire of the Department to have its schools conducted along the lines of the provincial public schools.

I prepared a memorandum on this subject in June, 1895, which was submitted by the then Deputy Superintendent General to the Minister, setting forth the expense incurred and what I considered the poor return obtained for the expenditure. The Minister, however, did not feel disposed to disturb the existing arrangement without consulting Council in the matter. I am unable to obtain the original memorandum at present but a copy is placed herewith.

In reply I have to inform you that as far back as the year 1880 communication was opened up through the Secretary of State with the local Governments of the older provinces including New Brunswick with a view to utilizing the services of the Public School Inspectors in the direction ^{now} suggested by you. All the local Governments with the exception of New Brunswick fell in with this proposition and we are now in receipt of semi-annual reports from Inspectors and paying for such visits as are made by them, but repeated letters to the Provincial Governors of New Brunswick which were sent from time to time up to the year 1891 proved unsuccessful in having the inspections asked for made by the Public School Inspectors of that Province.

In reply to your letter of the 20th inst. I beg to acknowledge, the applications of Miss E. C. Baughman, Miss Annetta W. Bradley, and Miss Cassie E. Mulhearn, for the position of teacher of the Indian School at Hodge's Reserve N. B. now vacant by the resignation of Miss Costigan. I also enclose your Mr. F. B. McHugh's letter as to their qualifications. I don't know either of the teachers holding a license, but I would imagine from the experience had in teaching by Miss Bradley she would be the best for the Indian children. Another feature in connection with this appointment is that I always find that a person who has been raised in the country is more fitting for a lonely place like Hodge's Reserve where there is no white neighbors with in quite a distance to see for days & months than a person raised in a city. In offering my views in this matter, I do so in the interests of the pupils, hoping that whoever is selected will take a firm stand in the management and advancement of her school. I am Sir,

For the

Ottawa, August 10, 1906.

The Deputy Superintendent General,-

The Department is in receipt of applications from three different persons for the position of teacher of the Tobique school, made vacant by the resignation of Miss Costigan.

Of these, two are equally recommended by the Public School Inspector of the County; these are Miss A. Bradley and Miss Gertrude Coughlan.

Miss Coughlan has a second class certificate and has had two years' experience in teaching. Miss Bradley holds a similar certificate and has had six years' experience. She also holds a certificate in Nature Study and School Gardening from the Macdonald Institute, Guelph. The Agent, Mr. Farrell, recommends the acceptance of Miss Bradley's application.

The third applicant is Miss Mulherrine, who holds no certificate.

As the country schools in New Brunswick open on the 13th inst., it would be well to make an immediate selection from these three applicants, in order that they may be free to apply for and accept other schools, and I would like to be instructed as to which application to accept.

East
The Deputy Superintendent General,-

On April 30, last, Miss Annetta Bradley applied through Mr. Agent Farrell for an increase in salary as teacher of the Tobique school, and the Agent was informed that the Department regretted that it had no funds available for the purpose.

Although she has not since renewed her application, the Public School Inspector in his report on this school, dated the 25th ult., states as follows:-

" Miss Bradley is conducting this school with marked success. The pupils are greatly interested in their work, the order and attendance are excellent and it gives me much pleasure to state that I have never seen the school in a better condition than it is at present. Miss Bradley's salary should be raised, as I am quite sure her services cannot be retained much longer unless she receives some financial inducement to remain. I believe that her withdrawal would be a serious loss to the Indian school at Tobique Point."

Miss Bradley is the holder of a second-class certificate and previous to taking charge of this school had six years' experience. She also has a certificate in Nature Study and School Gardening from the Macdonald Institute

Institute, Guelph, and has made good use of her experience in this line, and the Inspector says that the school garden work greatly interests the Indians children and is a special advantage to them in many ways.

I consider it would be advisable to retain her services, and in order to do so a substantial increase should be made. She is only in receipt at present of \$300 per annum, which is quite inadequate for a teacher of her ability.

As you already know I have resigned my position as teacher of Tobique Point School, this resignation is due to the conditions of the school accommodations here. and smallness of salary. The accommodations being detrimental to health.

The Deputy Superintendent General,-

Schools
Mr. Agent Farrell has forwarded the resignation of Miss Annetta Bradley, teacher of the Tobique Indian school.

Miss Bradley's reasons for resigning are due to the conditions of the school accommodation and smallness of the salary. Miss Bradley is one of the best teachers the Department has had in its employ for some time. She has conducted the school with marked success, says the Public School Inspector, and the order and attendance are excellent, the pupils being greatly interested in their work. The Inspector concluded by stating ^{that} her withdrawal would be a serious loss to the Indian school at Tobique, and recommended that her salary be raised. She was given an increase of \$50 making her salary \$350.00 per annum, and if you will refer to my memorandum of November 13 and to the Accountant's note thereof you will see that he recommended that she be paid at the rate of \$400 from April 1, last. I think that if this recommendation had been carried out Miss Bradley would not likely have remained on, as the Department has under consideration the improvement of the school premises and is now awaiting Superintendent

Sir,-

I have to acknowledge the receipt of your letter of the 33rd inst., inclosing a reply from Miss Bradley to the proposition submitted by the Department, namely, to increase her salary to \$400 and provide suitable school accommodation if she would remain on.

In reply I beg to say that Miss Bradley's statement that she is willing to take charge of the school next year on the above terms has been noted.

In the meantime it would like you to communicate with the Public School Inspector with a view to obtaining the services of a qualified teacher for this school, whose initial salary will be at the rate of \$350.00 per annum. Be good enough to submit all applications with recommendations to the Department.

Ottawa, July 31, 1908.

The Acting Deputy Minister,-

Miss Ethel Sims applied for the position of teacher of the St. Regis school, in the event of their being a vacancy, and, as the present teacher is going to remain on for another year, there was no opening there for her.

I happened to mention to her that we wished someone to take charge of the Tobique school for a year, during which period the late teacher, Miss Bradley, will be absent on account of her health. Miss Sims called to-day and said she would take the position for the year and as she has had previous experience in the St. Regis school for two years, is a Roman Catholic and was well liked, being of a cheerful disposition, I think the Department could not do better than engage her. It would be difficult to fill the Place temporarily, as teachers would not care to take it for this limited time.

Sir,-

I beg to advise you that the Department has secured in the person of Miss Ethel Sims, of Ottawa, a teacher for the Tobique school, who will take charge for a year, when it is hoped that Miss Bradley will be able to again resume teaching.

Miss Sims has had previous experience in the Indian school service. She will be instructed to proceed to Tobique in time to open the school at the usual date, and you will be good enough to give her any information necessary. You will also advise Miss Bradley of Miss Sims's temporary engagement.

Sir. Schools

I beg to inform you, that I received a letter from the Rev. F. B. Ryan of Tobique Reserve N.B. a few days ago. In which he informs me that Miss Bradley paid him a visit recently. that she he states is very much improved in health. and that she remarks to him that she intended looking up a school for teaching not later than Xmas. Next. Of course I could see by some of the Priest's letter that he was more favorable to her return to the Tobique School than the continuation of the present teacher. I however in looking through your letter of the 31st July last No. 118387/1 find therein stated that Miss Ethel Sims was employed as teacher of the Tobique Indian School. for one year from above date. I therefore in consequence of this contract. prefer to make no recommendation in this matter whatever. but leave it entirely with the Department.

Ottawa, November 5th, 1909.

Sir,

In the Regulations for the Education of Indian children clauses 1 to 7 provide for the compulsory attendance at school of all children between the ages of six and fifteen, except under certain conditions clearly set forth.

The Indians on the Tobique Reserve have now a fine school house, well equipped, and a teacher of more than ordinary qualifications and ability. The Department is also providing means to teach sewing in the school.

In view of these conditions all the Indian children should be sent regularly to school, but it would appear that some of the parents are indifferent and do not take advantage of the excellent facilities provided to educate their children. The Department has, therefore, under consideration the question of putting the regulations in force on this Reserve. The first step will be the appointment of a Truant Officer and it has been suggested that the Constable combine these with his other duties.

You will be good enough to discuss this matter with the Indian Council and ascertain upon what terms the Constable would be willing to undertake this work.

I am sending you under separate cover four copies of the regulations.

Madam,

I have to acknowledge the receipt of your letter of the 2nd instant, and in reply I beg to say that the Department will make you a grant of the sum of \$10.00 towards the purchase of prizes for a Christmas tree in connection with the Tobique school. Your account should show in detail the articles purchased with prices and should be forwarded to the Department through the Indian Agent.

I would draw your attention to the fact that schools ordinarily do not close till a date one week from the time mentioned by you, or the 22nd instant. It will be impossible to teach the required number of days if the school is closed so early in the term. The Department will, however, be pleased to grant you the necessary number of days in order that you may attend the meeting of the County Teachers' Institute.

Re: Indian Affairs.

Received your letter of Dec. 17th No. 118387/1. In which you authorized the grant of \$10.00 towards prizes and a Christmas tree.

Enclosed find the itemized bill which you asked for of articles purchased. Your check for the amount had not arrived to pay for articles purchased, but I found I could buy cheaper by paying money down so used \$10.00 of my own, trusting that the \$10.00 check will be forwarded.

In this same letter you gave me permission to attend the County Institute which I did as you will see by certificate enclosed with returns. You also called my attention to the fact that schools ordinarily do not close until 22nd inst.

As our Provincial Regulations state school opens on the Monday after New Year's Day this year 1910. Jan 3rd therefore to have the required two weeks vacation our school closed on Dec 17th as the teacher attended the Institute three days early one to allow her to reach there and two days for Institute.

As there is nothing to guide me as to holidays or vacation I supposed you expected me to follow our provincial regulations in these matters. Is this satisfactory to Indian Dept?

As I mentioned above I attended the County Institute which was a very educative one for teachers and trust the time was very profitably spent. I will enclose one of the programmes to you.

While there I had an interesting discussion with J. B. Kidner our Provincial ~~Sup~~ Director of Manual Training in the Province & Provincial Normal School. He is of the opinion that manual training would be very profitable & educative for the Indian boys.

He is to send me on his return home, an itemized account with probable cost, of material needed to take up raffia work with the boys in my school.

In your letter of Nov. 24th No 118387/1 you asked for a recommendation from me on the necessity of providing work for the boys while the girls were sewing. When I get word from Mr Kidner about the raffia work I will forward same to you for your consideration.

In this same letter you returned me the bill on which the material I purchased for sewing in school was. stating you would send me the \$10.00 check as proposed and I was to forward an itemized account of cash paid, amts purchased & amt on hand at end of current quarter. This I am unable to do as the check for \$10.00 has never reached me. And the Bill at Mr Bedelle and Mr Bairds remain unpaid.

I think the idea of sewing in school a good one and the children seem very much interested. They so far have made handkerchiefs and little aprons which are very useful for them to use.

As I received your letter in which you authorized the formation of the Ladies Domestic Science Association just a week before closing I thought it better to not begin the work until

the beginning of work in January in case their
enthusiasm might die out in the work during
the vacation. So after the opening of school in
January this work will be taken up at the
salary mentioned in your letter of Nov. 24th. 117357/1
You also stated for me to send bill of cards
given as rewards. Enclosed find bill for same.

I offer little deportment cards and redeem them with other cards when they get twenty. Also try to show them the value of regular attendance, and get parents interested.

I generally offer a prize for attendance.

In my experience in this Indian school I find that I can accomplish more by offering a reward and holding out an incentive in the way of a prize, than in any other way. No matter how triffling the reward they will work for it. If it were not for the expense I should like to be able to give a reward for those pupils who attend every day each month without any absent or tardy marks. Tardiness is a great fault in this school. I tried keeping and having them write tardy. But this term I am trying the giving of a half of a half-holiday to those present and not tardy for two weeks. I find this way is much better.

In reply to your letter No 118387/1 of March 12th in which you referred to my Annual Report on the Tobique School in which I recommended a reward for attendance, and in which you asked for nature of reward + cost. Would say that I should like to give something in the form of a book, booklet or picture (to little ones) to those who had perfect attendance + punctuality. I should judge it would cost perhaps from \$1.50 to \$2.00 according to perfection of attendance, for they find response to anything much quicker when a reward is offered.

~~By~~ Having the money and sending away for them I can get little books etc much cheaper than I can here. That is the way I do with getting the cards. Send to firms which deal in them.

How they do enjoy getting that Perfect. Good or Merit Card although it means only one twentieth part of a picture card. And in this way we have all sweeping + care of out-houses carefully attended to promptly without cost.

I hope you will note in my return the good attendance of the boys of my school.

The two book which you sent me for prizes which reached me too late for Xmas by The People of the Plains. Were given as awards at the end of the March Quarter

The two pupils whom I considered as the most deserving of them were.

Peter Tremblay Aged 11 yrs Grade V
 Gabriel Perley Aged 11 " " V

These two pupils were never tardy missed no time of their own fault - ~~one~~ ~~they~~ being the two boys who ~~serve~~ assist the Parish priest in the services of the church had to be absent from school Peter Tremblay two mornings and Gabriel Perley three mornings but - as soon as they were free came at once to school. In school they are very diligent and take great interest in their work and their conduct is above reproach.

Another boy John Devore Aged 9 yrs Grade III having never missed a day in the three years I have taught - here I felt deserved a reward, but the books sent - were rather deep for him. So I gave him a ^{children's} Bible History which I had.

I sincerely hope the Dept - will take an active interest in these three young boys and encourage them in their education. For they are very, very good boys and I feel they would make something good.

I wish it were possible for the Dept to see their way clear to place them in some convent - boarding school, and educate them so that ^{the} evil company of some of their companions might not spoil them. Then when they grew

up they I feel would exert a great influence for good on the rest of their race. I should like very much to see the experiment tried.

I should like to call the attention of the Dept to the matter of school material ordered.

When here before all things asked for in my requisitions were sent and of the best material. This year, something is omitted each time and the material seems of a very inferior quality not what I ask for at all. Why is this?

I was much surprised to find that the Dept refused to send us the water-colors and Cabinet of Weights & Measures. If they knew the difficulty of teaching Indian Children a thing which you could not demonstrate to them while teaching it, I am sure they should never have refused to send it. As these weights & measures are a very necessary part of a practical education.

I also asked Dept to kindly donate to us a picture of our gracious King & Queen. But I think they must have overlooked the matter, as I never heard if you were willing to do so or not.

Yours Respectfully,
Annetta A. Bradley Teacher
Tobique Pt. School N. B.

P.S. Now that Spring is at hand I trust the Dept will not neglect the laying off & putting up of our playground and make arrangements for the setting out of trees around the outside limits of ground.

Ottawa, April 18, 1910.

Madam,

I have to acknowledge the receipt of your communication of the 11th instant in reference to school matters on the Tobique Reserve.

With regard to the distribution of prizes I may say that the Department is prepared to allow an expenditure of \$1.50 a month for the ten school months of the year, on the understanding that no call will be made for any special occasion in addition to this. The nature of the prizes to be purchased will be left to your own discretion.

Your remarks with reference to the three boys who have been very regular in attendance for some years have been read with much interest and it is the wish of the Department to encourage boys of this kind, who show diligence and special aptitude in the day schools, to obtain a higher education, if they so desire. It is thought, however, that they should complete the course in the day school and pass at least the Entrance Examination to the High School. Then, should they wish to continue, special and individual consideration will be given each application for aid.

The Department is very sorry to learn that the school material that has been supplied you is of an inferior nature. The fault in this case rests with the Stationery Office and I have to ask you to be good enough to state

By this do you mean that you wish the \$1.50 per mth to cover the expence of \$1.00 per Quarter which I have previously spent for cards?

In reference to the inferior material sent, - It is as follows: - Lead pencils are the cheap kind with the lead in pieces or so brittle it breaks with sharpening causing them to wear out very quickly and the little eraser in end is next to nothing. The erasers ordered were not as ordered, as we wanted the large red pencil erasers. The rulers sent were the little one cent rulers. The blank scribbles ordered some time ago were of very inferior paper. Mapping Books ordered were also not as good as those formerly sent. The moist water colors were never sent.

P.C. Sir.

Enclosed I am forwarding the resignation of Miss Bradley and an application from Miss McGrand. I am very sorry to part with Miss Bradley. I feel that the Dept will meet her wishes as to the leave of absence, before the completion of the term. I have no personal acquaintance with Miss McGrand but a Second Class Provincial teacher with the experience she has had is as good as we can expect to do, and I would advise the acceptance of her application.

Sir,

I have to acknowledge the receipt of your letter of the 17th instant enclosing a resignation of Miss Annetta A. Bradley, teacher of the Tobique School, and also an application for the position from Miss Ethel McGrand, North View, N.B.

In reply I beg to say that the Department, while regretting that Miss Bradley has found it necessary to take this step, accepts her resignation to take effect on the date mentioned, viz.- November 18th.

The application of Miss McGrand for the position is also accepted and the Department will pay her at the rate of \$400.00 per annum upon condition that she will continue the domestic science work which has been in the past conducted by Miss Bradley. Miss Bradley in her letter asks that Miss McGrand be appointed to take charge on January 19th. The school should be opened on or about January 3rd. You will be good enough to advise both Miss Bradley and Miss McGrand accordingly.

Ottawa, December 23, 1910.

Dear Mr. Michaud,

I have to acknowledge the receipt of your letter of the 19th instant enclosing a letter addressed to you by Miss Bradley, late teacher of the Tobique Indian School, in reference to the amount of salary paid her for her services during the current school year.

In reply I beg to say that the salary appropriated for this school is \$400.00 per annum. The school year commences after the summer holidays and ends on June 30th of each year. Miss Bradley completed a year on June 30th, last, and received her full salary of \$400.00. During the current year she taught 59 days.

In computing salaries for broken periods this Department makes payment in the proportion that the number of days taught bears to the total number of teaching days in the year, which is 216. This is manifestly an equitable method of computation in such cases. Miss Bradley was, therefore, paid $59/216$ of \$400.00 or \$109.36.

This leaves the proper proportion of the year's

appropriation available in instances of this kind for the payment of a successor.

Miss Bradley wishes to take only one quarter of the year into consideration. This would give her \$100.00 for the 24 days taught in September, which would be at the rate of \$900.00 per annum, and a proportionate amount of the salary for the next quarter, which would be according to her calculation \$59.32, or a total of \$159.32.

Had Miss Bradley's claim been paid and had a new teacher taken charge immediately upon her leaving, the balance available for the new appointee would be only \$240.68 and she would for this amount have to teach some 157 days. You will readily see that this would be an injustice.

I may say in conclusion that the Auditor General's Department is aware of the system used by this Department in making these computations and in auditing the payments makes use of the same method.

With these explanations I think you will recognize

Sir,

I have to acknowledge the receipt of your letter of the 8th instant, and in reply I beg to say that the Department is disposed to allow Miss McGrand \$1.50 per month for the ten school months for prizes for the children attending the Tobique Indian school upon condition that a statement showing the articles purchased and the pupils to whom prizes are awarded is forwarded at the end of each month.

In regard to the cards a reference to the file does not show where any allowance per month was made for the merit cards. In the latter part of the year 1909 Miss Bradley advised the Department that she was giving these cards and she was informed that if she forwarded her account payment would be made. Further information is, therefore, desired before the continuance of the system is authorized. You will be good enough to forward the Department a sample of the cards in use and they can be printed in Ottawa should it be decided to continue the system.

Dept. Indian Affairs,
Ottawa.

At the suggestion of the Indian Agent Mr Geo E. Baxter, on considering my continuance in the work, in the Indian School at Tobique Point N.B. for another year, I write to ask the Department if my salary as teacher might not be increased.

I though much interested in the work in an Indian school, and well encouraged by the progress made by the pupils, particularly the lower standards, to continue the work for another year, I feel the present salary insufficient.

Considering the greater enrollment of pupils in this school to that of the other Indian school or schools in this agency, and the greater demand of the teacher's time and energy, the insufficiency of salary becomes plainer.

Trusting this will be favorably considered by the Department I am,

Your letter No 118387/1 of November 9th granting an increase of \$50 in my salary as teacher in the Tobique Indian School has been received.

While feeling grateful for this consideration, I cannot feel that it is sufficient. If I continue in the work here for a second year, it would be my ambition to remain in the work several years. This could not be done at a salary of \$450 per annum and would necessitate my referring to the subject increase at some later time.

Also, my work here for a second year, although not so much so as that of the first year, will be uphill work. In fact will be more so than that succeeding years.

Would not the Dept. kindly consider the points and make the increase \$100 and the salary \$550 per annum.

In reply I beg to say that it is considered that the increase of \$50.00 offered by the Department is very fair. I may state that this will make your salary \$50.00 more than that paid to any of the other teachers of Indian schools in New Brunswick. I would also add for your information that the enrolment at your school is not as high as that in one of the schools in the eastern part of the province where a salary considerably less is paid. The monthly allowance of \$1.50 which the Department has made, for the securing of prizes for the children in the Totigue Indian School I wish to appropriate in another way. I feel that the allowance for December and for the months of the March Quarter would be as well spent in furnishing a Christmas tree for the pupils as it could be in prizes. At the same time I would have the opportunity of determining whether the welfare of the school would, or would not be improved by the cancelling of the monthly distribution of prizes.

Would the Department, if they consider this suggestion expedient, forward the allowance of these months (\$4.50) to be appropriated in the way suggested.

MOROCCAN TREATY SIGNED.

The Moroccan war cloud was dispelled finally when the long-discussed treaty between France and Germany on the subject was adopted. This treaty grants France all her demands; it concedes to her a predominant influence in the whole of Morocco. All that Germany gets for her interference is a very small wedge of territory south of Lake Chad and a small frontage on the Congo, to give her a port on that river. She will retire from Agadir, the Moroccan port which she seized in order to force France to divide up. The French Premier Caillaux in a public statement declares that the time has come when Africa can no longer be closed to civilization by barbarism. The idea of "Morocco for the Moroccans" will no longer do, he says, for Morocco is so near Europe that peace and order must be maintained there. Traders of other nations will be protected, but France will hereafter have a free hand among the Moors.

Luckily the wars in Tripoli and China cropped up to occupy attention, else the humiliating bargain which Germany made with France over cutting the Morocco melon would have caused much more trouble than it has. Even now it has made lots of bad feeling in Germany, for it is felt that the government backed down before English threats. A big rumpus was raised in the reichstag (German Parliament) over the matter. Herr Bebel the Socialist leader demanded that this and all treaties should be submitted for approval or rejection to the reichstag. Conservative Leader Heydebrand, known as the "Uncrowned King of Prussia," was very bitter toward England; Ger-

mans would be found ready, said he, to make sacrifices of fortune and life in order to fight this enemy. "The German people will give a German answer to this English question," he asserted. Crown Prince Frederick William was present during the stormy session and lent encouragement to the critics of his father's government. It is reported that Emperor William was very angry when he heard of this and rebuked the future emperor-to-be with unmistakable severity.

THE ITALO-TURKISH WAR.

Reliable news of the Italo-Turkish war is meager. The dispatches are so conflicting that it is obvious that most of them are made up out of whole cloth in the newspaper offices. Correspondents who have told the situation too graphically have been expelled from Tripoli by the Italian authorities. The Italians in Italy and abroad are incensed at the criticisms that have been made against their government for seizing Tripoli and they deny the charges of cruelty made against their soldiers. More or less fighting seems to be going on around Tripoli and the neighboring ports, but nothing decisive. The Italians are said to use a fleet of balloons for scout purposes in locating the enemy, and the Arabs are much exercised over these craft, which they regard with superstitious fear. There is small chance that any of the powers will mix in the war, in spite of the international peace treaty. The practice is not to intervene in such cases unless both sides ask for a peacemaker. Turkey has called for intervention, but Italy would spurn it.

THE MAINE LIQUOR LAW.

For over forty years the State of Maine has had a prohibitory liquor law. The liquor interests brought on a contest to repeal the law. For a long time the results were in doubt. Alternately Maine was said to be *dry* and said to be then *wet*. Finally the government made a re-count and the state is officially proclaimed *dry* by a majority of 758.

Our cartoonist has put the situation very graphically. The liquor interests figured as a beer barrel with a grip full of bottles in his hand is leaving Maine (see the map under his feet) on the jump, holding the proclamation "Maine Stays Dry" in his other hand.

ACROSS THE CONTINENT IN AN AIR SHIP.

The wonderful tales in the "Arabian Nights" are being outdone every day by the marvellous achievements of modern science. The aeroplane flight of Galbraith P. Rodgers across the continent from New York City to Pasadena in California is the latest of these modern miracles. Our grandfathers, even our fathers, twenty years ago would have laughed the prediction of such an achieve-

ment out of the realm of remote possibilities.

Starting from Sheepshead Bay race-track, Long Island, New York, on September 17, Mr. Rodgers reached Pasadena, a suburb of Los Angeles, on November 5, having traveled a distance of 3,220 miles in forty-nine days. The best previous cross-country record was Harry N. Atwood's flight of 1,265 miles from St. Louis to New York. (See Canadian Teacher, page 154.) Rodgers' success was wrested by courage and perseverance from a long series of mishaps. At the beginning of his second day's flight his Wright machine crashed into a tree, and four days later it broke two propeller-blades in a collision with a barbed-wire fence. A string of minor accidents and mishaps worried him across half a dozen States. But he came through his adventures practically uninjured, although, according to a Pasadena dispatch, "his machine has been broken and repaired so many times that only the vertical rudder and the dripping-pan remain of the original outfit with which he started."

Five years ago the Wright Brothers were the only men in the world who could fly in heavier-than air machines. In the fall of 1906 they pointed with pride to the fact that they had been up in the air 160 times and had covered altogether exactly 160 miles, or an average of a mile each flight, but there was one wonderful record of being up for over half an hour, and covering twenty-four miles.

And now we have just seen aviator Rodgers complete his journey of over 3,100 miles, from New York to Los Angeles, in less than six weeks, and a total flying-time of about three days.

RODGERS AND HIS ROUTE.

COMPOSITION

HILDA'S CHRISTMAS.

Standing apart from the childish throng,
Little Hilda was silent and sad;
She could not join in the happy song,
She could not echo the voices glad.

"What can I do on Christmas day?
I am so little and we are so poor,"
She said to herself in a dreary way:
"I wish there never was a Christmas more."

"Mother is sick, and father can't know
How children talk of their gifts and joy,
Or he'd surely try, he loves me so,
To get me just one single toy."

"But Christmas is not for what you get,"
She heard a small, sweet, tender voice,—
"It's for what you give," said wee Janet,
And the words made Hilda's heart rejoice.

"It isn't our birthday," went on the mite,
"It is Christ's, you know; and I think He'd say
If He were to talk to us to-night,
That He'd wish us to keep it His own way."

A plan came into Hilda's head;
It seemed to her she could hardly wait;
"I can't give nice things," she bravely said,
"But I'll do what I can to celebrate."

"I can give the baby a day of fun;
I can take my plant to the poor, lame boy;
I can do mother's errands—every one;
And my old kite I can mend for Roy."

"I can read to father and save his eyes;
I can feed the birds in the locust grove;
I can give the squirrels a fine surprise,
And grandma shall have a letter of love."

Now when that busy day was done,
And tired Hilda crept to bed,
She forgot that she had no gift of her own—
"What a lovely Christmas it was!" she said.

1. Tell the story of this poem in your own words.
Be sure to tell:

1. Where Hilda was and what she was doing.
2. What she thought about Christmas.
3. What Janet said about Christmas.
4. Hilda's plans.
5. How Hilda liked Christmas day.
11. Tell some other Christmas story.

DRAWING

MAKING CALENDARS.

Illustrations on this page show calendars that can readily be made by small or older children. At the first of these lessons you were asked to save all the work of the class. These drawings may be used in the manner shown on this page. Sprays of grass and leaves, with pencil or in color, autumn flowers, simple landscapes, offer suitable material for calendars. The teacher may have mounting board cut to the desired size at any print shop. A pupil's sketch may then be trimmed and mounted upon the card, and below the drawing may be pasted a small calendar pad. In this way the children are able to construct this very useful article in an acceptable manner. Calendars are specially interesting at this time of the year, and may afterwards be utilized as Christmas or New Year's gifts by their makers.

NATURE STUDY

ANIMALS IN WINTER.

1. How do the wild animals manage to live and keep warm during the winter?
2. What is meant by hibernating? Do you know any animals that do this? Tell where they sleep all winter. How do they manage to live until spring without food?
3. How do hibernating animals know when to wake up? Do they ever waken too soon?
4. What common animals that you know stay awake and hunt all winter?
5. How do squirrels, chipmunks, field-mice, muskrats, gophers, porcupines, hares, and rabbits, weasels, foxes, and skunks get food during the winter months?
6. Which of these store up food for winter use?
7. What happens the birds in winter? At what time do they migrate? When return?
8. What birds remain all winter? Where do they stay?
9. What birds come to us only for winter?
10. How are the birds kept warm?

BUSY WORK

SENTENCE MAKING.

1. Compose three sentences containing only principal elements.
2. Compose a sentence containing a word, a phrase, and a clause modifier of the bare subject.
3. Compose a sentence containing a word, a phrase, and a modifier of the bare predicate.
4. Compose sentences whose predicates consist: (1) of a copulative verb and an adjective; (2) of a copulative verb and a noun.
5. Compose sentences whose predicates consist: (1) of a copulative verb and a phrase; (2) of a copulative verb and a clause.
6. Compose sentences whose predicates consist: (1) of a transitive verb and its object (word-form); (2) of a transitive verb and its object (phrase-form); (3) of a transitive verb and its object (clause-form).
7. Compose a sentence whose predicate consists of a copulative verb and a noun.
8. Compose a sentence whose predicate consists of a copulative verb and a pronoun.
9. Introduce a noun clause with *when*.

10. Introduce an adjective clause with *when*.
11. Introduce an adverbial clause with *when*.
12. Introduce a substantive clause with *where*.
13. Introduce an adjective clause with *where*.
14. Introduce an adverbial clause with *where*.
15. Compose sentences whose grammatical subjects are clauses introduced with *that*, *who*, *what*, *how*.

16. Compose sentences whose verbs are completed by clauses introduced with *how*, *if*, *wherever*, *whoever*, *whether*.

17. Use as the objects of verbs clauses introduced with *that*, *how*, *what*, *if*, *whether*.

18. Introduce an attributive complement: (1) with *in*; (2) with *of*.

19. Introduce an adjective phrase: (1) with *of*; (2) with *for*; (3) with *to*.

20. Introduce an adverbial phrase: (1) with *in*; (2) with *to*; (3) with *for*; (4) with *by*.

21. Introduce an adjective clause: (1) with *who*; (2) with *that*; (3) with *which*; (4) with *whom*; (5) with *what*; (6) with *whence*.

22. Introduce an adverbial clause denoting place: (1) with *where*; (2) with *whither*.

23. Introduce an adverbial clause denoting time: (1) with *when*; (2) with *while*.

24. Introduce adverbial clauses denoting manner and degree: (1) with *as*; (2) with *than*.

25. Introduce an adverbial clause denoting cause: (1) with *because*; (2) with *since*; (3) with *for*.

26. Introduce an adverbial clause denoting condition: (1) with *if*; (2) with *unless*; (3) with *though*.

WRITTEN READING

A.

THE SPELL.

I hung a string of verses
Against my cabin wall :
What, think you, was the fortune
They prayed might me befall ?

Not fame, nor health, nor riches,
To tarry at my door,
But that my old, old sweetheart
Might visit me once more.

Out of the moted day-dream
Among the boding firs
They prayed she might remember
The lover that was hers.

They prayed the gates of silence
A moment might unclose,
The hour before the hill-crest
Is flushed with solemn rose.

O prayers of mortal longing,
What latch can ye undo ?
What comrade once departed
Ever returned for you ?

All day with tranquil spirit
I kept my cabin door
In wonder at the beauties
I had not seen before.

I slept the dreamless slumber
Of happiness again ;
And when I woke the thrushes
Were singing in the rain.

—Bliss Carman.

QUESTIONS.

1. (a) What is a spell ?
(b) What was the spell about which this poem is written ?
(c) Where was it placed ?
(d) What did the writer want it to bring to him ?
(e) Quote from the poem the words that tell this.
2. (a) What were the surroundings of his cabin ?
(b) Give reasons for your answer.

3. (a) Where was his old sweetheart ?
(b) Prove your answer from the poem.
(c) Do you think he thought his verses would bring her to him ? What is your reason for thinking thus ?
4. (a) Where did he spend the day that he had asked for her to come in ?
(b) How did he feel ?
(c) How was this day different from other days ?
(d) How was the night different from the other nights ?
(e) "The thrushes were singing in the rain,"—how do you think he felt when he awakened next morning ? Had the author any reason for writing "singing in the rain" ? What ?
(f) Do you think his sweetheart did visit him ? Why ?
5. Give the meaning of "might me befall," stanza 1 ; "the moted day-dream among the boding firs," stanza 3 ; "tranquil spirit," stanza 6.
6. Put the thought of the following lines into the simplest language in which you can express it :
(a) (That) "the gates of silence
A moment might unclose." Stanza 4.
(b) "The hour before the hill crest
Is flushed with solemn rose."
(c) "O prayers of mortal longing
What latch can ye undo ?"

B.

DAY-BREAK.

A wind came up out of the sea,
And said, "O mists, make room for me."
It hailed the ships and cried, "Sail on,
Ye mariners, the night is gone."

And hurried landwards, far away,
Crying, "Awake, it is the day."

It said unto the forest, "Shout !
Hang all your leafy banners out !"

It touched the wood-bird's folded wing.
And said, "O bird, awake and sing."

And o'er the farms, "O chanticleer,
Your clarion blow ; the day is near."

It whispered to the fields of corn,
"Bow down and hail the coming morn."

It shouted through the belfry-tower,
"Awake, O bell ! proclaim the hour."

It crossed the churchyard with a sigh
And said, "Not yet ! in quiet lie."

—Henry Wadsworth Longfellow.

QUESTIONS.

1. What does this poem describe ?
2. What is the herald or messenger of the coming dawn ?
3. What figure of speech runs all through the poem ? Explain it ?
4. What pictures come to your mind as you follow the flight of the wind ? Describe them briefly. Which is prettiest ?
5. (a) Read again the words which the wind speaks in stanzas 1 to 8. What feeling do these words give you ?
(b) What feeling have you after reading stanza 9 ?
(c) Does stanza 9 help to give you the feeling of new life beginning with the dawn—or does it partly spoil this feeling ? Why ?
6. "O mists, make room for me,"—what is the effect of wind on the mists ?
7. (a) Why did the wind say "shout !" to the forest ?
(b) What are the leafy banners of the forest ?
(c) What figure of speech is this ?
(d) Find another example of this figure in the poem.
8. Why did it *whisper* in the cornfield, *shout* in the belfry-tower, and *sigh* in the churchyard ?
9. "Not yet" (stanza 9). What is the force of this ?
10. Give the meaning of the following words and phrases : "mariners" (stanza 2) ; "clarion" (stanza 6) ; "hail the coming morn" (stanza 7) ; "proclaim the hour" (stanza 8).

C.

SEA-DRIFT.

The night drags by ; and the breakers die
Along the ragged ledges ;
The robin stirs in his drenched nest ;
The hawthorn blooms on the hedges.

In shimmering lines, through the dripping pines ;
The stealthy morn advances ;
And the heavy sea-fog straggles back
Before those bristling lances.

Still she stands on the wet sea-sands :
The morning breaks above her,
And the corpse of a sailor gleams on the rocks—
What if it were her lover ?

—Thomas Bailey Aldrich.

QUESTIONS.

1. What picture does this poem bring to your mind ? Describe it fully.
2. (a) What feeling does the poem give you ?
(b) Choose from the poem the words which best express this feeling.
3. (a) What is the time of year ? How do you know ?
(b) What is the time of day ? How do you know ?
(c) What kind of night has it been ? How do you know ?
4. (a) What are the "bristling lances" ?
(b) Against what does the writer picture these lances as being used.
5. How long has she stood on the shore ?
6. (a) Is the last stanza in harmony or in contrast with the other two ?
(b) For whom is it that the night drags ?
7. (a) Give in less figurative language the force of "drags," "die," "ragged ledges," "stealthy," "straggles back."
(b) Which are more impressive, the figurative expressions or those which are not ?
8. (a) Why has she been watching ? How do you know this ?
(b) Does the question at the end of the story add to your interest ?
(c) Do you answer it in your own mind or do you too, feel in doubt ?

D.

A CHRISTMAS TREE.

... 'Straight in the middle of the room, cramped in the freedom of its growth by no encircling walls or soon-reached ceiling, a shadowy tree arises ; and looking up into the dreamy brightness of its top I look into my youngest Christmas recollections !... But hark ! The Waits are playing, and they break my childish sleep ! What images do I associate with the Christmas music, as I see them set forth on the Christmas Tree ? Known before all the others, keeping far apart from all the others, they

gather round my little bed. "An angel speaking to a group of shepherds in a field; some travelers, with eyes uplifted, following a star; a Baby in a manger; a Child in a spacious temple, talking with grave men; a solemn Figure, with a mild and beautiful face, raising a dead girl by the hand; again, near a city gate, calling back the son of a widow, on his bier, to life; a crowd of people looking through the open roof of a chamber where He sits, and letting down a sick person on a bed, with ropes; the same, in a tempest, walking on the water to a ship; again on the seashore, teaching a great multitude; again, with a child upon His knee, and other children round; again, restoring sight to the blind, speech to the dumb, hearing to the deaf, health to the sick, strength to the lame, knowledge to the ignorant; again, dying upon a cross, watched by armed soldiers, a thick darkness coming on, the earth beginning to shake, and only one voice heard: "Forgive them, for they know not what they do!" . . . "A moment's pause, O vanishing tree, of which the lower boughs are dark to me as yet, and let me look once more! I know there are blank spaces on thy branches, where eyes that I have loved have shone and smiled; from which they are departed. "But, far above, I see the Raiser of the dead girl and the widow's son; and God is good! . . . "Oh, may I, with a gray head, turn a child's heart to that Figure yet, and a child's trustfulness and confidence. . . ."

—Dickens.

QUESTIONS.

1. (a) Do you think the Christmas tree about which this paragraph was written was a real one—or one which was only imagined?
- (b) Choose any words in the first sentence which you think carry out your idea.
- (c) What in sentence 6 gives a reason for this idea?
- (d) At what time in the writer's life were these words written? Give a reason for your answer.
2. (a) What does he imagine on the branches of this tree instead of gifts?
- (b) Explain "my youngest Christmas recollections"?
- (c) Do you think this extract tells us all, or only some of, the recollections which Christmas brought to the writer.

- (d) What do the dots (. . .) mean?
3. "The Waits are playing" (sentence 2) What does this mean? Does he really hear them or is this only part of his imagination?
4. (a) What question does this Christmas music make him ask of himself?
- (b) In what sentences is this question answered?
- (c) Why are these thoughts included in his Christmas memories?
5. (a) Which are the memories which seem to gather about his little bed when he imagines himself a child again?
- (b) Why are they "known before all the others"?
- (c) "They gather round my little bed,"—why?
6. (a) How many pictures in sentence 5?
- (b) Of whose life are these pictures?
- (c) Find and read the stories of the life of Christ to which the parts of this sentence allude.
- (d) Which are the real Christmas stories of all these?
- (e) Which do you like the best?
7. (a) Sentence 6—Why are the lower boughs dark to him as yet?
- (b) What had he seen in the very topmost boughs?
8. (a) What made the blank spaces on the branches (sentence 7)?
- (b) What thought comforted him when he thought of the blank spaces in his Christmas memories?
9. (a) Sentence 9—"That Figure,"—whose?
- (b) A child's heart, a child's trustfulness and confidence. Explain.

GRAMMAR

PRONOUNS.

(Continued from last issue)

ANTECEDENTS OF PRONOUNS.

As you have already learned, the antecedent of a pronoun is the word or words for which the pronoun stands.

As the form of the pronoun depends frequently upon the form or use of its antecedent, it becomes important to recognize as readily as possible the antecedent of each pronoun.

- (1) The antecedent may be either a noun or a pronoun, as
Those *boys* who were late may remain.
Those who came early may be excused.
- (2) The antecedent, as the word indicates, is generally placed before the pronoun; but it may be placed after the pronoun, as in the sentences:
I, *John*, saw these things.
You, *William*, may go now.
- (3) Sometimes the antecedent is not expressed, as in the sentences

1. They have gone away.
2. Who went with you?

The antecedent of "they" in 1 is known to the speaker and perhaps to the hearer, but it is not expressed.

The antecedent of "who" in 2 is found only in the answer.

(4) Sometimes the antecedent consists of two or more words connected by a conjunction, as in the following sentences:

1. John and James took their sister with them.
2. It was Mary or her sister Jane who was ill.

The subject "John and James" is the antecedent of "their" in 1, and the complement "Mary or her sister Jane" is the antecedent of "who" in 2. In what number is each of these antecedents?

Note carefully the antecedents of personal pronouns, especially when they are separated from their pronouns by several words, as in the sentences

1. One of the men who were sent lost his way.
2. Let each of the girls take her own book.
3. A man's manners frequently show his bringing up.

The antecedent of "his" in 1 is "one"; of "her" in 2 is "each"; of "his" in 3 is "man's."

EXERCISE XII.

Point out the conjunctive or relative and personal pronouns and their antecedents in the following sentences:

1. I do not know my lesson.
2. It was James or Paul who lost his pencil.
3. This is one of the boys that ran away from their homes.

4. Will either of you lend me his pencil?
5. Neither of the men means what he says.
6. The boy brought the book for which he was sent.
7. Every one of us took off his hat.
8. All the boys and girls who came had a pleasant time.
9. Robert had a knife and two pennies in his pocket, which he lost.
10. Mary had a little lamb; its fleece was white as snow. It followed her to school one day, which was against the rule.

PERSON OF PRONOUNS.

Make a list of personal and demonstrative pronouns, dividing them into three groups, namely: (1) those that represent the speaker; (2) those that represent the person spoken to; (3) those that represent the person or thing spoken of. Pronouns of group 1 are in the *first person*; those of group 2 are in the *second person*; and those of group 3 are in the *third person*.

The relative and interrogative pronouns may be in any one of the three persons, depending upon their use, as shown in the following sentences:

1. It was I *who* spoke first.
2. It was you *who* did the best.
3. It was he *who* won the prize.
4. They *who* are wealthy can do these things.
5. *Which* of us shall go? I will go.

Who in 1 is in the first person, because its antecedent is in the first person.

Why is *who* in 2 in the second person?

In what person is *who* in 3, and why?

In what person is *who* in 4, and why?

What does *which* in 5 stand for? In what person is *which* and why?

Use the relative *that* in a sentence in the first person.

From these examples we see that

Pronouns must agree with their antecedents in person.

EXERCISE XIII.

Pick out the pronouns in the following sentences and tell in what person each pronoun is:

1. It was I who found the money.
2. Were you at his house last evening?
3. Are these the books which you asked me to get?

4. Whose knife is that? That is my knife.
5. Was it you who put out the light?
6. They that are whole have no need of a physician.
7. Ye crags and peaks, I'm with you once again.
8. I, John, your brother, ... was in the isle that is called Patmos.
9. I that speak unto thee am he.

GENDER OF PRONOUNS.

(1) The gender of pronouns, like that of nouns is determined both by their form and by their use. Thus the gender of "he," "his," "him," "she," "her," and "it" is unmistakable; but the gender of other pronouns can be known only by their use in sentences; as, for example,

1. The boy *who* went home has returned.
2. I answered the letter *which* came yesterday.
3. *These* are the girls that did so well.
4. The ladies *who* were present removed *their* hats.

Who in 1 is masculine, because it refers to *boy*. *Which* in 2 is in what gender, and why? Give the gender of the italicized pronouns in 3 and 4. If you change the antecedents of these pronouns, shall you be obliged to change the pronouns?

(2) When the gender of the antecedent is not known the pronoun relating to it is masculine. For example, in the sentence "Neither of them could find his way home," the pronoun *neither* is represented by the masculine pronoun *his*.

But some words like "baby," "animal," "fish," etc., which include both males and females are represented by the neuter pronoun "it" or "its," as

The baby is crying for its food.
They chained the dog because it was cross.

(3) When the antecedent consists of nouns of different gender, corresponding pronouns should be used, as

Every boy and every girl must sign his or her name.

Such an awkward use of the pronouns may be avoided by changing the sentence to

All the boys and girls must sign their names.

EXERCISE XIV.

Make a choice of pronouns in filling blanks and give reasons for your choice.

1. The sun has run (his, its) daily course.
2. The ship moves majestically on (her, its) way.

3. If any one wants this (he, she) may have it.
4. When the child fell (he, it) cried lustily.
5. If you are kind to an animal (he, it) will be kind to you.
6. There were ten candidates (who, which) presented themselves.
7. He caught a fish and then cooked (him, it) for supper.
8. The cat mews when (he, she, it) wants something to eat.
9. These are the girls (that, which) did so well.

NUMBER OF PRONOUNS.

Show by examples that number in pronouns like number in nouns is denoted by their form or use.

EXERCISE XV.

1. Define number as applied to nouns and pronouns; singular number; plural number.
2. Make a list of nine personal pronouns. Mark with the letter "S" those that are used in the singular number only; with the letter "P" those that are used in the plural number only; and with the letters "S. P." those that are used in both numbers.

TO THE TEACHER—No answers have been given to these questions. They are simple.

You is the only personal pronoun whose form alone does not indicate its number. How is the number of this pronoun shown? Give examples

1. The following notes may assist you in the use of the demonstrative and indefinite pronouns.
(a) "This," "that," "each," "every" and "one" are used only in the singular number.

(b) "Either" and "neither" refer to one of two persons or things, and are therefore singular. Thus in speaking of two persons we say,

Neither of the two brothers earned his own living.

(c) "None" may be used in both numbers, as
There is none (no one) that doeth good, no, not one.

None (not any) of these things move me.

(d) "Few," "many," "these," "those," and "several" are used only in the plural number.

(e) "Some" when it refers to quantity is singular; but when it refers to number it is plural. Thus we should say, "Some of the flour was

wasted," and "Some of the books were torn." The pronouns "all" and "any" are also used in this way, as

All of the boys	} were found.
Not any of the boys	
All of the money	} was found.
Not any of the money	

(f) "Former," "latter," "first," "last," and "same" may refer to singular or plural substantives, and therefore may be in either number, as

I was	} the first to arrive.
We were	

The first settlers of New England were Pilgrims and Puritans; the former were Separatists, the latter were not.

Mr. Smith and his brother were pupils of mine; the former was always good in his studies, but the latter was somewhat slow.

It was	} the same that I saw before.
They were	

2. We cannot tell from the form of a relative or interrogative pronoun whether one object or more than one is meant. As in gender and person, so in number, pronouns agree with their antecedents; that is, the number of a pronoun is always the same as that of the word for which it stands. For this reason, if we do not know the number of a pronoun from its form, we have only to ascertain the number of its antecedent. What is the number of "who" in each of the following sentences?

That is the boy who was injured.

Those are the boys who were injured.

In the sentence "He is one of the greatest actors that have ever been here," "that" is plural to agree with its antecedent, "actors."

NOTE—In such sentences as this the mistake is frequently made of regarding "one" as the antecedent of "that," and of saying, therefore, "He is one of the greatest actors that has ever been here."

3. Great care should be taken in using pronouns the antecedents of which are compound in form. In the sentences "It is President and governor who are to be voted for" and "It is President or governor who is to be voted for," what is the antecedent of "who" in each sentence? What is the number of "who" in the first sentence? in the second sentence?

In the sentences "The secretary and treasurer resigned his position" and "The secretary and treasurer resigned their positions," why is "his" used in the first sentence and "their" in the second?

In the sentence "Mary or Rose may bring her composition here to be corrected," why is "her" and not "their" used?

4. Mistakes are frequently made in the use of pronouns whose antecedents are collective nouns or indefinite pronouns, especially when the pronoun and its antecedent are widely separated. For example, in the sentence "Neither of my brothers brought his books," the indefinite pronoun "neither" is singular and therefore requires "his" and not "their" to be used.

In the sentence "The Board of Aldermen adjourned its session at ten o'clock," the collective noun "Board" is used in the singular and therefore requires the pronoun "its" to be used. But in the sentence "The Board of Aldermen were divided in their opinion," "their" and not "its" is used, because the antecedent, "Board" is used in the plural.

A pronoun agrees with its antecedent in person, number, and gender.

EXERCISE XVI.

Examine carefully the use of the pronouns in the following sentences:

1. Each of the girls gives what she can.
2. One of the boys brought his camera with him.
3. Let every one do what he pleases.
4. Neither of the ladies did what she planned to do.
5. That is one of the men who were injured.
6. He sold each of the farms for what it was worth.
7. Some of the money which he lost was found.
8. It is John or William who has forgotten to ring the bell.
9. Every one may have a ticket if he is willing to pay for it.
10. Will either of you lend me his knife for a few minutes?
11. Every man and every boy present did as he was told.
12. Everybody went into the woods and amused himself as best he could.

EXERCISE XVII.

Give the person, number, and gender of each pronoun in the following sentences and give the reason for its use :

LATHING, PLASTERING AND PAINTING.

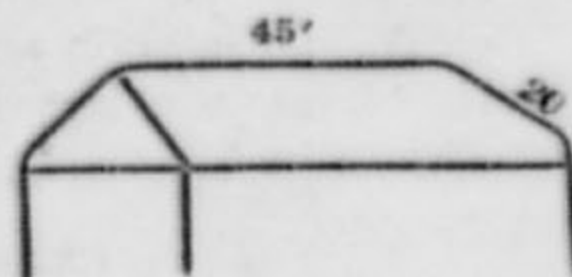

1. How many square yards of plastering in the walls and ceiling of a room 16 ft. by 20 ft., and 9 ft. high, deducting 14 sq. yd. for openings and baseboard?
2. How many square yards of plastering in the walls and ceiling of a hall 60 ft. long, 40 ft. wide, and 28 ft. high, deducting 36 sq. yd. for openings and baseboard?
3. What will it cost to plaster a schoolroom 32 ft. long, 18 ft. wide, and 12 ft. high, at 32c. a square yard, deducting 50% of the area of the walls on account of blackboards, baseboard, and openings?
4. On account of the danger of falling plaster, some school trustees decided to use pressed steel ceilings. There were 742 sq. yd. of ceiling in the building, and they let a contract for putting up the steel ceilings at 10c. a square foot. How much did the ceilings cost?
5. How many square yards of plastering on the walls and the ceiling of a room 15 feet long, 12 feet wide, and 9 feet high?
6. What is the cost, at 30c. a sq. yd. of plastering the walls and ceiling of a room 28 ft. 8 in. long, 18 ft. wide, 12 ft. high, deducting 20 sq. yds. for openings?
7. Find the cost, at 35c. a sq. yd., of plastering the walls and ceiling of a room 36 ft. long, 24 ft. wide, 14 ft. high, deducting for 3 openings, each 10 ft. high by 7 ft. wide, and for 8 openings each 7 ft. high by $3\frac{1}{2}$ feet wide.
8. At 15 laths to the square yard, how many will be used for the walls and the ceiling of a room 18 feet long, 15 feet wide, 9 feet high, allowing for two windows, each 6 feet by $4\frac{1}{2}$ feet, and a door 8 feet by $4\frac{1}{2}$ feet?
9. The assembly hall of a school building is 80 ft. by 54 ft. by 22 ft.; find the cost of tinting the walls and ceiling at \$3.50 per square. (A square contains 100 sq. ft.)
10. At \$.95 per square, find the cost of painting the walls and ceilings of six school-rooms, three rooms being each 33 ft. by 24 ft. by 14 ft., and the other rooms being each 33 ft. by 24 ft. by 12 ft., no deduction being made for openings.

ROOFING.

1. a. How many shingles laid 6 inches to the weather are required for one square foot of roof?

b. For one square of roof? c. For a roof 20 ft. long, each slanting side of which measures 9 ft. in width?

2. Find the cost of the shingles for this roof at \$4.50 per M. (1000 shingles), estimating that 675 shingles will make one square of roof.

3. Find the cost of the shingles for a roof 36 ft. long, each slanting side 19 ft. wide; the shingles being laid so that seven shingles make one square foot of roof, and costing \$5.20 per M.
4. A shed roof 18' $\times$ 40' slants only one way. Find the cost of the shingles required for it at \$4.80 per M., the shingles being laid so that 7 $\frac{1}{2}$ shingles make one square foot of roof.
5. Find the cost of the shingles at \$6 per M. to cover 15 squares of roof, the shingles being laid 6 inches to the weather.
6. The shingles for a roof cost \$68.25. Each side of the roof measured 25 ft. by 35 ft., and the shingles were laid so that 6 $\frac{1}{2}$ shingles made a square foot of roof. Find the price per M.

CARPETING.

1. There are 15 steps on the hall stairs. The tread is 12", the rise 7 $\frac{1}{2}$ ". What will sufficient stair carpet cost at 72c. a yard, allowing $\frac{1}{10}$ extra carpet for the projection of the tread?
2. How many yds. in length of a carpet $\frac{3}{4}$ yd. wide are necessary to cover a floor 6 $\frac{1}{2}$ yds. long, 4 $\frac{1}{2}$ yds. wide, if the carpet is laid lengthwise of the room? How many yds. if laid across the room?
3. How many yds., in length, of carpet $\frac{3}{4}$ yd. wide will cover a floor 31 ft. long, 16 ft. wide, if the carpet is laid lengthwise of the room, and 4 inches on each breadth are needed to match the pattern? Find cost of the carpet at \$1.25 a yd.
4. A room is 5 yd. 1 ft. 8 in. long by 3 yd. 2 ft. 3 in. wide. The carpet to cover it is $\frac{3}{4}$ yd. wide. What will be the cost of the carpet, at 90c. a yard, if laid most economically? How much money is lost by laying the carpet the other way?
5. Which is the more economical way of laying carpet 2 ft. 3 in. wide on a floor 26 ft. long by 10 ft. 6 in. wide?
6. A rug, 6 yds. long by 5 yds. wide, covers the floor of a parlor, except a strip 18 in. wide around the room, between the rug and the walls. How many square feet of the floor are exposed?

PICTURE STORY

CONVERSATION.

1. Whose bird do you think this is?
2. On whose hand is the bird standing?
3. What is the bird eating?
4. What kind of a bird is it?
5. What birds are content to live in cages?
6. What birds are classed as song birds?
7. What birds destroy insects?
8. What birds are called game birds?

FOR WRITING.

(Be careful to use the proper form of possession.)

1. Write whose bird you think it is.
2. Write a sentence about the bird's food.
3. Write a sentence about the bird's cage.
4. Write a sentence about the boy's hand.
5. Write a sentence about the children's faces.
6. Write a sentence about the bird's singing.

EXERCISE.

Copy these sentences neatly:

1. Birds that give music should not be killed.
2. Birds that destroy insects should not be killed.
3. Game birds should not be killed out of season.

4. Caged birds should be cared for regularly.
5. A caged bird can be tamed by kindness.
6. Birds' nests are their homes and should not be robbed.

Draw the picture of a bird and color it to suit yourself. What kind of a bird have you drawn? Can you imitate his song?

REPRODUCTION STORY

THE STORY OF A FLOWER.

Some little brown flowers grew by the wayside. They were not at all beautiful. But they tried to be contented. A good fairy noticed their behavior. She felt sorry for their ugliness. One morning she placed them on a cushion. Then she turned them into one tall flower. And she gave this flower a golden crown. The flower is very happy now. It looks at the sun all day long. Can you guess its name?

Read this story silently.

Tell it aloud to some one.

Read it again carefully to see if you forgot any part of it.

Write it without using the paper.

Tell the name of the flower.

LESSON XVIII.

A PICTURE STUDY.

Try to make up for your teacher an interesting story about the picture in Lesson XVI. (See last issue.) If you do not think of much to say, ask yourself questions about:

What is in sight. What draws the train. What it runs upon. How fast the train moves. Who are in it. Where it stops. Why.

Where Dr. Gay has been left. Where the boy is going. What kind of horse he has. What kind of carriage. Why the horse has stopped. How he feels. The danger. The warning of the engineer.

Write the description or the story that you have made.

LESSON XIX.

A SELECTION TO LEARN.

Learn this selection and write it from memory:
The robin had built in the apple-tree high;
Low down in the moss dwelt the sparrow so shy;
The wren wove her nest in the jessamine fair;
The oriole hung up his castle-in-air—

Heigh-ho! how do they know

Every summer to build them just so?

—The Wide-Awake.

LESSON XXI.

A CHOICE OF WORDS.

Write five statements and five questions, using one of these words in each:

led	no	meat	new	wood
lead	know	meet	knew	would

Spell a word similar in sound to each of the following, and use it in a sentence:

bin	red	see	sum
bow	right	sale	pair
pane	lain	son	rows

LESSON XXI.

CONTRACTIONS.

Frank is not here.

I was not absent.

Mary has not gone.

1. Read the sentences that are alike in meaning.

Frank isn't here.

I wasn't absent.

Mary hasn't gone.

- How are they unlike?
- How do we make *isn't* from *is not*?
- Of what words is *wasn't* made?
- What letter is omitted in the short, or contracted form?
- What takes its place?

Not is often contracted to *n't*, and written as part of the word before it. The *apostrophe* (') takes the place of the letter left out.

Write contractions of the following expressions: use them first in statements and then in questions:

is not	does not	had not
was not	did not	have not
would not	has not	do not

NATURE STUDY

VENTILATION.

CLASS II.

1. Did you ever come into a closed room where people had been sitting? Did the air in the room seem as fresh and nice as out-doors?

2. Did you ever sit for a long time in a closed room where there were several people. How did you feel?

3. Ask some one to tell you what would happen to people shut up in such a room for a long time. Try to find out if they have heard of such a thing really happening and remember it to tell the class.

4. What do we need in order to feel comfortable and be strong and healthy?

5. Where is this fresh air to be found in an unlimited supply?

6. Fresh air is always pushing to get in where it can and the breathed bad air in a room is always pushing to get out. If a box is full of sand can you fill it with apples? If a room is full of bad air can the fresh pure air get into it?

7. What must we do with the bad or impure air before the fresh air can come in?

8. How does fresh air come into your school-room? Into your sitting-room at home? Into the church? Into your bedroom?

9. Do animals need fresh air too? How does fresh air get into the stable?

10. How does the impure air get out of the school-room? Your sitting-room at home? The church? Your bedroom?

LOVE.

The night has a thousand eyes,
And the day but one ;
Yet the light of the bright world dies
With the dying sun.

The mind has a thousand eyes,
And the heart but one ;
Yet the light of a whole life dies
When love is done.

—F. W. Bourdillon.

QUESTIONS.

1. (a) What are the eyes of the night ?
- (b) Have you ever seen them looking down at you ? How many are there ?

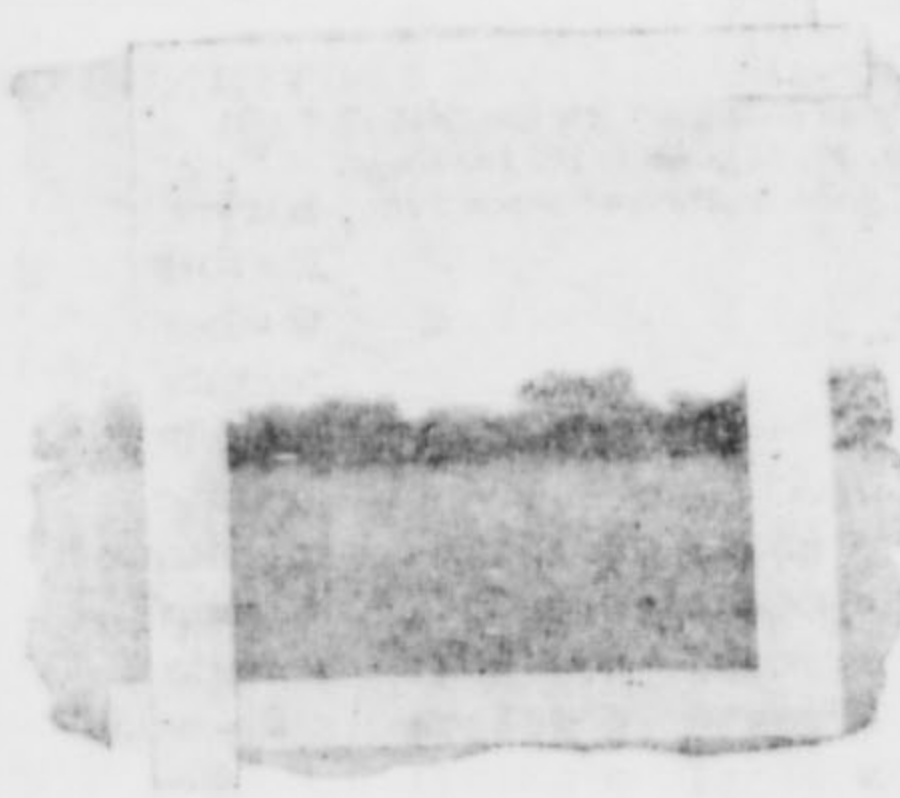

- (c) What is the eye of the day ?
2. (a) Which gives the most light the one eye of the day or all the night's thousands of eyes ?
- (b) Which gives the most heat ?
3. (a) *The dying sun*,—when does the sun seem to be dying ?
- (b) What happens after the sunset ?
- (c) Write the lines of the poem which tell this.
4. (a) What are some of the things that you do with your mind ?
- (b) What do you do with your heart ?
- (c) Does it make you feel happy to think of the people that you love ?
- (d) Do you think a person could be happy who hadn't anybody or anything to love.
- (e) Write the two lines of the poem which tell this.

DRAWING

MAKING AND USING THE FINDER.

A finder is made by cutting two pieces of cardboard, as shown in Fig. 1. When placed together, as shown, they serve as a frame for the sketch. Since they can be moved about at will, the size and proportion of the frame can be varied until the best arrangement within the enclosure is determined. When work is to be arranged within an enclosure, or when it is to be trimmed and used on calendars or booklets, as in

Figs. 2 and 3, this little device will be found very helpful. If the sketch is trimmed and the arrangement afterwards found to be undesirable, it cannot be changed. By the use of the finder, a great many arrangements can be made and one decided upon as best, before any trimming is done. After you have chosen the arrangement you like best and with the finder still on the sketch, as shown in the illustration, mark inside the finder, thus making an enclosure to which the drawing may be trimmed. In this way make several compositions from sketches you already have, or from others which you may make

PICTURE LESSON

Your little sister has never seen this picture. Perhaps you would like to tell her about it when you go home.

How many living things are in the picture? How many persons do you see? How old are the children? Do you think the woman is the mother of the children? What is she doing? What is the boy doing? Where is the baby? What has he in his hands? Is he afraid? Does the goat like to play horse? Will the baby have a ride?

WRITTEN EXERCISES.

1. Write an answer to each of the questions above.
2. Write a story about the picture to give to your sister.

REPRODUCTION STORY

THE BLIND MAN AND THE LAME MAN.

A very rich man was to give, in a few days, a great feast. It was to last all day. A blind man and a lame man wanted to go to the feast.

The lame man was very lame, and he could not walk so far. The blind man was big and strong, but he did not know the way.

The blind man came to the lame man and said: "We must both go to the feast. You know the way there. I do not know the way. I will carry you. You must be the head and eyes, and I will be the body and legs."

"Very good!" said the lame man. "I want to go very much. You are very kind to carry me. If you will be the body and legs, I will be the head and eyes, and we can both go."

The blind man took the lame man upon his back, and in this way they both went to the feast, and had a fine time.

1. Read the story carefully.
2. Close your paper and tell it to some one.
3. Where did these two men want to go?
4. Why could they not go at first?
5. How did the blind man help the lame man?
6. How did the lame man help the blind man?
7. Write the story without looking at the one in the paper.
8. Write a story to tell how a girl who couldn't sew and a girl who couldn't draw helped each other.
9. Write a story to tell how a boy who couldn't make a kite and a boy who had a lot of work to do helped each other.

NATURE STUDY

VENTILATION.

1. Draw the air out of a clean empty bottle into your mouth. Take a deep breath and breathe into the bottle as hard as you can. Cork the bottle without letting any of the air out and put it away for a day or two. Then take out the cork. How does this air smell?
2. Is breathed-out air as nice and fresh as out-door air?
3. What happens to the air we breathe out when we are in a room?
4. Would it be good to breathe over again?
5. What kind of air should we breathe?
6. Where does it come from?
7. How does it get into the school-room in summer? In winter?
8. How does the bad, breathed-out air get out of the school-room?

LESSON XVII.

Write statements to answer these questions :

1. What kind of house is this ?
2. Who is in the house ?
3. Is the little boy playing dog ?
4. What is on the ground near the boy ?
5. Is the little dog angry ?
6. Does he say, "Bow-Wow ! Come out of my house" ?
7. Does he say, "Go to your own house. This one is mine" ?
8. What is the dog's name ? How do you know ?

LESSON XVIII.

To the Teacher.—The point to be developed in this lesson is that in every statement there must be something about which the statement is made, and there must be something stated. A few of the incomplete groups of words may be placed on the board, as—

The good boy. Swim in the sea.
Have you said anything about "The good boy" ? Have you stated anything ? What is a statement ? Then is this a statement, "Swim in the sea" ? What swim in the sea ? What are you talking about ? You see there is nothing to tell what you are talking about.

Copy only the groups of words that make statements :

1. The good boy.
2. The time of day.

3. The squirrel looked at the chestnuts.
4. Scholars write with pens on paper.
5. Little drops of water, little grains of sand.

6. Little drops of water make the mighty ocean.

7. The cherry tree which George Washington cut down.

8. Swim in the sea.

9. Ida sings sweetly.

Copy and learn :

In every statement there must be something about which the statement is made, and there must be something stated, or told.

Now copy the groups of words that do not make statements. Add other words to them, so that each shall tell something.

LESSON XIX.

Write statements by using one of each of the words in the left-hand group with one of each in the right-hand group—thus :

Baby cries.

Baby	Parrots	} ripen spin cries talk melts growl	grow
Plants	Leaves		twinkle
Stars	Fire		play
Tops	Ice		fall
Children	Monkeys		burns
Cherries	Bears		chatter

LESSON XX.

Copy, and draw one line under the word or words that show *about what* each statement is made, and two lines under the words that show *what is stated* :

1. The robin sings.
2. The pretty robin sings in the tree.
3. I love little pussy.
4. Rivers flow to the sea.
5. Fido was a wise dog.
6. The busy bee makes honey.
7. Our baby slept and smiled.

DIVIDING BY 2 AND 3 : REVIEW.

1. At 2 cents each, how many pencils can you buy for a dime ?
2. At 3 cents, how many peaches can you buy for 6 cents ? How many for 9 cents ? How many for 12 cents ?
3. At 2 cents each, how many picture postal cards can you buy for 8 cents ? How many for 10 cents ? How many for 12 cents ? How many for 14 cents ?
4. How many two-cent stamps can you buy for 16 cents ? How many for 18 cents ? How many for 20 cents ?
5. How many quarts in 6 pints ? In 8 pints ? In 16 pints ? In 20 pints ?
6. How many yards in 6 feet ? In 9 feet ? In 12 feet ?
7. In 15 feet how many yards ? In 27 feet ?
8. Give quickly :

4 ÷ 2	10 ÷ 2	14 ÷ 2	6 ÷ 3	9 ÷ 3	15 ÷ 3
6 ÷ 2	20 ÷ 2	12 ÷ 2	12 ÷ 3	18 ÷ 3	27 ÷ 3
8 ÷ 2	16 ÷ 2	18 ÷ 2	21 ÷ 3	24 ÷ 3	30 ÷ 3

TABLE OF 2'S AND 3'S.

2 ÷ 2 = 1	12 ÷ 2 = 6	3 ÷ 3 = 1	18 ÷ 3 = 6
4 ÷ 2 = 2	14 ÷ 2 = 7	6 ÷ 3 = 2	21 ÷ 3 = 7
6 ÷ 2 = 3	16 ÷ 2 = 8	9 ÷ 3 = 3	24 ÷ 3 = 8
8 ÷ 2 = 4	18 ÷ 2 = 9	12 ÷ 3 = 4	27 ÷ 3 = 9
10 ÷ 2 = 5	20 ÷ 2 = 10	15 ÷ 3 = 5	30 ÷ 3 = 10

MULTIPLYING AND DIVIDING BY 4.

1. How many :

4	5	6	7	8	9
4	5	6	7	8	9
4	5	6	7	8	9
4	5	6	7	8	9

2. $4 \times 4 = ?$ $4 \times 5 = ?$ $5 \times 4 = ?$ $4 \times 6 = ?$ $6 \times 4 = ?$
3. $4 \times 7 = ?$ $7 \times 4 = ?$ $4 \times 8 = ?$ $8 \times 4 = ?$ $9 \times 4 = ?$

When we multiply one number by another, the result is the PRODUCT.

4. Give the products quickly :

3	5	4	3	9	8	4	9	2	5
4	3	6	7	2	3	2	3	7	4

3	2	9	2	4	2	6	4	6	2
3	3	4	5	7	2	3	8	2	8

5. $4 \div 2 = ?$ $6 \div 2 = ?$ $6 \div 3 = ?$ $9 \div 3 = ?$

When we divide one number by another, the result is the QUOTIENT.

6. Give the quotients quickly :

8 ÷ 2	15 ÷ 3	12 ÷ 4	21 ÷ 3	20 ÷ 4
10 ÷ 2	12 ÷ 3	18 ÷ 3	16 ÷ 4	24 ÷ 3

SNOW.

This is the way the snow comes down,
Softly, softly falling ;
So God giveth the snow like wool,
Fair and white and beautiful.
This is the way the snow comes down,
Softly, softly falling.

Whene'er a snow-flake leaves the sky,
It turns and turns to say : "Good-bye,
Good-bye, dear cloud, so cool and gray,"
Then lightly travels on its way.

QUESTIONS.

1. What time of the year do we have snow ?
Write the names of the months ?

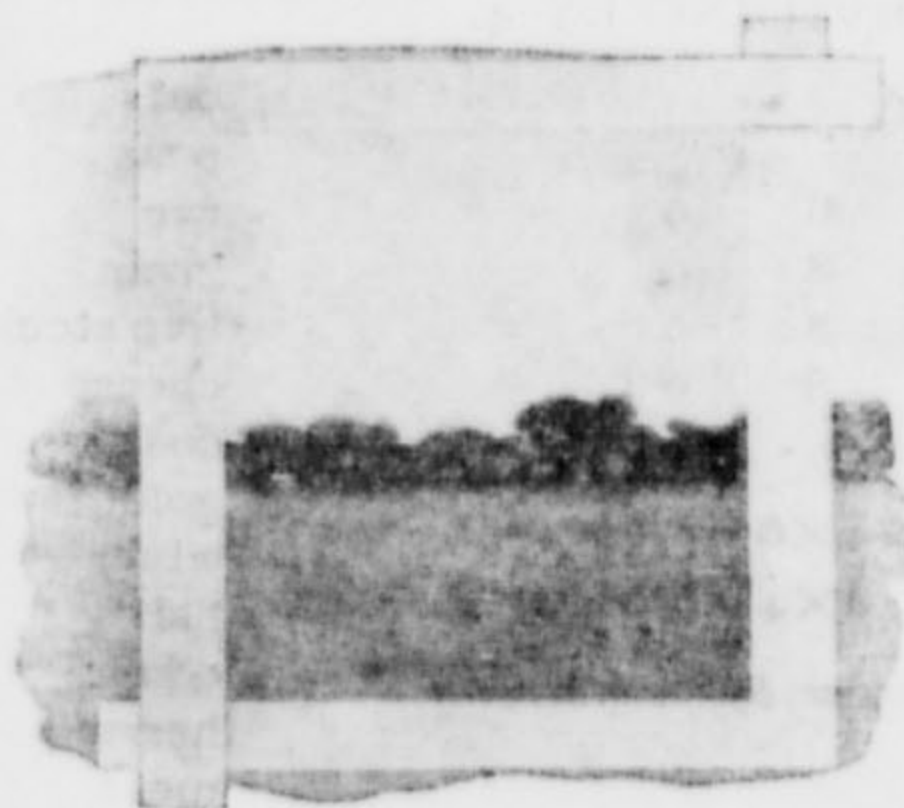

2. How does the snow come down ?
3. In line 3, what is the snow said to be like ?
4. Did you ever read that anywhere else ?
5. Ask some one to read you Psalm 147, verse 16.
6. What three words in line 4 tell what the snow is like ?
7. When you look straight up at the snowflakes when they are falling what do you see them doing ?
8. Why does this poem say they turn like that ?
9. What do they say ?
10. Are all the snow-clouds gray ?
11. How would you say *travels on its way* ?

MOROCCAN TREATY SIGNED.

The Moroccan war cloud was dispelled finally when the long-discussed treaty between France and Germany on the subject was adopted. This treaty grants France all her demands; it concedes to her a predominant influence in the whole of Morocco. All that Germany gets for her interference is a very small wedge of territory south of Lake Chad and a small frontage on the Congo, to give her a port on that river. She will retire from Agadir, the Moroccan port which she seized in order to force France to divide up. The French Premier Caillaux in a public statement declares that the time has come when Africa can no longer be closed to civilization by barbarism. The idea of "Morocco for the Moroccans" will no longer do, he says, for Morocco is so near Europe that peace and order must be maintained there. Traders of other nations will be protected, but France will hereafter have a free hand among the Moors.

Luckily the wars in Tripoli and China cropped up to occupy attention, else the humiliating bargain which Germany made with France over cutting the Morocco melon would have caused much more trouble than it has. Even now it has made lots of bad feeling in Germany, for it is felt that the government backed down before English threats. A big rumpus was raised in the reichstag (German Parliament) over the matter. Herr Bebel the Socialist leader demanded that this and all treaties should be submitted for approval or rejection to the reichstag. Conservative Leader Heydebrand, known as the "Uncrowned King of Prussia," was very bitter toward England; Ger-

mans would be found ready, said he, to make sacrifices of fortune and life in order to fight this enemy. "The German people will give a German answer to this English question," he asserted. Crown Prince Frederick William was present during the stormy session and lent encouragement to the critics of his father's government. It is reported that Emperor William was very angry when he heard of this and rebuked the future emperor-to-be with unmistakable severity.

THE ITALO-TURKISH WAR.

Reliable news of the Italo-Turkish war is meager. The dispatches are so conflicting that it is obvious that most of them are made up out of whole cloth in the newspaper offices. Correspondents who have told the situation too graphically have been expelled from Tripoli by the Italian authorities. The Italians in Italy and abroad are incensed at the criticisms that have been made against their government for seizing Tripoli and they deny the charges of cruelty made against their soldiers. More or less fighting seems to be going on around Tripoli and the neighboring ports, but nothing decisive. The Italians are said to use a fleet of balloons for scout purposes, in locating the enemy, and the Arabs are much exercised over these craft, which they regard with superstitious fear. There is small chance that any of the powers will mix in the war, in spite of the international peace treaty. The practice is not to intervene in such cases unless both sides ask for a peacemaker. Turkey has called for intervention, but Italy would spurn it.

THE PORT OF TRIPOLI, AS VIEWED FROM THE SEA

THE MAINE LIQUOR LAW.

For over forty years the State of Maine has had a prohibitory liquor law. The liquor interests brought on a contest to repeal the law. For a long time the results were in doubt. Alternately Maine was said to be *dry* and said to be then *wet*.

Finally the government made a re-count and the state is officially proclaimed *dry* by a majority of 758.

HE WHO LAUGHS LAST LAUGHS BEST

Our cartoonist has put the situation very graphically. The liquor interests figured as a beer barrel with a grip full of bottles in his hand is leaving Maine (see the map under his feet) on the jump, holding the proclamation "Maine Stays Dry" in his other hand.

ACROSS THE CONTINENT IN AN AIR SHIP.

The wonderful tales in the "Arabian Nights" are being outdone every day by the marvellous achievements of modern science. The aeroplane flight of Galbraith P. Rodgers across the continent from New York City to Pasadena in California is the latest of these modern miracles. Our grandfathers, even our fathers, twenty years ago would have laughed the prediction of such an achieve-

ment out of the realm of remote possibilities.

Starting from Sheepshead Bay race-track, Long Island, New York, on September 17, Mr. Rodgers reached Pasadena, a suburb of Los Angeles, on November 5, having traveled a distance of 3,220 miles in forty-nine days. The best previous cross-country record was Harry N. Atwood's flight of 1,265 miles from St. Louis to New York. (See Canadian Teacher, page 154.) Rodgers' success was wrested by courage and perseverance from a long series of mishaps. At the beginning of his second day's flight his Wright machine crashed into a tree, and four days later it broke two propeller-blades in a collision with a barbed-wire fence. A string of minor accidents and mishaps worried him across half a dozen States. But he came through his adventures practically uninjured, although, according to a Pasadena dispatch, "his machine has been broken and repaired so many times that only the vertical rudder and the dripping-pan remain of the original outfit with which he started."

Five years ago the Wright Brothers were the only men in the world who could fly in heavier-than-air machines. In the fall of 1906 they pointed with pride to the fact that they had been up in the air 160 times and had covered altogether exactly 160 miles, or an average of a mile each flight, but there was one wonderful record of being up for over half an hour, and covering twenty-four miles.

And now we have just seen aviator Rodgers complete his journey of over 3,100 miles, from New York to Los Angeles, in less than six weeks, and a total flying-time of about three days.

RODGERS AND HIS ROUTE.

COMPOSITION

HILDA'S CHRISTMAS.

Standing apart from the childish throng,
Little Hilda was silent and sad ;
She could not join in the happy song,
She could not echo the voices glad.

"What can I do on Christmas day ?
I am so little and we are so poor."
She said to herself in a dreary way :
"I wish there never was a Christmas more."

"Mother is sick, and father can't know
How children talk of their gifts and joy,
Or he'd surely try, he loves me so,
To get me just one single toy."

"But Christmas is not for what you get,"
She heard a small, sweet, tender voice,—
"It's for what you give," said wee Janet,
And the words made Hilda's heart rejoice.

"It isn't our birthday," went on the mite,
"It is Christ's, you know ; and I think He'd say
If He were to talk to us to-night,
That He'd wish us to keep it His own way."

A plan came into Hilda's head ;
It seemed to her she could hardly wait ;
"I can't give nice things," she bravely said,
"But I'll do what I can to celebrate."

"I can give the baby a day of fun ;
I can take my plant to the poor, lame boy ;
I can do mother's errands—every one ;
And my old kite I can mend for Roy."

"I can read to father and save his eyes ;
I can feed the birds in the locust grove ;
I can give the squirrels a fine surprise,
And grandma shall have a letter of love."

Now when that busy day was done,
And tired Hilda crept to bed,
She forgot that she had no gift of her own—
"What a lovely Christmas it was !" she said.

I. Tell the story of this poem in your own words.
Be sure to tell :

1. Where Hilda was and what she was doing.
2. What she thought about Christmas.
3. What Janet said about Christmas.
4. Hilda's plans.
5. How Hilda liked Christmas day.

II. Tell some other Christmas story.

DRAWING

MAKING CALENDARS.

Illustrations on this page show calendars that can readily be made by small or older children. At the first of these lessons you were asked to save all the work of the class. These drawings may be used in the manner shown on this page. Sprays of grass and leaves, with pencil or in color, autumn flowers, simple landscapes, offer suitable material for calendars. The teacher may have mounting board cut to the desired size at any print shop. A pupil's sketch may then be trimmed and mounted upon the card, and below the drawing may be pasted a small calendar pad. In this way the children are able to construct this very useful article in an acceptable manner. Calendars are specially interesting at this time of the year, and may afterwards be utilized as Christmas or New Year's gifts by their makers.

NATURE STUDY

ANIMALS IN WINTER.

1. How do the wild animals manage to live and keep warm during the winter ?
2. What is meant by hibernating ? Do you know any animals that do this ? Tell where they sleep all winter. How do they manage to live until spring without food ?
3. How do hibernating animals know when to wake up ? Do they ever waken too soon ?
4. What common animals that you know stay awake and hunt all winter ?
5. How do squirrels, chipmunks, field-mice, muskrats, gophers, porcupines, hares, and rabbits, weasels, foxes, and skunks get food during the winter months ?
6. Which of these store up food for winter use ?
7. What happens the birds in winter ? At what time do they migrate ? When return ?
8. What birds remain all winter ? Where do they stay ?
9. What birds come to us only for winter ?
10. How are the birds kept warm ?

REPRODUCTION STORY

A REMEDY THAT FAILED.

Read this story carefully :

"I don't see why Charlie cries so much," said mamma. "I do," said Uncle Ned ; "it's because of his curls. He looks so much like a girl that he thinks he must act like a girl." And Charlie listened !

Soon you might have heard *patter, patter*, as a little boy mounted the stairs one step at a time, and two feet on each step.

Then you might have heard a *scrape, scrape*, as somebody felt through Mamma's big workbasket.

Then a big chair was pulled up before the mirror, and somebody with short legs puffed and blew and struggled to mount it.

Then *click, click, snip, snap* went the shears, and the light curls dropped one by one to the floor, leaving the funniest little cropped head you ever saw.

"Now," said Charlie, in a satisfied tone, "this little boy will never cry again."

But he did : Can you tell why ?

ORAL.

What was the "remedy ?"
What was it a remedy for ?
Why did it fail ?

WRITTEN.

Read the story silently, twice.
Then write it in your own words.

SPELLING

WORDS FOR CHRISTMAS AND NEW YEAR'S.

Christmas	peace	aunts
stocking	good-will	uncles
Santa Claus	shepherds	cousins
decorations	thanks	nephews
holly	delight	nieces
mistletoe	guests	arrival
dancing	friends	welcome
music	carols	snow-drifts
presents	surprise	driving
holidays	toboggan	sleighting
Jesus	moccasins	evergreen boughs
manger	snow-shoes	rink
angels	skating	pictures
Bethlehem	parents	family party
desert	cranberries	

LANGUAGE

LESSON XXXIV.

A STORY TO BE GUESSED.

Dozing, and dozing, and dozing !
Pleasant enough,
Dreaming of sweet cream and mouse-meat—
Delicate stuff !

Waked by a somersault, whirling
From cushion to floor ;
Waked to a wild rush for safety
From window to door.

—Lucy Larcum.

I. Copy these two stanzas. Decide what they are about ; who wanted the chair ; and who came bounding in with his mouth open and with dreadfully fierce eyes.

II. Put the whole into a story, and make up an ending by telling what finally happened.

LESSON XXXV.

NINE PLURALS WITHOUT S.

Nine common names make their plurals without s. They are:

man	men	foot	feet
woman	women	tooth	teeth
child	children	mouse	mice
ox	oxen	louse	lice
goose	geese		

Make sentences, using two of the preceding words in each sentence.

Most names ending in o are made plural by adding s; some common ones, however, add es to form the plural.

Learn to spell the following plurals. Then use each in a sentence.

cargoes	mottoes	volcanoes
calicoes	negroes	grottos
echoes	potatoes	pianos
heroes	tomatoes	solos
mosquitoes	torpedoes	zeros

LESSON XXXVI.

POSSESSIVES.

- How do most plurals end?
- How do most plurals make the possessive?
- What are the nine names that form their plural without s?
- Give their plurals.

The "nine plurals without s" are made to show possession by adding 's, just as in the singular.

Which of these objects are spoken of as having more than one owner?—

a man's boot	children's hands
men's hats	an ox's yoke
a woman's shoes	oxen's horns
women's gloves	a goose's foot
a child's hands	the mouse's nest

Remember that:

In making names possessive we add only the apostrophe to plural names ending in s; but to all other names we add 's.

I. About each of these words ask yourself, first, "IS IT PLURAL?" ; second, "DOES IT END IN S?" and then write its possessive.

girls	Charles	banjos
women	ladies	children

wife	oxen	Mr. Ross
monkeys	foxes	thieves
altos	milkmen	buffaloes

II. In one column write the singular of these words, and in another write their plural, then change all the words in both columns into possessives:

Gentleman; lady; boys; girls; women; child; fairy; negro; calf; hero; church; donkey; lily; Germans; enemy; Englishman; sheep; ostrich.

ABOUT A PICTURE.

LESSON XXXVII.

I. In a conversation about parrots, learn what their habits are, where they are native, and what power they have of imitating speech. Tell about some particular parrot if you can.

II. Make up a story of "Poll's Morning Call," as you imagine it from the picture.

First describe Poll; her early home, who brought her, who owned her, how and where she was kept, what she liked to eat, how much freedom she had. Then narrate the morning call, giving the conversation between Poll and little Peter.

III. When you write the story, be careful to use quotation marks without a mistake.

HOUSE-BUILDING.

LESSON XXXVIII.

Observe the houses that you pass on your way to school; ask and talk about all that is used in building them; then write upon the subject. Make short sentences.

- What are houses?
- Of what three materials are they chiefly made?
- Of what kinds of wood?
- Where does it come from?
- Of what kinds of stone?
- Where are the quarries?
- Of what are bricks made?
- How are they fastened together?
- Of what is mortar made?
- With what are roofs covered?
- Why are houses painted?
- What metals are used in building, and for what purposes?

ABOUT SHOES.

LESSON XXXIX.

After a conversation lesson write, without the book, the best that you can about "Shoes."

- Do all tribes and peoples wear shoes?
- What strange kinds have you ever seen?
- Of what were they made?
- Of what are our shoes made?
- Name several parts of a shoe.
- How are they fastened together?
- Name several different kinds of shoes.
- What are overshoes?
- Of what are they made?
- Where does this substance come from?
- What animals wear shoes? Why?
- How many shoes does a horse wear?
- An ox?
- Why does one need more shoes than the other?

WRITTEN READING

A CHRISTMAS CAROL.

"What means this glory round our feet,"

The Magi mused, "more bright than morn?"

And voices chanted clear and sweet,

"To-day the Prince of Peace is born."

"What means that star," the Shepherds said,

"That brightens through the rocky glen?"

And angels, answering overhead,
Sang, "Peace on earth, good-will to men!"

'Tis eighteen hundred years and more
Since those sweet oracles were dumb;
We wait for Him, like them of yore;
Alas, He seems so slow to come!

But it was said, in words of gold
No time or sorrow e'er shall dim,
That little children might be bold
In perfect trust to come to Him.

All round about our feet shall shine
A light like that the wise men saw,
If we our living wills incline
To that sweet Life which is the Law.

So shall we learn to understand
The simple faith of shepherds then,
And, clasping kindly, hand in hand,
Sing, "Peace on earth, good-will to men."

And they who do their souls no wrong,
But keep at eve the faith of morn
Shall daily hear the angel song,
"To-day the Prince of Peace is born!"

—Lowell.

QUESTIONS.

- (a) Who were the Magi?
(b) What was the glory they spoke of?
(c) Whose were the voices that chanted?
(d) Who was this Prince of Peace?
(e) Refer to Matt. II., 1-11 and read the story there.
- (a) Who were these shepherds? Where were they?
(b) Read Luke II., 1-16.
- Those sweet oracles,—What is an oracle? What is referred to here? Write the thought of this line in your own words.
- How are people now waiting for Christ?
- Stanza IV. Find the words in which this was said and read them. Where are they?
- (a) Stanza V. Whose life is meant in line 4? How is Christ's life a law to us?
(b) Try to write the thought of the stanza as simply as you can in your own words.
- So shall we learn to understand,—When?
- (a) Who do their souls no wrong,—say this more simply.
(b) Keep at eve the faith of morn,—through all their lives keep the trust in God's guidance which they had as children.
(c) How do these people find Christ every day of their lives?

Sir -
Copies of the little paper "School and Home" are enclosed to the Department for consideration, as being profitable substitutes for the prizes awarded monthly to the Indian children of Tobique Point School.

Each pupil should have a copy of his or her class, excepting the primary class. One copy of this edition in the hands of the teacher would be sufficient.

The pupils of the Tobique School could be supplied for the present term for a sum not exceeding \$1.75. This amount would vary with the attendance from term to term. The subscription is proposed to take the place of the prizes discontinued in December last. Till the close of the present month.

This matter has the approval of the Indian Agent and your suggestion is submitted to the Department.

Respectfully yours
Piche V. McLeod Teacher.

Madam,

I have to acknowledge the receipt of your letter of the 7th instant, and in reply I beg to say that if you will let the Department know definitely the number of copies of School and Home that you require for each of your classes an order will be placed with the Educational Publishing Co., as well as, for one copy of the Canadian Teacher for your own use. In order that there may be as little delay as possible kindly let me have this information by return mail.

Mr. Pedley, -

Miss Ethel F. McGrand, teacher of the Tobique Indian School, has applied for an increase of \$50.00 in her salary. She is now in receipt of \$450.00 a year, which is the highest salary paid to any Indian school teacher in New Brunswick. She has a good school and is a competent teacher. There are 31 children on the roll, with an average attendance of 22.

Miss McGrand, in addition to teaching the school, has interested herself in the women on the reserve, and conducts night classes, for which she receives extra pay.

She claims that the provincial teachers have pleasanter surroundings and are able to live at home, while she is obliged to put up with the discomforts of living on an Indian reserve and she considers that this, as well as the high cost of living, should entitle her to a salary of \$500.00 per annum. If the Department accedes to her request it will in all fairness have to increase the salaries of the other teachers, all of whom are at present

Madam, -

I have to acknowledge the receipt of your letter of the 24th ultimo applying for an increase in your salary as teacher of the Tobique Indian School.

In reply I beg to say that, while the Department recognizes the good work you are doing at this school, it regrets that it cannot grant you any further increase at present. You are already in receipt of the highest salary paid to any Indian school teacher in the province of New Brunswick.

Your obedient servant,

Report of Agent S.P.Waite on Tobique School-- , N.B.North. •
January 1914

A number of pupils are unable to be present at school on account of colds, during the extreme cold weather, and two or three have sore eyes. I would think an eye-specialist should be employed to look after scholars' eyes.

Sir,-

With reference to that portion of your report on the Tobique school in which you state that two or three of the pupils attending this school have sore eyes and recommend that an eye specialist be employed to look after the scholars' eyes I beg to say that the Department is not in favour of engaging a specialist, but thinks it would be well for you to ask the medical attendant for this reserve to look at these children and prescribe for them. In nearly every case a simple eye wash would have the desired effect.

The work being done at the Tobique school is worthy of considerable praise and commendation.

The scholars have attained a good degree of efficiency and the attendance is well kept up.

There are now on the books 13 boys and 17 girls.

The teacher takes a keen interest in the efforts of the children, and the school equipment is satisfactory in every way.

Sir, -

I am enclosing monthly report
of Lobique School for May. the
progress for May was not up to the
average owing to pupils being
kept out of school from having the
whooping cough. the month of June
will also show poor attendance
I would advise shortening the term
giving the children a little longer
vacation, so they may have a better
chance to recover.

Sir,-

I have to acknowledge the receipt of your letter of the 15th instant enclosing your monthly report on the Tobique School for May, last.

In view of the epidemic of whooping cough among the children on this reserve and the consequent poor attendance at this school, I beg to inform you that you may instruct the teacher to close the school for the summer holidays. It is hoped that before the date of the re-opening of the school in September, next, ~~that~~ this epidemic will have entirely disappeared and that there will be a good attendance after the summer holidays.

While at the Reservation we visited the school, and found that Miss McGrand is doing good work and deserves a lot of credit. She brought up the matter of an increase in her salary, which I understand now is \$450.00 a year, and if the Department could see their way clear to give her an increase of \$50.00 a year. I certainly think that she is worthy of it, as she has a large school, the register now shows thirty-eight pupils, and they are making good progress under her tuition. In fact she intimated that unless she could be given an increase in salary that she felt that she might not be able to remain, and if she does leave it would mean several years before a new teacher could handle the situation nearly as well as she is doing at the present time, and I sincerely trust that you will take this matter into consideration, and advise at an early date.

MEMORANDUM.

Mr. Scott,-

Mr. Agent Wootten applies for an increase in salary for Miss Ethel McGrand, teacher of the Tobique Indian School. She is now in receipt of \$450.00 a year and has been in charge of this school since the first of January, 1911. The last returns shows that she has an enrolment of 37 pupils, with an average of 30.

Rev. Father Ryan in his report on this school states as follows,- "Miss McGrand holds a second class Provincial license and is a very capable teacher and a good disciplinarian, a quality much to be desired in all teachers, but more especially in Indian educational work. She is greatly liked by children and parents and devoted to the work. The Rev. clergyman in charge of the spiritual welfare of the Indians here speaks very highly of her work and influence among the tribe."

Mr. Wootten says that Miss McGrand gave him to understand that unless she could be given an increase of \$50.00

\$50.00 in salary she felt that she might not be able to remain on and if she leaves it would ~~be~~ mean several years before a new teacher could handle the situation as well as she is doing at present and he sincerely trusts that the Department will take the application into consideration.

In view of the excellent work being done by Miss McGrand I would recommend that her salary be increased to \$500.00 per annum.

I beg to advise you that Miss McGrand, the teacher at the Tobique Reserve, has asked me if I would take the matter up with the Department re Easter Holidays. She states that the pupils have asked her if instead of taking Easter Holidays if they could not arrange to have them a little later on, some time in June, and if this will be satisfactory to the Department will thank you to advise me.

Another matter that I would like to take up with the Department is a Flag for the School at the Tobique Reserve. I thought that if you would purchase a Flag so that it could be hoisted on the school at the point on holidays the same as as other schools do, that it would be a good idea, and would be educating to the Indian children along the proper lines. I think a flag pole could be gotten and put up on the school at a very reasonable price, and if you would either purchase a flag and send it to me for the school or authorize me to purchase one not to exceed a certain amount, and also authorize me to have a flag pole put up not to exceed the cost of \$3.00 or \$4.00 it will be greatly appreciated.

I have to acknowledge the receipt of your letter of the 17th instant advising the Department that Miss McGrand, teacher of the Tobique School, states that the pupils have asked her if instead of taking Easter holidays they could not arrange to have them sometime in June.

In reply I beg to say that the Department will have no objection to this school being kept open during the Easter holidays and closed for the same length of time during the month of June, if this is satisfactory to the teacher and pupils.

You may have a flag pole erected for this school at a cost not exceeding your estimate of \$4.00 and a flag will be forwarded from the Department.

Mrs. Mat. White was in today to see me Re. writing the Department to ascertain if they would furnish transports for 3 Indian Children who live at Tobique Narrows to be taken to school each morning at the Tobique Reserve and brought home at night. It would be a distance of about one and one half miles each way and to my mind would be quite an expense. I do not think you could get transportation for them less than \$1.50 a day. There is a school at Tobique Narrows and I think it would be much more satisfactory if it could be arranged to have the children attend that school and I will take the matter up with the Trustees of that school with the view of having these 3 Indian Children attend, if it meets with your views, and hope to hear from you Re. same at an early date.

Sir,—

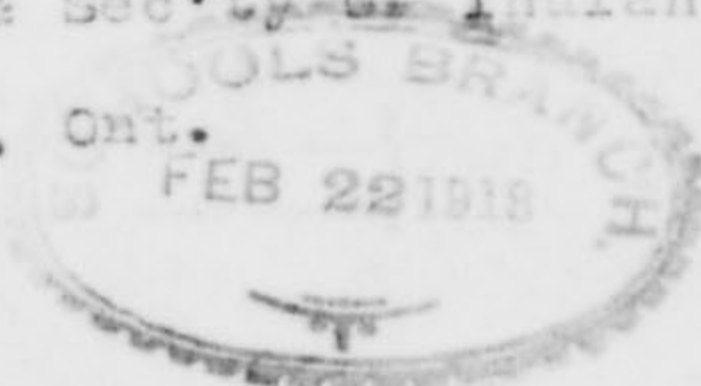

Chief Lockwood (the truant officer) of the Tobique Reserve has been in the office, complaining to me that the three children of Mr. Joseph F. Solis' has not been attending school, and he gives, as the cause for this, that the children have not suitable footwear to enable them to attend school. I have investigated into the matter and find that to be the case. This man Solis is quite a hard working man but he has five children, aged 2, 5, 8, 12, and 14 years respectively, and the three oldest children cannot possibly go to school unless they are supplied with boots and rubbers. I have therefore taken the liberty today of giving them an order amounting to \$12.15, to enable them to attend school and will thank you to authorize this expenditure.

Sir,—

I beg to advise you that truant officer Frank Lockwood of the Tobique Reserve has complained to me that several of the children on the reserve have not been attending school regularly of late, one of them being the daughter of Mrs. Maggie Francis, who is 14 years old. I saw Mrs. Francis today and talked with her regarding the matter and she states the reason she has been keeping her daughter home is, that she has a little girl four years old and she has to keep the older girl home to look after the younger one, so she can go out and work, as she claims she cannot possibly keep herself and two children on \$3.00 a month. I do not know whether or not it is my duty to look after the childrens attendance at school, to see that they attend regularly. It seems to me that is up to the school inspector, but I do think that if these young children are not attending school regularly, that there should be some way of compelling them to do so. I told Mrs. Francis today, that unless she would make a determined effort to see that her daughter was sent to school, that I would recommend to the Department that her relief be stopped and that her daughter be placed in an institution where she would be educated. The truant officer has informed me that he has made every effort to get these children to go to school, but it appears his efforts have had very little effect. I will be pleased to hear from you with any suggestions that the Department would care to make re. matters of this kind.

Rev. Sir,-

Rev. J. J. Ryan, late Superintendent of Indian Schools, who was asked to investigate the trouble at the Big Cove Indian School, reports that the Indians are dissatisfied with the present teacher, Miss Roach, and he thinks it would be advisable to make a change there. As it would appear that Miss Roach would never make a success of this school Mr. Superintendent Sheridan has been instructed to inform her that her services will not be required after the summer holidays.

The Indians have requested that John Sark, an Indian who taught the Lennox Island School for a time, be placed in charge of this school.

The Department considers that it would be well to transfer Miss McGrand from Tobique to Big Cove and I have to ask you to be good enough to communicate with her and ascertain whether she would agree to this transfer. Kindly advise the Department of Miss McGrand's decision as soon as you hear from her.

Your obedient servant,

Dear Mr. McLean,-

I am today writing several of the Clergy to secure a small list of names for competent teachers.

I asked Miss McGrand our present teacher to make application for said school in question, but she became indignant.

I can only ask the dept. in view of her determined methods against better principles, to have her resign the present school.

As teacher of the Joliffe Indian School, I write to learn why the suggestion has been made by Mr Scott of the Dept., to the recently appointed Inspector, Rev. J. Ryan, that I accept the Indian School at Red Bank, N.B. in place of the present one.

This communication was very unexpected and I had no knowledge such a change was to be made, or rather that any change was to be made.

I have been told that my resignation of this school would have to be given in I would gladly do it if the Dept desires it as I have not wish now to continue in this school.

I cannot accept Red Bank, N.B. but would gladly and gratefully accept from the Dept. the offer of any Indian School in the West that might be vacant, considering, naturally, that the salary attached would be at least equal to what I receive here.

Are there any such schools? And in case of such a one might I be considered. Also, is my resignation desired and why?

Very truly Yours,

Dear Father Ryan,-

I have your letter of the 25th instant, inclosing an application from Mr. Roy Allison for the position of teacher at the Tobique school.

The Department would very much prefer to have the services of someone with pedagogical training. Young inexperienced teachers very seldom produce good results. I am also of the opinion that a female teacher would be preferable. However, if it is not possible to obtain the services of a qualified teacher, you may, upon receipt of this letter, write to Mr. Allison engaging him temporarily. As soon as you do this please advise the Department and the necessary instructions will be sent to the teacher and the Agent.

It would be a great convenience to the Department for filing purposes if you would deal with only one subject in each of your communications. There is a separate file for each of our schools and you will therefore understand the reason for this request.

Dear Mr. Scott:-

My letter to the Dept. dated Aug. 22nd, and mailed the same day, should have reached its -- designation at 4 o'clock the Afternoon of the 23rd, while I only received your reply this morning Sept 2nd, -- letter dated Aug. 27th -- This long delay caused much inconvenience, and almost ended in the loss of Mr. Allison's services, as he was wanted by two other school Districts.

I am informed, that the lack of teachers and vacancies caused in the schools of the Prov. is the most serious in its history.

I left nothing undone, to secure a trained teacher for said school, my information reaching well over the Prov.

Mr. Allison can only give his services until "June Next" as he wishes to continue his Univ. course, in the mean time, I will have ample opportunity in my tour of inspection to look up and secure, I trust, a trained teacher.

Sir,—

I beg to advise you that Miss Annie Michaud teacher of the Edmundston School, has applied to me for an allowance for a Christmas tree for the school. She claims that as everything costs so much more now than in previous years, and as it was the custom to allow \$5.00, she feels that \$7.50 be given this year. I quite agree with her that it will take \$7.50 to buy the same goods as \$5.00 would have purchased four or five years ago.

Mr. Allison, the teacher of the Tobique reserve has also applied for an allowance for a Christmas tree for the school. He feels that he should be allowed \$15.00 instead of \$10.00 as has been previously allowed.

In view of the high cost of the goods, I recommend that \$7.50 be allowed the Edmundston School and \$15.00 for the Tobique, and it will be obliging if you will authorize this expenditure at your earliest possible convenience, as the school teachers wish to make arrangements for having the tree.

I enclose herewith Returns of the Edmundston day school for the month of November.

School Books, in reserve at the present time, will be forwarded to you in the near future.

I must also state, that the attendance is very satisfactory, considering the busy season.

Although there is no immediate necessity, I feel that I must have an advance of \$50.00 on my quarterly salary for June. Prizes have been offered, and other expenses must be paid before the expiration of the term; therefore, I would be very much obliged if such an advance payment could be made within a short time.

Trusting this request will meet with your approval,

I am Sir, respectfully yours

Sir.-

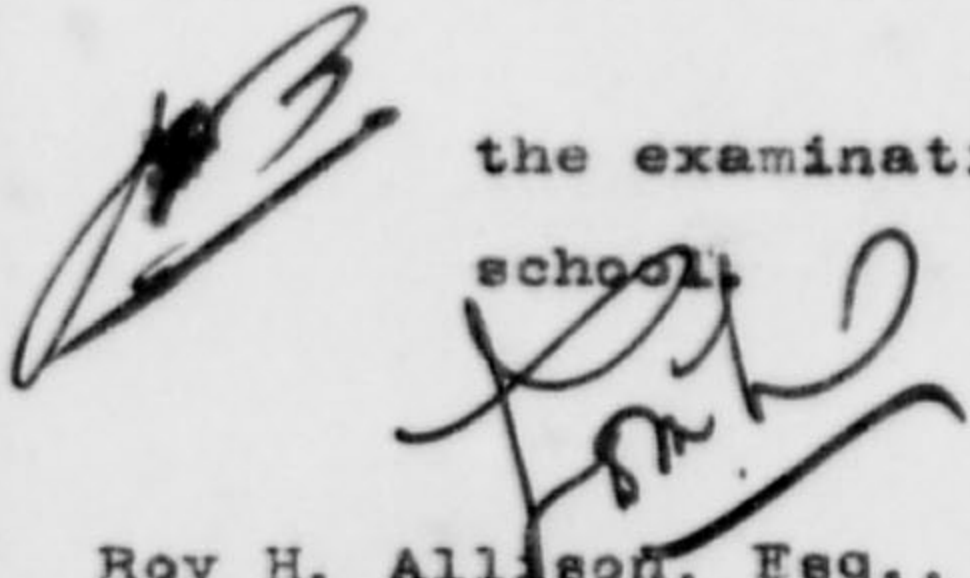

I have to acknowledge the receipt of your letter of the 29th ultimo, and in reply I beg to inform you that a cheque for \$50.00, being an advance on your salary for the current quarter as teacher of the Tobique Indian Day School, is being sent you under separate cover.

You should prepare a return on the proper form for that purpose, showing the attendance, days taught, etc., soon after the school closes for the summer holidays and forward it to your local Indian Agent for transmission to the Department. As soon as this is received the balance of salary due you will be paid.

The Department will await the results of the examinations and the list of books which you have in the school.

Referring to official letter of the 27th instant I beg to inform you that Mr. Inspector Ryan informs the Department that he has appointed Miss Lillian Murdock as teacher of the Tobique Indian Day School. He is being informed that, if she accepts the position in place of Miss Bridget Crain, whom you were informed was appointed, the Department will approve of her appointment and she may take up her duties on or about the first proximo, in which case the appointment of Miss Crain is cancelled. The Department will allow Miss Murdock a salary at the rate of \$500.00 per annum, together with the bonus at the rate of \$150.00 per annum during the time which it is continued to teachers in Indian day schools. The Inspector has been requested to inform the Department as to which of these teachers he has finally been able to secure and inform the Department accordingly, also the date upon which the teacher begins duties. The Inspector states that Miss Murdock has a Second Class License and, if she takes the position, it is hoped that she will meet with every success. Dear Sir:-

I was surprised to receive a letter on Saturday the 4th, from Miss Murdock, of Chatham, stating she could not take charge of the Maliseet Ind. School, after promising to do so. I at once called, by phone, a Miss Feeney of New Market, York Co. and after considerable trouble got her to consent. She will open school on the 9th, 1st.

Before writing you this time, I firmly decided to wait her arrival. She is here, and I do trust she will still be here when my letter reaches you. Teachers are more uncertain than the stock exchange. I find many wait until the last minute, trying to get the best possible wages. It is very difficult to get teachers now to take Ind. schools. I feel that the Dept., in the near future, will be forced to hold out stronger inducements, in order to secure teachers for Ind. Reserves, or do without them.

You have no idea what trouble I had, during this vacation, in procuring teachers. However, I think we have good ones. I did my best.

In reply I beg to say that, in order that this school may not remain closed and on account of the difficulty of obtaining qualified teachers, the Department will approve of the appointment of Miss Feeney. She will be allowed a salary at the rate of \$500.00 per annum, together with the bonus at the rate of \$150.00 per annum during the time which it is continued to teachers in Indian day schools. Dear Sir:

Having come considerable distance to teach the Indian school of this reservation and owing to boarding conditions am obliged to return to my home. I consider it only justice and the duty of the government to undergo my expenses as any other teacher who should meet with the same conditions.

I do not understand why a teacher should be requested to take such accommodations on any occasion what so ever. I fully believe that if rooms are not furnished in a proper situation or a bungalow erected that within a short period you will be unable to secure a teacher for the Tobique reservation.

Dear Mr. Scott:-

Miss Feeney only remained about five days. She is to write you. Boarding conditions in an Indian house did not suit. As I said before, I realise more than ever, the imperative need of a "TEACHER'S RESIDENCE" on the Reserve, before we can expect to keep a good teacher.

Miss Bridget Crain has arrived. She will open school tomorrow the 14th, The children will only loose a half-day: She is not a licensed teacher but has covered school to the ninth grade. Her application was approved by the Dept. a few weeks ago, but Miss Murdoc, a licensed teacher, sent in an application two days later, she was also accepted by the Dept, but refused to come at the last moment. Miss Feeney was next called but only remained a few days. Then came Miss Bridget Crain. Time will tell how many yet may follow. All this trouble arises over the want of a proper place for the teacher to board.

I trust the Dept. will do all in their power to rectify these disorders. I understand Miss Isaacs had considerable trouble to get a boarding place at Kingsclear. She was determined to leave; at last, she got in a kind of a place for a while.

I know, if houses of some kind are not provided for teachers at once, that even before the term expires there may be vacant Ind. Schools. I feel sure that next year will certainly find some closed.

Faithfully submitted to your consideration.

I remain,

Yours respectfully,

Inspector of Ind. Schools for N.B.

C.S. I was, turned down by about twenty teachers before I got the above names, as are above mentioned; all became there was no house for a teacher, and the above names are just turning their heels to the situation.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 13th instant with reference to the securing of the services of a teacher for the Tobique Indian Day School.

In reply I beg to say that a communication has been received from Miss Feeney, in which she states that, owing to boarding conditions, she was obliged to give up duty and return home.

It is noted that you have obtained the services of Miss Bridget Crain and that she had arrived and would open the school on the 14th instant. The action taken by you in securing Miss Crain is satisfactory and her appointment is approved. It is hoped that she will be able to arrange for suitable boarding accommodation and that she will remain as teacher.

The necessity of providing a small cottage as a teacher's residence at this school is recognized, but it is now too late in the season to take any action this fall and besides there are no funds available to put up a building. This is being noted when the estimates are being prepared to be submitted to parliament for the next fiscal year. It would be well for you to draw the attention of the Department to the need for the erection of suitable quarters for a teacher, giving your suggestions as to the kind and size of the building that should be provided for the purpose, in order that, if funds are provided by parliament, there will be no delay in erecting the building next spring.

Mr. Agent Wooten will be informed of the appointment of Miss Crain. She will be granted salary at the same rate as was allowed Miss Feeney.

Sir,-

The Department has received a further communication from Mr. Inspector Ryan regarding the securing of a teacher for the Tobique Indian Day School. It would appear that he secured the services of Miss Marie Feeney, but she only remained about five days, as she was unable to obtain boarding accommodation. He then secured the services of Miss Bridget Crain and she arrived and began duties on the 14th instant.

As you were informed by official letter of the 31st of August, last, the Department would approve of the appointment of Miss Crain, with salary at the rate of \$500.00 per annum, together with the bonus at the rate of \$150.00 per annum during the time it is continued to teachers in Indian day schools. It is now hoped that there will be no further trouble and that Miss Crain has obtained a place on board and will remain for the balance of the school year.

It is recognized that, in order to retain a teacher it will be necessary to provide a cottage as a teacher's residence. It is too late in the season to go on with this at present, but this has been noted for the estimate submitted to parliament next year, and, if an appropriation for the purpose is provided, the work can be carried out in summer.

Miss Feeney should prepare and forward a statement showing the number of days she taught this quarter. The amount due her for her services will be paid. It is requested that the Department pay her expenses incurred from her home to the school and return, but her board will be entertained.

Ottawa, November 30, 1920.

Sir,-

I have to acknowledge the receipt of your letter of the 27th instant, enclosing a requisition for the salary due Miss Bridget Crain for the period which she taught the Tobique Indian Day School during the quarter ended September 30th, last.

In reply I beg to say that a cheque for \$32.50, being payment for 13 days, is being sent her. No payment of bonus can be sent her for September as it is necessary, in order to receive the bonus, that a full month's service be given. Miss Crain only began duties on September 14th.

In official letter of the 19th instant, you were instructed to have the teacher prepare a return on the proper form for that purpose, showing the attendance, days taught, etc. This return you will be good enough to have her prepare and forward at once.

I might point out that salaries of teachers will not be paid until their quarterly returns are received. If it would be of any assistance to Miss Crain the Department will be prepared to make her an advance on her current quarter's salary on receipt of a request to that effect.

Sir,—

I am in receipt of your letter #66-2-1, of the 30th, ult., and note by same that you have forwarded a check to Miss Bridget Crain, for thirteen days payment during September, amounting to \$32.50.

I have today handed Miss Crain Quarterly Return Sheets, and have asked her to complete same up to the end of December and return them to me as soon as possible. She states that she will complete same the first of the week so that I can then forward them to you.

I note that you state that the teachers Salaries are not being paid until the Quarterly Return Sheets are received. I have also advised Miss Crain regarding this matter. You mentioned that if it will be of any assistance to Miss Crain, the Department will be prepared to make her an advance on the current quarters salary. She has advised me that it will be a great assistance if you will forward at once a check for \$50.00, payable to her order, and I trust that same will be sent her at an early date.

Sir, -

I beg to inform you that Rev. Father Ryan, Inspector of Indian Schools for the Province of New Brunswick, has secured the services of Miss Nellie Dugan, who has a 2nd Class License, and has had five years' experience as teacher, for the Tobique Indian Day School, to begin duties when the school reopens after the present holidays. The salary allowed her will be at the rate of \$500 per annum - the same as was paid Miss Crain, the former teacher, who is being transferred to the Kingsclear Indian Day School - and she will also receive bonus at the rate of \$150 per annum during the present fiscal year.

When Miss Dugan arrives, you will be good enough to grant her every assistance you can.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

Ottawa, June 1, 1922.

Memorandum for File.

Rev. Father Hugolin, of the Tobique Reserve, N. B., visited the Department today and was exceedingly pleased to learn that we were providing for a teacher's residence for the Indian day school. In the Supplementary Estimates for the current year there is an item of \$1500 for this purpose.

The Rev. Father strongly urges the appointment of two Sisters, one to act as teacher and the other as field matron; and this fact should be kept in mind when the plans for the bungalow are being drawn. I have intimated that we will correspond with the Rev. Father Ryan in this connection and that the salary allowed the Sisters will be at the rate of \$550 plus bonus, each. It may be necessary, to save advertising the position through the Civil Service Commission, to engage both Sisters as school teachers.

These Sisters will quite likely be available by September first, 1923.

Father Hugolin has intimated that the present incumbent - Miss Nellie Dugan - is about to resign, and I have asked him to correspond with Rev. Father Ryan regarding a successor.

OTTAWA, June 5, 1922.

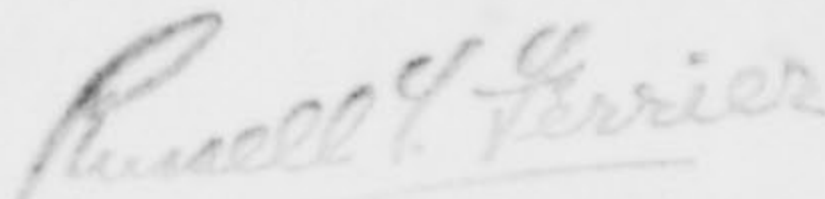

Reverend Sir, -

Reverend Father Hugolin, of the Tobique Reserve, visited the Department a few days ago and strongly urged the appointment of two Sisters, one to act as teacher and the other as field matron on that Reserve. He stated that it was quite likely that the services of these Sisters would be available by September 1, 1923. If the services of the Sisters are secured, it will be necessary to provide proper accommodation for them.

We have this year an item in our Supplementary Estimates for the purpose of providing a small bungalow for a teacher in connection with this school, but, if the Sisters are engaged, more extensive living accommodation will have to be provided than is contained in a bungalow. Father Hugolin also stated that it was the intention of the church authorities to ask for the removal of the school to another site, as the church desired to obtain from the Indians the land on which the school now stands for church purposes. Father Hugolin stated that he would let the Department know in the course of the present summer the definite arrangements that are being made regarding the securing of the teachers and the moving of the school, and when this information is received we will then be in a position to go on with the work of putting up a residence for the Sisters. We intimated to Father Hugolin that we would inform you regarding the above mentioned matters. I might say that if the Sisters are engaged, we would be prepared to allow them a salary at the rate of \$550 per annum, plus any bonus provided by law.

Father Hugolin intimated that the present teacher, Miss Nellie Dugan, intends to resign at the end of June. It will, therefore, be necessary to obtain the services of another teacher to succeed her until such time as the services of the Sisters can be obtained. If Miss Dugan resigns, you should endeavour to secure the services of another teacher, and the name, qualifications and experience of the teacher selected by you should be forwarded for the approval of the Department.

Russell T. Ferrier,
Supt. of Indian Education.

I note that the Department intends to have Sisters, If so, provision should be made to have an English speaking Sister to care for school. If not, sisters would be little good there.

I would kindly ask the Department to provide well for this, as I hear that French speaking Sisters would come. We care not for their nationality, if only they can teach English well.

Madam: -

I have to acknowledge the receipt of your letter of the 3rd instant, with reference to the salary paid you as teacher of the Tobique Indian Day School during the past school year.

Reverend Sir : -

I have yours of the 1st instant, informing the Department that you have been successful in securing Sisters for the Tobique Indian Day School and Reserve. As you were informed when in Ottawa last June, I will be pleased to complete arrangements that will permit of the Sisters taking over the work on the 1st of September, 1923.

As it will be necessary to provide somewhat different residential facilities, than was originally planned, I will be pleased if you would have prepared a sketch plan of a dwelling that would be suitable for the purpose of the Sisters who are to be appointed. I will not write to the Reverend Mother Superior until such time as the arrangements are more complete.

Before Sisters are appointed, you should satisfy the Department and Mr. Inspector Ryan, of Red Bank, that the new teachers *spek and write the English language well and are therefore qualified to teach in that language.*

Dear Sir,

I am applying to instruct our indian children in school; in physical training; and exercises; in order to stimulate their natural growth; as we all know from childhood we need good exercises to be in good health; I know many teachers who would like to teach the following training; but owing to a fact, that they have to much to do; especially our teacher have a hard time to make indian children to understand; what she means in many parts; it would be quite necessary to have one who can translate english in indian tongue;

I am at present instructing indian cadet corps #990; Maliseet H.B. at our reserve; and we are very proud of our cadets too; I should think it would be a very good idea, to have the training to effect; at nine (9⁰⁰) a.m. and three 3⁰⁰ p.m. Hoping this application to be approved by board of health at Ottawa; I remain

Scott
Dear Mr. Scott,

I have just received word from Mrs. Etta Mills that she is far from being well, but is still teaching in the Maliseet Ind. day School. She has informed me that after Xmas. she will be forced to give the School over.

The following day, I received an application for same school from a Miss Emilla M. Cronkite, a "NURSE". She is about twenty three, I would think, well known to the Indians. She is staying with her "sister-in-law" just opposite the Ind. Reserve. I know the girl in question, and feel she will do well.

Since I have no Licensed teacher, at present, for said school, and since, the Fathers there intend to handle that School themselves, by placing SISTERS in same next year; I feel, it is not worth troubling with, trying to get a more competent teacher who would likely remain for some time.

I trust you are well,

With best wishes, I remain,

In reply I beg to say that, as it is intended to place this school under the charge of Sisters at a later date, the Department considers the qualifications which Miss Cronkite possesses would be satisfactory for the balance of the present school year and we will, therefore, approve of her appointment as teacher to succeed Mrs. Hurley. The salary allowed her will be the same as was paid Mrs. Hurley, viz: \$500 per annum plus any bonus provided by law. We are informed by Rev. Father Ryan, Inspector of Indian Schools for the Province of New Brunswick, that it is the intention of Mrs. Etta Hurley to resign her position as teacher of the Tobique Indian Day School at the end of the current quarter on account of ill health. Father Ryan has forwarded the application of Miss Emilla M. Cronkite for the position as teacher to succeed Mrs. Hurley. Miss Cronkite has no teacher's qualifications, but she is a professional nurse, and has had a good education.

In view of the difficulty of obtaining a teacher at the present time, it is considered that the services of Miss Cronkite would be satisfactory, and we are informing Father Ryan that her temporary appointment is approved, to begin duties when the school re-opens after the coming Christmas holidays.

The salary allowed Miss Cronkite will be at the rate of \$500 per annum supplemented by any bonus provided by law.

Mrs. Hurley should prepare and forward her returns of attendance before she leaves the school, and these should be forward to the Department through your office in order that payment of salary and bonus due her can be made.

Father Ryan has been requested to arrange with Miss Cronkite to take up duties at the beginning of the new year. I shall be pleased if you will give her any assistance you can in her work.

Finally, I submit to your kind consideration the fact that actually 51 children are inscribed on the register for the day school, and that is altogether too great a number for one teacher. It is too tiring for her, it is too difficult to maintain discipline, and the teaching is consequently not up to standard. It is perhaps time to establish, on the Sisters' arrival, two classes with two mistresses, besides the field matron.

Ottawa, March 13, 1923.

Reverend Sir:

As you have been informed, the Department contemplates making arrangements for the services of Sisters at the Tobique Indian Day School. It is proposed to erect a combined teacher's residence and hospital during the coming season. The original provision was for one teacher and a field matron, in addition to Sisters for the hospital. The Rev. Father Hugolin has lately requested that two teachers be appointed, in addition to a field matron. I have examined the returns and I have noted an enrolment of 51 and an average attendance, for the December quarter, of 36 pupils.

Before making a decision, the Department would be pleased to have your recommendation as to the advisability of having two teachers appointed at the Tobique Indian Day School. Please intimate whether or not the present school building could be divided satisfactorily into two classrooms.

Your letter of March the 13th received,

Yes, this is the 3rd, or 4th, letter I have received re your big building plans at Tobique, requesting my view on this matter. ---I must say, that, in as much as I would like to see Tobique get every assistance possible; yet I feel that "JUSTICE" demands that "ONE RESERVE" should not, at the exclusion of the others get "ALL", --especially when it is the case that Tobique has already received the LION'S share and is now in good shape to work out its own destiny. Could all the Indians ^{92/3} be brought to the same height of prosperity as at Maliseet, It would be great credit to both the Dept. & Government. It is really Big Cove & Burnt Church. Oromucto Reserves, that should have every attention on the part of the Dept. The two, first named, are the largest and most important of all the Reserves of the Prov. of N.B. and in ^{the} deplorable condition. An investigation by the Dept. would soon prove this.

I will go to Ottawa after Easter to see the Minister of the Interior, while there, if I could be of any service to the Dept. -- it would be a pleasure for me.

1st Question

Present School at Tobique too small for two classrooms.

2nd, Would not recommend two teachers now.

This letter is "PERSONAL" - I wish it to be treated as such.

Dear Father Ryan:

I have your letter of the 23rd instant, referring to the Department's plans for Tobique during the coming year. I have noted your recommendation that more attention be paid to the Big Cove, Burnt Church and Cromocto Reserves. If you are to be in Ottawa after Easter, on other business, I shall be very pleased if you will come in to the office and talk over the New Brunswick Indian problem.

MEMORANDUM FOR FILE:

Rev. Father Ryan, Inspector of Schools for New Brunswick, called at the Department today and discussed the question of the employment of the Sisters as teachers at Tobique. He strongly recommended that only English speaking sisters be appointed, and that the English language be taught exclusively in the classrooms. We informed him that any teacher appointed would have to meet with his approval as regards ability, qualifications and the language of instruction in the classroom.

RECORDED

Dear Mr. Scott :-

On my late visit to Ottawa, in conversation with Mr. Ferrier, I rather understood him to state that the Sisters that should come to Tobique would be required to teach both French & English. If this be the case, I feel in this new departure, that our schools will be so burdened that they will fall away below the standard. At present the VIII, & IX Grades did take French. At this period they could successfully do so, but it would be nothing short of a crime to burden those poor little ones with an extra Language before they reached the above standards. It is not like in Quebec, the schools are surrounded with French and this is the Language there, while here all our Ind. Schools are surrounded by English speaking people and this is the Language the poor Indians must use.

I may have misunderstood Mr. Ferrier, yet I would like to have a good understanding ~~of the matter~~, so when the Tobique Sisters come, that I might know just where we stand in this matter. I also wish the Fathers to know our school conditions in this Province, and if Quebec has its ^{safeguarded} regulations, we should have the privilege likewise in having our system respected, In Rome do as Rome does, is a very good Doctrine.

Reverend Sir:

I am directed to acknowledge your letter of the 31st ultimo, with reference to the teaching of language at the Tobique Indian Day School, where Sisters are to be employed. The Rev. Father Hugolin, who is to secure the services of the Sisters, has intimated that the incumbents will come from Quebec and he has been instructed that they must be bilingual, as English only is to be the language of instruction.

The Superintendent of Indian Education did not state that both English and French were to be taught. He informed you that, if the Sisters were French, they must be English speaking as well, so that they would be properly qualified to teach in that language. Father Hugolin understands the Department's wishes in this connection.

Shortly after the Sisters have arrived at the school, you should make an inspection and submit a special report concerning their language qualifications. And in the meantime rest assured that English is the only language of instruction authorized for the Tobique school.

Father Hugolin, when in the city today, recommended that at the first opportunity a third Sister be appointed at the Tobique Indian Day School. The average enrolment for the fiscal year 1923-24 was 47 and the average attendance for the same period was 31.25. The teacher and field matron which are to be appointed in the near future - both with the classification of teachers - will, no doubt, soon work up a better cause than heretofore and I am convinced the average attendance will be higher than in the past. Before a third teacher is appointed, a second classroom would have to be provided.

Father Hugolin will invite the Sisters to correspond with Father Ryan, our Inspector, with reference to the details and with special reference to the salary that will be allowed.

It has been arranged to conduct the Tobique Indian Day School in future as a combined school and hospital. A teacher's residence has been erected and in it there is accommodation for at least six hospital beds. Three workers, who will all be classified as teachers and who will be paid from School Vote, are to be engaged. One will be for the classroom proper: the second will devote the morning to domestic instruction among the older pupils and to the preparation of the noonday lunch; in the afternoons this worker will do field matron's duties: the third worker will be a nurse for the hospital ward. I have arranged with Father Hugolin, with the Deputy's approval, to pay each of the 3 workers a salary of \$550, plus any bonus that will be provided.

To the Honorable Minister of the

Ottawa.

Honorable Sir,

During the course of last year, the Reverend Franciscan Fathers demanded our Institution to take charge of the school and the adjacent hospital of the Indian Reserve at Maliseet, N.B. This affair had already been treated with your department.

Lately, we were informed by Father Hugolin, former Superior of the Mission, that the Department would engage a graduate nurse. We have several Sisters with a long experience in pharmacy, but none are certified, so if the diploma is obligatory we cannot meet that requirement.

Wishing to settle this affair definitely, we hope that you will kindly consider the request, as soon as convenient, and give a reply as to whether or not you count upon our services for that region.

Kindly accept, Honorable Sir, the religious salutations of

Your humble servant in Christ,

Very Reverend Madam:

I have your letter of the 12th instant, with reference to the work that is to be conducted by your Order at the Tobique Indian Day School and Hospital, Maliseet, N. B. The Department has arranged with Rev. Father Hugolin for the incumbency of three Sisters. One will have charge of the classroom; another will teach domestic work in school and will perform field matron's duties on the Indian reserve; and the third will be the nurse in charge of the hospital. The rooms devoted to hospital purposes will allow six or more beds for patients. When the Sister who will act as Superior of the little community has visited Maliseet she should requisition to the Department for the furnishings which she considers necessary for the satisfactory conduct of the hospital and Sisters' residence.

With reference to the question you raise in your letter, I am pleased to inform you that it will be satisfactory to this Department if you arrange for the appointment as nurse of a Sister who has had experience in nursing and in pharmacy.

Outline of the Engagement Contract

1° The Community would give 3 Sisters for the hospital and school provided that each Sister be paid an annual Salary of \$700.00

2° If future needs demand for more help for the hospital, Sisters will be sent for the same salary.

3° The local expenses comprising light, fuel, and all repairs shall be charged to the Department.

4° The furnitures of both the school and the hospital, as well as the residence for the Sisters, will be supplied and renewed by the Department.

The Sisters would simply have the administration and would in no way bare the responsibilities nor share the deficit. They would be paid a fixed salary, and therefore would incur no risk on the properties of which they have been given the management.

5° A hired man, paid by the Department will have charge of the hardest labor, serve as assistant in the hospital and do the traveling necessary for the purchase of provisions, etc.

the Honorable Minister of the

Honorable Sir :-

Having not yet received a reply to our letter of the 12th inst., concerning the Indian Reserve at Tobique, and the time being already limited, we take the liberty of renewing our demand.

We shall be awaiting your decision upon the following questions, and you would greatly favor us in doing so without delay:

- 1^o - Does the Indian Department still count upon our services as school teachers and nurse?
- 2^o - Will a non graduate nurse be accepted? (Said nurse is competent, as specified in ours of the 12th inst.)
- 3^o - Would you agree to the conditions of the engagement contract, a brief outline of which we are enclosing?

Whether or not you accept, kindly notify us before the 10th of June. Until then, we need know if we have to reserve the number of Sisters needed for that institution. Several demands for Sisters have been made by other teaching communities, and we await your reply to answer. As we have to submit these questions to our Right Reverend Bishop, we would like to take advantage of his visit in the early days of June to confer upon the matter.

Very Reverend Madam:

I have your letter of the 23rd instant, with reference to the arrangements for the Indian day school and hospital at Tobique. You will have received my letter of the same date in this connection.

I am grateful for your offer of a staff for this combined work and shall arrange to allow an annual stipend of \$700 in the case of each of three Sisters. If it is found necessary in the future to engage a fourth Sister, the same salary will be allowed. The furnishing of the combined school and hospital and teacher's residence will be undertaken by the Department and all repairs and replacements that are found necessary to the satisfactory conduct of the institution will be made. Current expenses for lighting and heating will also be met by Parliamentary Appropriation.

I have noted you recommend that a hired man be appointed to assist the teachers. I am convinced that, after the Sisters have taken charge, it will be found possible to secure an Indian who will act as janitor, etc. for a small remuneration.

When you have made definite arrangements for the incumbency of the staff I should be pleased if you would inform me of the names of the Sisters, intimate which one will be the Superior and instruct her to make a recommendation concerning the furnishings which she considers necessary for the satisfactory conduct of the hospital and residence.

Dear Sir,

We gratefully acknowledge receipt of your letters of the 23rd and 27th inst., giving so kind an answer to ours of the 12th and 23rd.

Your two letters contain summarily the engagement contract; I think, however, it would be preferable to sign one in due form.

We presume that the contract will be prepared by the Department and sent here for examination and signature.

Every one of our Convents remains under the dependence of the Motherhouse, so all legal matters for a new establishment are treated with the Chief Superiors residing here, and agreed upon by them. As Superior General of the Congregation, I will sign the contract in its name.

When we have taken charge of the Mission at Tobique all communications regarding it may be conveniently addressed to the Superior of the establishment.

Very Rev. Madam:

I have your letter of the 14th instant, in which you name the Sisters who will take charge of the Tobique Indian Day School and Hospital. As you were informed in official letter of this file number of May 27th, last, the Department will allow an annual salary of \$700 for each of three Sisters. Salary will be paid quarterly on the basis of ten months in the academic year at \$70 per teaching month for each, as follows: -

September Quarter ...	\$	70
December	"	210
March	"	210
June	"	210.

I trust that it will be satisfactory if the Department makes the salary payment in one cheque in favour of the Sister Superior.

Please instruct the Sister Superior that all questions concerning duty, reports, etc., should be referred to the local Indian Agent, Mr. Chas. J. Roberts, Red Rapids, or to Rev. F. C. Ryan, Red Bank, N.B., who is the Inspector of Indian schools for the Province.

cided that a second class would be opened on account of the pupils
being too numerous to be all under the supervision of only one tea-
cher. So, Sr. M. Rita of the S.H. Has been employed every day since
from nine to eleven and from one to three o'clock, teaching the
youngest children. This takes most all her time and there is not much
left for Domestic Work, as you can see. But as I wanted to do all I
could to help the Department and the poor Indians, a third Sister
(not salaried) was named to substitute Sr.M.Rita, as much as possible.
She visits people at their home; gives two hours per week, at the con-
vent, for teaching sewing, cooking, etc.

*What is the
3rd Lieut. doing?
Will the Dept. please explain?*

Father, the situation becomes embarrassing now that two Srs.
are teaching school. In a letter dated May 23, 1924, Mr.J.D.McLean,
says that when a fourth Sister would be found necessary, a salary
would be paid to her. Don't you think Father that the time has come
to get another Sister that could take fully charge of the Domestic
Science Work . Would be very thankful to have your advice on this
matter.

Teachers have received the Dominion of Canada Map, also one
dozen of Geographies by the Christian Brothers. M^{ny} thanks.

Very respectfully yours in Christ
St. M. Francis

Rev. Sir:

I have to acknowledge receipt of the letter which you forwarded from the Sister Superior of the Tobique Indian Day School dated the 12th instant in which she requests that a salary be provided for the teaching of domestic science.

In reply I beg to say that at the present time we are paying salary to three Sisters at the rate of \$550 each for the ten teaching months, supplemented by the bonus provided by law. An extra classroom will be opened in the teachers' residence and hospital building after the new year. The three salaries allowed are for the two teaching Sisters and for the Sister Superior. In this connection I would refer you to official letter of August 18th, last. We are not prepared at the present time to provide a salary for an extra Sister to teach domestic science. Later if the results achieved by the Reverend Sisters at this school and in the hospital warrant the payment of salary for another Sister, consideration will be given to providing the same. We note that up to the present time very little domestic science work has been done. This is no doubt due to the fact that the Reverend Sisters have not got quite settled in the work at this school. You may inform the Reverend Sister Superior that, should the results achieved as shown by future reports warrant the payment of salary for another Sister, consideration will be given to providing same.

Madam:

I have your letter of the 26th ultimo, relative to the domestic science work that is to be performed at the Tobique Indian Day School and on the Reserve.

In reply I beg to say that you should arrange to have one of the Reverend Sisters instruct the older girls at least two hours per week in sewing, knitting, the making of garments and in personal cleanliness and the care of their clothing. It is thought that this instruction could be given by one of the teachers during the regular classroom period. She could arrange the hours at which this would be convenient without interfering unduly with the other classroom work.

If the Sisters have time, and can make arrangements, it may be possible to give the women of the Reserve instruction in sewing and making garments. The Department is, however, not prepared to pay any extra remuneration for the teaching of domestic science. If there is any likelihood of this work being of benefit to the Indian women, and if you are sure that they would avail themselves of the opportunity to acquire knowledge of domestic science, the Department might be favourably disposed next year to authorize the enlarging of the work along these lines.

Any materials required for the purpose of teaching sewing, etc., to the pupils, and, to a limited extent, to the Indian women of the Reserve, during the present school year, will be supplied upon a requisition prepared by you and handed to Mr. Agent Roberts for transmission to the Department.

Regarding the preparation of a report showing the work done, it will be satisfactory if the teachers prepare a list of the garments made and a general statement regarding the number who received instruction and any facts of interest, and hand the same to the local Indian Agent together with the quarterly return of attendance. We have no special forms for the purpose.

MEMO FOR FILE:

The Mother General of the Order interested in the Tobique Indian School and Hospital visited the Department yesterday and explained that it had been found necessary to keep a staff of five regular Sisters and two other members of the Order, so that the duties might be satisfactorily performed. They requested that salary for four be allowed. Three salaries of \$550, plus bonus, for the ten teaching months are being paid at present. I suggested to the Mother General that she advise the Sister Superior to place the request in the hands of the Indian agent this summer, so that a decision would be reached before the beginning of the coming academic year.

Madam:

I have your letter of the first instant with enclosures, which are returned herewith, with reference to the supervision of the domestic science activity at the Tobique Indian Day School. I regret that official letter of January 5th, last, did not acquaint you with the fact that there is in the province of New Brunswick a special officer of this Department, who inspects and supervises the educational work among the youth of our wards. When referring to the report on the domestic science work, the probability of Father Ryan requiring a copy for his purposes was overlooked. It will be satisfactory, in future, if you forward to the office of the local Indian agent a quarterly statement, as heretofore; but you should comply with the Rev. Father Ryan's request for a monthly report.

I am sending to the Inspector the reports for the March and June quarters, for his files.

Sir:-

According to our contract with the Department one Sister is teacher; another is field matron with the charge of domestic science and the third Sister is a Nurse.

Now, on account of the large number of pupils and the school being too small it is absolutely necessary for the Sisters to devote their time in the following manner, and which we wish to submit to your consideration.

This year on account of the number of Grades, two of the Sisters shall have to teach six hours daily. One of the regular teacher, can devote only two hours a week for domestic science, and in school. The Nurse will have to fill the function of field matron as far as possible without neglecting her own duty.

We hope the above arrangement will meet your approval; if not, please tell us what is deficient and what should be done.

Waiting for a reply, I remain,

Madam:-

I have your letter of 30th ultimo, addressed to Mr. Sutherland of this Department, stating the arrangements you request you may be allowed to make to provide for the teaching in the classrooms and the teaching of domestic science at the Tobique School.

It is noted that on account of the number of pupils, it will be necessary for two of the Sisters to carry on the classroom work and that one of these Sisters can therefore only devote two hours each week for the teaching of domestic science.

The Department is anxious that as much time as possible be devoted to the teaching of domestic science. It is hoped that you can arrange during the present school year to devote all the time possible to this work. We are aware of the lack of facility for the carrying on of this branch of work, but hope that this important branch will receive the outmost consideration on your part. I will be pleased if you will inform Rev. Father Ryan, Inspector of Schools of the arrangements you can make for the carrying on of both the classroom work and the teaching of domestic science.

Sister Mary Isidore of the advanced Department has a certificate for (English & French) 3rd class, from the French Model School at Ottawa, qualifying her to teach for 5 years from 29th of July, 1909.

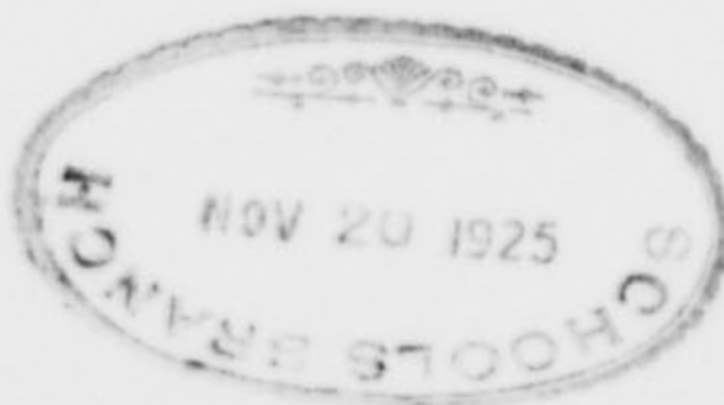

Sister Rita tells me she has high school entrance in the Province of Quebec - nothing more.

Re this school, I would suggest asking the Mother House for two teachers who have their 2nd Class Certificates from our N. B. Normal School. I am told that they have such teachers, but the Mother Superior informed me that it was the fault of the Department of Indian Affairs, who she claimed said they did not require such certificates. I wish the Department would understand conditions on this Reserve - if on any Reserve in this Province good and efficient teachers are required it is certainly on this Reserve. This Reserve has excellent, bright, children, and at one time this school led the Province. It would or should do so yet if proper teachers would be secured to carry on the work. If the Mother House has our Prov. trained teachers, then why should we not have them? Why should the Department say a N.B. Normal School License is not required.

I wish to refer to that portion of your letter of the 14th ultimo which relates to the qualifications of the teachers at the Tobique Indian Day School. There is evidently a misunderstanding in connection with the Department's wishes. We require professionally qualified teachers, and, if the present incumbents are not satisfactory, steps will be taken upon receipt of a further report from you to arrange for other Sisters. Indian schools are managed, as you know, solely by this Department and therefore do not come under the Provincial Departments of Education. We do not stipulate New Brunswick professional certificates for teachers at New Brunswick Indian schools, but we expect teachers with suitable training and professional qualifications.

I wish to refer to that portion of your letter of the 30th ultimo which is in reply to official 66-2-1 of the 26th idem. I have reviewed my letter and I cannot see that it is either ambiguous or indefinite. Therefore, I am wholly at a loss to understand the tone of your answer.

I should be grateful if you would re-examine my letter of the 26th ultimo. You have evidently taken umbrage at the second last sentence, which reads as follows: "Indian schools are managed, as you know, solely by this Department and therefore do not come under Provincial Departments of Education." The words "This Department" undoubtedly refer to Indian Affairs and to our officers in the field, including yourself. I cannot understand why you consider the words "Provincial Departments of Education" include yourself.

MEMORANDUM

Mr. Paget.

With reference to the letter hereunder from the Superior General of the Order that is managing the Tobique Hospital and Day School, I wish to point out that the salaries of the three Sisters (2 teachers and 1 field matron) are now paid from the appropriation for Indian Education. The extra Sister that is required is a qualified nurse - see official letter No. 51-66, November 6th, last. I consider that the request of the Superior General, i.e., the appointment of an extra Sister, is not a question for the Schools' Branch, and, if one is appointed, I cannot recommend that her salary be paid from the appropriation for Indian Education.

The Superior of our Convent in Maliseet tells me you are not satisfied with the results of your examinations in the school of that Reserve. I regret it and I hope the situation may still be remedied; we are disposed to do the best we can to meet your views.

We would be very thankful if you could kindly tell us what you think reprobable in our Sisters' method of teaching and would also appreciate any suggestion towards its improvement.

At the time of our engagement for the school at Maliseet, we were informed that the New Brunswick certificate was not required for the teachers, so we concluded that we would not be asked to follow the program of studies of that province. We should have had an understanding with you on that subject. Dear Sirs :-

I inclose a letter from the Sup.

Gen. of the Franciscan Order of Sisters at Tobique .It will explain itself , except that part " We were under the the impression that the school was directly dependent on the dept. at Ottawa ". Why the Superior Gen. or any of the other sisters could think other wise is more than I can explain . I never gave them to understand that the Ind. schools at any time depended on me . They well know that I am but the Inspector , and that the Dept. can if they wish put any old thing in any of their schools, and do as they desire with said schools . I am not that important ,but what they could get along without me , for I know I could get along without the Dept. ---Now the point is this -- judging by this letter , that an agreement was entered into between the Dept. and the Mother House ,that the Program of studies of this Prov. would not have to be followed , therefore teachers were sent accordingly . I am powerless in the situation .

Rev. and Dear Mother :-

Your letter received re. Tobique Ind. day School, & & , asking reasons why your sisters have not made better in said School ,

I feel Rev. Mother , that you have overlooked the fact that you sent Sisters to said school , who have not the required papers to "TEACH" , from ^{the} our Provincial Normal School , or one of equal standing. I feel , if your order will so provide such teachers , that the said school in question will soon reach the standard of our other schools.

Our schools call for at least 2nd, Class teachers . Our Rev. sisters at Woodstock , Ind. day School have their 2nd, class Normal School License , as well as all our other teachers in our Ind. schools , in fact a number are first class teachers . We certainly must have the goods , in order to have proper results The Dept. is paying a good salary and we want - " first class schools!"

Reverend Father F. C. Ryan, P.P.,
Red Bank, N.B.

Reverend Father: -

I have the honor of acknowledging your letter of the 9th ult. and am grateful for the information given.

It is regrettable that we have not been advised from the first that teachers licensed from New Brunswick would be asked for the school on the Maliseet Reserve. We required information on this particular point, and, I still have the copy of a letter I addressed you on June 21, 1924, begging for instruction regarding formalities to be fulfilled re engagement of the teachers.

Had we been aware of the necessity of the New Brunswick Normal school license, I own, Reverend Father, that we would have refused the Mission of Tobique. Our Motherhouse being here, you easily understand that we have few teachers from your province, and, we cannot count on vocations from Tobique for future needs. But since God has permitted things to turn out thus there remains but to do our duty the best we can.

We have no first class teachers from your province, but as the New Brunswick licenses are exchanged in Alberta we suppose that the certificates of both provinces are of equal standing. So I beg you to advise us, Reverend Father, if you would accept a teacher with a first class Normal school certificate from Alberta, said teaching having taught successfully a number of years in the city of Edmonton. I said "a teacher" for I hope that Sister M-Rita -of-the-Sacred Heart may be tried for another year?

I renew the assurance of our good will and beg you to receive the homage of my respect. Pray bless

Dear Father Ryan:

RUL.1

I have your personal letter of the 7th instant to Mr. Sutherland and myself, enclosing a communication which you received from the Superior General of the Franciscan Order of Sisters at Tobique regarding the supplying of qualified teachers.

In this connection it is noted that they have no teachers having New Brunswick qualifications, but that they can supply a teacher with a First Class Normal School Certificate from Alberta. The appointment of this teacher as Principal of the Tobique school will be satisfactory, and, in order not to inconvenience the Reverend Sisters by making a change at the present time, it is considered that it would be quite satisfactory if the new teacher begins duties on or about September 1st, next. The present teacher could continue for the balance of the school year to June 30th, next. You may make the necessary arrangements with the Superior General to have the teacher referred to by her take charge as principal at the beginning of the next school year. I may add that, if the Superior General is prepared to make the change in the Principal at any time before the end of the present school year, she may do so, but we will leave this matter in your hands to make the change at any time before September 1st convenient to the Reverend Sisters. When this change takes place and the new teacher having the Alberta qualifications assumes duties, I shall be pleased to hear from you giving the date upon which the change is made.

The services of the present assistant teacher, Sister M. Rita, will be satisfactory, and she may continue in the work.

The letter which you received is returned herewith as requested.

Rev. Sir:

Relative to the application of Sister Mary of Victory for the position as principal teacher at the Tobique Indian Day School, I beg to say that the Department will approve of her appointment, to begin duties when the school reopens after the summer holidays, on or about September 1st, next. We note that the Reverend Sister has a first class certificate from the province of Alberta. It is hoped that she will meet with every success in her work. The salary allowed her will be at the same rate as is paid the present principal teacher.

Sir:

The Department is approving of the appointment of Sister Mary of Victory as principal teacher of the Tobique Indian Day School for the school year beginning September 1st, next. This Reverend Sister holds a first class professional certificate from the province of Alberta, and has had a number of years' teaching experience in that province. Her appointment is approved by Rev. Father Ryan, Inspector of Schools. The salary allowed her will be at the same rate as was paid her predecessor. It is hoped that she will meet with every success in her work on the Tobique Reserve.

Reverend Sir,-

I have your letter of the 3rd instant, enclosing an application which you received from Sister Marie-Dolores for the position as teacher at the Tobique Indian Day School. It is noted that this Reverend Sister has no professional qualifications. The Department desires that all teachers appointed in the province of New Brunswick have at least a Second Class Provincial Certificate or equal qualifications.

The matter of securing qualified teachers for the schools in New Brunswick is left in your hands. I note from the copy of your letter to the Reverend Mother Superior that you have insisted that she nominate a teacher for the Tobique School having the necessary qualifications. The application which you received from Sister Marie-Dolores is returned herewith. The Department is unable to approve of her appointment and you should endeavour to have the Reverend Mother Superior nominate a teacher having the required qualifications.

Rev. Mother:

Rev. Sister Marie Dolores's application received, but as she only holds a mere VIIIth Certificate, and not a teacher's license, I have forwarded same to Ottawa. Our Province demands licensed teachers. We must have them. We insist on the Rev. Sister of Charity (St-John) having same, so we cannot be one to that order and different to your order. The Dept. pays a licensed teacher's salary. Last year I had this shown at me that I hired teachers for the M.B. Ind. Schools, who had no license.

We therefore must insist on licensed teachers for all our Ind. Schools in M.B.

Then there will be forward no complaints:

Yours respectfully.

I am sending the Dept. Sister

Day School to replace Sister Rita.

It is imperative that the Dept.
insist that the good Sisters give us
qualified teachers. - This is demanded in
all our schools - and the Rev. Sisters must
not be exempted. VIII Gr. in the U.S.A.
Schools is not more than our VII here.

Sister Rita had no license to teach sister, -
The Rev. Sisters must be given to understand
we want licensed teachers. We must have
them. Otherwise, anything and everything will
be thrown on our hands, and our schools
must suffer. We tolerated Rev. St. Rita
The Rev. Sisters of Charity of St. John all have
their normal school license - no wonder they do
good work -

The Dept. will notice that I stated, that our
Province Demanded Licensed Teachers -
 I did this to Relieve the Dept. from any
 blame, for fear the Dept. did hire teachers
 in the West, without Licence:

This order has licensed teachers - and
 we must insist that they do not throw
 on our hands - from the fact we have
 Ind. Schools - something they cannot use
 Elsewhere, - if so, then let the Salary be
 so lowered as to keeping with such teachers.

We want their best, or none at all;
 We Demand this from the Rev. Sisters of
 Charity, St. John, - Why should this
 order be exempted?

I trust the Dept. will
 at once back me up in this stand.
 Their other teacher, Sister Victory,
 who holds some kind of a certificate
 made a very poor showing in her
 School last year. We want work, -
 therefore good licensed teachers. All our
 N.B. Ind. Schools but this one, has such
 teachers, why should Tobique be exempted?

Reverend Father,

I have the honor to acknowledge receipt of your letter of the 3rd. instant. We are rather surprised to hear you say, now, that New Brunswick licensed teachers are required for the Tobique school while we were given a contrary assurance when application was made to have our Community accept the post.

You object that the Department pays a licensed teacher's salary. It is true, but for all the work which has to be done on the reserve, three sisters only are salaried, while a personnel of six religious is required. However, the salary question is not what we wish to consider presently and it is not in this light that we place ourselves to let you know the following decision:

If you cannot accept the proposed religious - who has taught successfully in the United States and in Montreal - kindly wire us at our expense and we shall undertake the necessary procedure to present our resignation as teachers and nurses on the Tobique Reserve to Right Reverend Bishop Chiasson and the Department.

There is certainly a great deal of good to be done at this post and we are glad to devote ourselves there, but places more advantageous in all respects do not want; we would relinquish the task without regret to religious having the qualifications which you desire.

The time to take other important decisions is limited, that is why we beg you to give us your answer by telegram.

Trusting that you will comply with our request for which I thank you sincerely, I beg you, Reverend Father, to receive the homage of my respect.

Sent. Affairs.

You have a copy of my letter
Sent to the Mother House, - I really do
not think I demanded a New Brunswick
Licenced Teacher, I asked - or intended to
in my letter an equivalent - 1st - and 2nd
Class Teacher in N.B. - I have been
constantly asking this from the Sisters,
and the Rev. Sisters of Charity gave me
1st Class Teacher, and no teacher under the
2nd Class Normal School. All our schools
are thus equipped with such teachers. I
only wish to have Tobique Ind. Day School
in line with rest of schools, and why not?

The Dept. can see by this letter - that
it is an open challenge, they cannot
dictate the teachers to be sent and we must
accept - same, however, if the Dept. is
satisfied with such - I must accede.

I am sure we cannot place 2 second
Class Teachers and a nurse in this school
for less money, who would care for the hospital
& school in good order. Yours

I would however add.

That as time is too short
around to secure teachers
the Rev. Sister to go. - that the

the ~~poor~~ teacher named for the present

they could supply the desired teachers
that next year they would only be

I feel it is time we

and why should we not have some.

The Dept. of Indian Affairs,
Ottawa.

Received over PHONE from Newcastle your telegram and through defective wires, it was hard to understand, I however wired the Mother General that we would accept this sister for this year, but insisted that hereafter we must have qualified teachers.

We certainly cannot make an exception in this school. Applications are daily coming in from Vill. & IX Grade students for Ind. schools, I have always held out that the Dept. insists on 2nd. class normal school teachers. It is not hard to get such teachers now in N.B. and not a few teachers have complained that the Rev. sisters from Quebec came in here without a qualified license, holding down the Tobique Ind. day school. They claim that it is not fair to the teachers of N.B. who labor so hard for their license. I am sure, if the Rev. Sisters could see the situation in which I am placed, and in justice to our teachers as well as to our Indian day schools they would have no reason to complain. We must have a system, otherwise our schools must fall. Open the road for one who has no Normal school license, and you must open it to all.

Dear Mr. Scott,-

I have mailed you to day under separate cover some photographs of the hospital establishment showing the Sisters attending the sick, and some other views that I thought might be of interest to you. I will have a photo taken of the new school building when it is completed and forward it you to add to the selection already sent.

The Indians are very enthusiastic over the new school house, and a great number of the elder children who are over the school age, and some that did not want to attend school who were under the school age are all now very anxious to attend school in the new building, it is going to be a good modern equiped school and the Indians are showing very much appreciation for your consideration towards them.

HIS INSPECTION OF THE TOBIQUE INDIAN DAY SCHOOL.

Original on 66-2-6.

DATE OF INSPECTION - October 19, 1927.

TEACHERS: - Senior Department, Sister Mary Victory.
Primary Department, " M. Delores.

Sister Delores claims she received an 8th grade diploma from a Catholic school in Boston. This is certainly not sufficient qualification.

This reserve is, in so far as buildings are concerned, by far the best equipped in New Brunswick. The school must now have properly qualified teachers. I would suggest that the Department demand from the Mother House at Bay St. Paul at least one better qualified teacher. Sister Victory could take the primary department and have the Mother House send at once a Second or First Class Teacher to take the advanced department.

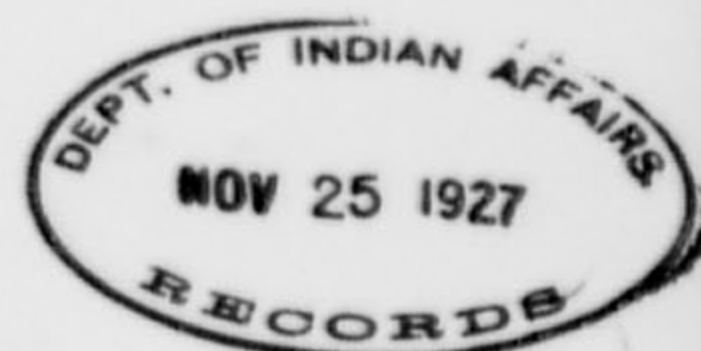

The pupils in the primary department did fairly well under present conditions, but what can the Department expect from a teacher who has a most pronounced French accent. If any department in our Indian schools should have a successful teacher, surely it must be the primary department. I feel this Order has the teachers and we should have them. We must have a "Show-down" at once. Promises to remove the Rev. Sister by the Mother House will not be taken and we should insist that qualified teachers be secured. This is the only Indian school in New Brunswick that has unqualified teachers. There is a first class normal school trained Sister at Woodstock and all our other teachers are second class normal school teachers. The Indians at Tobique are more advanced, brighter and more capable of rapid progress than on any other reserve in New Brunswick.

Re Tobique Indian day school, I am very sorry that the Department in the beginning invited these Rev. Sisters to take charge, when we had such able teachers in our own province - the Rev. Sisters of Charity at St. John - all holding their Normal school licenses. I feel we will now have some difficulty in getting from the Rev. Franciscan Sisters proper qualified teachers for our N.B. Indian schools.

It may be well to leave the Rev. Franciscan Sisters at Tobique until June and then take some action.

Chatham, Nov. 19, 1927.

Dear Rev. Father:

I have your letter of the 16th instant, re "The Tobique School and The Little Franciscans of Mary."

It is undeniable that teachers must be qualified in order to conduct a school; but it is true also that a teacher's license and especially of such or such a province is not always and is not the only qualification of the teacher's ability. For our Province of N. B. Public Schools a teacher's license is a necessary condition; but, as far as I know, the Indian Dept. at Ottawa does not make it a necessary condition to teach in the Indian schools of N. B. and so, persons not holding such N. B. teachers licenses, but teachers' licenses of other provinces or of some of the United States or even with no license at all but otherwise qualified both as to instruction and as to successful experience in teaching may, in my humble opinion, be very good and efficient teachers.

Now, with respect to The Little Franciscans of Mary, I have no personal knowledge of their teaching ability and after having visited the school at Tobique, you are better able to pass judgment on this point. The only thing I know about it is from the Superior General's letters to you and to me, stating that the Sister (Marie Doloris, I think,) has a ten years' experience in successful teaching. For myself, I would accept this as a sufficient qualification, if found on inspection to be correct.

I have no objection to the Sisters of Charity of St. John taking charge of the Tobique School, providing they would at the same time take charge of the hospital there, but I fear they would not get along as well perhaps with the Franciscan Fathers. The Little Franciscans of Mary are a regular tertiary order of St. Francis, and they are more or less under the spiritual guidance of the Fathers. I fear it would not be the same with the Sisters of Charity. There are so many many things to consider when it comes to do God's own good work. To speak frankly I would much sooner see things remain as they are at present, providing of course, the work of the school is satisfactory. As for placing a lady teacher at the head of the Advanced Dept., I do not think it would be feasible; the Sisters would hardly accept this arrangement.

I shall await your decision and your answer before writing the Superior General of the Little Franciscans of Mary.

I am very sincerely and respectfully
Yours in Our Lord,

P. A. Chiasson,
Bishop of Chatham.

My Lord:

I received Your Lordship's letter and have asked the Dept. of Ind. Education at Ottawa to retain, if possible, the services of the Rev. Franciscan Sisters until JUNE NEXT, - when the Rev. I will ask Mr. Ferrier, Supt. of Indian Education at Ottawa, to PRESIDE AT AN EXAMINATION OF ALL MY INDIAN SCHOOLS, --- from this he will be able to judge the WORTHINESS of all my teachers.

As for "LAY TEACHERS" I have THREE who have taught Catechism as successfully as the Rev. Sisters, - I admit that this is an exception to the RULE.

Re the MALISEET PUPILS, they are certainly the cleverest among the Indians of the Province, therefore much is expected from them, yet nothing beyond the STANDARD assigned to our Ind. schools in N. B.

Your letter received today and I am answering same this evening ,

I did not ^{see} His Lordship, recently , but I inclose our correspondence re. this matter , also my letters to and from the Rev. Mother General , also the application of the present Rev. Sister Marie Deleres , teacher of the first FIVE GRADES , as given by ~~the~~ her inclosed Dec.

REPORT ,

I could not advise the Dept. to retain the said TEACHERS , unless the Rev. Mother ~~would~~ give us , at least , a 2nd, class teacher, as Principle , --Rev. sister Mary -of -Victory might succeed in the Primary Dept.,

If the Rev. sisters will not give us such teachers , The Rev. sisters of Charity , of St. John , who all have their LICENSE from Fredericton Normal School, will take over the said Tobique Ind. day school . -These Rev. Sisters reputation , as teachers, can be found among the most efficient of our Province , - The Dept. could write the Supt. of Education at Fredericton , or our Bishops, as to my statement .

Should the Rev. sisters ^{of charity} fail to take the said school , I certainly admit , we are up against a proposition , and as such , I would leave things for the present .

Dear Mr. Scott-

R

In REVISING your letter today, I thought your letter required a clearer STATEMENT of the Tebique Indian day school.

I must say, therefore, that under the direction of the Rev. Franciscan SISTERS, the said school in question, has shown the "LEAST" progress, of any Indian school under my charge, -yet it contains the brightest Indian PUPILS of our Province.

The way, method, & foundation in training of the Rev. Sisters, & & & do not successfully measure up to the efficiency, demanded by our Ind. schools in this Province.

The Rev. Mother General assures me that she is unable to supply the required teachers,

I trust that the Dept. understands that we have a picked body of most efficient teachers in our Ind. schools, yet we are always looking for better, for the success of our schools depends, largely, on the teacher.

I trust this will make matters very clear to you.

Yours respectfully,

Dear Father Ryan:

I have your letters of the 19th and 20th instant, with reference to the situation at the Tobique Indian Day School and Hospital. I am acting on your recommendation and have written the Superior General of the Little Franciscan Sisters, advising her that, as she is unable to supply the teachers required, the Order should withdraw from the work this summer. When I receive her answering communication, I shall write to you, authorising other arrangements. I am returning the correspondence you forwarded for my information.

Very Reverend and dear Sister:

With further reference to your letter of the 11th instant, I have to state the Inspector of Indian Schools for New Brunswick has written that you have assured him you are unable to supply the teachers required at Tobique. It will therefore be necessary for me to make other arrangements for the school and hospital work there, and I should be grateful if you would let me know if June 30th would be a convenient date to terminate the services of the Reverend Sisters. I wish to thank you for your cooperation in connection with our work at Tobique and to express my regrets that it is necessary to make any change.

Monsieur Duncan Scott, Surintendant général

Monsieur,

J'ai reçu votre lettre en date du 25 janvier.
Nous avons certaines informations à prendre avant de répondre
à la question que vous nous posez au sujet du départ.

Votre lettre précédente (en date du 16 janvier) nous
assurait que le Département n'exige pas des Maîtresses possé-
dant des certificats du Nouveau-Brunswick. Le Révérend Père
Ryan a toujours prétendu le contraire. Maintenant il vous
informe que nous ne pouvons fournir des maîtresses - Des
maîtresses du Nouveau-Brunswick comme il en exige, non, mais
des autres qui possèdent leur certificat de l'Alberta ou des
Etats-Unis, oui. Le Révérend Père Ryan n'a jamais eu l'aver-
tissement dont il se prévaut pour travailler à nous faire
quitter la Réserve. Toutefois comme nous ne tenons pas du
tout à ce poste autrement qu'à un centre de dévouement, et
qu'il n'en manque pas ailleurs, nous l'abandonnerons bien vo-
lontiers, après avoir fait faire la lumière sur la question
en jeu.

Recevez, Monsieur, mes salutations.

Mr. Duncan C. Scott.
Deputy Superintendent
of Indian Affairs, Ottawa
Sir:-

I have received your letter dated
the 25th of January. We have to get certain
information before answering to your in-
quiry concerning the matter of our departure.
Your precedent letter (dated January
16th) was assuring us that the Department
did not insist on teachers possessing certifi-
cates for New-Brunswick. The Rev. Father
Ryan always pretended to the contrary.
Now he informs us that we can not supply
Teachers -

That class of teachers for New-Brunswick
as he insists upon having, we can't; but
other teachers possessing certificates for Alberta
or the United-States, we could. The Rev. Father
Ryan never had the instructions on which
he is basing his action to have us leave the
reserve. However as we do not wish to
remain here for other purposes than to exer-
cise our mission, and as there is no lack
of field for it elsewhere, we would abandon
this one willingly after we have made light
on this present question.

Respectfully yours,

Memorandum:

MR. PARLER,

I should be grateful if you would visit the Tobique Indian Day School upon the occasion of your coming trip to the Maritimes. Father Ryan, Inspector of Indian Schools for New Brunswick, is not satisfied with the Little Franciscan Sisters, who are at present in charge. Under cover of the 20th ultimo, he wrote in part as follows: "The said school has shown the least progress of any Indian school under my charge - yet, it contains the brightest Indian pupils of our province. The way, method and foundation in training of the Rev. Sisters, etc., do not successfully measure up to the efficiency demanded by our Indian schools in this province."

Father Ryan's report, following his inspection on October 19th, last, reads in part as follows: "The pupils did fairly well under conditions. What can the Department expect from a teacher in the Primary department (Sister Mary Delores) who has a most pronounced French accent?" Under cover of November 23rd, last, Father Ryan writes: "I am informed that this Order only admits French subjects - if this be so, we can never expect to get results from this school."

When Father Ryan wrote on the 20th ultimo that "the Rev. Mother General assures me she is unable to supply the required teachers" the Department asked the Superior General at Baie St. Paul, Que., if June 30th would be a convenient date to terminate their services. Representations have been made that our Inspector is unfairly trying to get rid of the Little Franciscan Sisters at Tobique.

Please make a careful inspection of this school and pay particular attention to the English of those Sisters who teach in the classrooms. You might ascertain definitely just what academic and professional training each has had.

Mr. Duncan C. Scott,
Deputy Superintendent general
Department of Indian Affairs
Ottawa.

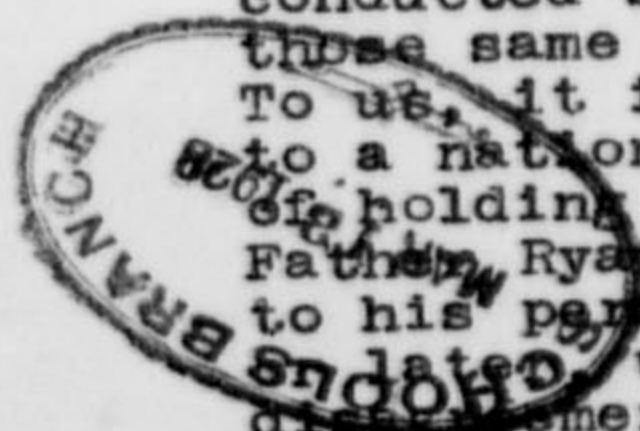

Sir:

Yours of February 18th has been left unanswered by the fact that we were waiting for more references concerning the present situation of our School in Tobique. But, owing to the Reverend Father Hugolin's late visit in Ottawa we are now provided with the required informations.

The visit of a school inspector will be greatly appreciated.

According to our opinion, the Government does not claim teachers holding New Brunswick certificate only; but teachers having sufficient training. Now, Reverend Father Ryan has always used a contrary argument to provoke difficulties: he is, by the fact, interpreting this part of the law according to his own point of view.

After having attended the whole course of study in the Province of Alberta, as well as in the United States, and having successfully conducted school work for many years, it is strange to hear that those same teachers are now unfit to instruct young Indians in Tobique. To us, it is evident that the main cause of these difficulties is due to a national rivalry more than anything else; thus we can not pretend of holding a secure position on the Reserve, as long as Reverend Father Ryan will hold the Office of School Superintendent. According to his personal disposition towards the Order, his relations sooner or later would become unfavorable. So, in order, to prevent further disarrangement on the part of the Government as well as for the Institution itself, we are advising you, dear Sir, by the present, of our resignation as teachers of the Tobique Mission by this next June 30th 1928. Circumstances make it impossible to continue the work.

Dear Mr. Scott:-

Inclosed, please find a reply from Rev. Mother Alphensius. She will be pleased to take over this PLANT and fill same with the best, -as to teachers, & nurses. Her community certainly has the goods. We are most fortunate.

I will go to St. John about the 23rd, of April, so shortly after that, you will receive the name of the Rev. sister in charge, & others, as well as their standards. I would like to get a FIRST CLASS LICENSED SISTER for the advanced Dept., and a 2nd. class licensed sister for the Primary Dept. .

Re. the nurse --they will be able to send ONE who has graduated, as these Rev. sisters have a large house of training for nurses. As for teachers they cannot be excelled in the Prov. of N.B..

I will be so pleased to get this Ind. school in order. It is well on to 8 years that this school has suffered for the want of proper teachers. . It seems all the harder, when one knows that the pupils there are about the brightest of my Ind. children in N.B.. With our new arrangement, -the Ind. schools of N.B. will now be all in line, --the next three or four years should produce good returns.

Thanking the Dept. for its earnest cooperation in our Ind. schools.

I have the pleasure to remain,

Your devoted servant to duty,

Sir:

I beg to submit the following report on my recent visit to Tobique Indian Reserve, N.B.

X X X

While at Tobique I visited the day school and watched the work of the teachers. The senior teacher, Sister Marie Victory, I found to be quite efficient for a school of this nature and the work of the pupils quite commendable. I was disappointed, however, to find that the junior teacher, Sister Dolores spoke with a distinct French accent. This would seem to be most unfortunate as pupils in this class get their first groundwork in the English language.

X X X

With a little more efficiency in teaching methods the school should have excellent results.

The attendance is good and any absentees were accounted for satisfactorily.

I was surprised to learn from the Reverend Fathers that latin was being taught in the senior classroom. The teacher has to go to the Fathers for instruction before she can teach her class. This seems not only a useless subject for a school of this nature but an actual absurdity. I only learned this at the last minute and did not have an opportunity to look into it further.

Dear Mr. Scett :-

Inclosed , you will please find the application for the Tobique Ind. day school & Hospital . At a glance you can see you have well qualified teachers & nurse, At last this Reserve will be well equipped ,As the children are bright and progressive , we should expect great results from this Reserve in the next 3 or 4 years .

I am much pleased over the choice of sisters being sent , and there is another point with this large order , -if the rev. sisters who are the incumbents are not successful, -we have an almost inexhaustible source to draw from , as this order was instituted solely for teaching & nursing , and all the teaching sisters must have their Normal School license ,so also must their NURSES have their diploma .

The Rev. Nurse and another Rev. Sister will take charge, July 1st, as you will see by the inclosed .

Would it not be well for the Ind. Agent to have an inventory, of the most minute detail, of all the Gov. articles contained in the said Hospital .&.&., school .&.&? - - - - - --as-all linens , dishes , towels & , cutlery ,&.& clothes , furniture , beds , &.& Hospital equipment & . FOUR copies could be drawn out, One for the Dept. one for the Agent , One for the Rev. Sisters now about to take charge , -sent to them in St. John , and I would like to get ONE . I think the Agent should examine all to see their condition &.&.&.

I trust you are enjoying good health as this leaves me at present .

EXTRACT FROM REPORT OF REV. F. C. RYAN, INSPECTOR
OF INDIAN SCHOOLS FOR NEW BRUNSWICK, ON HIS
INSPECTION OF THE TOBIQUE INDIAN DAY SCHOOL
ON OCTOBER 10, 1928.

Original on File #66-2-6.

I find that both the Rev. Sisters are working over-time in the classroom and when all pupils return a very hard year lies before them. The Rev. Nurse has now more than she can do under the most trying circumstances and the deplorable conditions in so many of the Indian homes. I can see no other hope for the progress of the work than a field matron. The Department realizes that it is a strict rule of this Order that no Sister goes alone to visit homes. If a field matron or a domestic science teacher was appointed, the Nurse could accompany her on certain days and much good could be done. As it is at present, the teaching of domestic science must suffer, and this would be most disastrous, as we cannot drop this most important branch of our work without detriment to all the other work on the Reserve.

I feel with the Department that already for the size of this Reserve three paid Sisters is considerable. Yet the work must be done. Why not appoint another paid Sister as field matron and domestic science teacher, who, in conjunction with the Nurse, could clean up conditions on the Reserve. This arrangement might be given a trial for three or four years, after which period, no doubt, three Sisters could do the work.

DR. SCOTT.

When the combined hospital and teachers' residence was erected on the Tobique Reserve, three Sisters were appointed for the day school and hospital work. These Sisters are all paid from School Vote and are classed as teachers. Father Ryan and the Sister Superior are now urging the appointment of a fourth Sister as field matron. If a position is to be established, I would suggest that it be that of "Nurse" because of the presence of the hospital. School funds would then be responsible for the two teachers and the field matron, but we would class the last named worker with the teachers. These Sisters are in receipt of \$700 for the 10 teaching months. If a position is established and paid from Medical Vote, I would suggest a stipend of \$720 per annum.

Madam:

I have your letter of the 1st instant, with reference to the payment of the salary of the hospital nurse on the Tobique Reserve.

In reply I have to say that the position of hospital nurse has not been established, and it was necessary, in order to provide a salary for this service, to place the nurse in the same category as the teachers and make payment of her salary on the same conditions. The Department has given careful consideration to an increase in the establishment on this Reserve, but it is regretted that no further increase can be made at the present time.

INSPECTION OF TOBIQUE AGENCY.

School on Tobique Reserve.

The day school on the Tobique Reserve is conducted by the Sisters in a commodious modern building, fully equipped for all purposes, the two large class rooms being bright and roomy and the whole building kept in a clean, first class condition.

Thirty two children (19 boys and 13 girls) comprise the pupils in the lower grades 1-4, whilst 16 children (8 boys and 8 girls) form the upper class (grades 5-9).

The actual attendance is fairly satisfactory, although there is a tendency on the part of some of the Indian parents to keep their children at home on occasion, for somewhat trivial reasons, a frequent excuse being that the children have in-sufficient clothing and shoes, but the Indians were told at a general meeting that the children must attend school regularly except in case of sickness, and that where clothing was really needed, the Indian agent would see that such was provided.

Two boys, Felix Francis & Sam Devau, and five girls, Mary J. Sappier, Madeline Alexander, Susie Paul, Eva Nicholas and Pauline Moulton were found to be often absent, and the truant officer, George Bernard, was instructed to visit the parents and impress on them the necessity of seeing that their children regularly attended school in future.

Dear Mr. Shelan:-

Enclosed please find application
of Rev. Sister M. Columville for the
Tobique Ind. Day School to replace
Rev. Sister M. Francis Joseph. (100)
Rev. Sister has a 1st Class Grammar
School licence, I trust. She is a good
Teacher. It is impossible to know
the Rev. Sister's ability. We have to
take their mother's word for same. It
is only after they have been a year
or two in an Ind. School that I can
know of their ability. So far, we have
had but one who really made a fair
showing at Tobique and that was in
1932 when 2 Ind. girls passed their 2nd
3rd Class entrance paper to Normal School.
Yours respectfully,
J. C. Ryan.

Reverend Sir:

I am in receipt of your letter of the 15th instant, enclosing application of Sister M. Columcille for appointment as teacher of the Tobique Indian Day School, to replace Rev. Sister M. Francis Joseph.

The appointment of Sister M. Columcille is approved, effective from September first, 1938. She will be allowed the same salary as the preceding teacher, viz.: \$700.00 a year.

I enclose staff questionnaure, which you should have her complete and return to the Department as soon as possible.

Yours truly,

 Encl.

Only fair work was done in this Dept. I received word from the Rev. Mother that this Rev. sister would be replaced by another sister whose name will be sent into the Dept. shortly. I feel that the present sister might do better in a white school.

Domestic science was a little better but not near so good as at some of my other Indian schools. Manual training was not much.

Dear Sir:

I have recently read reports of Inspector F. C. Ryan regarding his inspection of the Indian schools in New Brunswick during the latter part of September.

Apparently few, if any, of the teachers attended a teacher's convention. It is most important that our teachers should attend these gatherings in order to keep in touch with the modern trends in education and at the same time improve their academic and professional standing.

You should, therefore, notify all the teachers in your Agency that the Department expects that they should annually attend a teacher's convention. Otherwise it will not be possible to consider continuing their employment.

With reference to your letter of the 25th ultimo, the Department has no objection to the teachers of the Tobique School attending the Teachers' Regional Conference for New Brunswick teachers. I presume, like other teachers' conventions, it will only extend over a period of two or three days.

The Department does not see any reason for delaying the opening of the Tobique School until October first. All Indian day schools will be operating on a 10 month basis during the coming academic year, and we feel that all of them should open on September first.

In reply to letter 66-2-1 dated Aug. 31,
I have to report that some months ago the Father
Superior on Tobique Reserve started a boys club
using the basement of the church as quarters.
The idea back of the venture is to teach manual
training and Indian Handcraft.

It was suggested that the basement of the
hall be made into a work shop and a request for
funds be made from the school's branch.

As money had been voted from Band funds for
repairs to Church and Hall, I thought it would
be better to use these funds and do the necessary
work on the basement at the same time the other
work was being done.

Yours very truly,

Mr. R. A. Hoey, Director of Indian Affairs,
Ottawa, Canada

Dear Mr. Hoey:

I am writing you regarding our music proposition in our school. This year we are fortunate to have a Music Teacher who also helps me with the Domestic work. As music plays such an important part in the curriculum of New Brunswick schools I am wondering if your Department will help us to provide the necessary books, instruments, etc. to carry out an efficient music program.

With the aid of the children and through our industry we have procured a piano which is not new but serves ~~well~~ the purpose until we are able to do better. In view of this fact we feel the Department should be willing to give us a donation to help provide the rest of the necessities.

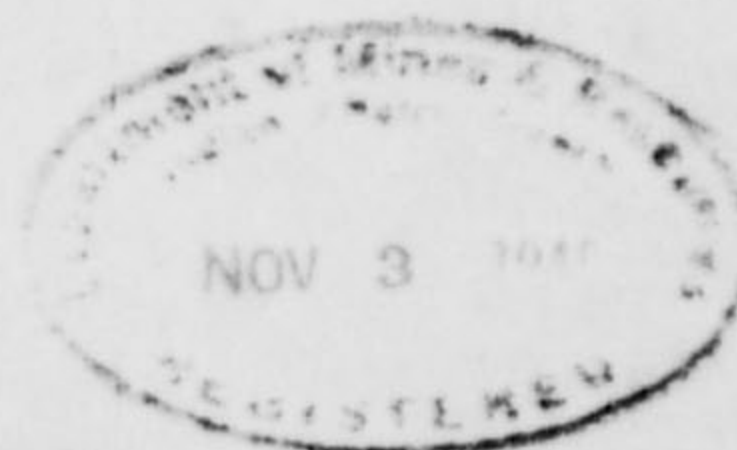

We have about fifteen pupils who are anxious to study music and later we expect to include some of the older children which we feel would be a great help to the morale of the place.

I have spoken of this matter to Mr. MacPhail who is very interested but of course can do very little without the consent of the Department.

Anticipating a favourable reply at your earliest convenience, I wish to remain,

Yours very truly,

Teachers' Salaries at Tobique Indian Day School

In accordance with provincial salary increases for rural school teachers, the Department has adjusted the salaries of the teachers of other day schools in New Brunswick. Attached please find copies of our application forms for teachers of day schools, which should be completed by the teachers at the above school. This will enable us to assess properly their qualifications and teaching experience.

It will not be necessary for them to fill the top part of the form which I have crossed out in my signature.

Ottawa, August 18th, 1924.

Sir:

I have to inform you that the Department has arranged for the incumbency of Reverend Sisters at the Tobique Indian Day School and Hospital. The Superior General of the Order, of Bay St. Paul, has named the following staff: -

Sister Superior:	*	Sister Marie-Francois-de-Sales,	
Nurse :	"	Marie-du-Carmel,	6-5-0
Field Matron :	"	Marie-Paul-de-la-Croix,	3-5-0
Teacher :	+	Marie-Isidore,	3-5-0
Asst. Teacher :	x	Marie-Rita-du-Sacre-Coeur.	

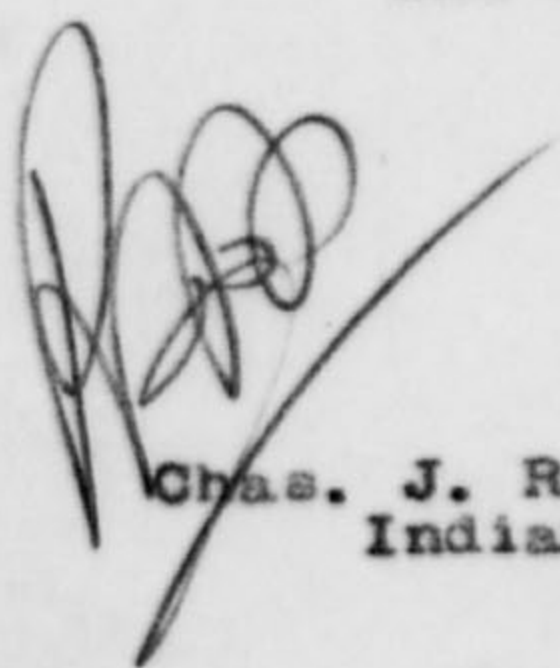

1650
Salary will be allowed for each of ~~the~~ three Sisters at the rate of \$550 for the ten teaching months, plus the bonus of \$150. As in the case of other workers at Indian schools, salary will be paid quarterly, 1/10 for the September quarter and 3/10 for each of the other three quarters. The Department proposes to have one cheque per quarter for salary and one for bonus made out in favour of the Sister Superior.

The Sister Superior is being informed that she should look to you and to Rev. Father Ryan for instruction and advice.

Dear Sir:
Immediately after
the close of the term on the
"Indian Reserve" I went to
Pusque Lake and remained
there for six weeks. I directed
Rev. Father Silvester (past master
at Maliseet) to re-address my
mail to Pusque Lake, ^{maine} which
he did, but some time in
July I received the cheque
for \$150. but not the one
for \$45. I got the cheque for

week. I was at Maliseet P.O.
this morning and the
Post Master told me ^{that} he
sent back envelopes to my
address "Presque Isle Maine".
I had other letters sent to me
which are now being sent
back to me which I should
have received early in July.
Please let me know what
I am to do about this
affair? And all matter
to Maliseet N.B.

Madam:

In reply to your letter of the 22nd instant, I beg to say that a cheque for your bonus was sent to you on July 11th, last, addressed to Maliseet, N.B. This cheque has not been returned to the Department. It appears from your letter that this cheque was forwarded from Maliseet to Presque Isle, Maine, and possibly it will be returned from there. It might be advisable for you to communicate with the Postmaster at that point.

At the present time the Department can do nothing further, but if you do not receive this cheque within the next few weeks you should again advise the Department and indemnity forms will be sent you for signature, in order to enable the department to issue a duplicate cheque.

Ottawa, June 21st, 1926.

Sir:

The Department is approving of the appointment of Sister Mary of Victory as principal teacher of the Tobique Indian Day School for the school year beginning September 1st, next. This Reverend Sister holds a first class professional certificate from the province of Alberta, and has had a number of years' teaching experience in that province. Her appointment is approved by Rev. Father Ryan, Inspector of Schools. The salary allowed her will be at the same rate as was paid her predecessor. It is hoped that she will meet with every success in her work on the Tobique Reserve.

Madam:

I have your letter of the 2nd instant, relative to the payment of salary of the Sisters engaged on the Tobique Indian reserve.

In reply I beg to say that salary at the rate of \$700 per annum is allowed for each of three Sisters on this reserve, and payment of same is based on 10 teaching months in the year, at the rate of \$70 per month, payable at the end of each quarter. A cheque for the amount of \$70 has been forwarded for the quarter ended September 30th, last, and at the end of June, 1929, which will complete the 10 months in the year, the full salary at the above rate will have been paid. I would point out that if salary was paid on a 12 months basis, the amount due each month would be \$58.33.

Rev. Sir:

I have to acknowledge receipt of the application which you forwarded of Sister Mary Electa, who, we understand, has been appointed as nurse and field matron on the Tobique Reserve. The date when she will begin duties is not stated, but it is understood that she is to succeed Rev. Sister Clare. The qualifications which she possesses are satisfactory, and salary will be allowed at the same rate as was paid her predecessor, viz., \$70 per teaching month.

Your obedient servant,

Ottawa, August 10, 1931.

Rev. Sir:

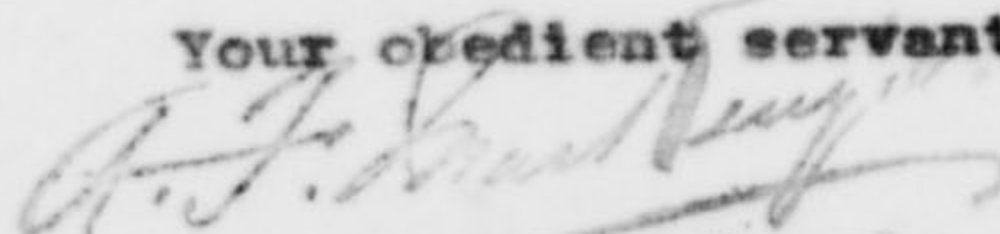

I have your letter of the 4th instant, informing the Department of the arrangements made for teaching services at the Tobique Indian Day School.

It is noted that the Rev. Mother Superior has appointed Sister Mary Agnes, whom it is understood will succeed Sister M. Praxades. The Department will approve of the appointment of Sister Mary Agnes, with salary at the same rate as was allowed in the case of Sister Praxades. I shall be pleased if you will inform the Rev. Mother Superior accordingly.

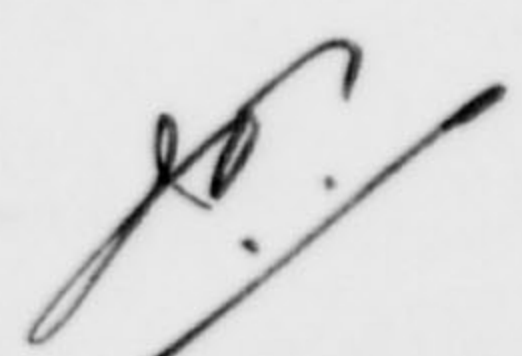

You will be written in separate communications regarding teachers at Woodstock and Eel River.

The application which you forwarded giving particulars as to the qualifications, etc., of Sister M. Agnes, together with a communication from the Mother Superior of St. Vincent's Convent, was received.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Reverend Sir:

I have your letter of the 23rd instant, regarding the appointment of Reverend Sister Mary Ambrose to replace Sister Mary Agnes as senior teacher of the Tobique Indian Day School. The Department is unable to trace the form which you forwarded, filled in by Sister Ambrose, stating her qualifications, experience, etc. However, it is noted, from the report of your inspection of this school on the third of October, last, that Sister Ambrose possesses a first class certificate. This is satisfactory and her appointment for the current school year is approved. Salary will be allowed her at the same rate as paid Sister Mary Agnes, viz.: \$70 per teaching month, less 10% during the present fiscal year.

Dear Sir,-

Mr. A.G. Fields foreman of the Tobique School building handed me a bill today for the use of his Auto while on the job amounting to \$186.00

I have no objection to Mr. Fields getting paid for the use of his Auto when on official business for the Department, purchasing materials, etc., from the Tobique Point to Perth and Andover, etc., But I do object to his charges for the use of his car when leaving the job Saturday's in the afternoon in time to reach his home in Woodstock a distance of 60 miles to spend the week end, and not returning on the job until Monday noon and sometimes Tuesday, and Wednesday of the following week.

Therefore I recommend for your authority and approval that Mr. Fields is allowed mileage for the use of auto when on official business for the purchase of material only, and not while going and returning from his home in Woodstock, etc.,

Dear Sir,-

I beg to submit herewith voucher number 801 amount \$430.00 with account in favour of H.F. Stewart, Perth, N.B. for No. 416 McClary furnace installed in the Tobique Indian school.

I beg to inform you that the \$20.00 credit for old pipe and registers was all that Mr. Stewart could allow as they were in very bad condition, the registers were all more or less broken not worth repairing, and the pipe had rusted so it was not worth very much, \$20.00 being a fair value for the old pipe and registers.

Mr. Stewart has done a first class job installing the new furnace, and no doubt it will give perfect satisfaction.

MEMORANDUM

Mr. Ferrier

*See letter
Nov 25/27
PMP*

You will note in Agent Robert's letter of November 3rd that he states that the foreman, Mr. A. G. Fields, who was in charge of the erection of the Tobique School apparently was absent at week-ends, going home on Saturday afternoon, not returning on the job until Monday noon and sometimes Tuesday and Wednesday. When drafting your reply of November 12th to Agent Roberts I should be pleased to know whether you took this into consideration. Certified labour returns have been received from Agent Roberts up to October 29th they show that Mr. Fields has been paid in full each week, except for the week ending June 11th when he was only paid for the first three days and the week ending June 18th when Mr. Fields was not paid for Monday and Tuesday.

W.S.

Possibly it might be well to inquire from Mr. Roberts what time Mr. Fields lost through going home on week-ends, and if he paid him for same. I understand this man was employed by the day, and the Agent should only have paid him for the time he was actually on the job.

Sir:

I have your letter of the 21st instant, enclosing final labour returns for the Tobique School addition. Before acceptance of these, I should be glad if you would let me know just what time Mr. Fields lost at week ends. The time sheets that have been forwarded show him paid in full for each Monday, with the exception of those forwarded for the week ending June 18th, when he was not paid for Monday and Tuesday. In view of your letter of the 3rd instant, which states that Mr. Fields did not return until Monday noon and sometimes Tuesday or Wednesday, I am unable to determine what wages are really due in his case. Please let me have a full explanation.

Your obedient servant,

INDIAN AGENT

[Handwritten signature]

Red Rapids, N.B. Nov 23rd, 1927.

Dear Sir,-

With reference to the annual Christmas treat for the pupils of the Tobique Indian Day School, I beg to inform you that the Principal teacher is making ready the Christmas tree for the children, and has requested the usual amount of \$15.00 will be granted again this year by the Department.

Trusting you can meet the demands of the Principal teacher by authorizing the expenditure of the above amount to expend for Christmas treats for the Indian children of the school.

Your obedient servant,

Sir:

I have your letter of the 23rd instant, requesting that a grant of \$15 be allowed in order to provide a treat for the pupils of the Tobique Indian Day School at Christmas.

In reply I beg to say that the Department will approve of an expenditure not exceeding the sum of \$15 in the purchase of suitable gifts for a Christmas tree for the pupils of this school. You should consult the Rev. Sister in charge as to the supplies required, and arrange for the purchase of same.

Please obtain an itemized account, in duplicate, which you should attach to a proper voucher form, certify in the usual manner and send to the Department for payment. The above authorized amount should not be exceeded.

Memorandum:

HONOURABLE CHARLES STEWART

With reference to the enclosed letter from Mr. Foster, concerning Mr. A. G. Fields' account, I believe it advisable to let you have a report and to ask for your direction.

Mr. A. G. Fields, who was appointed foreman for the construction of the addition to the Tobique Indian Day School, has been paid at the rate of \$8 per day. He has had steady employment since June 20th and time sheets have been forwarded, showing that he has received \$8 per day for every working day from that time until the 17th instant. Mr. Indian Agent Roberts, on the 3rd instant, reported that Mr. Fields left the job on Saturdays in the afternoon, in time to reach his home in Woodstock, a distance of 60 miles, to spend the week-end, and that he did not return on the job until Monday noon and sometimes Tuesday and Wednesday. As Mr. Fields has been paid for all the time lost at week ends, I do not consider that he is entitled to mileage for the use of his car. On the 12th instant the Department instructed the Indian Agent to inform Mr. Fields that we regretted favourable consideration to the account could not be given.

Dear Sir,-

In reply to your letter of the 25th instant, No.66-2-5 with reference to Mr. Fields labour returns for Tobique School addition. I beg to inform you that it will be necessary to allow Mr. Fields full time whether he was at the job or not, owing to the fact that he was authorized to purchase all materials for the building, therefore Mr. Fields claimed when not engaged at the job that he was away making arrangements for the purchase of materials, and of course this took considerable amount of his time away from the work, and perhaps more time than it should, but this was his argument when questioned why he was not on the work.

Memorandum:

Mr. Pratt.

Re Mr. A. G. Fields' Account.

I have your memorandum of the 6th instant. I would state further in connection with my memorandum of November 30th. that a recent letter from the Agent has left a sort of doubt in my mind as to whether Mr. Fields would not have a claim for some reasonable allowance for the use of his motor car. The account is made out most extravagantly, and I think if he were allowed \$75.00 or \$80.00, it would be all that should be paid. You will note by the account that these trips to Perth and Andover seem to have been taken without any proper consideration for the administration of the work. You will notice that on consecutive days he was going to Perth for different articles, when if he had proper control he would have made one trip suffice. I would offer not more than \$80.00 as a final settlement.

Dear Sir,-

Relative to your letter of November 25th, No. 66-2-5
Regarding the time required for building cupboard in the
Domestic Science Room in the basement at the Tobique Indian
School house, after going over just what is required more
thoroughly I find that the time required for a carpenter will
be four or five days labour instead of two as I had informed
you in letter dated November 21st last, therefore it will be
necessary for you to authorize the required time, which should
not be more than four or five days, and also the required
hinges, fastenings, and locks, and also some paint if there is
not enough that was left over from the painting of the school
house.

Sir:

I have your letter of the 9th instant, relative to the building of a table and cupboard for the domestic science room at the Tobique Indian Day School. I note that it will require the time of a carpenter for four or five days to complete this work instead of two days as stated in your letter of the 21st of November, last.

You should arrange to have this work completed as soon as possible, but the services of a carpenter should not be retained any longer than is absolutely necessary. You may also purchase the hinges, fastenings, locks and paint required for the cupboard, together with the quantity of finished lumber which you were authorized to purchase in official letter of November 25th, last. It would be well to consult the Rev. Sister Superior regarding the type of cupboard and table required.

It is hoped that this work will be completed at an early date, and, when finished, you should forward a properly certified voucher, in duplicate, covering the cost of the materials and labour.

Dear Sir,-

With further reference to the installing of suitable cupboards in the domestic science room in the basement of the school house at the Tobique Reserve, I beg to inform you that I have not been able to secure a carpenter to do this work, owing to the fact that there was no chance for to board him at the Reserve, and the rivers have not been frozen over to make it possible for a man to board elsewhere at this time of the year.

The lumber purchased from Fraser Companies is considered not suitable for the making of the doors for the cupboard, and I therefore recommend that the Department authorize the purchase of 400 feet of B.C. Fir to make doors and 200 feet of 2 by 2 for cleats and frame work.

The Reverend Sister Superior in charge at the hospital has requested for a small cupboard to be installed in each bath room in the hospital, and with the above mentioned lumber there should be enough to complete the Sisters needs for a cupboard in the hospital, which should not take a carpenter more than two days to build, I recommend this for your approval.

I have your letter of the 13th instant, in further reference to the installing of a cupboard in the domestic science room in the basement of the Tobique Indian Day School building, and requesting authority to purchase suitable material for the making of doors for the cupboard.

In reply I beg to say that you may arrange for the purchase of 400' of B.C. fir for the doors and 200' of 2" x 2" for cleats and framework. You should obtain this material as cheaply as possible. You may also arrange to have a small cupboard installed in each bathroom in the hospital. It is noted that, with the purchase of the above material, there will be enough lumber on hand to build all these cupboards. You should arrange with a competent carpenter to do the work, and it is expected that you will see that no unnecessary time is taken in the building of these cupboards, and that you will be able to arrange to have all this work completed at an early date.

After the work has been completed to your satisfaction, you should forward accounts, in duplicate, properly certified, covering the cost of the material and for the labour.

In reply to your letter of the 21st instant No. 66-2-5 with account rendered of Dupuis Freres, amounting to \$33.49 for Christmas treat, and material for domestic Science purposes at the Tobique Indian Day School, which they claim was purchased in December 1926. I beg to inform you that this is an error on their part, as the Christmas treat for December 1926 was purchased from J.W. McPhail Co., Perth, N.B. amount \$15.00

pd by
ac 6090
July 19/26

The Christmas treat for December 1925 was partly purchased from Dupuis Freres, Montreal. amounting to \$10.89 and the balance of the \$15.00 allowance was purchased from another firm in Montreal, namely, La Cie Alf. Guay Ltee. These two accounts were submitted to the Department for payment January 25th, 1926. with voucher number 533 amount \$10.89 in favour Dupuis Freres, Montreal. and voucher number 532 amount \$3.90 in favour of La Cie Alf. Guay Ltee, Montreal. I enclose you copies of these two accounts.

pd by
ac 6122
July 22/26

We also purchased from Dupuis Freres, in December 1925. a domestic science order amounting to \$23.10 and this account was submitted to the Department for payment February 16th, 1926 with voucher number 545, the account in the above paragraph for \$10.89 and the above account for \$23.10 makes a total of \$33.99 this corresponds nearly with the amount they claim is due them, If these accounts have been paid, therefore, there is nothing due them.

Kindly inform Dupuis Freres that we did not received or give order for any goods to be shipped from them in December 1926.

Ottawa, February 29th, 1928.

Gentlemen:

I have to refer to the account which you recently forwarded covering supplies to the amount of \$33.49 furnished in December, 1926, to the Rev. Franciscaine Sisters, Maliseet, N.B. In this connection I have to say we are informed that no order was placed with you for any goods for the Rev. Sisters in December, 1926. Accounts were, however, forwarded covering supplies purchased by them in December, 1925, and two accounts were submitted by you at that time. One account, to the amount of \$10.89, was paid by cheque No. 6090, February 19th, 1926, and the other, amounting to \$23.10, was paid by cheque No. 6122, February 22, 1926. The items in the accounts paid cover the same supplies as in the account which you recently forwarded, which is returned herewith. It does not appear from our books that there is any further balance due for supplies forwarded to Maliseet, N.B.

Dear Sir,-

In reply to your letter of the 25th instant No. 66-2-5
With account returned for explanation of Christmas treat
purchased for the pupils of the Tobique Indian School.

I beg to inform you that the Reverend, Sister Superior
arranged the purchase of the different articles, and has paid
for same, as per receipted accounts attached.

Regarding the blankets to the amount of \$8.50 these
blankets were cut and made into scarfs for the pupils, the
number of scarfs made was 25 and they were well made fringed
with wool yarn, very comfortable for the children to wear,
and a necessity which was very much appreciated by the pupils.
these were handed off the christmas tree, together with the
bill of \$4.50 of mixed Xmas candies, and the puffed rice item
was furnished by the Sisters neatly arranged in Xmas packages.

Trusting this explanation meets with your approval for
the expenditure occurred, I return herewith voucher with accounts
in favour of The Little Franciscan Sisters of Mary.

Ottawa, March 22, 1928.

Sir:

I beg to submit the following report on my recent visit to Tobique Indian Reserve, N.B.

x Day School x

The school building was recently enlarged and is not yet completed. The basement under the new addition is to be arranged for a domestic science classroom. It is about 36' x 26' but in the construction of the addition, due to improper planning, several pillars have been placed down the centre of the floor thus spoiling the appearance and usefulness of an otherwise large room.

I note also that there is a common drinking cup at both the boys' and girls' basins. The basin has outlets for two taps, hot and cold. The hot water side is, of course, not used. I would suggest that a drinking fountain be placed on each of these basins so that cups will not be needed.

Sir:

An officer of this Department, who visited the Tobique Indian Day School in March, last, states that he noted there was a common drinking cup at both the boys' and girls' basins and at each basin there is an outlet for two taps - hot and cold water. The hot water taps are, of course, not used, and it is suggested that these taps could also be made available for cold water use, to which could be attached drinking fountains of the bubbling type, so that individual cups would not be required.

I shall be pleased if you will furnish a report as to whether fountains of the type suggested could be attached to the taps provided for hot water purposes, and, if so, the approximate cost of having same installed in both the boys' and girls' basins. A local plumber would, no doubt, be able to state whether it would be advisable to install the fountains as suggested and to give you an estimate of the cost. I should be pleased to have your early reply regarding the providing of drinking fountains for this school.

Ottawa, September 8, 1928.

Sir:

In reply to your letter of the 5th instant, enclosing a requisition for supplies for the Tobique Indian Day School, I beg to say that, if you consider the following articles are absolutely required, you may arrange for their purchase:

1 frying pan,
1 pot,
1 tea kettle,
1 tea pot,
1 wash basin,
1 dish pan,
3 mixing bowls,
3 " spoons,
1 stew kettle with cover,
3 sauce pans,
1 pot cover,
2 baking pans (for bread)
2 cake pans,
1/2 Doz. plates for pastry,
1 egg beater,
1 double boiler,
2 scallop pans,
1 cutter,
1 bag flour,
10 Lbs. sugar,
Small quantity of
baking powder,
flavouring,
cream of tartar,
lard,

3 Doz. lemons,
10 Lbs. oatmeal,
salt,
1 rolling pin,
1 bread board,
1/2 Doz. patty pans,
1/2 " knives,
1/2 " large spoons.

Material for Sewing.

2 1/2 Yds. butcher's linen,
5 Yds. print,
3 Doz. spools cotton thread,
No. 20, 30, 40, 50 and 60.
3 Lbs. yarn,
12 balls crochet cotton,
1 Doz. buttons,
10 Yds. tea towelling,
10 Yds. crash towelling,
10 Yds. factory cotton.

Competitive prices should be obtained, if possible, and the purchase made from the firm quoting the lowest price. A certified account, in duplicate, should then be forwarded covering the cost.

It is noted that a cook stove and a sink are also requested. The Department is of the opinion that these were previously supplied, and I would appreciate a report from you stating their condition at the present time and if you consider that they should be replaced. If so, you should give an estimate of the probable cost.

The exterior of the combined teachers' residence and hospital requires painting very badly. It is too late this fall, but early next spring this should be done. Sir:

Rev. F. C. Ryan, Inspector of Indian Schools for the Province of New Brunswick, in a report on his recent inspection of the Tobique Indian Day School, has drawn attention to the condition of the domestic science room in the basement of the day school building. He states that this room is filled up with old desks, rubbish, etc., and has requested that instructions be given that this room be at once cleared out and put in good order, as he states that the teaching of domestic science forms the most important work for the benefit of the Indian children.

I have, therefore, to request that you will arrange to have this room thoroughly cleared out. If the old desks are of no further use, they should be broken up. All rubbish should be removed and destroyed. The Department will expect to hear at an early date that this room has been placed in proper order and meets with the approval of the Sister in charge of the teaching of domestic science.

The Inspector has also drawn attention to the number of permits granted to Indian children of school age to remain at home. He recommends that, in future, before a permit is issued, the Rev. Sister Superior be consulted. I may add, it is expected that all children of school age and in good health will attend school regularly.

It is presumed that you have arranged for the purchase of the various articles as mentioned in official letter of September 8th, last. If so, the accounts covering the cost should be forwarded in duplicate, properly certified, in order that payment can be made.

OFFICE OF
INDIAN AGENT

Perth, N.B. November 19-1928.

Sir:

Replying to your letter #66-2-5 dated Oct. 25th. I beg to state that I have been unable to dispose of the desks which were stored in the Domestic Science room but have had them removed to a shed on the Reserve and the Domestic Science room has been thoroughly cleaned up.

As to children not attending school, there has not been a single permit issued although the truant officer has a little trouble with some of the parents. I have asked the principal to inform me of any absentee.

I have arranged for purchase of Domestic Science material, some accounts having gone forward.

✓ I would like authority to purchase a sink as I can find no record of one having been purchased for this room.

Re stove, I have had an old stove repaired which I think will do for the present.

Your obedient servant,

N.H. MacPhail

Sir:

I have your letter of the 19th instant, informing the Department that you have stored the old school desks that were in the domestic science room in the Tobique School, also that you have arranged for the purchase of the material required for the domestic science classes and have had the stove repaired.

Relative to the purchase and installation of a sink, I beg to say that the Department will approve of your arranging to obtain a sink of a type that would be suitable and to have same properly installed. The outlet from this sink should connect up with the drain from the school. No unnecessary expense should be incurred and, after this work has been completed, you should forward an account, in duplicate, properly certified, covering the cost of the sink and labour in installing same.

Your obedient servant,

Sir:

The teacher of the junior room in the Tobique Indian Day School has requested, through Rev. Father Ryan, Inspector of Indian Schools for New Brunswick, that several extra desks be supplied in order to provide seating accommodation for all the children who will attend. She states that there are 31 children enrolled, and very shortly there will be 5 or more new pupils, and that there is seating capacity for only 30.

The desks at present in use in this room were obtained from the Globe Furniture Co. Ltd., Waterloo, Ont. They manufacture desks in the following sizes:

No. 5	for pupils	5 to 8 years,
No. 4	"	7 to 9 " ;
No. 3	"	9 to 12 " ;
No. 2	"	12 to 15 " .

Please take up with the Sister Superior the matter of the extra desks required. If you recommend that they be supplied you should state definitely the number required and the sizes. You should also state whether there is room for these extra desks. Please also state the address to which shipment should be made. When we have your reply, consideration will be given to placing an order for any extra desks you may recommend be supplied.

Rev. Sir:

The communication which you forwarded from the Reverend Sister in charge of the junior room at the Tobique Indian Day School requesting that a few extra desks be supplied has been received. We are taking this matter up with Mr. Agent MacPhail, and requesting him to ascertain from the Reverend Sister the sizes and number of each size of desk required. When we have full information, consideration will be given to placing the order.

I shall be pleased if you will inform the Reverend Sister that in future the Department would like her to be good enough to forward all requests pertaining to the school through the office of the local Indian Agent, as it is necessary that his recommendation be obtained before the Department can deal with such requests.

Dear Sir;

My clients, Dupuis Freres Ltd, have handed to me an account for \$33.49 which goes back to December 1926. They tell me that although several letters have been sent to your department no steps have been made towards a settlement of their claim.

I will be very much obliged to you if you will send me a cheque for this amount by return mail. You must have into your hands a detailed statement of account. If not, I will be glad to let you have one.

Sir,-

I am in receipt of your letter of the 24th instant regarding an account of \$33.49 which you state dates back to December, 1926, from Dupuis Freres, Ltd., and in reply I may say that when the account, rendered in detail and in duplicate, is submitted to the Department it will receive attention. It is not apparent that this account has been rendered. If it is for material supplied for schools at Caughnawaga, it should reach the Department through Mr. L. Letourneau, Indian Agent. St. Constant.

I may remark in this connection that in November last an account of \$95.34 was paid to the above mentioned firm by the Department, and in February an account of \$24.50 was paid. It is not understood, therefore, why there should be an outstanding account such as that referred to by you.

I may say further that funds appropriated for expenditure in 1926 have long since lapsed, and the only money now at the Department's disposal is that voted for expenditure during the current fiscal year.

I beg to acknowledge receipt of your letter of the 29th of April last.

To comply with your request, you will find a detailed statement of account which speaks by itself. As it appears, merchandise supplied were not for Caughnawaga. I am told by my clients that several letters and statements of account were sent to your Department since December 1926 but no body had so far taken the matter up with my clients.

Hoping that you will come soon to a settlement I am,

Sir:

I have your letter of the 6th instant, enclosing an itemized account from Dupuis Freres, Ltd., to the amount of \$33.49, for supplies furnished the Reverend Franciscan Sisters, Maliseet, N. B., in December, 1925.

In this connection I have to inform you that accounts covering the exact items mentioned in the statement which you now enclose were received and payment was made as follows: One account to the amount of \$10.89 was paid by cheque No. 6090, on February 19, 1926, and the other amounting to \$23.10 was paid by cheque No. 6122, on February 22nd, 1926. Both these cheques have been returned to the Finance Department here, endorsed by Dupuis Freres. Our agent at Maliseet reports that the above firm was in error in stating that the above supplies were furnished in December, 1926, as the only goods obtained were procured in December, 1925, which, as stated, included the exact items mentioned in the statement which you forwarded. Therefore, it does not appear from our books that there is any further balance due Messrs. Dupuis Freres for supplies forwarded by them to Maliseet, N. B. Messrs. Dupuis Freres were advised to the above effect by official letter dated February 29, 1928.

Sir:

Rev. F. C. Ryan, Inspector of Indian Schools for the Province of New Brunswick, in a report on his recent inspection of the Tobique Indian Day School, makes the following recommendations:

1. That the exterior of the hospital and teachers' residence be painted.
2. That the interior of the school building (both rooms) be thoroughly cleaned and all woodwork well washed, and the floors thoroughly scrubbed and, when dry, given two coats of hot oil, and that this work be done by a competent man.
3. That the ceiling of the domestic science room be covered with beaver board, and the concrete floor given two good coats of paint, as it is very dusty.
4. That the walls of the domestic science room be given a coat of alabastine.
5. That 12 chairs be supplied for the domestic science room.
6. That 2 drinking cups, attached to chains, be supplied.

In connection with the above recommendations of the Inspector, I have to request that you will furnish a report as to whether you would approve of any of this work being undertaken. If so, you should give an approximate estimate of the cost in each case, and you should also state if you can arrange to have the work carried out by day labour. You should give the above matters your early attention and furnish the information asked for, as, if it is decided to carry out any of the work, it should be completed before the schools reopen after the summer holidays.

The Inspector also states that the Rev. Sister Superior drew his attention to the use by the janitor of an outside door leading out of the domestic science room. She states that he opens this door and in the winter it makes the floors of the school very cold. The Rev. Sister considers that this door should be closed up in winter and the janitor enter by the furnace room or through the back entrance to the school. The Inspector states that the Rev. Sister could explain this matter to you, and you might take it up with her and arrange that the difficulty mentioned be satisfactorily adjusted next winter.

A. F. MacKenzie,

Sir:

Replying to your letter #66-2-5 dated June 26th, 1929, I beg to report that I consider all the repairs and supplies as recommended by Rev. Father Ryan and outlined in your letter to be necessary and quote the following estimates of approximate cost:

1. \$175 to \$200. for labor and material.
2. I would estimate that this item would cost \$10.00 and would ask the Department for authority to purchase a half barrel of Imperial floor dressing, same to be applied when necessary by the Caretaker of the school.
3. I would ask that the ceiling be covered with Gyproc as Gyproc is a better insulating board than Beaver Board and this would tend to make the floor of the room above warmer. The cost of the Gyproc would be \$40.00, area to be covered being 36x21, this does not include the labor.
Material and labor for floor of domestic science room approximately \$20.00.
4. Alabastine and labor for the walls and ceiling would be approximately \$20.00.
- 5 and 6. Chairs and drinking cups approximately \$10.00.

Re the last paragraph of your letter, it is my opinion that a storm door or small porch on the Domestic science room door and a storm porch on the verandah over the main entrance ~~room~~ of the school would help to keep the floors of the school warmer.

Sir,-

I have your letter of the 19th instant, relative to the painting, repairs, etc., required to the teachers' residence ^{and} hospital and domestic science room in the day school building on the Tobique reserve. Relative to the painting of the exterior of the hospital and teachers' residence, I have to say that the Department has no funds to pay the cost of having this work done during the present year and this matter will have to stand over until next spring.

Relative to the cleaning of the interior of the school building (both rooms), I have to say that you may arrange to have the woodwork well washed and the floors thoroughly scrubbed and, when dry, given two coats of hot oil. You may purchase a half barrel of Imperial floor dressing, the same to be applied, when necessary, by the caretaker of the school.

You may arrange to have the ceiling of the domestic science room covered with Gyproc and the floor given two coats of a suitable type of paint for the purpose. You may, also, have the walls and ceiling given a coat of alabastine.

You are authorized to arrange for the purchase of 12 chairs suitable for use in the domestic science room. They should be of a substantial make and as inexpensive as possible. You may, also, supply two drinking cups, attached to chains.

You may, also, arrange to have a small porch erected and a storm door placed on the outside door leading out of the domestic science room. It is not intended that any unnecessary expense be incurred for this purpose.

You should purchase all the materials required for the above-authorized work and see that it is carried out by competent labour, all expenses being kept within the estimate given by you. All of this work should be completed before the school reopens after the present summer holidays and you should, therefore, give the matter your prompt attention and have the work started at an early date. When these improvements are completed, you should forward properly certified accounts, in duplicate, covering the expenditure incurred in the supplying of materials, also, for the labour employed.

The Department does not consider it necessary, at the present time, to have a storm porch erected on the verandah over the main entrance to the school.

Sir:

I have your letter of the 2nd instant, requesting authority to remove a portion of high ground near the school in order to level off the ground to prevent water from flowing into the cellar of the domestic science room at the Tobique Indian Day School. The Department notes that you can have this work done at small expense while the scrapers used on the excavation of the council hall are available.

The Department will approve of your arranging to have the ground levelled, with a view to carrying off the water from the cellar of the school building. You should see that a satisfactory job is completed and that the ground is properly graded. This work should receive your prompt attention, and after it is completed you should forward an account, in duplicate, properly certified, covering the expenditure incurred.

EXTRACT FROM REPORT OF REV. FATHER RYAN,
INSPECTOR OF INDIAN SCHOOLS FOR NEW
BRUNSWICK, DATED OCTOBER 8, 1929, ON
HIS INSPECTION OF THE TOBIQUE INDIAN
DAY SCHOOL.

782

----- **RECEIVED**

Original on No. 66-2-7.

There is one great drawback for the Rev. Sisters - they have no way to get back and forth to Perth and Andover to get their shopping done. I wish the Department could get them a cheap automobile. The janitor could run same for them. They are forced to go two or three times per week to different places to buy things, and they can never depend on the Indians as they are generally away when they (the Rev. Sisters) require them.

(Original on No. 51-66.)

Ottawa, November 25, 1929.

Sir:

I have your letter of the 13th instant, enclosing a list of supplies required for the use of the hospital and teachers' residence on the Tobique Reserve.

I am returning this list in order that you can mark opposite each item whether the supplies are for hospital use or for the use of the teachers of the Indian school and who reside in the hospital. It is necessary to differentiate between the supplies required for hospital purposes and for the teachers' use, as the expenditure for hospital purposes is paid from an entirely different vote than that for school purposes. You should give the information asked for regarding each item on the list and return same to the Department, when consideration will then be given to authorizing the purchase. In future, I would request that you have the Sister Superior prepare separate lists for articles which she requires which are strictly for hospital use from the articles required for the teachers' use in the hospital building.

We are forwarding the envelopes and blank forms asked for.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Sir:

We would like authority to have the school wired. The two rooms and vestibule would require fourteen drop lights and four switches which would cost approximately \$50.00, shades for above lights would cost about \$15.00 more, however, these may not be necessary.

It is impossible, during the winter months, to clean the school after hours without artificial light, and the teachers sometimes wish to remain until late in the afternoon, but are unable to do so as there is no light.

Sir:

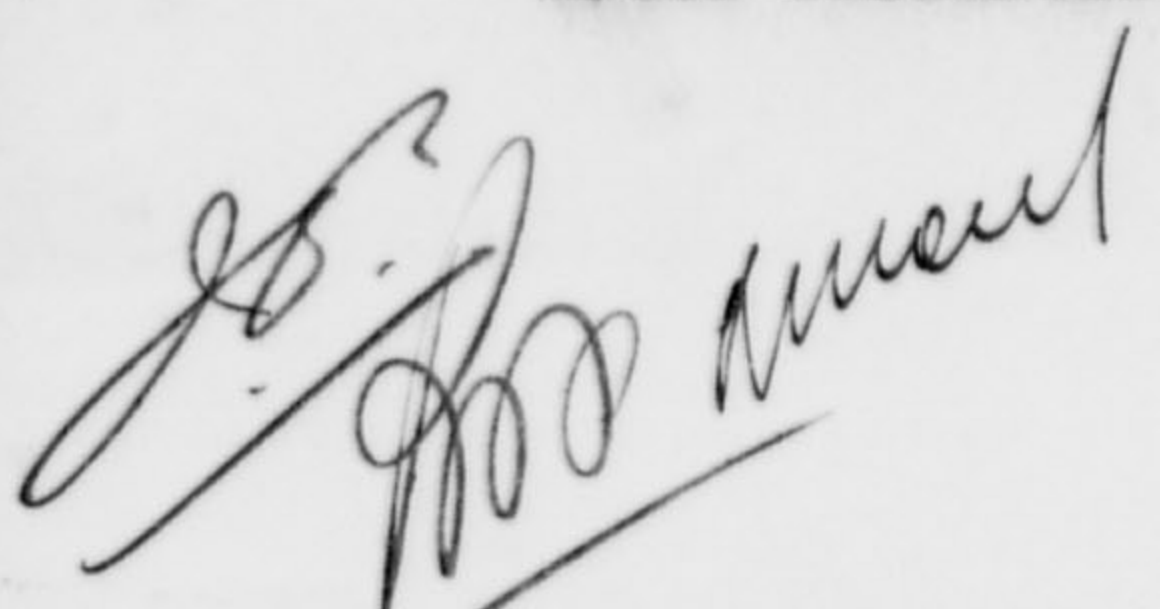

I have your letter of the 8th instant, requesting authority to have the Tobique Indian Day School building wired in order that electric light can be supplied, and furnishing an estimate of the cost.

In this connection I have to say that the funds at the disposal of the department for the present fiscal year are entirely assigned and it will, therefore, not be possible to approve of having this work carried out at the present time. You might draw this matter to the attention of the department next summer, at which time you should give full particulars as to the work you would recommend be carried out and the cost of same.

Sir:

The rear section of the Tobique School basement which contains the furnace and in which the wood is stored has a sloping floor which makes it very unsatisfactory, the wall at one end being only about four feet high. This floor should be cut down as I am unable to get all the wood in and am obliged to store some in Mrs Ellis' yard making additional expense in transferring.

The only way the dirt could be removed is by wheel barrow taking it out through the Domestic Science room, this I think could be done quite economically.

I would like the advice of the Department in this matter.

Sir:

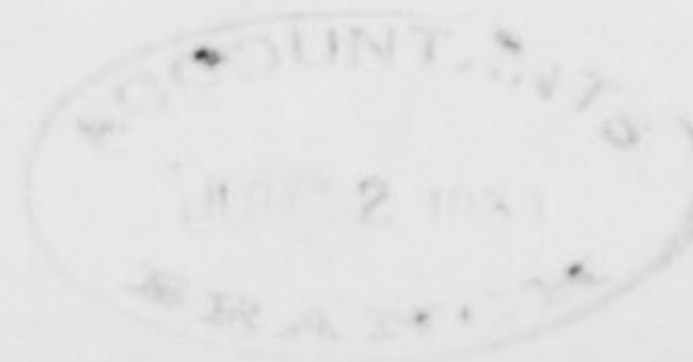

I have your letter of the 27th instant, recommending that the rear section of the basement of the Tobique Indian Day School be deepened in order to provide proper storage facilities for the fuel.

In this connection I have to say that our funds for the present fiscal year are limited and unless this work could be carried out at little expense the Department would not be prepared to authorize having same done. If possible, you should forward an estimate of the cost, when further consideration will be given the matter.

Rev. F. C. Ryan, Inspector of Indian Schools, in a report on his inspection in June, last, of the Tobique Indian Day School, recommends that the interior woodwork of the classrooms be washed and the walls and ceiling brushed down, also that the floors be thoroughly scrubbed and allowed to dry, after which they should be given a coat of hot oil. He also states that a number of window shades are required for the school. You should arrange, during the present summer holidays, to see that the classrooms are thoroughly cleaned, the floors given a coat of hot oil and this school placed in a cleanly condition before it re-opens. If any window blinds are required, you may arrange for their purchase and installation.

Father Ryan also requests that a sand table be supplied for use in the primary department. You may arrange to have a sand table, of the size and type required, built locally and installed in the classroom, where desired by the Rev. Sister in charge. It might be well for you to consult the Rev. Sister as to the type of table that would be satisfactory and you could then have same built by a local carpenter.

Please keep all costs in connection with the above work, authorized for this school, as low as possible. When the cleaning has been carried out and the table supplied, you should forward accounts, in duplicate, properly certified, covering the expenditure incurred.

I have your letter of the 17th instant, in further reference to installing electric lighting in the Tobique Indian Day School building.

In this connection I have to say that the Department has not, except in a few instances, provided electric lighting for a day school. It is thought that all classes, also the work of cleaning the classrooms, could be carried out during the hours of daylight, even in the late Fall. However, before finally deciding this matter, I have to request that you will give further particulars as to the cost of the electric equipment required, such as wire, globes, brackets, meter, also to the cost of the labour in having the lights installed. As it would be necessary to have a separate meter, the cost of installing same should be included in your estimate.

dated July 23rd.

I would estimate the total cost of wiring school at \$65. or \$75., including meter, labour etc. I have a tender of \$75.00 for the complete job including materials.

As you are no doubt aware there are windows on only one side of the school building and the Principal maintains that on dark winter afternoons it is very difficult to work so I would ask that the Department consider this expenditure.

Gentlemen:

I have to request that you will arrange to supply, from your nearest branch office, for the use of the Indian day school on the Tobique Reserve, near Perth, N.B., the following:

1 No. 2 - 5 Drawer Machine, 127 - 3 G.O.

Your Agent should notify Mr. N. H. MacPhail, Indian Agent, Perth, N.B., when this machine is available, and he will then furnish the necessary shipping instructions.

Please also forward your account, in duplicate, covering the cost of the machine to Mr. MacPhail, who is being informed of the order placed with you, and requested, upon receipt of the machine, to certify the account and send it to the Department for payment. This account should show the retail price and discount of 50% allowed off the 90 day list price "on which terms purchase is made".

I have your letters of the 31st ultimo, relative to the removing of earth from the rear section of the basement of the Tobique Indian Day School in order to provide storage facilities for the fuel and also giving an estimate of the cost of wiring the school building for electric lighting purposes.

In reply I have to say that you may arrange to have the earth in the rear section of the basement removed. It is noted that you estimate the cost of deepening the basement sufficiently to provide the extra space required for fuel should not exceed the sum of \$25, and, if possible, this amount should not be exceeded. Please arrange to have this work completed before the school reopens. You should forward an account, in duplicate, properly certified, covering the cost of the labour in removing the earth.

Relative to the wiring of the school, I have to say that we have no funds available for this purpose this present fiscal year, and it is regretted, therefore, that this work will have to stand over until next year.

Sir:-

I return herewith your voucher No. 586 for \$12.00 in favour of J.W. McPhail Co. for supplies furnished the Tobique school during the month of December, and beg to call your attention to Departmental letter No. 74-66 of October 7th, 1930, in which you were informed that supplies required for the Indians of the Tobique Reserve are to be purchased from the following:-

GROCERIES:

The George T. Baird Co.,
H.N. Dickinson

Sir:

It was brought to my attention by Miss Murdock that in a number of schools they have a hot lunch in the morning.

I would estimate that it would take about three gallons of milk per day to supply Tobique School. This milk could be heated on the stove in the Domestic science room and some sort of a nourishing biscuit could be purchased in bulk quite economically, the cost of the milk would be about forty cents per gallon and could be delivered each morning.

Please advise if the Department would consider this project for the balance of the winter or until April thirtieth.

I have your letter of the 29th ultimo, relative to the recommendation of Miss Murdock, travelling nurse, that a supply of milk be furnished each day during the balance of the present winter for the pupils of the Tobique Indian Day School.

In reply I have to say that the Department has no funds available this present fiscal year to provide the expenditure required for the purpose. If the nurse and yourself recommend that milk be supplied next winter, the matter may be drawn to the attention of the Department next fall, when, if there are funds, consideration would then be given to authorizing the expenditure required.

Sir:

I am in receipt of Departmental letters #74-66 and 66-2-5 under date of the 13th instant, returning accounts of the J.W. McPhail Co.

During the past two years I have purchased emergency supplies and clothing from firms other than those especially designated by the Department, and as you did not actually forbid buying from any particular firm, I felt it was permissible to distribute this Christmas emergency. The accounts sent to the firm in question were people who generally trade with this firm and requested that they be allowed to go there.

Re School treat, they have supplied this for several years and knew exactly the quantities and items required.

With this explanation I trust the Department will pay these accounts.

Dear Sir:-

With reference to the accounts from Messrs. J.W. McPhail Co., amounting to some \$47.00, I beg to say that I have given instructions that they be paid when funds are available. Kindly inform Messrs. J.W. McPhail Co. I wish to point out, however, that the purchase of these supplies contrary to Departmental instructions is a serious matter, and must not be repeated.

In Departmental instructions of October 7th, 1930, you were distinctly informed from which firms in Perth, N.B. you were to purchase supplies. You are to confine yourself to these firms. Purchases are not to be made from other firms without first receiving authority from the Department.

I may tell you, speaking advisedly, that any disregard or evasion of Departmental instructions in the future will call for very serious consideration.

Sir:

I have to acknowledge receipt of the voucher which you submit in payment for scrubbing and cleaning the Tobique Indian Day School, to the amount of \$5, together with receipt attached from Mrs. Nicholas for the amount paid her. This voucher is being returned herewith, as it is necessary that you state thereon the time Mrs. Nicholas was employed in the work. The number of hours or days she was employed should be given.

In future, before this service is undertaken, you should obtain authority to have the work done. While accounts for this service have been paid in the past, it is thought that the janitor should do all the cleaning required as part of his duties, and you should state whether you consider it necessary to employ extra help for the scrubbing and cleaning, or if it is not part of the janitor's duties to carry out this work. Our funds are extremely limited this year, and, before any work is undertaken or expenses are incurred, unless in cases of emergency, you should first obtain the authority of the Department.

Sir:

Rev. Father Ryan, Inspector of Indian Schools for the Province of New Brunswick, in a report on his inspection in June, last, of the Tobique Indian Day School, recommends that the interior woodwork of the school building be washed and the floor thoroughly scrubbed and, when dry, given a coat of hot oil.

I have to request that you will arrange, during the present summer holidays, to have the interior of this school cleaned. It is thought that this work could be carried out by the caretaker of the school. You may arrange for the purchase of the quantity of oil required, and after the floor has been thoroughly scrubbed and dried, a coat of hot oil should be applied. No unnecessary expense should be incurred and, after the work has been completed to your satisfaction, you should forward an account, in duplicate, properly certified, covering the expenditure incurred.

We will have no funds this year to carry out any painting to the interior of the school as recommended by the Inspector.

I have your letter of the 15th instant, requesting authority to incur an expenditure of \$25 in the purchase of the usual Christmas treat for the pupils of the Tobique Indian Day School and in order to supply each child with a pair of stockings or some other useful gift.

In reply I have to say that our funds this year are extremely limited, and I regret, therefore, that it will only be possible to allow the same amount as was provided last year, viz. \$12, in the purchase of supplies for a treat, and this amount should not be exceeded. The purchase should be made from a firm on the list to receive consideration, in accordance with departmental instructions.

Dear Sir:

Thank you very much for your cheque #6114 dated January 25th for the amount of \$16.73 which when applied to the credit of our January 7th invoice #8524 leaves a balance of \$8.00 for one steel barrel. If this barrel has already been returned for credit will you kindly advise us the barrel ticket number and also date, in order that we may have the credit located and placed to your account, or if it is intended to be returned in the near future then we would appreciate hearing from you to this effect.

Please favor us with a prompt reply and accept our thanks in advance.

Gentlemen:

Further to our letter of January 29th and yours of February 5th with regard to the steel barrel which you purchased from us at Perth, N.B. on January 7th, invoice #8524. We are now in receipt of a reply from our agent at that station advising us that the barrel has never been received by him and he believes that it is still in the possession of your representative there.

We do not wish to seem insistent about the return of this barrel but we were under the impression that it had been returned and therefore we were anxious to have it located and credit put through, but if you find that it is still in possession of your agent there and is still in use, it is perfectly agreeable to us that he hold it until such time as it is empty. Of course, we would like to be advised to this effect.

May we be favored please with an early reply in this connection.

Sir,

Enclosed find labour return covering work on school of Tobique Reserve, consisting of laying new floor in basement and re-setting closet bowl.

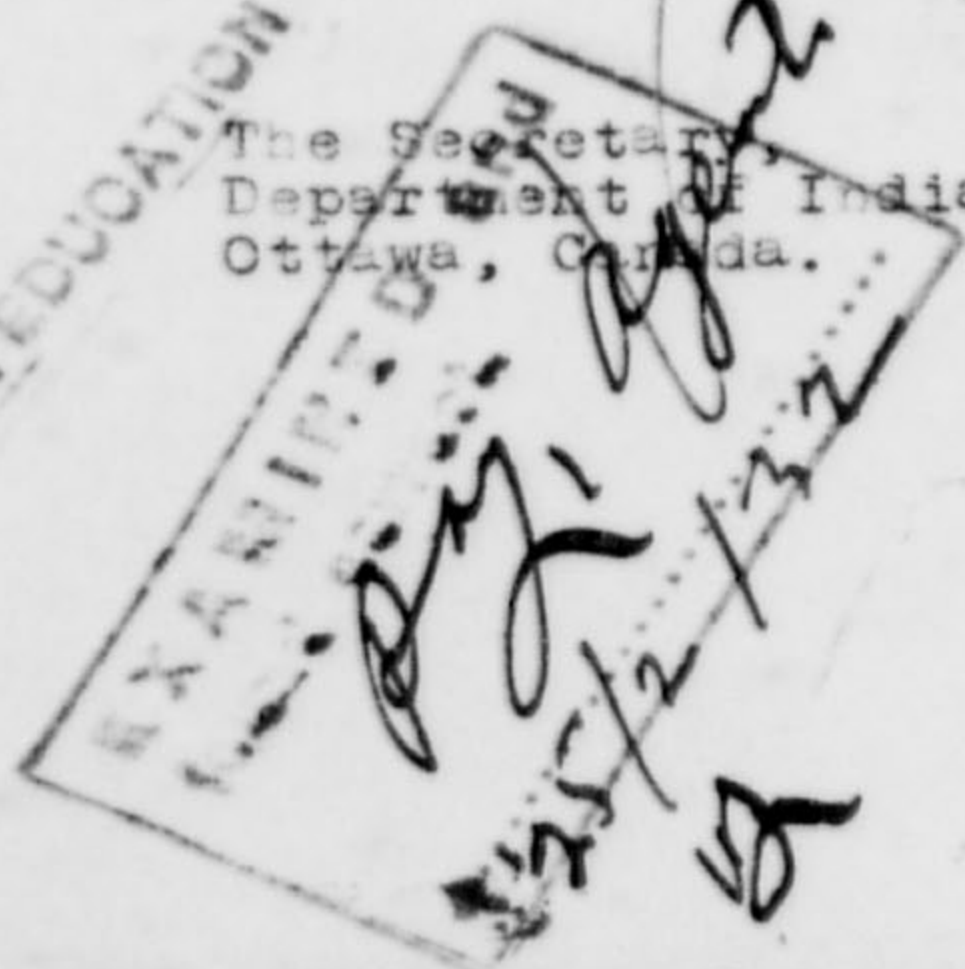

Voucher for lumber will go forward as soon as received at this office.

I only asked for authority to purchase lumber which was granted in letter #66-2-5 dated Nov. 2nd. I decided however that Bernard might not be able to do the work properly and engaged Mr Armstrong which I trust will meet with the Department's approval.

Sir:

I have your letter of the 18th instant, enclosing labour returns covering the work in laying a new floor in the basement and resetting closet bowl at the Tobique Indian Day School, to the amount of \$7.20.

In this connection I have to say that, while the Department will, in this instance, pay the account, no payment of this nature will be made in future unless authority has first been obtained when other than Indian labour has been employed. You should have reported the matter to the Department and received instructions as to whom you should have employed to carry out the work.

Mr. McPhail Indian Agent told me I had to go and work two days a week for relief. Well he sat me to work painting the Church I am a painter by trade I found out later by the letter you sent to the Indians that only Public work was compulsory. and I would like to get my wages for the work I did in church. I ruined my clothes on the job and instead of giving me some thing so I could get some clothes which I and my family need badly he goes and cuts my relief from \$5 to \$4 dollars my self and wife and baby \$3 dollars. my brother he put to board with me was getting \$2.00 now he gets only \$1.00 a week I can't board a man for that he is starving as out I've asked for

MAY 30 1932

MEMORANDUM FOR FILE:

The question has arisen as to what primary allotment in this year's Appropriation should be used for a water tank at the Tobique hospital and teachers' residence - a combined building. I believe it is now timely for the Medical portion of the Vote to undertake somewhat more of the expenditure than in the past.

Upon reviewing the costs at this school, I find that for the five years ended March 31, 1923, the average yearly expenditure for all purposes for the two-classroom Indian day school was \$991.00. During the fiscal years 1923-24 and 1924-25 the hospital and teachers' residence was erected at a cost to Indian Education of \$22,670. I believe at this time some of the furnishing, which was additional, was charged to the Medical portion of the New Brunswick Vote. This charge on Indian Education was at least \$18,000 more than if we had built a teachers' residence only.

With reference to the current expenses since that time, I believe that they have averaged \$3,464 for the past six years. This was at least \$1,300 more per year than if a day school only was being operated. Half of this extra expense, of course, is the salary of the third teacher. One of the Sisters is so classified, but, as a matter of fact, her duties are those of nurse and field matron.

I propose to discuss this with Dr. Stone, with a view to a more fair apportioning of the costs in future. In view of the difficulties of changing the classification of the third worker, I suggest that \$600 or \$700 of the miscellaneous expenses be paid from Medical primary allotment.

Ottawa, June 6, 1932.

Sir:

I have to acknowledge receipt of voucher dated the 20th ultimo in favour of Geo. T. Baird Co. Ltd., Perth, N.B., to the amount of \$38.42 for supplies for the use of the domestic science class and for window shades and rollers for maps for the Tobique Indian Day School.

In this connection I have to say that the Department does not understand why there was such delay in forwarding the account in payment for these supplies. You quote as your authority for the purchase official letters dated April 30, 1931, and May 1, 1931. In letter of May 1, 1931, authority was given to purchase 6 window curtains. We have been unable, however, to find any authority to purchase 6 rollers for maps, at a total cost of \$17.10. The Department does not furnish equipment of this kind for Indian day schools. All maps supplied are mounted on wooden rollers, which is considered sufficient. You should explain the reason for the delay in forwarding the accounts, also state on whose authority the rollers for the maps were obtained.

Our funds this year are extremely limited, and, before any purchase is made, the Principal of the school should make requisition through your office and you should receive the necessary authority, also all accounts covering purchases for the school should be forwarded by you, properly certified, not later than one month after the purchase has been made. By withholding accounts as in this instance, the Department is misled as to the amount of funds that will be required for the current expenses of the school during the year.

Payment of the account will be withheld until your explanation is received regarding the purchase of the rollers for the maps and as to the delay in forwarding the account, it being over a year since authority for the purchase of some of the supplies was granted.

Your obedient servant,

"COMMERCIAL" MAP CASE

The most serviceable and ornamental map case for school and office use. It forms a handsome piece of furniture and can be made in any wood and finish to match interior of room.

Each of the front slats shown in illustration may be readily removed and interchanged as desired. Spring rollers are fastened to the inside of the slats, and where maps are small, two or more may be attached to one slat according to the length of case. This is most convenient and saves wasting a considerable amount of space.

The "Commercial" Map Case is made to order only, in plain oak or birch mahogany, at the following prices:

No.	Size	Length of Roller Accommodated	Price
2-134	4-Slat	54 inches	\$42.00
2-136	6-Slat	54 inches	45.00
2-138	8-Slat	54 inches	49.00
2-144	4-Slat	78 inches	45.00
2-146	6-Slat	78 inches	49.00
2-148	8-Slat	78 inches	52.00
2-154	4-Slat	86 inches	49.00
2-156	6-Slat	86 inches	52.00
2-158	8-Slat	86 inches	56.00

Quartered cut oak can be furnished if necessary at an additional cost of 10%.

Prices are for the Cases only, and do not include any maps, spring rollers, or other fittings.

MAP MOUNTING

As we are in a position to handle in a thoroughly satisfactory manner all forms of map mounting, we solicit your business for any special work you may require in connection with your present maps.

Kindly communicate with us, giving full particulars of your requirements.

Prices do not include Forwarding Charges and are Subject to Change without Notice.

JOHNSTON'S SCHOOL GLOBE

The importance and necessity of the globe for demonstrating the spherical shape of the earth has become fully recognized. It alone shows the correct relative sizes of the various countries, thus eliminating the possibility of misconception created by maps of the hemispheres and on flat projection.

The maps have been revised to show all political changes, etc., brought about by the Versailles and other treaties. An exhaustive amount of legible detail is given, particularly on the large globes. Mountains, rivers, lakes, trade winds, ocean currents, chief towns, railways, submarine cables, etc., receive full attention, while the boundaries and interdivision of countries are included.

The maps are perfectly mounted on strong and substantial globe balls, which are correct in shape, true revolving and well balanced. After being moulded, each globe receives five coats of special varnish to protect the surface from dust. Any accumulation of the latter may be removed in an instant by means of a duster.

The Bases are attractively designed in heavy metal, electro-copper-plated, non-tarnishing and highly polished.

A handbook entitled "Globe Manual" is sent free of charge with each globe.

NOTE—In purchasing globes, we strongly recommend the 12- and 18-inch sizes, on account of the clear manner in which the various details are shown.

Sir,

Replying to letter #66-2-5 I regret overlooking the fact that I should not purchase articles the fiscal year after authority has been granted.

I had the blinds in question repaired but finally had the new ones supplied.

In connection with the map rollers I am enclosing cut of the equipment I wanted as per letter #30-66 dated Apl. 30/31. I had Bernard make the frame and the Baird Co., procured the cheapest rollers they could of length required. In the past these maps have been standing on end on the floor when not in use and were being destroyed.

Ottawa, August 8, 1933.

Sir:

I have your letter of the 2nd instant, requesting authority to have new flooring placed in the boys' lavatory at the Tobique Indian Day School and giving an estimate of the cost.

In reply I have to say that you may incur an expenditure, not exceeding the sum of \$10.00, for the purpose of installing the new flooring required. It is noted you can have the work done by the carpenter who will be placed in charge of shingling the Priest's house.

Approval is granted, also, for the purchase and delivery at the school of 24 rolls of toilet paper.

Please obtain accounts, in triplicate, properly certified, covering the above authorized expenditures. These, you should attach to proper voucher forms, certify in the usual manner and forward for payment.

Memorandum:

Dr. McGILL.

Some years ago, the Department erected a new school building on the Tobique Reserve (No. 20). The cost of this building was paid wholly from the Appropriation for Indian Education, and, in addition, any repairs made since the building was erected have been paid from the same source.

Part of the building has always been devoted to hospital purposes. Three Reverend Sisters are employed, one of whom devotes all her time to the work of the hospital. Her salary has also been paid from the Appropriation for Indian Education.

I have discussed this matter with Dr. Stone, and I would appreciate your concurrence in the following:-

1. From April 1, 1934, any disbursements in connection with the repairs or upkeep of the part of the building devoted to hospital purposes should be paid from Medical Vote.
2. The salary of the Rev. Sister engaged in hospital work should be provided in the Medical Vote for the fiscal year 1935-36 (from April 1, 1935). I understand that there is no provision for her in the Medical Vote for 1934-35, and we have provided for her salary during that fiscal year.

Plaster Rock, N. B.
July 25th., 1934.

Dept. of Indian Affairs,
Ottawa, Canada.

Gentlemen:

We have a small account on our books for lumber supplied to your Agent N. H. McPhail in August 1933. Our Audit Dept. has been after us for several months to get this account paid. We have forwarded Mr. McPhail a statement at the end of each month and heard nothing from him until the end of June when he returned our statement advising that it must have been paid. Would you kindly look into this matter and advise if you have any record of the account having been paid. We are enclosing statement returned by Mr. McPhail.

Yours very truly,

FRASER COMPANIES LTD.

Dear Sir,-

hld

The Department has your voucher dated November 1st for five yards of lawn for the Tobique Hospital. This is an unusual supply for a hospital and perhaps you will not be surprised at the Department's impression that the material was for the personal use of the Sisters. Before the account can be dealt with it seems necessary to have your comment on this impression.

Sir,

Enclosed find account favour of Sisters of Charity for Christmas treat for Tobique School, amounting to \$12.90.

I do not wish the Department to think I deliberately ignored instructions of letter #66-2-5 dated Dec. 16th. but wish to advise that Sister Electa purchased the candy and other articles on this account, excepting fruit, when she was in Saint John last summer. I told her at the time that we should have from \$12.00 to \$15.00 this year, which was what I asked for. The regular retail value of the treat distributed was nearly \$20.00.

With this explanation I trust this account will meet with the approval of the Department.

Dear Sir:-

RE
DEPT. OF INDIAN AFFAIRS
AUG 8 1936
RECORDS

A few days ago, I was looking over the Tobique Indian day school. and discovered that it really needs painting very bad. another year would be worse. As our Indian agent being away, I cannot draw his attention to it. So I thought that I would bring this matter up with the Department so, I can invent work, for some of the Indians. I am a sign painter, and am able to mix any kind of paint required for building purpose. Many of the members, are out of work. and besides it would be best to paint now. before school opens up.

Just say the word, and I'll measure the building and send you the actual measurements: total cost of material etc. At present I'm out of work. I have been painting buildings, at Perth, and Andover. besides signs. Trucks etc: My references will be furnished on request. I am cordially waiting for immediate reply

Yours Very Truly.

EXTRACT FROM REPORT OF REV. F. C. RYAN,
INSPECTOR OF INDIAN SCHOOLS FOR NEW BRUNSWICK,
ON HIS INSPECTION OF THE TOBIQUE INDIAN DAY
SCHOOL ON JUNE 8th, 1937.

- Original on 66-2-6 -

The interior of this school must certainly
be kalsomined this year. I would recommend painting
it ----- wash off the kalsomine and paint it ----
then when painted, it can be well washed each year.
In the end it would be much cheaper.

Sir,

In reply to letter dated June 28th re painting interior of Tobique School I wish to recommend that the walls and ceilings be given to coats of Alabastine and all interior woodwork two coats of paint.

My estimate would be as follows:

75 Lbs Alabastine.....	\$10.00
5 Gals of Paint and turpentine....	25.00
Labour.....	65.00
	<u>\$100.00</u>

My estimate of labour is based as follows-Master painter \$4.00 per day, Indian assistant \$2.00 per day estimated time approximately 10 days.

This report would have gone in sooner but I wished to consult with the Teachers who have been absent from the Reserve.

Ottawa, January 12, 1938.

Dear Sir:-

The Department finds it necessary to return the enclosed voucher. You state that the expenditure was incurred in view of the authority contained in official letter of August 10, 1937. This referred to applying Alabastine to the ceiling of the Tobique Indian Day School.

I presume that you employed Mrs. F. Moulton and Mrs. F. Sappier to clean the school after the work had been completed. If so, the voucher should show the number of days they were employed and the rate per day.

The last item on the voucher does not refer to work done at the Tobique School.

As you are aware, the various services are paid from different appropriations and considerable trouble is caused the Department when charges for different services are included on the same voucher. You should therefore forward a separate voucher for the relief order supplied to Mrs. Fred Moulton for keeping house for her daughter.

Sir:

I beg to advise that the exterior of Tobique school requires painting. I believe it is eleven years since it was painted.

The following is an estimate of material and labor: 10 Gallons paint \$40., oil, turpentine, brushes etc. \$10. and Labor \$75. I believe there are Indians capable of doing this work.

I wish to stress that this work is really urgent and trust that the expenditure will meet with the Department's approval.

Requisition for School Material

Date September 5, 1938

For Johique Indian Day School Northern Agency

NOTE:—Teachers should secure from the Department of Education, of the Province in which the Indian School is located, a list of the text books authorized for use in the white schools. In ordering text books, only those authorized in this list should be requested.

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "No. Authorized".

Sir:

Enclosed please find labour return covering painting of Tobique school together with accounts showing payments. I am also enclosing account for material which is \$34.11 over my estimate.

I was obliged to buy more material than I anticipated such as blocks, rope and hooks as it was impossible to paint this building from ladders. This equipment will be placed in storage and will be available for future work.

Your obedient servant,

N.H. MacPhail

66-2-5

November 24, 1938.

Dear Sir:

I am in receipt of your letter of the 17th instant with reference to painting the Tobique School. The Department finds it necessary to return the following accounts:

1. Voucher No. 137

This voucher should show the dates on which Chas. Saulis was employed, also the number of hours and the rate per hour. It is noted that in return for his labour Saulis was supplied with lumber by F.D. Sadler Co. You should attach to the voucher a receipt from Saulis acknowledging receipt of the lumber.

2. Voucher No. 138

As this covers the cost of clothing and groceries supplied to Indians for painting the Tobique School you should attach to the voucher receipts from the Indians mentioned acknowledging receipt of the supplies and clothing which they secured.

3. Voucher No. 136

Similar information should be given on this voucher as has been requested on voucher 137 and 138.

Arrangements are being made to pay voucher 196.

I regret that the expenditure exceeded the amount authorized. You can realize that it is impossible for this Branch to properly administer the funds if Indian Agents assume authority for greater expenditures than that for which approval is granted.

It is noted that you state that the blocks, rope and hooks will be available for future work. Please let me know where you have these stored.

Yours truly,

Extract from report of Rev. F. C. Ryan, Inspector of Indian schools for the Province of New Brunswick, regarding his inspection of the Tobique Indian day school on September 27, 1938.

The exterior of this school was well painted during vacation however the interior is in sad need of being painted. I trust the Indian Dept. will kindly consider this next July or August.

Sir,

Last fall I believe window blinds were authorized for Tobique School but to get the proper size I waited until the makers traveler was in town. When I went to place the order I was unable to find any authority.

Would the Department advise if these blinds were authorized or give me authority now. I require 12--37" x 80" they will cost \$2.00 each.

Dear Sir:

The Department is returning unpaid your voucher No. 169. There is no explanation given for incurring this expenditure and the Department cannot understand why it should have been incurred in view of the fact that we are paying a regular amount for janitor at the Tobique School.

Sir,

Re Christmas treat-Tobique School

I wish to refer the Department to letter #66-2-5 dated December 9th. 1939 wherein you state that arrangements may be made to continue this allowance.

I would ask that \$22.00 to \$15.00 be authorized which is the amount we have received the past few years.

I would like to point out that the Sisters of Charity have purchased the candy and other items the last few years which together with what they and others donate amounts to around \$50.00.

Yours truly,

Sir:

I beg to return herewith account in favor of R.W. Estabrook for clothing supplied to Theresa Nicholas.

It has been the custom for some years to have a woman wash the windows and woodwork of Tobique School before school opens in the Fall and I did not think it necessary to get authority for this small expenditure.

Trusting the account will be paid, I am,

TOBIQUE INDIAN DAY SCHOOL
November. 20th, 1940

Mr. N. H. MacPhail,
Indian Agent,
Perth, N. B.

Dear Mr. MacPhail:

Will you please apply to the Indian Department School Branch, for electric lighting for our two classrooms. Some days are so dark that we really need lights the greater part of the day. and Dr. MacIntosh says it is an urgent need as the lights would eliminate so much eye strain. There are lights now in the basement, and for very little extra cost two drop lights could be provided in each of the two class rooms.

Kindly rush this appeal through to the proper authority as quickly as possible.

Yours very sincerely,

Prin.

Sir:

Enclosed herewith please find letter from Sister Honora, Principal Tobique Indian Day School requesting that electric lights be installed in the two class rooms of the school.

I have obtained an estimate from George W. Wright, local electrician who states that \$30. will cover cost of labour and materials for installing two lights in each classroom.

I would ask that I be authorized to have this work done at once as the rooms are very dark a good part of the day at this particular time of year.

Perth, N. B. August 8th. 1942.

Sir,

Painting interior Tobique School

In reply to letter #55-2-11 dated July 6th.
I beg to submit the following estimate given me by
a local paint contractor:

10 Gals. Interior Gloss Paint.....	\$47.50
75 Lbs. White Alabastine	7.50
Extra's	5.00
Labour	150.00
	\$210.00

Paint I think the above estimate high. My estimate for
~~#####~~ was only 7 Gals. and I think I could get the
job done for around \$100.00. However there are two class-
rooms 21x35' with 15' ceiling, sheathed up 3ft. with 4
large connecting doors and 6 large windows (double) in
each room. In addition there are two entrance halls and
two toilets in basement.

Any washing or preparatory work can be done by
Indian women but I would not care to have the painting
done by Indian labour. I doubt if any of them would be
available in any case.

If the Department is prepared to authorize
this work I would ask that they use the painters es-
timate and I will keep the cost as low as possible.

Your obedient servant,

Dear Sir:

With reference to your letter of the 8th instant, you may arrange for the painting of the interior of the Tobique Indian Day School. It is noted from your letter that you have received a quotation of \$210.00 for material and labour but that you consider you can have the work done at a lower cost. The Department will look forward, with interest, to seeing how much you can reduce this expenditure.

It is also noted that Indian labour will not be available, but if you can secure Indians you should use them. With regard to white labour, you should employ those on the approved list.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

The Secretary, Indian Affairs Branch, Ottawa,

I am returning Voucher No 174 and beg to advise that the second item on voucher is lumber for a new roof on camp used by Indians of Tobique Reserve when cutting School and Teachers Residence firewood.

The area where this wood is cut is so far from the village a camp was built some years ago and had to be repaired this winter.

The Secretary, Indian Affairs Branch, Ottawa, Ont.,

In reply to letter #66-2-5 dated Nov. 20th.
re desks for Tobique School. I have to advise that these
desks are urgently required owing to the increase in
pupils.

Quite a number of families that have been
living in Maine the past two or three years have re-
turned to the Reserve and the Sisters have had to
provide makeshift seats for the overflow.

EX'D.

Gentlemen:-

Attention Philip Phelan
Chief, Training Division

In reply to your letter of February 8th.,
in connection with your Department's Order No. 28295,
forwarded to us on December 13-1944, covering six Large
and six Small Moveable Chair Desks, to be shipped direct
to Mr. N.H. MacPhail, Indian Agent, Perth, N.B. We were
able to ship the small desks on December 20th., but on
account of an unavoidable delay we were only able to ship
the six large desks on Friday, February 2nd. They left
our factory by C.P. L.c.l freight, and should have arrived
at destination by this date.

Yours very truly,

Colonel B. F. Neary,

Re: Wiring of Day School and Teachers' Residence.

I wish to advise that during my last visit to the Tobique Reserve, I discovered that there were a number of extensions made to the wiring in the basements of both the buildings by a person, or persons, who were unqualified to do so. There is always danger of fire because of a short circuit.

I instructed Superintendent MacPhail to obtain the services of a qualified electrician and have him check all this wiring and, if it is found to be dangerous, to cut off the current until such time as the necessary repairs can be made. Mr. MacPhail, no doubt, will report his findings in the near future.

Tobique Indian Day School.

We have received a report that a number of extensions have been made to the wiring in the basements of both the school and the teacherage located on the Tobique Reserve. If these extensions were made by unqualified persons, the Department feels that a real danger of fire exists. Would you therefore please arrange to obtain the services of a qualified electrician and have him check all this wiring. If it is found to be dangerous, the power must be cut off until such time as the necessary repairs can be made.

The Secretary

Dear Sir:

I wish to advise that I have been given an approximate estimate of from \$1000 to \$1200 to remove the old stone wall and replace it with cement, under one-half of Tobique School, as follows:

Removing old wall	\$350.00
Jacking and supporting building	100.00
Building form and new wall	250.00
Cement and lumber	300.00

1000

*Are you
using
labour*

This work is urgent, as one end of the stone wall is caving, allowing the building to settle, and I do not think that the present foundation could be repaired satisfactorily.

If this expenditure meets with the approval of the Department, I would ask that you forward a cheque for \$800.00 to cover cost of labour, as the work should be done during the next two months.

Dear Sir:

In reply to your letter 66-2-5 dated July 9, I wish to advise that repairs to Tobique School will probably be undertaken by a white man, Richard Wallace, who has built several Veterans' houses on Tobique Reserve.

He has two white employees, Gregory Hudson and James Wallace, the addresses of all three are Perth, R. R. #1, N. B..

Any additional men employed on this job will be Indians.

DEPUTY MINISTER

Re: Tobique Indian Day School, New Brunswick
North Indian Agency, Electoral District
of Victoria-Carleton.

Superintendent MacPhail reports that one end of the stone wall at the Tobique School is sinking and consequently allowing the building to settle. He states that it is not possible to satisfactorily repair it.

Mr. MacPhail recommends that the old stone wall be removed and replaced with cement. The cost of this work is estimated at a maximum of \$1,200.00.

Superintendent MacPhail recommends the employment of three white men, Richard Wallace, Gregory Hudson and James Wallace whose addresses are Perth, New Brunswick. Richard Wallace has previously built several veterans' houses on the Tobique Reserve.

I would appreciate it if the Minister would approve the expenditure mentioned above and also the employment of the men mentioned.

of Victoria-Carleton.

Superintendent MacPhail reports that one end of the stone wall at the Tobique School is sinking and consequently allowing the building to settle. He states that it is not possible to satisfactorily repair it.

Mr. MacPhail recommends that the old stone wall be removed and replaced with cement. The cost of this work is estimated at a maximum of \$1,200.00.

Superintendent MacPhail recommends the employment of three white men, Richard Wallace, Gregory Hudson and James Wallace whose addresses are Perth, New Brunswick. Richard Wallace has previously built several veterans' houses on the Tobique Reserve.

I would appreciate it if the Minister would approve the expenditure mentioned above and also the employment of the men mentioned.

Sir:

Enclosed find Voucher No. 435 covering cost of heater purchased from Peter Thomas, Tobique Reserve. This is to replace heater in Domestic Science room, Tobique school, which had become a fire hazard.

Thomas bought this second hand heater for his own use but found it much larger than he needed. It is a much better value than new heaters of comparable size, which range in price from \$45.00 upwards.

I trust this expenditure may be approved.

We have your letter of the 14th instant regarding Voucher 482. It is noted that you have arranged to have considerable electrical work done at the Tobique School, in view of authority given you in official letter of 3rd September, 1947.

As you are aware, that date was in the fiscal year 1947 - 48, and you should have secured new authority subsequent to 1st April, 1948, the beginning of the fiscal year 1948 - 49.

If the work has already proceeded, we will honour accounts to \$221.81, the amount previously authorized. Owing to lack of funds at the present period of the current fiscal year, it will not be possible to allow a larger amount.

Sir:

Re: Voucher #482 - \$221.81

When submitting Voucher #482, payable to MacPhail Hardware Company, Limited, \$221.81, covering cost of electric light fixtures and sundry supplies for Tobique School, I neglected to advise that I had authority dated September 3/47, to install four new lights in Tobique School. I was unable to get the services of a competent electrician at the time.

In the meantime, I was instructed in letter 66-2-5- dated May 25/48, to make a thorough check of all wiring in both the Teachers' Residence and school and make any necessary repairs.

This work was started, and when the lights authorized, were to be installed, the electrician advised they would be not improvement over the old ones. He recommended that fluorescent lights be installed. While Mr. Wright, the electrician was available, this work was done, without further authority from the Department.

I trust this expenditure may be approved.

For your information, repair work in the Teachers' Residence is not yet completed. That will consist mainly of new wiring, no fixtures are required.

Memorandum:

SUPERINTENDENT OF EDUCATION

Tobique Indian Day School.

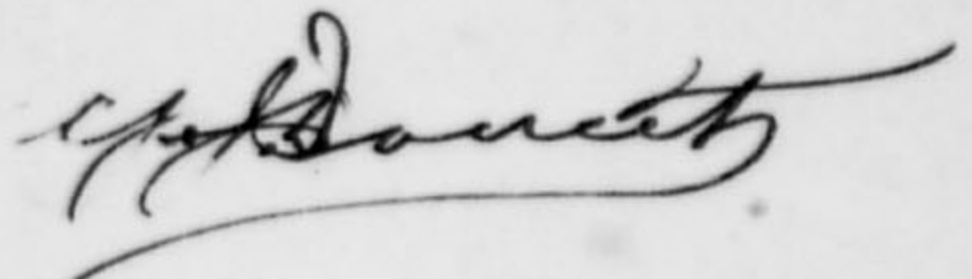

There are two rooms in operation at Tobique. Nineteen pupils were present in the Senior room and twenty-six in the Junior. The reading of the pupils was fairly fluent but the teaching of the subject is very traditional. As in many of the schools no definite training of the physical aspects of reading have been undertaken. The Indian child has certain muscular deficiencies which prevents the pronunciation of sounds. This can be overcome only by muscular exercise in order to train and produce these sounds.

The weaving and sewing are quite satisfactory. The pupils enjoy this work, and a demonstration was made of the methods of integrating this work with the academic. I feel that by this means many of the lessons in the classroom will become meaningful.

Good work is being done at this school and while I did not check all the academic subjects, I am satisfied that progress is being made.

The exterior of the residence is badly in need of paint. This should be done if at all possible this season as deterioration is liable to take place. This residence is part hospital and part residence. In fact, the complete main floor and part of the basement is used for hospital charges. Whether the Medical Branch will assume any obligation for the up-keep of this building or not, I can not say. I feel that they have a definite responsibility there.

Respectfully submitted,

A.J. Doucet,
Supervisor, Vocational Training.

Mr. N.H. MacPhail,
Supt. of Indian Agency,
Perth, N.B.,

Following his inspection of
the Tobique Day School, Mr. Doucet has reported
to this office that he considers the exterior
of the residence is in need of paint.

We are aware that the building
mentioned is used partly as a teacher's residence
and partly for a hospital.

We would appreciate it if you would
let us know the approximate cost of the material
and labour to paint the exterior of the building.
You might obtain quotations for the painting on
the basis of day labour with the Department supplying
the paint which we can secure at a reasonable cost.

When we have this information, we will
discuss the matter with the Indian Health Services with
a view to determining if they will assist with the
expenditure.

Sir: Teachers' Residence-Tobique Res.

In reply to your letter dated June 8th., I have been given an estimate of \$300.00 to cover labour and approximately 25 gallons of paint. The building is in very bad shape and it is difficult to make an accurate estimate on the material.

The Martin-Senour Company has offered the paint locally, for \$5.00 per gallon. If this price is satisfactory, it would be more convenient to buy it locally, as I could get exactly the quantity I required.

I do not believe the local paint contractor, Mr. Barry Nevers, would take this job on a contract basis for \$300.00 but he is very reliable and I would recommend that he be employed on a day basis.

Re: Tobique Teachers' Residence

Your File No. 66/6-2

With reference to your letter of the 4th instant, the Department approves the purchase of 25 gallons of paint at \$5.00 a gallon for painting the exterior of the building.

It is understood from your letter that you will have to do the work by day labour as you are not able to obtain anyone to take the work on a contract basis. We further understand that the cost of the labour will be approximately \$300.00. It is understood that you will supervise the work and keep the cost of the labour as low as possible.

Re: Tobique Indian Day School

We have received your Voucher No. 261 in an amount of \$308.70 issued in favour of George W. Wright. You quote as authority official letter of January 24, 1949.

The last paragraph of that letter read in part as follows: "If the work has already proceeded we will honour accounts to \$221.81, the amount previously authorized." Apparently the work had not proceeded at that time, as the account from G.W. Wright is dated May 11th, 1949, and consequently, we feel that you should have written to us again before incurring the expenditure. You will also note that the amount of the Voucher is \$86.89 more than the amount mentioned in official letter of January 24th, 1949.

Please let us have an explanation of the reasons for your action in this particular matter. Did you receive a tender from Mr. Wright for the materials and labour? If so, you should forward it to us.

Please find attached in duplicate
a pupil enrolment form which I would like to have
completed and returned here in due course.

You will recall that I mentioned this
pre-school age, grade sex form to you when I recently
visited Tobique. With this information, we will be
able to more intelligently decide on whether a three
of four classroom is required for the Tobique School.

I have already ordered the blackboard

hearing from you as to whether any progress has been
made in securing the services of a third teacher. If so,
we should requisition for the classroom tables and chairs
which will be needed.

Inspection Report
Tobique Indian Day School

Date of Inspection - September 16, 1949.

Teachers - Sister M. Victorine with a Second Class Certificate, five years of Provincial and five years of Indian experience. Sister M. Honora with a First Class Certificate, ten years of Indian and eleven years of Provincial experience.

School Building -

This is a two-room school with folding doors between the classrooms. The two rooms are bright and attractive with fair space for the number of children enrolled now. However, when the children return from Maine, it is obvious that an extra classroom will be required.

Classroom Activities -

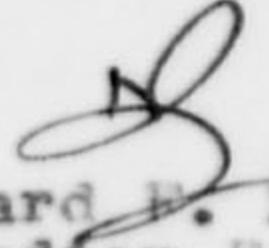

(a) Senior Room - Sister Honora is doing a first rate job of teaching. The pupils tested well and I spent some time indicating how the vocabulary and language work could be improved. Her discipline is good and the pupils are interested in their work. She has a large number of boys attending and they are working hard.

(b) Junior Room - Sister Victorine is also a capable teacher and handles her class well. She has grades one and two speaking out more loudly and more clearly than many classrooms I have inspected. They read well - and in phrases and sentences. There is no word calling and she stresses this from the beginner classes up.

This is one of the better schools we have in our system and the credit is largely due to the calibre of teachers employed.

Recommendations -

1. That a third classroom be opened this Fall in the basement. There is a domestic science classroom, and heating is adequate. As electricity is available, a primary room could be operated here for the winter.
2. Mr. Doucet should visit this school and decide how a third and possibly a fourth classroom could be added.
4. Send census form to Mr. MacPhail so that the potential pupilage can be determined.

Re: Tobique Indian Day School

In reply to letter dated September 9th., re voucher
No. 261, in favour of George W. Wright.

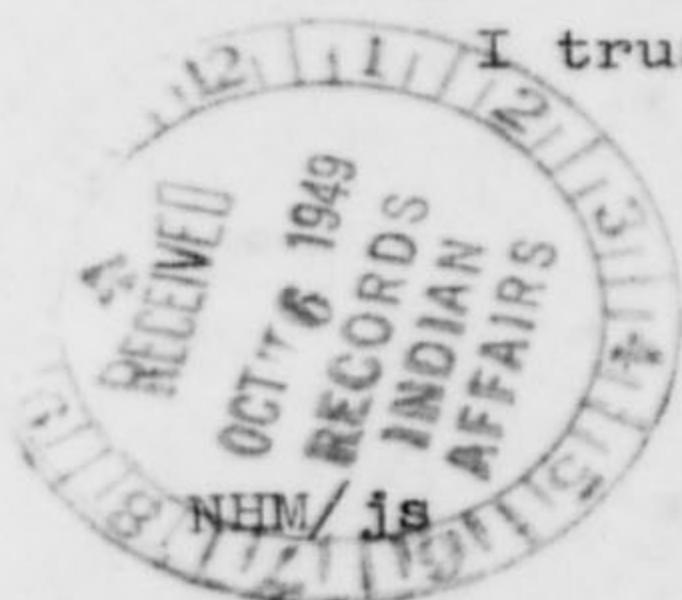

My original instructions in connection with electrical
repairs on Tobique school and Hospital were that all necessary
repairs be made to eliminate fire risk.

When Mr. Wright started to work in May, there was
nothing I could do except let him proceed with the work as he
saw fit.

The account has been held up for sometime, as I felt
there should be some salvaged material. Mr. Wright finally
showed me the old wiring, etc., that he had removed and as
it was not fit to be used anywhere, I forwarded the account
as submitted.

It was my intention to go over this work thoroughly
with Mr. Neary during his recent visit but I forgot to take
up the question of Mr. Wright's work.

I trust this account may be approved.

Attached is an account amounting to \$308.70 covering the cost of repairs to the wiring in the Teacher's residence and day school on the Tobique Reserve. When forwarding this account, Superintendent MacPhail writes as follows:

"My original instructions in connection with electrical repairs on Tobique School and Hospital were that all necessary repairs be made to eliminate fire risk.

When Mr. Wright started to work in May, there was nothing I could do except let him proceed with the work as he saw fit.

We agree with Mr. MacPhail that the work was extremely necessary, and when the electrician was working it was necessary to complete what was required. It would, therefore, be appreciated if you would issue Purchase Order so that the account may be paid.

Enclosed find requisition for black-board and furniture, re third class-room, Tobique school, as recommended by Mr. Neary.

I think the tables can be procured locally. I have been given an estimate of between \$6.50 and \$7.00 unfinished. I would advise that chairs required be the same as those supplied under purchase order 31628, dated June 25, 1948.

I would also like authority to make minor changes in the lights of the domestic science room where the new class-room is being set up.

Sir:

I have been advised by Sister Honora,
principal of Tobique School, that print and
yarn on requisition dated May 20th. would cost
\$60.00, groceries approximately \$20.00.

In your letter 284-5, dated June 20th.,
an amount not to exceed \$25.00 was authorized for
material. The \$20.00 authorized for noon lunch
which does not seem to be necessary, would cover
the cost of groceries.

I would ask that the amount for material
be increased to at least \$50.00.

Purchase Order No. 50543 Dept. of Mines & Resources

Dear Sirs:

I would refer to your invoice No. 7590 of December 6, 1949, your Order No. 5676.

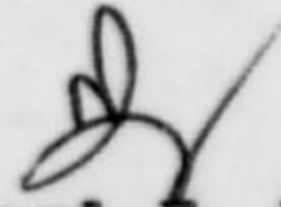

This deals with the provision of 20 chair desks to the Tobique Indian Day School at Maliseet, N.B.

Your account is in the amount of \$89.24 but our Treasury regulations require that a freight receipt be sent with such accounts.

Would you please obtain such a receipt in the amount of \$5.94 and forward it here as soon as possible. Rather than delay payment of this account it is being passed for payment of \$83.30 pending the arrival of this freight receipt.

It would be appreciated if in future you could send such freight receipts with your accounts so that there will be no further unnecessary delays. We are pleased with your product and hope that the forwarding of these freight receipts can be arranged with future accounts.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

Memorandum:

COLONEL NEARY

Tobique Indian Day School

The Tobique School is in a fairly well conserved condition. One difficulty in heating the rooms is the excessive height of the ceilings. This of course could be fairly easily remedied. Some repair will be necessary to the plaster. This should not be expensive for I believe that the present plaster is sufficiently good to justify repairing.

Appended to this report is the number of pupils from the age of 6 to 16 years. The present enrolment is 80 and there appears to be no great change in this enrolment for at least five years. From the figures given in this appended summary it appears that the addition of one classroom would adequately satisfy the educational needs of this reserve for the next ten years. The present plan lends itself readily to the addition of a third classroom giving it the shape of an L. The third classroom windows would be facing south which would give adequate lighting. Below this classroom a well organized Manual Training shop could be devised.

I would then suggest that an architect proceed at the earliest convenience to Tobique and make the plans so that this construction may be undertaken as

soon as weather permits. The rough lumber could be obtained from the reserve at the approximate cost of \$32.00 per thousand. The heating system could readily be changed into a forced air heating system. Our mode of construction should be decided as soon as possible so that Superintendent MacPhail may be given an advance to have the lumber prepared.

Respectfully submitted,

A.J. Doudet,
Supervisor of Vocational Training.

Tobique Indian Day School
Restigouche Indian Day School

Dear Mr. Gibson:

The Tobique Indian Day School is situated near
Perth, N.B. and the Restigouche Indian Day School is
situated near Campbellton, N.B.

Tobique School - The Tobique Indian Day School is
a two-room school with a third class presently being
conducted in the basement. We are anxious to make a
one-room addition to this building and would appreciate
a visit from one of your architects so that the
necessary plans and specifications can be prepared. The
present plan lends itself readily to the addition of a
third classroom which would give the building the shape
of an L. The windows of this third classroom would be
facing the south which would ensure adequate lighting.
Below this classroom a well organized Manual Training
shop could be installed in the basement. Mr. Indian
Superintendent MacPhail lives at Perth and will be able
to take the architect out to the school so that the
necessary plans can be prepared.

Restigouche School - This is a five-room building
and we are conducting a sixth class in the nearby
provincial school. Two of the classrooms provided are

very small having been devised when the building was modified.

We wish to extend this building in the form of an H thereby adding two classrooms and enlarging the two small ones. Mr. Indian Superintendent Nadeau lives at Restigouche and arrangements could be made to meet the architect when he arrives at Campbellton which is two miles away.

Both of these projects are readily accessible and are not too far apart. It would be appreciated if you could have an architect proceed to these schools to draft plans and specifications for these required additions. If further details are needed they can be obtained from the Education Division of this Branch.

In reply to letter dated January 20th.,
re classroom activity tables, I am enclosing
letter from Sister Honora, principal of Tobique

In my opinion, these tables are very
suitable for the work for which they are intended,
that is activity work. As I understand it, they
are not meant to take the place of classroom desks.

Dear Mr. MacPheail;

In reply to your request for comments on the four tables which we received for use in Grade One, we wish to state that we think they are most satisfactory for Kindergarten work or for activity work in a classroom. For class work, we think they allow too much communication among the children which might in time create a lack of self-reliance.

Yours truly,

Restigouche Indian Day School.

With reference to your marginal note on a memorandum dated the 10th of February from the Director, Indian Affairs Branch, pressure of present commitments does not allow an early inspection of these schools. However, the matter has been discussed with the Superintendent of Indian Education, and he is content to have this work done later in the year, when it may be possible to assign staff.

The Secretary,
Indian Affairs Branch,
Ottawa

Sir:

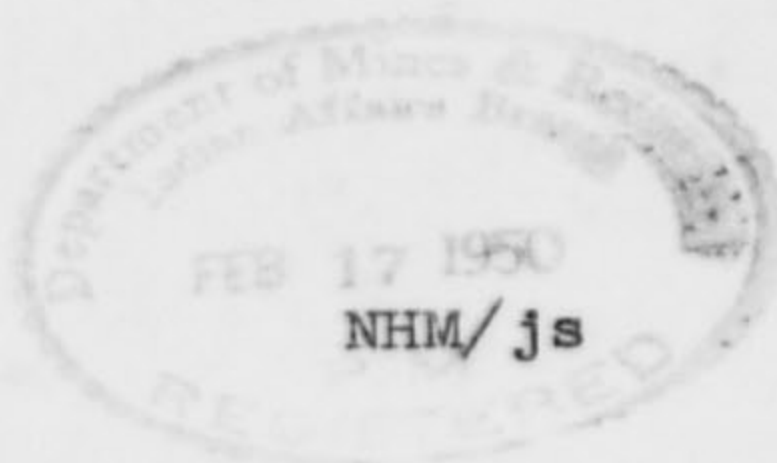

During the last visit of Mr. Doucet to this Agency, the question of an addition to Tobique School was discussed. Mr. Doucet was of the opinion that one class-room 30' x 30' should be added to the present building.

If this expenditure is to be approved, I would request the authority to cut and saw rough lumber required, within the next few weeks.

I do not know the exact specifications of the proposed wing but estimate approximately 15 m.b.ft. would be required. This will cost \$20.00 per thousand for cutting, yarding and trucking. I would not be able to have the lumber sawed however until I have the exact specifications of floor and ceiling beams, rafters, etc.

If this expenditure meets with the approval of the Department, please forward advance cheque for \$300.00 to pay above mentioned costs. Account for the sawing at \$11.00 per thousand will be submitted by voucher.

Tobique Indian Day School

Reference your 66/6-1 of February 16

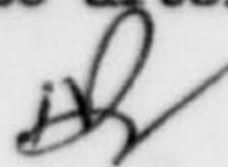

We have included in our 1950-51 Estimates a sum for an addition to the above school. This money will not become available until April 1, 1950.

I presume from your letter that you would recommend erection by day labour rather than by contract. In this way you can be certain that more Indians will be employed in the construction of the building.

If you have a foreman-carpenter in mind, please give me his name, address and recommended rate of pay per hour. We can then obtain Ministerial approval for his appointment during the construction of the building.

I wrote to the Department of Resources and Development requesting that they have an engineer visit the school and prepare the necessary plans and specifications. They will try to have an engineer down in the near future.

If you intend to use day labour as suggested above, then we agree that the cheapest way would be to buy lumber from the Indian mill. Please write again outlining your plans and we can forward the accountable advance after April 1, 1950.

Superintendent of Education.

Dear Mr. Gibson:

Tobique Indian Day School
Restigouche Indian Day School

You will recall our previous correspondence concerning the additions which are required to both the above schools.

Would it be possible now to assign an Engineer to carry out the required inspection of these schools with the necessary preparation of plans for the required additions?

Our Education Division estimates that this trip should only take about six days as both schools are fairly close together and both are accessible by railway. If the Engineer you assign for this work could contact the Superintendent of Education, he will be given assistance in planning his itinerary so that he will not be absent from Ottawa for more than a week.

Dear Mr. Jones:

I was called to the Tobique Reservation yesterday by the Chief and Father Sam who had several complaints to make.

I understand that the building of two welfare houses was started. The basements are in but they have not had any further word to go ahead.

E. Re the school. The engineer and inspector were there taking measurements for a 30 foot wing to be built on the school and said the work would start right away, but nothing has been heard since. I do not agree with the engineer's plan to build this wing as it is on the wrong side of the building. They have three teachers now with two class rooms. I understand one of these teachers is only temporary. There will be 90 children starting this fall and 50 more next fall so they are quite crowded.

E. They told me that an educational representative from Ottawa was there this spring and told them to get 8 boys and girls ready to go to vocation school or a higher grade school and everything would be arranged. Nothing more has been heard about this and they have the boys and girls all ready.

The foundation of the pumphouse needs to be looked after at once, otherwise it is apt to undermine the house which will slide into the river. Although there is ledge at this point they did not dig down to it and there is about 4 to 5 feet of loose gravel between the concrete bottom of the pump house and the ledge. The side next to the river has been washed away and it should be wharfed up at once to save further damage.

I was asked to bring these matters to your attention with the hopes that you might give them prompt attention.

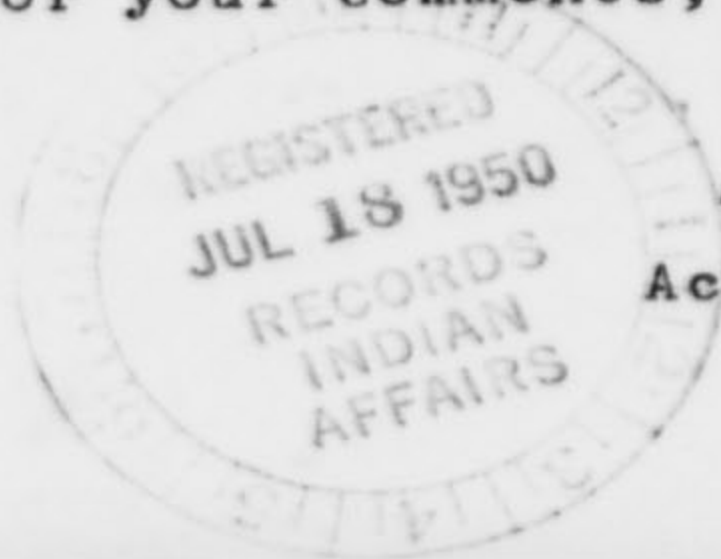

Thanking you

Yours very truly,
(sgd) H.H. Hatfield

MEMORANDUM:

MR. BUCK,
CHIEF ENGINEER.

Some time ago Mr. Goedike prepared a report on his inspection of the Tobique Indian Day School and water supply system. This report was sent to your office some time ago.

A letter has been received from Mr. H. H. Hatfield, M.P., from which I quote, -

"Re the school. The engineer and inspector were there taking measurements for a 30' wing to be built on the school and said the work would start right away, but nothing has been heard since. I do not agree with the engineer's plan to build this wing as it is on the wrong side of the building. They have three teachers now with two class rooms. They told me that an educational representative from Ottawa was there this spring and told them to get 8 boys and girls ready to go to vocation school or a higher grade school and everything would be arranged. Nothing more has been heard about this and they have the boys and girls all ready."

You will note that Mr. Hatfield does not agree with Mr. Goedike's recommendations. Please let me have sufficient information to enable me to reply to Mr. Hatfield's letter.

In Mr. Hatfield's letter he also refers to the foundation of the pump house. We have written to the Indian Superintendent for a report on this matter, as Mr. Ross, the only engineer familiar with this installation and pump house, is out of town and will be away for a month or so.

Re - Letter dated July 14 from

of Hartland, N. B.

I would suggest that the following might be included in preparing a reply to Mr. Hatfield's letter. With reference to the school it is true that an engineer and an official of the Indian Education Division visited the existing school to gather data to enable the Department to decide what should be done to provide further accommodation for pupils. Their recommendations have not as yet been studied by the Chief Engineer and other interested officers of the branch. Therefore no decision has yet been reached as to the location of the addition in relation to the existing building.

When a decision is reached as to what steps will be taken to provide additional accommodation at the school we will write to you further.

With regard to the pump house we have asked our Indian Superintendent for a report as the engineer who had charge of this work is presently out of town and we have been unable to secure any information from him. If the foundation of the pump house requires attention you may be sure that no time will be lost in making the necessary repairs.

Therefore no decision has yet been reached as to the location of the addition in relation to the existing building.

When a decision is reached as to what steps will be taken to provide additional accommodation at the school we will write to you further.

With regard to the pump house we have asked our Indian Superintendent for a report as the engineer who had charge of this work is presently out of town and we have been unable to secure any information from him. If the foundation of the pump house requires attention you may be sure that no time will be lost in making the necessary repairs.

Sir,-

Miss McGrand, teacher of the Tobique Indian School, has written to the Department suggesting that two rooms be secured in an Indian home and furnished for the use of the teacher, as she cannot any longer take advantage of the accommodation previously afforded in the home of the missionary.

Be good enough to let the Department know at once if two such rooms are available and state what would be asked and submit a list of the furnishings required with an estimate of their cost.

The Care taker of the School states there has been difficulty to heat the School properly with the one stove during cold weather to much heat near the stove and not enough in other parts of the room. I would suggest a furnace be put in cellar for heat the registered could be placed to distribute heat evenly. I have not got cost of placing a furnace. But it would probably be about \$100.00. In case furnace could not be put in I how would it do to put in an extra to be use when needed. I typed & price made of placing rail cost about 25.00

In reply to that portion of your letter of the 31st ultimo in which you advise the Department that James Devous states that he will not be able to let Miss McGrand, the teacher of the Tobique Indian school, have the use of the rooms in his house after September and that he would prefer that she get others sooner than that, if possible, I beg to say that in future Miss McGrand will have to make her own arrangements for living quarters. As \$2.00 a month rent has been allowed for the rooms she has been occupying, the Department has decided to grant her an increase of \$25.00 in her salary from the 1st of October, next, to pay for rent of her rooms. The Secretary

Dept. of Indian Affairs

Dear Sir,

As teacher of the Indian school on the Totinac Reserve, I am writing to place before the Dept. the need of a dwelling on this Reserve for the teacher.

From Sept. 1913 till Sept 1917 I had rooms in an Indian home, rented and furnished by the Dept. At the end of the last quarter 1917 this Indian, Levan, would not longer rent his rooms unless the rent was raised from \$2 per month to \$5 per month. In other words \$60 per year. Paying such rent seemed absurd. The cost of a small dwelling would be paid out in the course of ten or twelve years, and at the end of that time the teacher's quarters would still be uncertain. The money paid in rent seemed lost. Nothing permanent in the way of living quarters for the teacher was got out of it, and living in part of an Indian home was far from being as satisfactory as a dwelling would be.

I again attempted to board at the home of the missionary on the Reserve, as I had before 1913. In Sept last, this house was put under repairs, and this, with the fact that there was no housekeeper, excepting the part I had to take, I

gave it up, and since Oct. last. have been board-
ing at a home off the Reserve and across the
St. Lawrence River. This is only a make-shift, and
is inconvenient in many ways. Crossing in a
canoe in pleasant weather might be agreeable
but is quite different in December and Jan-
uary. There was no ice for crossing till Jan. 13th.
The River began filling in on Jan. 10th and
that evening, during a cold driving snow-
storm I had to walk around by the Torque
Narrows bridge, a distance of four miles
luckily this was Friday as I would not have
been able to have school the following days.

The only alternative to living off the Reserve is
to get out again at an Indian home. From
experience, this also is nothing better than
a make-shift, and I need hardly say that
living in a one-roomed rent in an
Indian home cannot be satisfactory. But
this is what must be under present conditions
if the teacher tries to live on the Reserve,
and this I contemplate doing before the
breaking up of the ice.

I will not again consider trying to
board at the home of the missionaries. This
household is uncertain and as far as I
know, is not one where the teacher can
get necessary rest. During the year, excepting
for my efforts, it was several times with-
out a housekeeper.

I do not expect anything in the way

of a dwelling just now. But wish
to consider conditions, and if possible to
take steps, that one may be provided
during the spring or summer.

I well understand, that, with the ex-
tensive repairs on the missionary's house
much is taken from the Indian Fund. But
is there not another way. Could not lumber
be got off the Reserve and could not enough
be had above the actual material required
to pay for labor, etc.

At the end of the Sept. quarter, 1917 I got
notice from the Dept. that the sum of \$25⁰⁰ was
the rent they were paying would be added
to my salary and that I could myself
find apartments. I would gladly give
up this sum of \$25 per year if the Dept.
would decide on providing a dwelling
a small three-roomed dwelling would
be sufficient.

The Indians know and understand
that something is needed for the temple.
I have had expression of such from
and I feel would do what they can.
The inconvenience of living either
Reserve or in a one-roomed rent
seem much less if a satisfactory
was in view.

Trusting you will consider this
as earnestly as I have sincerely
them and
Respectfully Yours,
Ethel J. McLean

Madam, -

I have to acknowledge the receipt of your letter of the 14th instant, in which you ask the Department to erect a teacher's residence in connection with the Tobique Indian School.

In reply I beg to say that the Department is unable, at the present time, to comply with your request, as the money available for school purposes is limited. The matter will, however, receive consideration at a later date.

To compensate you for the trouble and expense you have been put to in having to change your place of residence, the Department has decided to increase your salary to \$550.00 per annum and you will be paid at this rate from the first of the current quarter.

Mr. Agent Wootten, is being advised that this increase has been granted you.

The Department is in receipt of a communication from Miss Ethel McGrand, teacher of the Tobique Indian School, in which she asks that a teacher's residence be erected in connection with her school, as she finds it hard to get a suitable place to live.

I am in receipt of your letter #118387-5 of the 21st inst., advising me that you have received a letter from Miss McGrand, teacher of the School on the Tobique Reserve, asking that a teacher's residence be erected in connection with the school as she finds it hard to get a place to live.

Miss McGrand spoke to me about this also, and I told her I thought at the present time it was just a question if the Department would consider it. I can assure you that she or any other teacher on the Tobique Reserve is badly situated for some place to live in. I have asked Lafferty & McLaughlin to furnish me with an estimate of the probable cost of erecting a small building, such as you describe, with two rooms downstairs and two up, and just as soon as they give me their estimate, I will forward it to you.

I also note Miss McGrand's salary has been increased to \$550.00 to compensate her for the trouble and expense she has been put to in changing her place of residence.

Sir,—

I enclose you herewith estimate for building a house on the Tobique Reserve for the School Teacher, amounting to \$2000.00, furnished by Lafferty & McLaughlin.

Extract made

I also enclose statement handed to me by Lafferty & McLaughlin for extraswork they have done on the Presbytery. This they claim is in addition to the amount contracted for. They have completed all the work except painting the house outside which they claim cannot be done until warmer weather.

Lafferty & McLaughlin are anxious to be paid this amount, as they state they want the money to use at an early date. Mr. McLaughlin stated that the amount of the deposit would be held back until such time as the painting was finished.

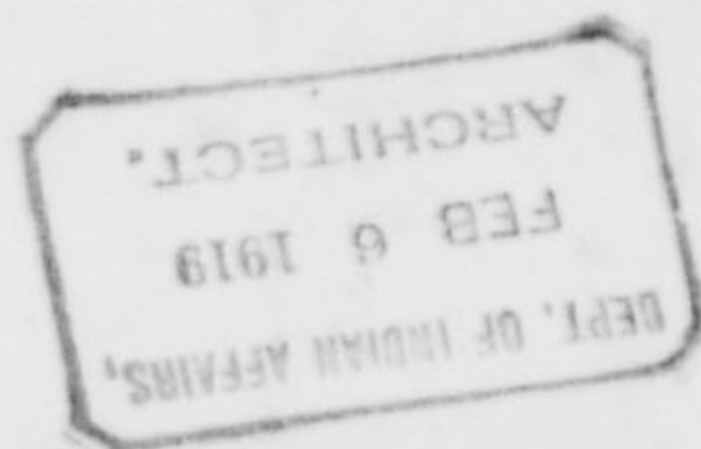

Hoping to hear from you re same, I am,

Your Obedient servant,

Sir,-

I have to acknowledge the receipt of your letter of the 31st ultimo enclosing an estimate for building a house on the Tobique Reserve for the school teacher, amounting to \$2000.00, furnished by Lafferty & McLaughlin, and also a statement handed to you by this firm for extra work they have done on the Presbytery.

In reply I beg to say that the Department is not prepared at the present time to erect a house for the teacher on this reserve. I may say that Lafferty & McLaughlin's price of \$2000.00 for erecting an addition to the school for the teacher's use is considered somewhat high.

You will be further advised in regard to their claim for payment for extra work done on the Presbytery.

Dear Sir:-

Your reply to my letter of Jan 14th, in which I asked for the erection of a dwelling for the teacher in connection with the Tobique Indian school, was received several weeks since and I waited with much hope, your asking the Agent, Mr. Wooten, for an estimate of the cost. Your reply to this seems to definitely set it aside. I have never burdened the Department with suggestions and hope now that you will bear with a few remarks. I only feel the need of this building, and consequently may be more urgent than any who may recommend it.

McLaughlin and Laffert's estimate was high and destroys all hope of having any in this way before another winter. As to the building, a second story is not necessary. Rather a dwelling, somewhat of a bungalow is more desirable and could be erected, I understand for less cost.

At present I am living in one room of

an Indian house. This room $18\frac{1}{2}$ ft x 10 ft x 7 ft must furnish living and sleeping apartments. The house built some thirty years ago is not very comfortable and it will require considerable courage to undertake an entire winter in it, should it be as severe as our winters usually are. This was exceptionally mild.

It took much time and labor to make the room, in some small measure, fit to live in. The owner is a person of whims and in the course of a year may feel that she cannot longer rent. I have had this sad experience here. It has few comforts, and the uncertainty after so much labor, does not add any. The need of a teacher's residence has always been in evidence, but with experience, conditions have reached a limit.

I noted in your reply to my letter that my salary would be slightly increased. This is some recognition of my difficulty, but I would prefer that which would insure rest in my hours outside of the schoolroom. to increase of salary.

Trusting that I may not seem unreasonable, I can only ask again that this

A bungalow containing two rooms on ground floor, each 10 x 12 on post foundation will cost, approximately, \$775.00. On stone or concrete foundation with small cellar, \$150.00 additional.

An addition to the school of the same size with two rooms will cost, approximately, \$735.00 and with half story above \$735.00 plus \$135.00 = \$870.00 being \$15.00 per M advance in cost since the date of my former memo. of January 20th, last.

INDIAN AFFAIRS:

The Board had under consideration a memorandum from the Superintendent General of Indian Affairs reporting the necessity for the construction of a small building for use as a residence for the teacher of the Tobique Indian day school on their reserve in Victoria County, New Brunswick; that the cost of a suitable building, containing two rooms on the ground floor and two rooms upstairs, is estimated by the architect of the Department of Indian Affairs at \$800.00.

The Superintendent General therefore recommends that, under the provisions of Section 89 of the Indian Act, authority be given for the expenditure of the said sum of \$800.00 from the capital at the credit of the Tobique band, which amounts to \$31,442.56, on the construction of the building above referred to.

The Board concur in the above recommendation and submit the same for favourable consideration.

Regarding the plans and specifications for the teachers residence on the Tobique Reserve, I have looked over same and I note it calls for a foundation of cedar and the building is to be sheathed inside insted of plastered.

I might mention that we have in this country, very cold winters and if it could be arranged to have a concrete foundation instead of cedar, it would make a permanent foundation and be very much warmer. I would also strongly advise that the building be plastered instead of sheathed, as it would help to make the house a great deal warmer. I do not think the expense would be very much greater than if sheathed. And by putting in a concrete foundation, I do not believe it would exceed \$300.00 more than it would cost for the cedar foundation.

I also note that specifications do not call for hardwood floors, and as it is going to be the home of the teacher, whoever it may be, I am of the opinion it would be much more comfortable and would last better if they were made of hardwood.

I will be pleased to hear from you regarding same as soon as possible.

Memorandum:

SCS
Mr. Scott.

Tenders for the erection of a teacher's residence on the Tobique Indian Reserve, N. B., have been requested through advertisement in the newspapers circulating in that district. Two tenders have been obtained, namely,

Howard J. McLauchlan, Perth, N.B., \$1500.00

Lafferty & McLaughlin, Perth, N.B., 1350.00

also a tender from A. J. Dionne and Benny B. Caldwell, of Perth, N.B., without security cheque, 1600.00

The tenders for the work are all considerably above the estimated cost. I would therefore recommend that none of the tenders be accepted.

The Department's estimate of the cost for erecting this building is \$800.00.

Would you kindly inform me as to the number of vacant Indian schools in the Prov. of N.B.? I understood there were four, namely - Big Cove, Red Bank, Oromocto, and Maliseet.

Since the tenders for teachers house were so high, would it be possible for the Dept to consider the building of a small residence for the teacher on this Reserve (as rent is very hard to get) by days' labor, I.

I feel that Jos. Ellis could do the work and would only charge \$2.25 per day.

Sir,—

I am in receipt of yours of the 20th inst. enclosing three copies of a bill for the quantities of material for the proposed teacher's residence on the Tobique Reserve.

You ask me to obtain prices for this material. I will get these prices just as quickly as I possibly can. There are no dealers in this immediate locality that handle the materials mentioned therein, outside of the brick and cement. I am writing to a couple of outside parties who handle same, and expect to get prices at an early date, when same will be forwarded to you.

I note by your letter you state, provided materials can be purchased economically, arrangements may be made with Jos. Ellis of the Tobique Reserve for the work on the building.

I have never heard tell of Mr. Ellis being a carpenter or builder capable to erecting a building of this kind, and I am of the opinion that the building would not be satisfactorily completed.

I am also of the opinion that the building, if done by the day's work, will cost a great deal more than it would if done by contract.

I am however doing as requested and will forward you prices as soon as they are obtained.

Sir,-

Mr. G.
I beg to acknowledge the receipt of your letter dated the 25th instant in reference to material for Tobique teacher's residence, also as to the ability of Joseph Ellis as in question.

As Mr. Ellis has been recommended by the Rev. Father Ryan as having completed other buildings successfully there and as the Department will not erect the building unless it can be done at a reasonable rate, I have to request that you will make definite enquiry as to Ellis' ability in this respect and report to the Department.

Sir,—

I have just received quotations on material from the Woodstock Wood-Working Co. Ltd., and as the bill you sent did not state whether the outside doors were to have glass or not, they have quoted on one door with glass and the other two without. Their quotation is \$708.62.

I have not received quotations as yet from the other Wood-Working Co. that I have asked to quote prices.

The following have quoted prices on cement and brick:—

J. W. Niles, Andover, cement \$3.85 per barrel and brick \$3.00 per hundred.

Geo. T. Baird Co. Ltd. have quoted the same exactly on both the brick and cement.

Therefore the brick and cement would cost \$115.00 at Perth or Andover which are practically the same place and it would cost about \$7.00 to have it hauled from either place to the Tobique Reserve. The truckage of the lumber from the Tobique narrows I estimate would cost \$10.00.

This as you will see, will make the material cost in the vicinity of \$850.00. If is very urgent that a teacher's residence be erected this fall and if it is to be completed, no time should be lost in having a start made so as to have it completed before the cold weather sets in.

Awaiting your further advices re the matter, I remain,

I am in receipt of your letter #118387-5 of the 30th ult. and beg to advise you I have taken the matter up with Jos. Ellis regarding his ability to erect the teacher's residence at Maliseet.

Mr. Ellis has stated to me definitely that he would not undertake the job but would be willing to work with some one who was a capable builder. He said he would not take charge of the erection of the building as he did not think he was qualified to do the work.

That was my own impression before interviewing Mr. Ellis, and from what information I have received from him, I would not possibly recommend him as being capable of building the residence in question.

I also wish to advise you that I have heard from D. J. Collins and Burgess & Davis, parties whom I asked to quote on material required for the erection of the teacher's residence. Both of these firms are not in a position to quote on the material at present, therefore, the only quotation comes from the Woodstock Wood-working Co., which I have already forwarded to you.

Will you please advise me whether Mr. Alliston is getting the same salary now that Miss McGrand was getting when allowance for rental was discontinued. If he is not getting the same pay, or even a little more, the allowance for rooms should be given him, as it always costs more for a man to live than a lady teacher. I understood from Father Ryan that when he asked Mr. Alliston to come to the Tobique to teach, he gave him to understand that his rooms would be furnished for him in addition to his salary.

I will be pleased to hear further from you regarding this matter before notifying the teacher regarding same.

Rev. Sir,-

With reference to that portion of your report of inspection of the Tobique Indian Day School, in which you recommend that a teacher's house be built during the present vacation, I beg to say that last year tenders were called for the building of a residence for the teacher. The prices received were considered excessive. It is not the intention of the Department to take any action at the present time, owing to the cost of all building material. At a later date, when the price of building material is lower than at present, the building of a residence, which the Department agrees with you is needed, will receive consideration.

Sir,—

I am in receipt of your letter No. 66-2-5, of the 19th inst. regarding repairs to the school house on the Tobique Reserve, and also repairs of the out houses. I beg to advise you that I was at the Reserve last night with a man who has agreed to give an estimate on doing the work, and he expects to be able to furnish me with the estimate by the early part of next week. As soon as I receive same I will forward it to you.

Fr. Ryan has informed me that he has again taken up the matter of a residence for the school teacher on the Tobique Reserve. It seems that he has been informed that the Department is desirous of getting a residence for the teacher if one could be secured at a reasonable price.

Joseph Ellis has a good property on the Reserve that he has offered to sell to the Department for a teacher's residence, at what I call a remarkably low price. The amount he asks is only \$700.00. Of course it would require some repairs to put it in the proper condition for a school teacher to live in. The size of the house 18x22 feet, one story and a half high, with three rooms down stairs, and a kitchen 14x16 feet, with a pantry 14x10 feet. The main house down stairs is finished, and the upstairs is lathed and ready for plaster. There is a building in connection which could be moved up near to the house, and made into a good woodshed. The frontage of the lot is 36 feet and the depth is 160 feet. There is a splendid chance for a good garden, especially so as there is no garden in connection with the school on the Tobique Reserve.

Sir,—

The house is only 35 rods from the school house, and fronting on the St. John River, right next to Father Ryan's house. There is good water right near and I consider it on the best locality on the Reserve.

If the Department would decide to purchase this at the price at which it has been offered, and would allow me \$500.00 to make the necessary repairs, I think that the teacher would have a splendid residence.

The ceiling, and some of the walls, require to be replastered. The chimneys need repairing; the doors and windows require a little fixing up; a new piazza built; the clapboards on the outside of the house need repairing, and the whole building needs to be painted.

The purchase price of \$700.00, and with an expenditure of \$500.00, would mean that the property would be costing only \$1200.00, and after it is repaired in the manner that I have in mind, I do not think that the building could be replaced for less than \$2,000.00. It could not possibly be in a better location for a teacher's residence.

If the Department decides that they wish to make the purchase it will have to be down without delay, and also the repairs put on as soon as possible. I trust that you will give me a definite decision regarding this matter without any delay. I think it is a splendid opportunity, and without hesitation strongly recommend the purchase of same.

DEPARTMENT OF INDIAN AFFAIRS

CANADA Ottawa, August 6, 1920.

Mr. Arthur St. Laurent
MEMORANDUM.

Mr. Scott,-

Rev. Father Ryan and the Indian Agent have several times brought to the attention of the Department the necessity for a teacher's residence at the Tobique Indian Day School.

In the Spring of 1919 the Department advertised for tenders for the erection of a teacher's residence at this point and the lowest tender received was for \$1,350.00. As the Department's architect estimated the cost of erecting a suitable building at \$800.00, the work was not proceeded with last year. Mr. Agent Wooten, under cover of a letter dated July 30, 1920, states that Joseph Ellis has a good property on the reserve which he offers to sell to the Department for \$700.00, which the agent states is a remarkably low price. The size of this house is 18 ft. x 22 ft. one story and a half high with three rooms downstairs and a kitchen 14 ft. x 16 ft. The size of the lot on which this house is situated is 36 ft. x 160 ft. Mr. Agent Wooten states that this building would require some repairs, the cost of which he estimated at \$500.00. A total expenditure of \$1,200.00 would, therefore, be involved.

The Tobique Indians have at their credit about \$30,000.00. When the erection of a teacher's residence was first considered last year an Order-in-Council was passed providing for the expenditure of \$800.00 from the Capital Funds of the band but this amount was, of course, not used.

I have drawn a very rough plan of a house
built on end of school house. Lumber for one end
could be saved. One Floor would do, both school
house.

I drew this plan 21x13; yet, I think
a house 19x12 would do, yet the 2 extra feet
would give better satisfaction and should not cost
much more. or (14x19) or (14½x20½)

This house should not cost more
than one thousand dollars, if that -

V.C.R.

It should be plastered with Rock wall plaster
throughout.

Doubled board and paper between
then 2 good layers of paper and clay boarded & jointed
to match school house.

N.B.

Another idea it crossed
my mind is doing so. Should
our school ever prove too
small a portion of the house
could be added to present building
by simply moving a partition (at end of school)

I found the school is 21 feet wide (inside measurement)
and 35 feet long (inside measurement)
and 14 feet 6 inches high (or foot measurement outside)

Inclosed please find a very rough drawing for the proposed teacher's house on the Tobique Reserve .

I thought, if same ~~were~~ built on the end of the SCHOOL much expense would be saved, and if ever our school should prove too small, it could be enlarged by removing end and taking part of house .

I trust you will be able to understand the rough drawing , Being called away for a few days I was unable to give it justice .

I enclose you herewith two vouchers for Mrs Louise Ellis, who is renting two rooms to Miss Bridget Crain, the school teacher, at the rate of \$6.00, per month. I have paid her the sum of \$24.00, being for the months of September, October, November and December, and will be pleased to receive check for this amount payable to myself. The two vouchers for the two months of July and August, I have not paid her, as during these two months the rooms were vacant but she claims that she is entitled to the two months just the same as the goods belonging to the Department, which is used by the School teacher, was left in her rooms and that she could not use the rooms for anything else, and she claims that she is entitled to the rent just the same as the teacher was there. In view of the fact that the rooms were held for the teacher I presume that her account will have to be paid. If favorable to the Department I trust that check will be sent her for this amount.

Memorandum for File.

Rev. Father Hugolin, of the Tobique Reserve, N. B., visited the Department today and was exceedingly pleased to learn that we were providing for a teacher's residence for the Indian day school. In the Supplementary Estimates for the current year there is an item of \$1500 for this purpose.

The Rev. Father strongly urges the appointment of two Sisters, one to act as teacher and the other as field matron; and this fact should be kept in mind when the plans for the bungalow are being drawn. I have intimated that we will correspond with the Rev. Father Ryan in this connection and that the salary allowed the Sisters will be at the rate of \$550 plus bonus, each. It may be necessary, to save advertising the position through the Civil Service Commission, to engage both Sisters as school teachers.

These Sisters will quite likely be available by September first, 1923.

Father Hugolin has intimated that the present incumbent - Miss Nellie Dugan - is about to resign, and I have asked him to correspond with Rev. Father Ryan regarding a successor.

*He also stated that
he would like to have present

OTTAWA, June 5, 1922.

Reverend Sir, -

Reverend Father Hugolin, of the Tobique Reserve, visited the Department a few days ago and strongly urged the appointment of two Sisters, one to act as teacher and the other as field matron on that Reserve. He stated that it was quite likely that the services of these Sisters would be available by September 1, 1923. If the services of the Sisters are secured, it will be necessary to provide proper accommodation for them.

We have this year an item in our Supplementary Estimates for the purpose of providing a small bungalow for a teacher in connection with this school, but, if the Sisters are engaged, more extensive living accommodation will have to be provided than is contained in a bungalow. Father Hugolin also stated that it was the intention of the church authorities to ask for the removal of the school to another site, as the church desired to obtain from the Indians the land on which the school now stands for church purposes. Father Hugolin stated that he would let the Department know in the course of the present summer the definite arrangements that are being made regarding the securing of the teachers and the moving of the school, and when this information is received we will then be in a position to go on with the work of putting up a residence for the Sisters. We intimated to Father Hugolin that we would inform you regarding the above mentioned matters. I might say that if the Sisters are engaged, we would be prepared to allow them a salary at the rate of \$550 per annum, plus any bonus provided by law.

Father Hugolin intimated that the present teacher, Miss Nellie Dugan, intends to resign at the end of June. It will, therefore, be necessary to obtain the services of another teacher to succeed her until such time as the services of the Sisters can be obtained. If Miss Dugan resigns, you should endeavour to secure the services of another teacher, and the name, qualifications and experience of the teacher selected by you should be forwarded for the approval of the Department.

Finally, I submit to your kind
consideration the fact that actually 51 children
are inscribed on the register for the day school,
and that is altogether too great a number for one
teacher. It is too tiring for her, it is too difficult
to maintain discipline, and the teaching is conse-
quently not up to standard. It is perhaps time
to establish on the Sisters' arrival two classes
with two mistresses, besides the field matron.

I take the liberty of suggesting
that you might notify the Agent, Mr. Chas. Roberts,
to busy himself without delay in these matters, and
to report to the Department, in order that all may be
in readiness to begin building in the Spring.

As regards the lighting system, in a conversation I had last November with the head Architect of the Department, I suggested that it might be the proper time now to establish the use of electricity at Tobique. If the Department were willing to accept part of the outlay, the Electrical Co. might consent to lay its wire to and on the Reserve, certain as it would be to recover its expenses in due time; for not only the sisters, but I myself, for my house and the Church, and several Indians would also take our supply from such a Company. The Department might, if it judged fit, place some lamps in the School, in the Hall, and also in the public thoroughfares. This would mean an assured revenue for the Electric Company.

Dear Sir,

In provision of the building of the house destined for the Sisters at Tobique, it would, I believe, be at present necessary, in order to be prepared to begin building in Spring, to ascertain what system of water-supply should be introduced, or also to determine the question in regard to the means of lighting to be used.

The actual water supply is inadequate for the requirements of the Band as it is, consequently, another mode of supply for the Sisters' house must necessarily be decided upon.

Dear Sir,-

The Department has under consideration the advisability of building a small combined teachers' residence and hospital on the Tobique Indian Reserve. Before plans can be prepared for this building, it will be necessary to ascertain the source of water supply for the building and also the mode of lighting.

When Reverend Father Hugolin visited the Department last fall, he suggested that it might be possible to obtain electric current from an outside source, and have same carried to the reserve for the use of the proposed residence and other buildings. I would ask you to be good enough to report at your earliest convenience, with recommendations on the source of water supply for this building, also if it is possible to obtain the electric current and an approximate cost for same.

When reporting on the water supply, if it is the intention to obtain the water from a well, please state the distance of the well from the proposed site of the building and the approximate depth of the well.

I would also ask you to report with recommendation, as to the site for the proposed building? It would be advisable to consult with the Rev. Father Hugolin as no doubt he can give you some valuable assistance in this matter.

Dear Sir:

Your application for light & power for Indian reserve recd. & which I laid before Com. and they decided to give you light & power at 10 cts per 1/2 H.P. and you build line & keep it in repair, that is the same as it costs the

consumer here & then we pay an annual assessment of \$1000.00 ^{a year} besides the 10 cts per 1/2 H.P. for what we burn.

The Town put this system in 10 years ago at a cost of \$15,000 & which every property in the district is mortgaged, there is \$5,000 remaining to pay, so you can see that they are getting it cheaper than we are.

Now the up & keep of that one mile of line would be a small item. it would be 10 years before it would be necessary on it & then just a few cranes.

If they wished to take the line down at any time, the wire & pole & transformer would be as good as new.

TO DATE OF THIS LETTER

Sir,—

In reply to your letter of January 31st, ultimo No 66-2-2. I made arrangements to have the Commissioners of the Andover, Perth, Electric Light Company, to hold a special meeting with myself and Rev Father Hugolin, this day for the purpose of discussing terms and agreement as to a possibility of obtaining electric current from their source of supply, and carried to the Tobique Indian Village.

The Andover Perth Electric Light Commissioners will agree to furnish the current when the line is installed at the rate of six cents per K.W. Myself and Rev Father Hugolin have considered this a very satisfactory rate, for current supplied.

I enclose you a letter from their Secretary and repair man Mr Geo, W. Wright and you will note what he has to say in connection with the matter, since receiving this letter of Mr Geo W. Wright's they decided to cut the current charge from 10 cts per K.W. down to 6 cts per K.W.

There will have to be a line built from Andover Corner to the Tobique Indian Village a distance of about 1 1/2 miles at approximate cost of about \$900.00 including all the necessary equipment ready to supply current at the Indian Village.

I may say that this is the only source of supply of electric current available, and I would strongly recommend this for the use of the proposed residence and other buildings

Regarding the water supply for the proposed buildings also the location I will investigate and report at an early date.

TO DATE OF THIS LETTER

Sir,

With further reference to your letter dated January 31, ultimo No 66-2-3 in regard to the source of water supply for the proposed hospital and combined teachers residence on the Tobique Indian Reserve, I have with the assistance of the Rev Father Hugolin, made an investigation as to the best possible source of supply of water, at a reasonable cost.

It is decided and recommended that a well is drilled on the height of a hill a distance of about 60 rods from the proposed building, this well will supply water into a small cistern by means of a pump operated by a 2 H.P. electric dynamo installed on the hill to give sufficient force and supply carried to the upper stores of the proposed building, the depth of the well would be approximately about 60 feet, the estimate cost of the water supplied to the buildings would figure about \$800.00

The site for the building as decided by Rev, Father Hugolin, also with my recommendation is on a lot of land adjoining the church property, owned by Muel Francis, this lot would give the best location also a more suitable foundation, at a purchase price of \$475.00 for two acres amount required.

Dear Father Hugolin,-

I am sending you to-day under separate cover, two blue print copies of a sketch plan which I have prepared for the proposed new teachers' residence at Tobique. This sketch has been prepared along the lines of the sketch submitted by you when you visited the Department last year. I have, however, found it necessary to make a few minor changes in order to make the plans workable. You will also note that the building is slightly larger than shown on your sketch.

I would ask you to be good enough to examine these blue prints and return one set to me with your criticism. If you desire any changes in the plan, please indicate them directly on the blue print. If you have any ideas regarding the materials, etc., that should go into the building, I would be very glad to have same.

As soon as you have returned to me the blue prints, plans will immediately be prepared for the building.

Sir,—

I beg to acknowledge receipt of your letter dated August 22nd, No. 66-2-8. instant, I may say that Mr Charles W. Bowlin has started the work on the basement. I believe Mr Bowlin understands his work as a contractor and will do his best to have the work, and the material furnished in the building to the best satisfaction.

I want to make a suggestion in regards to the plans and specifications of the basement wall, in this part of the Globe we have to contend with very intense frost and it has always been the practice here in this part of country when building a concrete wall, to have it built with a batter on the outside, about a quarter of an inch to the foot, according to the plans this is a straight 15 inch wall, I would suggest that the wall be 15 inches thick at the bottom, and taper from the outside to a thickness of say 10 or 12 inches at the top of the wall, by doing this the frost when drawing out of clay ground, would naturally draw away from a tapered wall and could not do any damage.

Sir,—

With further reference to your letter of January 31st, ultimo No. 66-2-3. also my reply of March 26, in connection with the source of water supply for the new hospital and combine teacher's residence on the Tobique Reserve,

I beg to inform the Department that I have been considering a much better and cheaper water system than I had recommended in my letter of above date.

We could get a good and sufficient supply of water from a well drilled right near the building, within 20 or thirty feet of the building, and install a good air pressure water system in the basement of the building, that would supply the water direct from the well to the faucets all through the building at whatever pressure required, from 40 to 60 lbs pressure what ever was needed, and could be automatically operated by a small dynamo installed in the basement. I would recommend this source of water supply, from a drilled well, and forced through the building with a good up to date air pressure system, this would cost approximately \$600.00 to drill the well and install the water system. I would recommend the well being drilled immediately, and have all under ground water pipes ready to connect to the basement when the basement walls are completed, in order to test the plumer's work the water system should be installed before his work is completed.

In reply to yours of 10th, instant, No. 66-2-8. I enclose herewith a Contractor's price for installing complete of a pneumatic tank system to supply water for the new building, the teachers' combine residence and hospital, on the Tobique Indian Reserve.

You will note this is a Fairbanks Morse water system, and Mr Geo. W. Wright is their agent, and he has submitted the approximate cost of the well drilled, and the whole equipment, installed.

I may say that the Canadian Fairbanks, Morse, Co., should have the best up to date water system on the market today, they are a very old reliable firm, and they are about the only people that are in this line of business in Eastern Canada.

Sir,—

I beg to inform the Department with regard to the the drainage and sewer pipe to connect to the new building Viz, The combined teacher's residence and hospital on the Tobique Reserve, N.B.

The nearest drainage outlet for the foul water and sewage from the building is to the bank of the St John River a distance of 600 feet from the building, and connecting below the basement floor to the main drain and running at a drop grade of $1/4"$ per running foot to the river bank, the sewer pipe to be 6 inch terra-cotta properly layed together in the bottom of a dug trench, properly graded $1/4"$ to the running foot.

I would recommend to the Department that I obtain a contractor for this work at an early ^{date} as possible as the time is getting limited for work of this kind, to complete the sewage and furnish the material will cost approximately \$650.00 Awaiting your authority.

In reply to your letter of 10th, instant, with further reference to the installing of a water system to supply water to the combine teacher's residence and hospital on the Tobique Reserve, N.B.

I beg to inform the Department that since my letter to the Department dated Sept, 29th, ultimo I have been looking up different makes and kinds of pneumatic tank water systems, I have thoroughly investigated the different kinds, and after a final decision on the whole system for a building of its kind that would require a lot of water I would recommend the Paul pneumatic pump and water system to be installed, this system is being installed in a great number of schools in Aroostock and Madawaska Counties, and are given great satisfaction, with very extra cost, this system will cost approximately installed \$1300.00

I also would recommend to the Department of the installing of a soft water concrete cistern in the basement that would be connected up with the keeve gutters to take care of all rain water for laundry and washing purposes. and the water to be supplied from this by use of a pump that would be operated by the pneumatic tank that furnishes the well water all under the one system, this cistren and pump installed I will get the contractors lowest possible figures and submit to the Department in a few days.

I am in receipt of your letter of the 16th instant with reference to the installation of a pneumatic water supply system for the combined teachers' residence and hospital now in course of construction on the Tobique Indian Reserve, on which you are making a new suggestion.

In reply I beg to say that in the event of no definite instructions having yet been given to Mr. Wright to proceed with the installation of a Fairbanks Morse Water System, as per my letter of October 10th, you may then obtain from the contractor for the building a proposal together with an estimate of the cost for the installation of a complete pneumatic water supply system, similar or equal to that referred to in your above mentioned communication. This new proposal should include a detailed list of the quantity and make of the materials to be supplied including, if possible, a cut showing the style of machinery referred to in the contractor's specification. It is understood that a separate price will be given for the pumping unit and another one for the drilling, casing and installing of the supply and discharge pipe.

In case the proposal is found satisfactory the contractor will be paid on a proven cost plus ten percent basis, but the Department reserves the right to make any changes in the proposal which shall mention the time required for the completion of the work.

In reference to the new teacher's residence and hospital on the Tobique Reserve, I would kindly suggest to the Department to consider the building of a closet in each one of the chambers, a closet is very necessary in each room as recommended by the Parish Priest Rev. Fr. Hugolin, to be built in one corner of the room, size 2ft by 4ft, lathed and plastered, the Contractor Mr C.W. Bowlin has not completed studding, lathing, and plastering as yet, and it would go along with that work very conveniently by having the authority if approved by the Department by the second week in November.

I would also kindly ask the Department to authorize and approve of all necessary latest modern equipment necessary for the installing of the wiring, and lighting of the building, that is to say to install 3-way switches in the proper places to eliminate and convenient to shut off the current, and to have an outlet in every place necessary. for a light, that are not shown in the plans, as you will note there are no lights shown in the plain of the basement and only on one veranda, I would recommend the Department to authorize lights where ever necessary in the building and verandas, also the necessary closets for the chambers.

I have examined the plan and I find that about 8 additional outlets would be required besides 6 three way switches. The total cost of the additional wiring as above outlined would be \$42.00. Five clothing closets would be required at a total cost of \$50.00.

Would you please advise whether this additional work can be authorized.

Mr. C. F. Roberts

Dear Sir

In reply to yours of the 30th regarding sewerage and drainage for the new combined Teachers Residence and Hospital on the Tobique reserve. A.B. I will say that I have looked the ground over, and I find it would be almost impossible to get the proper grade to the river, as we would have to excavate to the depth of 15 ft. at the river's bank, and the cost of the ~~work~~^{job} for labour and material would be approximately twelve hundred Dollars.

I would recommend a cess Pool size 12 x 12 inside by 10 ft deep, walled with Cedar and earth covering of three feet over the top, about a distance of 300 ft. to get a proper grade and location.

I will supply all labour and material for Cess Pool for the sum of Six Hundred & Fifty dollars.

Trusting these figures will meet with your approval

In reply to your letter of the 26th, ultimo, I beg to enclose herewith a new scheme as outlined by the contractor Mr C.W.Bowlin for the proposal and the estimate of a complete drainage and sewage system from the new combine and teacher's residence and hospital on the Tobique Reserve.

You will note that the contractor Mr Bowlin, does not approve of the sewage running to the river bank as outlined in his letter, in looking the situation over and the condition of the ground I have decided and would recommend to the Department the building of a cesspool as outlined in Mr Bowlin's letter, at the cost of \$650.00 for labor and material to complete a 6" vitrified drain pipe line a distance of 100 feet from the building connecting with the main sewage in the basement at a depth of five feet with a grade of not exceeding 1/4" per length of pipe, and to enter the cesspool at a height of 6ft, from the bottom inside.

The cesspool to be dug out a depth of 10 feet and 12 feet square and walled with cider not less than 8" at the top and properly framed together, and supported in the centre, and a cider top with centre bearings and covered over level with three feet of earth, making it level with the ground surface.

This cesspool will take care of all sewage without any trouble in that gravel ground and will last at least 20 years and if any trouble occurs in the drainage pipe it can be easily located, with very little expence.

Replying to your letter of the 5th instant, regarding the supplying of the wood required for the Tobique Indian Day School and for the teacher's use, as well as the wood required to heat the new combined teacher's residence and hospital, I beg to say that, as you were instructed in a communication of yesterday's date, you should arrange for the purchase of the 6 cords of wood for the school. You may also arrange, under the same conditions, to obtain the supply required for the teacher's use.

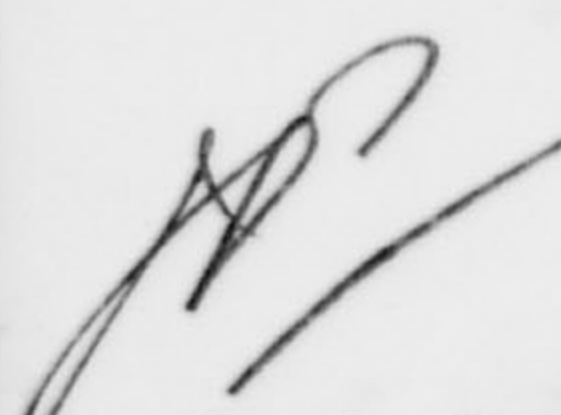

The wood is to be obtained from the Indians, and the Department will allow payment not exceeding \$7.50 per cord of 128 cubic feet for the wood delivered ready for use - cut, split and in proper stove lengths. If the wood is not prepared for the stove, the sum of \$6 per cord should be a sufficient price to pay for the delivery of the same. Separate accounts should be forwarded showing the cost of the wood supplied the school and teacher's residence.

You should also obtain the quantity of wood required to heat the new combined teacher's residence and hospital, and have it delivered on the same terms as above set forth. It is considered that the contractor should keep this building properly heated until such time as it is taken over from him. You should arrange after that period to keep the building heated.

Mr. J. J. Jones
(see under)
Sir,

In reply to your letter of the 8th, instant No. 66-2-8 I beg to inform the Department that Mr Bowlin will do the work and furnish all the material suitable for the drainage and sewage by installing a six inch vitrified drain pipe to a properly built cess-pool at a good location about 100 feet from the basement of the teacher's combine residence and hospital on the Tobique Reserve, at the cost of \$650.00 this includes the material and building of the cess-pool and the whole drainage system complete. as outlined in my letter of November 2nd, instant.

The distance from the building to the river is approximately 700 feet, and the ground surface is as near as I could judge without the proper instruments to measure, three feet higher at the river bank, then where the building is located, and the drainage pipe would have to start at the bottom of the basement, and by the time it reached the river bank it would require a trench about twenty feet deep to give the proper grade for the drain pipe, this would require considerable more time and labour, and the ground would be frozen, and it would be impossible to complete the job this Fall.

Whereas the cess-pool system could be completed this Fall and from experience I believe it would give good service for at least fifteen or twenty years.

Your obedient servant,

Asst. Deputy and Secretary,
Department of Indian Affairs,
Ottawa.

ARCHITECT.

Father Hugolin visited the Department yesterday and reports that Agent Roberts should have authority to enter into an agreement with the Perth Electric Light Commission for the supplying of the combined Teacher's Residence and Hospital at Tobique with current at 6¢ per kilo-watt hour. He also states that the contractors for the new building have not yet levelled off the ground and that they should be asked to do so. He urges, however, that the gravel should be removed before the levelling process, so that lawns may be grown in the future.

Memorandum: Mr. *Perrier*.

With reference to the quotation given by Mr. Bowlin, contractor for the combined day school and teachers' residence on the Tobique Indian Reserve dated October 31, I beg to say that the price mentioned of \$650.00 for the building of a cess pool and drainage system and for the furnishing of all materials and labour is a fair and reasonable one.

I must point out, however, that the cess pool is not the best type of septic tank available, but in view of the lateness of the season I think that this scheme could be adapted under the circumstances. I may add for your information that if a concrete septic tank was substituted for the wooden pool the difference in price would be about \$800.00.

With further reference to my letter of the 12th, instant re the drainage system for the combine teachers residence and hospital on the Tobique Reserve, N.B. I have not had any reply to my letter of above date, would like to have the Departments views in the matter, whether the drainage will be carried to the river, or to build a cess-pool as proposed.

I may say that the weather still remains quite warm and the work could be done quite favorable this Fall, unless we have a very sudden change, I beleive the work could be done.

I have to acknowledge receipt of your letter of the 19th instant, requesting authority to purchase a kitchen stove for the combined teachers' residence and hospital on the Tobique Reserve.

In reply I beg to say that you may arrange for the purchase and installation of a good substantial cooking stove satisfactory to meet the purposes for which it is required. It will be necessary, before making the purchase, to obtain competitive prices from a number of dealers, and the purchase should be made from the firm quoting the lowest price on a stove of the type required. Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred to which you should attach, on the form for that purpose, an abstract showing the firms asked to quote and the prices quoted.

Sir,—

I beg to submit herewith voucher No 217 with itemized accounts attached for the cost of the well drilled, and the well pump house connected to the basement suitable for installing the water supply system for the combine teachers residence and hospital on the Tobique Reserve,

I also inclose herewith a sketch of the basement plan to outline the location of the well, and the well pumping house connected into the basement by a door way cut through the main wall under window showed on the original plan, and the window is placed in the concrete wall of the basement of the well house in the same direct position.

By having the well connected to this part of the basement it was less expence, as the outside stairway wall served for one of the walls, and the frost will never cause any trouble being connected to the boiler room, as this part of the main basement will have sufficient heat to keep out any frost entering that part of the basement.

I trust the Department will approve of the necessary arrangements made as outlined above, and the expence incurred as per voucher No. 217 and accounts, submitted.

I am in receipt of your letter of the 24th instant together with vouchers amounting to \$468.64 in favour of C. W. Bowlin, Contractor of Maliseet, for the drilling of a water well and the building of a concrete pump house at the combined hospital and teachers' residence on the Tobique Indian Reserve.

In reply I beg to request that you furnish me with receipts for the amount paid by the contractor for board for men employed in boring the well, also that paid for freight on cement from Woodstock to Perth. I would also like to have some details of the nature and amount of the work for which an expenditure of \$18.00 has been incurred for the cutting of a door through the concrete wall into the pump house.

I would like to call your attention to the contents of my letter of October 27, 1923 outlining your instructions regarding the above mentioned work, which clearly mentioned that you were to submit to this Department for consideration separate prices for the pumping machinery, and the drilling, casing and installing of the water well, before proceeding with any work. I would like to have an explanation as to it has been necessary for you to conclude arrangements with Mr. Bowlin before communicating with the Department as was requested.

In reply to your letter of Dec. 28 No. 66-2-8. I inclose you herewith certified receipts for the well drillers board, also the receipts for the cutting and drilling of entrance door way through basement wall into well pit, and the receipt for the paid freight on cement could not be obtained separately as it came with another lot by way-freight from Woodstock, the rate of freight paid was 27 cents per. cwt. for 33 bags of cement 90 lbs. each.

I am very sorry that I did not quite understand your letter of which I had quoted my authority for the drilling of the well for the supply of water for the combine teacher's residence and hospital, Tobique Reserve. I should not of proceeded without further communication from the Department.

I may state that the well drillers did not care to handle this job as they then considered it too late in the season for well drilling, and cement work, and it would of held up the plumbing inspection of the heating system, also the drainage system, I believe I should of started my communications with the Department regarding the well about a week sooner, then I would of had plenty of time to look letters over more carefully. I want to inform the Department that all this kind of extra work and material in connection with this new building has to be carried on in connection with other work, so has not to allow any delays with the contractor Mr Bowlin, or his sub-contractors. I will be more carefull in the future in matters of this kind, and I trust the Department will approve of the accounts submitted.

ant
Sir,—

With reference to your letter of November 8th, 1923. No. 66-2-8 I beg to submit herewith itemized account of closets for clothing, one in each of the six chambers erected in corner of each room full height of room, size 2 ft. by 4 ft. on the outside, this making a very suitable closet one shelf near top, leaving chance to hange up cloths with place to put hangers properly arranged, and very neatly finish ed and painted the same as the rest part of the room.

I also enclose document for labour performed for the erecting of the six closets as above stated in the combine teachers residence and hospital on the Tobique Reserve, N.B.

Your obedient servant,

Asst. Deputy and Secretary,
Department of Indian Affairs,

ARCHITECT.

Sir,—

I beg to inform the Department regarding the well drilled for the combine teacher's residence and hospital on the Tobique Reserve, last November the well was drilled down a depth of 64 feet with about 60 feet of 6 inch steel casing, and water was located and we got a flow of 15 feet up from the bottom of the well, which was considered a good and sufficient supply of water, and about one month from the time the well was drilled I had the Canadian Fair-Banks Morse, Co., to install their pump and pneumatic tank water system, and at that time we discovered after installing the pump and had it working, and about two strokes of the pump the well was practically dry no water, it was discovered that quick-sand had entered byway of the water vein, and reached a height of six feet in the bottom of the well, thereby shutting off the water flow.

The only remedy was to do at the time was to leave it for the time being, as the cold weather would not permit any further drilling of the well, as the drilling machine would not work satisfactory in cold weather.

The well driller, claims the only thing to do, is to drill this well down further, he thinks from experience it will be necessary to go between 20 or 30 feet this depth should get clear of the quick-sand and get a good flow of water, he will not be allowed to charge anything for moving his machine, as this is an understood agreement in a case of this kind, when sufficient water is not secured, although he will have to be paid for the number of feet he continues to drill, and the number feet of casing he drives.

I would recommend to the Department to have this done as soon as the weather permits.

Your obedient servant,

Asst, Deputy and Secretary,
Department of Indian Affairs.

In addition drilling could cost about \$45.00 and I recommend that it be authorized

Sir:-

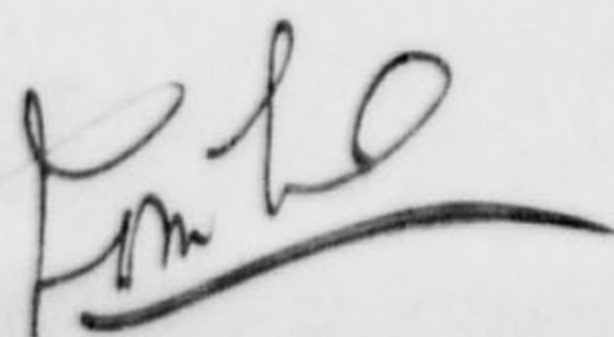

I am in receipt of your letter of the 21st instant advising me of the unsatisfactory condition of the water supply system lately installed for the combined teachers' residence and hospital on the Tobique Indian Reserve, N.B.

g.P. 1

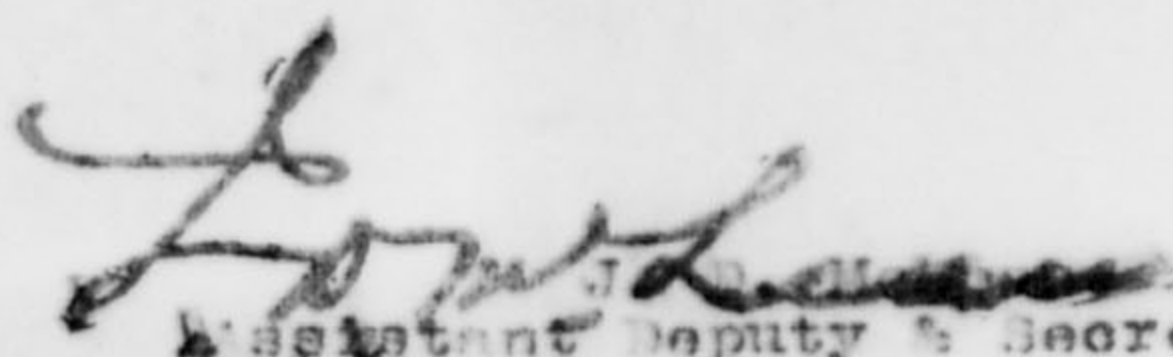

In reply I beg to say that providing there are good chances that an adequate supply of water can be obtained by the deepening of the water well, you may authorize the contractor to sink the present pipe to an additional depth of thirty feet, on the same condition as that agreed to at the beginning of this work. As stated in your letter it is understood that no charges will be made for the transportation of machinery, etc.

Kindly advise me of the results as soon as this step has been taken.
